Definition of Substantial Deviations or Significant Amendments or Modifications

Substantial deviations or significant amendments or modifications are defined as discretionary changes in the plans or policies of the Housing Authority that fundamentally change the mission, goals, objectives, or plans of the agency and which require formal approval of the Board of Commissioners.

The Housing Authority of the City of Marion, Illinois, reserves the right to full fungibility in the accomplishment of its goals and objectives in the capital improvement plan. Funds from one year's plan may be utilized to accomplish any work item scheduled during the five-year plan and shall not be considered a substantial deviation. Emergency work items shall take precedence over any scheduled work item and shall not be considered a substantial deviation. Any excess funds remaining after completion of the scheduled work items for the annual plan year may be utilized for a future year's planned work items or transferred into the operations account. This shall not be considered a substantial deviation. Capital Funds may be transferred into Operations at any time to prevent the Housing Authority from being designated as financially troubled.

A change to rent or admission policies, additions of non-emergency items, other than transfers to operations, not included in the current Annual Statement or 5-Year Action Plan, or a change with regard to demolition, disposition, designation, homeownership programs or conversion activities shall be considered a significant amendment or modification. An exception to this definition will be made for any of the above that are adopted to reflect changes in HUD regulatory requirements. Such changes will not be considered significant amendments.

**Required Attachment E: Statement of Progress in Meeting Mission
 And Goals**

In moving toward its goal of increasing the availability of decent, safe, and affordable housing, the Section 8 tenant-based program has increased its utilization during FY 2001 so that it is anticipated to be at or near 100% by the end of the year. Because of the efforts made to reach new landlords, more properties have been made available for Section 8 tenants at rents they can afford.

The Housing Authority contracted with a security company to offer security during the evening hours at its two high-rises, which has provided a safer living environment in those two projects during the past year.

The Housing Authority has encouraged employment for all of its public housing families by offering a discretionary deduction for Social Security and Medicare taxes withheld from earned income. The Housing Authority is also networking with other agencies that provide education and vocational training to provide opportunities for self-sufficiency among its residents.

Required Attachment F: Deconcentration

Component 3, (6) Deconcentration and Income Mixing

- a. Yes No: Does the PHA have any general occupancy (family) public housing developments covered by the deconcentration rule? If no, this section is complete. If yes, continue to the next question.
- b. Yes No: Do any of these covered developments have average incomes above or below 85% to 115% of the average incomes of all such developments? If no, this section is complete.

If yes, list these developments as follows:

Deconcentration Policy for Covered Developments			
Development Name:	Number of Units	Explanation (if any) [see step 4 at §903.2(c)(1)(iv)]	Deconcentration policy (if no explanation) [see step 5 at §903.2(c)(1)(v)]
S. Market Street	20	This is a small development and at this time has 3 residents with zero income.	An excerpt from our deconcentration policy is set forth below.

“9.4 DECONCENTRATION POLICY

It is the policy of the Housing Authority of the City of Marion, Illinois, to provide for deconcentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments. Toward this end, we may skip families on the waiting list to reach other families with a lower or higher income. We will accomplish this in a uniform and non-discriminating manner.

“The Housing Authority will affirmatively market our housing to all eligible income groups. Lower income residents will not be steered toward lower income developments and higher income people will not be steered toward higher income developments.

“Prior to the beginning of each fiscal year, we will analyze the income levels of families residing in each of our developments, the income levels of census tracts in which our developments are located, and the income levels of the families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and deconcentration incentives to implement.

“9.5 DECONCENTRATION INCENTIVES

The Housing Authority may offer one or more incentives to encourage applicant families whose income classification would help to meet the deconcentration goals of a particular development.

“Various incentives may be used at different times, or under different conditions, but will always be provided in a consistent and nondiscriminatory manner.”

**Required Attachment G: Initial Assessment of Voluntary Conversion
Of Developments from Public Housing Stock**

The Housing Authority of the City of Marion, Illinois (IL126) has reviewed each of its development's operations as public housing, considered the implications of converting the public housing to tenant-based assistance, and has concluded that conversion of the developments is inappropriate because the removal of the developments would not meet the necessary conditions for voluntary conversion. It has been determined that conversion would be more expensive than continuing to operate the developments as public housing and would adversely affect the availability of affordable housing in the community.
