DECONCENTRATION POLICY

1. Introduction

The Quality Housing and Work Responsibility Act of 1998 (QHWRA) requires that the Authority adopt policies and procedures governing the deconcentration of very low-income families and income mixing as required by section 10(a)(3)(B) of the 1937 Housing Act. To implement this requirement, the Authority will compare the relative incomes of each family development.

The goal of this policy is to create mixed-income communities and lessen the concentration of very low-income families within the Authority's public housing developments through admissions practices designed to bring I higher income tenants to lower income developments and lower income tenants into higher income developments.

The Deconcentration Policy is intended to work in conjunction with the Authority's annual income targeting requirements. The Policy requires the 40% of all new admissions to public housing developments during a fiscal year must be residents whose household income, at the time of admission, is equal to or lower than 30% of the Area Median Income. This "income targeting" requirement is separate from the Deconcentration Policy, which is comparative in nature.

2. Definitions

The following definitions are provided in order to clearly and define the affected developments and families under this Deconcentration Policy.

PHA-Wide Average Household Income: The average annual household income of all residents of all developments with more than 50% of its occupants being families with children.

Development Average Household Income: The average annual household income of all residents of a specific development with more than 50% of its occupants being families with children.

Higher Income Development: A development where the Development Average Household Income is greater than 120% of the PHA-Wide Average Household Income.

Lower Income Development: A development where the Development Average Household Income is less than 80% of the PHA-Wide Average Household Income.

Higher Income Family: A family whose annual household income is greater than 120% of the PHA-Wide Average Household Income.

Lower Income Family: A family whose annual household income is less than 80% of the PHA-Wide Average Household Income.

3. Testing

In order to achieve and maintain deconcentration, the Authority will calculate the PHA-Wide Average Household Income for all developments with 50% or more of its occupants being families with children on at least an annual basis. At the same time, the Authority will calculate the Development Average Household Income for each development with 50% or more of its occupants being families with children. The results shall be documented as follows:

- a) If the Development Average Household Income for a family development of more than 100 units is greater than 120% of the PHA-Wide Average Household Income, then that development shall be identified as a Low-Income Development.
- b) If the Development Average Household Income for a family development of more than 100 units is less than 80% of the PHA-Wide Average Household Income, then that development shall be identified as a Low-Income Development.

Testing can be run more frequently to determine the effectiveness of various initiatives employed to achieve deconcentration.

1. Corrective Action

Once a development has been identified as a High-Income Development or a Low-Income Development, the Authority will define and communicate specific procedures to be employed with the goal of achieving deconcentration. It is the goal of the Authority to generally increase the level of income for residents of public housing, create more stratified developments, and obtain agency self sufficiency, therefore; the Deconcentration Policy shall not be employed to be counterproductive to that goal. In addition, the policy will, under no circumstances, be employed through steering or in any way reducing the choice in residence of the individual family.

In order to correct a concentrated development, the Authority will, to the greatest extent possible, provide incentives to promote a Lower-Income Family to select a Higher-Income Development and to promote a Higher-Income Family to select a Lower-Income Development.

Procedures to be employed in the development of a corrective action plan include:

- a) Incentives to select particular developments
- b) Payment Plans for deposits
- c) Flexibility in move-in dates

It is Thomaston Housing Authority's Policy to provide for Deconcentration of poverty and encourage income mixing by bringing higher income families into higher income developments. Towards this end, we will skip families on the waiting list to reach each other families with a lower or higher income. We will accomplish this in uniform and non-discriminating manner.

The Thomaston Housing Authority will affirmatively market our housing to all eligible income groups. Lower income residents will not be steered toward lower income developments and higher income people will not be steered toward higher income developments.

Prior to the beginning of each fiscal year, we will analyze the income levels of families residing in each of our developments, the income levels of census tracts in which our developments are located, and the income levels of the families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and Deconcentration incentives to implement.

The Thomaston Housing Authority may offer one or more incentives to encourage applicant families whose income classification would help to meet the Deconcentration goal and/or the income-targeting goal.

The Thomaston Housing Authority will contact the family first by telephone to make the unit offer. If the family cannot be reached by telephone, the family will be notified of a unit offer via first class mail. The family will be given three (3) business days from the date the letter was mailed to contact the Thomaston Housing Authority regarding the offer.

The family will be offered the opportunity to view the unit. After the opportunity to view the unit, the family will have 24 hours to accept or reject the unit. This verbal offer and the family's decision must be documented in the tenant file. If the family rejects the offer of the unit, the Thomaston Housing Authority will send the family a letter documenting the offer and the rejection.
