Statement of Progress in Meeting 5 year Plan for Missions and Goals

We have continued to remain a high performer under HUD's PHAS Management Assessment, increasing our score from 93 to 98 for the fiscal year just ended..

We are continuing to renovate our units to make them more marketable. The past year we have replaced sidewalks in order to increase accessibility and reduce tripping hazards from the expansion of tree roots. We have cut down trees to eliminate the roots from becoming a tripping hazard. We have landscaped a dilapidated retaining wall that had become a hazard. We are making our units more energy efficient by replacing the windows and doors in two of our four developments.

We built a new warehouse for our maintenance in order to be able to have our inventory in one place and to better service our residents.

We are working closely with the Mount Airy Police Department to make our housing drug-free and crime-free.

We perform a criminal check and credit check on every applicant.

We have started a computer lab in two of our Community Centers and are providing computer training for our residents to better prepare for the job market.

We have several programs in progress for residents such as cake decorating, nutrition classes, computer classes, family literacy, parenting classes, life skills, etc.

We have implemented increased security by installing more site lighting; securer windows and doors; and allowing the Mount Airy Police Department to maintain satellite offices in all of our developments.

Deconcentration Policy from our Admissions and Continued Occupancy Policy.

IX. SELECTIONS AND EXCEPTIONS

Selections will be made in a non -discriminatory manner to assure a broad range of income in each community, maintain the financial stability of the community, promote the health, safety and welfare of other residents, and avoid concentration of the most economically deprived families.

Selection from the Waiting List...

The MAHA shall follow the statutory requirement that at least 40% of newly admitted families in any fiscal year be families whose annual income is at or below 30% of the area median income. To insure this requirement is met we shall quarterly monitor the incomes of the families on the waiting list. If it appears that the requirement to house extremely low -income families will not be met, we will skip higher income families on the waiting list to reach extremely low -income families.

If there are not enough extremely low -income families on the waiting list MAHA will conduct outreach on a non -discriminatory basis to attract extremely low -income families to reach the statutory requirement.

Deconcentration Policy....

It is the MAHA's policy to provide for deconcentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments. Toward this end, the MAHA will skip families on the waiting list to reach other families with a lower or higher income. The MAHA will accomplish this in a uniform and non -discriminating manner. The MAHA will affirmatively market its housing to all eligible income groups.

Prior to the beginning of each fiscal year, the MAHA will analyze the income levels of the families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and deconcentration incentives to implement.

Deconcentration Incentives.....

The MAHA may offer one or more incentives to encourage applicant families whose income classification would help to meet the deconcentration goals of a particular development. Various incentives may be used at different times, or under different conditions, but will always be provided in a consistent and non -discriminatory manner.

Voluntary Conversion of Public Housing Developments

- a) How many of the PHA's developments are subject to the Required Initial Assessments? 4
- b) How many of the PHA's developments are not subject to the Required Initial Assessments based on exemptions (e.g., elderly and/or disabled developments not general occupancy projects)? 0
- c) How many Assessments were conducted for the PHA's covered developments? 4
- d) Identify PHA developments that may be appropriate for conversion based on the Required Initial Assessment: NONE
- e) If the PHA has not completed the Required Initial Assessments, describe the status of these assessments. COMPLETED
