### Deconcentration Analysis and Policy

In accordance with the requirements of the Public Housing Reform Act and 24 CFR 903, the Mobile County Housing Authority (MCHA) performed an analysis of the income levels of its general occupancy (family) development. The analysis of available public housing occupancy data as of June 2000 indicates that the average income at MCHA's one family development, Northview, is \$8,027.

Northview Manor contains 50 single-family homes and is the only property currently managed by MCHA. In the future should MCHA acquire and manage additional general occupancy public housing units and/or developments it will fully comply with all federal housing regulations with respect to deconcentration. In an attempt to meet future deconcentration goals that it must establish, MCHA may reuse its current admissions and continued occupancy policy and offer one or more incentives to encourage applicant families and resident families seeking involuntary transfers to consider occupancy in developments which the Authority is attempting to deconcentrate.

Various activities may be used at different times or under different conditions; however, these actions will always be offered in a consistent and nondiscriminatory manner. In no way does MCHA's deconcentration policy establish quotas by development nor does it impose requirements on families to live in which they are not interested.
