PALATKA HOUSING AUTHORITY
DECONCENTRATION POLICY

The PHA’s admission policy is designed to provide for deconcentration of poverty and income-mixing by bringing higher income tenants into lower income projects and lower income tenants into higher income projects.

Gross annual income is used for income limits at admission and for income-mixing purposes.

The PHA will gather data and analyze, at least annually, the tenant characteristics of its public housing stock, including information regarding tenant incomes, to assist in the PHA’s deconcentration efforts.

The PHA will use the gathered tenant incomes information in its assessment of its public housing developments to determine the appropriate designation to be assigned to the project for the purpose of assisting the PHA in its deconcentration goals.

Deconcentration and Income-Mixing Goals

Admission policies related to the deconcentration efforts of the PHA do not impose specific quotas. Therefore, the PHA will not set specific quotas, but will strive to achieve deconcentration and income-mixing in its developments.

The PHA’s income-mixing goal is a long-range goal and may not be achieved in the first year of implementation. The PHA will use its annual analysis of its public housing stock and tenant incomes to provide benchmarks for the PHA.

Project Designation Methodology

The PHA will determine and compare tenant incomes at all its developments. The PHA will determine and compare the tenant incomes at all its developments and the incomes of census tracts in which the developments are located.

Upon analyzing its findings, the PHA will apply the policies, measures and incentives listed in this chapter to bring higher income families into lower income developments and lower income families into higher income developments.

The PHA’s goal is to have eligible families having higher incomes occupy dwelling units in projects predominantly occupied by eligible families having lower incomes, and eligible families having lower incomes occupy dwelling units in projects predominantly occupied by eligible families having higher incomes. Families having lower incomes include very low and extremely low-income families.

Census Tract Method

The PHA will review census tracts in which public housing developments are located.

The PHA will designate higher income developments those located in relatively higher income census tracts. The PHA will designate lower income developments those located in relatively lower income census tracts.
