Deconcentration Analysis

The Marietta Housing Authority will strive to create mixed-income communities and lessen the concentration of very low-income families within the Housing Authority's public housing developments through admissions policies designed to bring higher income tenants into lower income developments and lower income tenants into higher income developments. This policy shall not be construed to impose or require any specific income or racial quotas for any public housing development owned by the Housing Authority.

In order to achieve deconcentration, the Authority may choose to skip an applicant on the waiting list in order to house a family who is willing to accept a unit in a targeted development. The Authority may also grant incentive rents (or other incentives) for the purpose of creating mixed income communities and lessening the concentration of extremely low and very low-income families in one area. The applicant family shall have sole discretion of determining whether to accept the incentive and the Housing Authority shall not take any adverse action toward any eligible family for choosing not to accept an incentive.

The Marietta Housing Authority performed a review of all covered developments to determine if there are any that would be covered by the Deconcentration Rule. The results are as follows:

Development	Average Income	Authority Average Income	Percentage
GA010-1	\$ 9,120	\$9,353	97.5%
GA010-2	\$8,283	\$9,353	88.6%
GA010-3	\$8,881	\$9,353	95.0%
GA010-4	\$11,129	\$9,353	119.0%

The Deconcentration Rule states that all covered developments average income should fall between 85% and 115% of the Authority-wide average income.
