**VOLUNTARY CONVERSION OF PUBLIC HOUSING**

**It has been determined by the Authority the cost of conversion would be more expensive than to operate the Developments as public housing.**

**The conversion would not benefit the Residents or the Community. The number of low-rent housing is sufficient for the area served, as noted, by the applications received.**

**The conversion would not provide the Residents with other or better housing choices with-in the area this Authority serves. There are not any available private rental units in some of the areas were this Authority has low-rent units.**

**Conversion would serve no purpose in the de-concentration of low-income families in the community. The policies now in effect are helping with the de-concentration problem with-in the areas of operation.**

**The Capital Fund Program has greatly increased the condition and appearance of the low-rent units and the units provide a clean safe environment that is not provided by some of the units on the local market.**
