We intend to make capital improvements to our existing housing stock with available funds to improve living conditions.

We further plan to improve our vacancies by improving our turn-around time for vacant units, and lease up capability to ensure more families in occupancy.

We plan to follow the deconcentration and income mixing policies, following information taken from the development analysis, to insure a balance of income levels and income mix at each development.

The PHA has set a discretionary minimum rent for public and Section 8 housing, and has adopted a minimum rent hardship policy.

(1) Public Housing Maintenance and Management: (list below)

MAINTENANCE PLAN

All Emergency Work Orders are brought to a satisfactory conclusion in twenty-four hours or less, depending on the severity of the emergency.

Non-emergency work orders are brought to a satisfactory conclusion in seventy-two hours or less, depending on the nature of the needed repairs.

All emergency work orders are time stamped, dated and assigned a chronological number.

All other work orders are dated and assigned a chronological number.

Maintenance personnel are on duty throughout the normal workday, operating from a well-stocked vehicle, answering maintenance requests as they come in. At the close of business hours, an answering machine is activated informing the caller of the name and home phone number of the on-duty maintenance technician. This plan is also effected on weekends and holidays. If the technician needs assistance, there is back-up available. In the event a specific part is needed but is not readily available, the piece of equipment is replaced temporarily with a spare unit and is returned when repaired. This primarily refers to refrigerators, ranges, water heaters, and heaters. Other items, fixtures, glass, doors, locks, etc., are kept in adequate supply in the warehouse.

Wage rates are kept on hand and updated periodically in all appropriate phases of technical needs, i.e., roofers, plumbers, air conditioning/heating, painters, brick masons, etc. These are wage rates for this area from comparable industries and organizations.

The PHA Procurement Policy is followed at all times.

Work items are established for call-ins from complex residents and visual inspection of all housing and maintenance personnel in performance of their daily tasks.

Other work items are generated through periodic inspection of items and grounds, and residences. For example, all smoke alarm systems are checked quarterly for performance and presence. Annual inspection of all residences is carried out using the HUD approved Section 8 forms and method of inspection. Work orders created from this inspection are categorized, prioritized and assigned to the appropriately trained personnel for completion.

All routine work orders and remaining workload are retaken into consideration, organized, prioritized, scheduled and assigned to the appropriately trained personnel.

Maintenance employees are retrained continually through on-the-job experiences, workshops and seminars. Each employee is situated in the most productive position as it relates to their knowledge, experience and performance. This enables the authority to successfully complete the many varied and different problems as they arise.
