Attachment A: Deconcentration Policy

It is Olmsted County HRA’s policy to provide for deconcentration of poverty and encourage income missing by bringing higher income families into lower income developments and lower income families into higher incomes developments. Toward this end, we will skip families on the waiting list to reach other families with a lower or higher income. We will accomplish this in a uniform and non-discriminating manner.

The Olmsted County HRA will affirmatively market our housing to all eligible income groups. Lower income residents will not be steered toward lower income developments and higher income people will no be steered toward higher income developments.

Prior to the beginning of each fiscal year, we will analyze the income levels of families residing in each of our developments, the income levels of census tracts in which our developments are located, and the income levels of the families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and deconcentration incentives to implement.

Deconcentration Incentives

The Olmsted County HRA may offer one or more incentives to encourage applicant families whose income classification would help to meet the deconcentration goals of a particular development.

Various incentives may be used at different times, or under different conditions, but will always be provided in a consistent and nondiscriminatory manner.

Attachment B: Project Based Voucher Program

The Olmsted County HRA, in order to increase the availability of decent, safe and affordable housing, will consider using the vouchers in qualified units. Project basing of these vouchers will provide additional housing opportunities, over a period of years, in a market that has a very limited amount of affordable rental units. The OCHRA will review and approve qualified project based units based upon the OCHRA's unit selection criteria for areas within Olmsted County.
