**Statement of Progress in Meeting 5 year Plan for Missions and Goals**

We have continued to remain a high performer under HUD's PHAS Management Assessment.

We are continuing to renovate our units to make them more marketable; the past year we have landscaped by putting out mulch streetside on all 300 units and set out new shrubbery at all 300 units. We have replaced sidewalks in order to increase accessibility and reduce tripping hazards from the expansion of tree roots. We have cut down trees to eliminate the roots from becoming a tripping hazard. We have landscaped a dilapidated retaining wall that had become a hazard. We are making our units more energy efficient by replacing the windows and doors in two of our four developments.

We built a new warehouse for our maintenance in order to be able to have our inventory in one place and to better service our residents.

We are working closely with the Mount Airy Police Department to make our housing drug-free and crime-free.

We perform a criminal check and credit check on every applicant.

We have started a computer lab in two of our Community Centers and are providing computer training for our residents to better prepare for the job market.

We have several programs in progress for residents such as cake decorating, nutrition classes, computer classes, family literacy, parenting classes, life skills, etc.

Our Smart Start Program is going very well and has good attendance.

We have implemented increased security by installing more site lighting; securer windows and doors; and allowing the Mount Airy Police Department to maintain satellite offices in all of our developments.

### **Deconcentration Policy from our Admissions and Continued Occupancy Policy.**

#### **IX. SELECTIONS AND EXCEPTIONS**

Selections will be made in a non-discriminatory manner to assure a broad range of income in each community, maintain the financial stability of the community, promote the health, safety and welfare of other residents, and avoid concentration of the most economically deprived families.

#### **Selection from the Waiting List...**

The MAHA shall follow the statutory requirement that at least 40% of newly admitted families in any fiscal year be families whose annual income is at or below 30% of the area median income. To insure this requirement is met we shall quarterly monitor the incomes of the families on the waiting list. If it appears that the requirement to house extremely low-income families will not be met, we will skip higher income families on the waiting list to reach extremely low-income families.

If there are not enough extremely low-income families on the waiting list MAHA will conduct outreach on a non-discriminatory basis to attract extremely low-income families to reach the statutory requirement.

#### **Deconcentration Policy....**

It is the MAHA's policy to provide for deconcentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments. Toward this end, the MAHA will skip families on the waiting list to reach other families with a lower or higher income. The MAHA will accomplish this in a uniform and non-discriminating manner. The MAHA will affirmatively market its housing to all eligible income groups.

Prior to the beginning of each fiscal year, the MAHA will analyze the income levels of the families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and deconcentration incentives to implement.

#### **Deconcentration Incentives.....**

The MAHA may offer one or more incentives to encourage applicant families whose income classification would help to meet the deconcentration goals of a particular development. Various incentives may be used at different times, or under different conditions, but will always be provided in a consistent and non-discriminatory manner.

One resident asked about installing playground equipment in Urbana II. Discussion held by group as to the pros and cons of installing equipment. There had been equipment previously, but due to the constant fighting and fussing and the children tearing the equipment down, it had been removed. Also had been a meeting place for selling dope. Possibility will be explored and discussed further at a later date. Another resident asked about a backsplash behind the range to prevent grease splattering on the sheetrock. This was already considered in the renovations projected in the five-year plan and should be addressed in 2002. The Resident Survey (RASS) results were discussed. Comments from all residents present said they thought the Housing Authority was doing a good job and could not think of anything else the Housing Authority could do to improve communication with residents. The Capital Fund Programs (2000 and 2001) were discussed. Residents were informed that the contract had been signed for the installation of exterior doors in NC 23 -3 and NC 23 -4 and that the Housing is currently working on the bid package for replacement windows in these two developments. The next contract will be for extensive renovations in Urbana II. A resident asked if they would be required to move while the renovations were going on and they were told that they would have to be transferred to another unit. Residents also commented that the four police satellite offices had made a difference in their community. One resident commented that the tree stump removed by

the Housing Authority was doing a good job. Residents were informed that the fence had been removed on the retaining wall we were getting ready to tear down and the contractor would continue next week with the wall removal.
