Attachment A: Progress report on meeting our 5 year plan mission & goals.

The Maywood Housing Authority has maintained a continued cooperation between the participants as well as the community by assisting families that could never have afforded rent on their own, and now encouraging them to become home owners or renters. By knowing that eventually all section -8 participants shall be forced to venture into housing primarily on their own, we try to encourage families to enter into cooperative work programs and other various service providers in the area to maintain a specific goal in life.

MHA will further work on solutions with open communication within the Village of Maywood through the Code enforcement Department to continue the progress of ensuring safe, sanitary and decent housing. This effort is important because we want to see the housing stock become more affordable to low income families but not by supplying unsatisfactory housing.

Attachment B: Section -8 Homeownership Capacity

The Problem: Structuring low -income working families to become homeowners combined with vacant and abandoned homes in the community.

The Solution: MHA provided training sessions on finance, property management, and self-sufficiency, the goal in this project was designed to help ease the burden of purchasing a home in two ways, one being proper guidance through counseling, and the second being able to get financial support in obtaining a mortgage.

In 2000 The Maywood Housing Authority established a program for homeownership based on the families affordable income toward the purchase of rehabbed homes in Maywood that sold below the market value. We streamlined this program to fit the needs of families that wanted a home but understood that dream was impossible due to their income. We were able to assist two families and currently they are doing well.
