Admissions Policy for Deconcentration -- Attachment A

(An excerpt from Chapter 4 of the SFCHA's Admissions and Continued Occupancy Policy)

K. DECONCENTRATION OF POVERTY AND INCOME-MIXING

The PHA's admission policy is designed to provide for deconcentration of poverty and income-mixing by bringing higher income tenants into lower income projects and lower income tenants into higher income projects.

Nothing in the deconcentration policy relieves the PHA of the obligation to meet the income targeting requirement.

Gross annual income is used for income limits at admission and for income-mixing purposes.

Deconcentration and Income-mixing Goals

The PHA's deconcentration and income-mixing goal, in conjunction with the requirement to target at least 40 percent of new admissions to public housing in each fiscal year to "extremely low-income families", will be to admit families above the PHA's Established Income Range (EIR) to development below the EIR, and families below the PHA's EIR to developments above the EIR.

Deconcentration Applicability

The PHA has covered developments (general occupancy, family development) subject to the deconcentration requirement. These covered developments are described in the PHA plan.

Project Designation Methodology

Annually, the PHA will determine on an annual basis the average income of all families residing in general occupancy developments

The PHA will then determine the average income of all families residing in each general occupancy development.

The PHA will then determine whether each general occupancy development fall above, within or below the Established Income Range (EIR).

The EIR is 85 percent to 115 percent (inclusive of 85 percent and 115 percent) of the PHA-wide average income for general occupancy developments.

The PHA will then determine whether or not developments outside the EIR are consistent with local goals and strategies in the PHA Plan.

The PHA may explain or justify the income profile for these developments as being consistent with and furthering two sets of goals:

1. Goals of deconcentration of poverty and income mixing (bringing higher income families into lower income developments and vice versa); and
2. Local goals and strategies contained in the PHA Plan.

Deconcentration Policy

If, at annual review, There are found to be developments(s) within average income above or below the EIR, and where the income profile for a general occupancy development above or below the EIR is not explained or justified in the PHA Plan, the PHA shall list these covered developments in the PHA Annual Plan.

The PHA shall adhere to the following policies for deconcentration of poverty in income-mixing in applicable developments.

Skipping a family on the waiting list or transfer list to reach another family in an effort to further the goals of the PHA's deconcentration policy:

If a unit becomes available at a development below the EIR, the first eligible family on the waiting list(or transfer list) with income above the EIR will be offered the unit, If the family refuses the unit, the next eligible family on the waiting list(or transfer list) with income above the EIR will be offered the unit. The process will continue in this order. For the available unit at the development below the EIR, if there is no family on the waiting list (or transfer list) with income above the EIR, or no family with income above the EIR accepts the offer, then the unit will be offered to the first eligible family on the waiting list)(or transfer list) in preference order regardless of income.

If a unit becomes available at a development above the EIR, the first eligible family on the waiting list (or transfer list) with income below the EIR will be offered the unit. If the family refuses the unit, the next eligible family on the waiting list (or transfer list) with income below the EIR will be offered the unit. The process will continue in this order. For the available unit at the development above the EIR, if there is no family on the waiting list (or transfer list) with income below the EIR, or no family with income below the EIR accepts the offer, then the unit will be offered to the first eligible family on the waiting list (or transfer list) in preference order regardless of income.

Skipping of families of deconcentration purposes will be applied uniformly to all families.

A family has the sole discretion whether to accept an offer of a unit made under the PHA's deconcentration policy. The PHA shall not take any adverse action toward any eligible family for choosing not to accept an offer of a unit under the PHA's deconcentration policy. However, the PHA shall uniformly limit the number of offers received by applicant and transfer families, described in this chapter.

The PHA shall offer the following incentives to families with income above the EIR willing to move into a development with average income below the EIR and/or to families with income below the EIR willing to move into development with average income above the EIR:

The PHA will allow occupancy standards of once child per bedroom.

Deconcentration Compliance

If, at annual review, the average incomes at all general occupancy developments are within the Established Income Range the PHA will be considered to be in compliance with the deconcentration requirement.

FY2001 Capital Fund Program Annual Statement – Attachment B

See the Table Library below for this attachment.

Statement of Progress in meeting the 5-Year plan – Attachment C

The PHA continues in its efforts to increase the availability of affordable rental assistance by applying for vouchers, as available and by keeping itself informed as to the opportunity to acquire any developments to add to its rental stock. Additionally, the PHA has added a suggestion box in an effort to improve the quality of assisted housing as well as concentrated on improving management functions such as voucher unit inspections, improved accounting and work order procedures. To increase assisted housing, the PHA is constantly conducting outreach efforts to potential voucher landlords. Living environment is improved by implementing measures to deconcentrate poverty and implementing public housing security improvements. In an attempt to promote self-sufficiency and asset development , the PHA provides or refers supportive services to improve recipients' employability and increases independent living for elderly or disabled households. Equal opportunity in housing is ensured by continual undertaking of affirmative measures to assure that access is equal for a suitable living environment for all, including disabled households.

ATTACHMENT D
PHDEP Plan for FY 2001

The plan for addressing the problem of drug-related crime and the problems associated with drug-related crime in the developments targeted for funding. It describes each of the activities to be implemented at each of the targeted developments and the particular problem that each activity is intended to address. DRUG ELIMINATION PLAN – The HA’s drug elimination plan is modeled after operation Weed and Seed, which incorporates drug elimination activities with drug prevention activities. The first part of the program depends on adequate security, use of an investigator, and cooperation with local and state law enforcement agencies. The coordination of these three components poses a formidable challenge to illegal activity. This alliance has discouraged crime and has provided a new sense of security in the housing neighborhoods. The sense of safety allows the second part of the program, drug prevention, to be implemented. All parts of the program are linked through a partnership between the HA and its contractors. This partnership is accomplished through monthly meetings in which HA staff and contract providers exchange information and blend their activities. This commonality provides for the common goal of ridding public housing of drug and violence.

The elements of the plan are:

- a. Evaluate and compare the severity and nature of the drug problem, facilitate ongoing drug enforcement efforts, identify gaps in drug elimination and prevention, develop strategies to fill the gaps, and involve residents and a community resources in halting existing drug problems and preventing future ones;
- b. Contract with private security to provide evening security patrols on weekends, holidays and special occasions;
- c. Contract with an agency(ies) or individual(s) to address the high incidence of family violence which has existed since the inception of the Authority (this is based on the principal that 85% of all domestic violence is directly related to drug/alcohol abuse);Contract with and agency(ies) or individual(s) to a gang prevention program which will deal with fledgling gang problem in public housing before it is out of control;
- d. Contract with an agency(ies) or individual(s) to provide alternative activities for youth with parent participation (the program will have and educational component that will address substance abuse);

The HA, consistent with HUD’s drug free neighborhoods directives, will utilize strategies which will disseminate relevant information to residents, facilitate the development of safe neighborhoods, encourage the growth of positive life skills, create positive cultural identity, and promote prevention services.

The HA has made a concerted effort to engage residents in all phases of its Drug Elimination Program. The HA endorses the philosophy that a healthy community works to improve its health and quality of life by incorporating the views and resources of its members. The underlying assumptions that this strategy enables people to assert their needs giving them a sense of empowerment.

DRUG ELIMINATION COMPONENTS

Security \$37,500

DRUG PREVENTION COMPONENT

The prevention program is meant to be a continuum of all past present and future drug prevention programs. The program will serve residents of all ages and will encompass formal education, family interaction, sports and recreational activities. The specific parts of the program are family violence elimination, gang intervention and prevention, intergenerational projects, youth sports and recreation, and neighborhood education project. The HA proposes to contract with an appropriate community agency or individual to provide a comprehensive drug prevention program that is designed for and will meet the needs of public housing residents.
