Extensions are permissible at the discretion of the PHA up to a maximum of an additional 60 days primarily for these reasons:

Extenuating circumstances such as hospitalization or a family emergency for an extended period of time which has affected the family's ability to find a unit within the initial sixty-day period. Verification is required.

The PHA is satisfied that the family has made a reasonable effort to locate a unit, including seeking the assistance of the PHA, throughout the initial sixty-day period. A completed search record is not required.

The family was prevented from finding a unit due to disability accessibility requirements or large size or number of bedroom unit requirement. The Search Record is not part of the required verification.

If the vacancy rate for rental housing in the jurisdiction is less than 3 percent, extensions will be granted automatically on request up to a total of 120 days.

The PHA extends in one or more increments. Unless approved by the Section 8 Coordinator, no more than two extensions of 30 days or less will be granted and never for a total of more than an additional sixty days.

The PHA will extend the term up to 120 days from the beginning of the initial term if the family needs and requests an extension as a reasonable accommodation to make the program accessible to and usable by a family member with a disability.

If the family needs an extension in excess of 120 days, the PHA will extend the voucher term for the amount of time reasonably required for said reasonable accommodation.

The Berks County Housing Authority (BCHA) chose to administer their Community Service Program. The Resident Initiatives Coordinator distributes and collects monthly time sheets, records and tracks non-exempt resident's hours of service, exemption status of all residents, and residents' compliance status and agreements to comply.

Public housing residents were informed through a letter explaining the community service requirement, exemption criteria, how to certify to their inability to complete the requirement and a definition of adult family member. The new lease effective 04/01/2001 calls out the penalty for non-compliance with the community service requirement. The BCHA and Reading Housing Authority in a joint effort attempted to secure a written Memorandum of Agreement with the Berks County Assistance Office (local TANF agency) and were informed they were directed by the state office not to enter into any agreements at this time.

Residents required to participate in the Community Service Program are given a list of approximately 90 local non-profit agencies they may contact to fulfill the community service requirement. Residents upon request are also informed of the wide range of activities that they could participate in to fulfill the requirement. Residents who are not in compliance with the community service requirement will be informed at their annual reexamination of their status and will be required to sign a compliance agreement agreeing to complete the required number of hours prior to their next reexamination.

The PHA's admission policy is designed to provide for deconcentration of poverty and income-mixing by bringing higher income tenants into lower income projects and lower income tenants into higher income projects.

Gross annual income is used for income limits at admission and for income-mixing purposes.

Skipping of a family on the waiting list specifically to reach another family with a lower or higher income is not to be considered an adverse action to the family. Such skipping will be uniformly applied until the target threshold is met.

The PHA will gather data and analyze, at least biannually, the tenant characteristics of its public housing stock, including information regarding tenant incomes, to assist in the PHA's deconcentration efforts.

The PHA will use the gathered tenant incomes information in its assessment of its public housing developments to determine the appropriate designation to be assigned to the project for the purpose of assisting the PHA in its deconcentration goals.

If the PHA's annual review of tenant incomes indicates that there has been a significant change in the tenant income characteristics of a particular project, the PHA will evaluate the changes to determine whether, based on the PHA methodology of choice, the project needs to be redesignated as a higher or lower income project or whether the PHA has met the deconcentration goals and the project needs no particular designation.

Deconcentration and Income-Mixing Goals

The PHA's deconcentration and income-mixing goal, in conjunction with the requirement to target at least 40 percent of new admissions to public housing in each fiscal year to "extremely low-income families", will be to admit higher income families to lower income developments, and lower income families to higher income developments.

Deconcentration applies to transfer families as well as applicant families.

If a unit becomes available at a lower income development, and there is no higher income family on the waiting list or no higher income family accepts the offer, then the unit will be offered to the next family regardless of income.

If a unit becomes available at a higher income development, and there is no lower income family on the waiting list or no lower income family accepts the offer, then the unit will be offered to the next family regardless of income.

Project Designation Methodology

The PHA will determine and compare tenant incomes at the developments listed in this Chapter.

The PHA will determine and compare the tenant incomes at the developments listed in this Chapter and the incomes of census tracts in which the developments are located.

Upon analyzing its findings the PHA will apply the policies, measures and incentives listed in this Chapter to bring higher income families into lower income developments and lower income families into higher income developments.

The PHA's goal is to have eligible families having higher incomes occupy dwelling units in projects predominantly occupied by eligible families having lower incomes, and eligible families having lower

incomes occupy dwelling units in projects predominantly occupied by eligible families having higher incomes.

Families having lower incomes include very low- and extremely low-income families.

Skipping of families for deconcentration purposes will be applied uniformly to all families.

When selecting applicant families and assigning transfers for a designated project the PHA will determine whether the selection of the family will contribute to the PHA's deconcentration goals.

The PHA will not select families for a particular project if the selection will have a negative effect on the PHA's deconcentration goals. However, if there are insufficient families on the waiting list or transfer list, under no circumstances will a unit remain vacant longer than necessary.

Deconcentration Methodology

The PHA shall admit lower income families to higher income buildings (or developments) and admit higher income families to lower income buildings (or developments) using the following steps:

Step 1: The PHA will annually determine the average income of all families residing in all of its general occupancy (family) developments (including families residing in developments approved for demolition or conversion to tenant-based assistance and families residing in public housing units in mixed-finance developments).

Step 2: The PHA will annually determine the average income of all families residing in each general occupancy development.

Step 3: The PHA will annually characterize each general occupancy development as higher income or lower income based on whether the average income in the development is above or below the overall average.

Step 4: The PHA will determine which families on the waiting list have incomes higher than the PHA-wide average and designate these families "higher income families," and which have incomes lower than the PHA-wide average and designate these families "lower income families."

Step 5: When a unit becomes available in a higher income development, the PHA shall skip families on the waiting list if necessary to reach a lower income family to whom it will offer the unit. When a unit becomes available in a lower income development, the PHA shall skip families on the waiting list if necessary to reach a higher income family to whom it will offer the unit.

Skipping shall be applied to both site-based and community-wide waiting lists.

If the waiting list does not contain a family in the income category to whom the unit is to be offered, the PHA shall offer the unit to a family in the other income category.

A family has the sole discretion whether to accept an offer of a unit made under the deconcentration policy.

The PHA shall not take any adverse action toward any eligible family for choosing not to accept an offer of a unit.

The PHA shall uniformly limit the number of offers received by applicants, described in this chapter.

Nothing in the deconcentration policy relieves the PHA of the obligation to meet the income targeting requirements.
