**ii. Executive Summary of the Annual PHA Plan**

[24CFR Part 903.79(r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

This Annual Plan contains information pertaining to the management operations and resident programs and services at the Columbian Metropolitan Housing Authority. The beginning of the Plan includes a description of the housing needs of the community, as determined from published sources such as the Consolidated Plan and the CHIS. It also identifies housing problems and strategies for addressing those problems communitywide.

The remainder of the Plan discusses more specifically what the Authority will do in each of a number of policy areas. The Financial Resources chapter presents the amount of income that the Authority will receive, and how it will use those resources. This chapter is followed by two chapters that relate to the governing and administration of who is housed in CMHA housing.

The Operations and Management chapter presents the policies that have been adopted by the Authority in terms of operations and management, and includes an organizational chart.

The Authority has adopted grievance procedures for each program that it manages (public housing and Section 8) and those procedures are included in the ACOP and AP respectively.

A number of chapters discuss the physical condition of CMHA properties. The chapter on Capital Improvement Needs includes the Authority's modernization programs and plans

for the next 5 years. The Authority has no plans for the designation of housing or conversions of public housing, and the Plan documents that fact.

There is a discussion on Authority plans for resident programs. This is followed by a discussion of safety and security programs at the CMHA.

The Authority's Financial Audit is appended for review. This section on Other Information presents Resident Advisory Board comments and suggestions.

Following the HUD template is an narrative explanation of each of the 18 areas of the Annual Plan that include supporting documentation and information.

# COLUMBIANA METROPOLITAN HOUSING AUTHORITY

## 1. STATEMENT OF HOUSING NEEDS

### Background

*The Quality Housing and Work Responsibility Act of 1998 (QHWRA) requires that Authorities provide a statement of the housing needs of the low -income, very -low income, and extremely low - income families (including elderly families and families with disabilities) in their jurisdictions. An analysis of the Authority's Waiting Lists is also required. Extremely low -income families are those families with incomes below 30 percent of the Area Median Income. QHWRA also requires that the housing needs in this Agency Plan be consistent with the housing needs defined in the Consolidated Plan (where applicable).*

This Assessment of Housing Needs contains:

- Columbiana County Overview –Economics, Population and Poverty;
- Summary of the Housing Needs Identified in the Community Housing Improvement Strategy (CHIS) and the State of Ohio Consolidated Plan;
- Needs of the Homeless and Special Needs Populations
- Impediments to Fair Housing Choice;
- Summary (In Chart Form) of the Housing Needs of Columbiana County Families
- Housing Needs as Expressed by CMHA Waiting Lists;
- Strategy to Address Housing Needs

Because the 2000 census data was not available at the time in which this plan was being put together, the Authority has had to rely on the 1990 data for its assessment. However, it is known that the population change in the United States from 1990 to 2000 was 13.2%, while the rate of change in the State of Ohio was 4.7%, in Pennsylvania it was 3.4% and in West Virginia it was 0.8%. These population increases are some of the lowest in the country. And the State of Ohio lost another representative to the U.S. House of Representatives based on the population shifts that occurred between 1990 and 2000.

### Columbiana County Overview –Economics, Population and Poverty

Founded in 1803, Columbiana County comprises 535 square miles including 9.5 miles of Ohio River front. Its 1990 population was 108,276, and the City of East Liverpool, where the CMHA central office is located, was the largest city with a 1990 population of 13,654.

Metropolitan Columbiana is a study in contrasts. The great physical beauty of the rolling countryside belies the poverty of many of its residents. According to the CHIS, one in every five

Columbiana County resident, or 22.5% of the population, has an income less than 125% of the Federal Poverty Level, and poverty has increased by 137% since 1980. In October of 1990, the U.S. Congress approved legislation that placed the county within the Federal Appalachian Regional Commission's jurisdiction. According to the CHIS, this was done because the county's economic and social conditions were similar to those of the other 397 Appalachian counties in the United States.

County	FY-90 Family Median Income	Very Low Income				
		1 Person	2 Persons	3 Persons	4 Persons	5 Persons
Columbiana	\$49,600	\$17,050	\$19,500	\$21,900	\$24,350	\$26,300

According to a 1982 report written by Carol Bretz, Director of the Community Action Agency, "a large portion of the county's early economy was based on clay and shale resources. The availability of these natural resources resulted in the development of the ceramics industry including the manufacturing of pottery, brick and tile. During the past 50 years, manufacturing and in particular, the manufacturing of steel, played an even greater role in the local economy. A job in the steel mill was "high paying with good benefits and required little in the way of education."

"Unfortunately, the local economy suffered greatly with the closing of 2 major employment sources. In 1977, Sheet and Tube Steel in Youngstown closed and in 1982 Crucible Steel in Midland, Pennsylvania closed. In January of 1980, 6.2% of the County's labor force was unemployed, but by January of 1983 this figure had increased to 20.2%. There currently exists a high level of under-employment in the County as residents take low wage, part-time jobs out of necessity. Although unemployment rates are stabilizing, the county's rate was still higher than the average for Ohio. In November of 1993, the unemployment rate for Columbiana County was 7.5% while the State of Ohio had an average of 5.9%." The economic situation for Columbiana County residents would not seem to have improved since that time.

The ceramics industry still plays a role in the employment of residents of the County. Approximately 1,765 people still work in ceramic related industries according to the CHIS. Other major employers including East Liverpool City Hospital and Salem Community Hospital, which, in 1990, employed about 1,500 people between them, according to the CHIS. Employment gains have generally been realized in lower paying service jobs. The county has not diversified into high tech or other industries.

Population has decreased in Columbiana County by 4.7% since 1980. The largest area of decline in population was the cities. East Liverpool lost 3,033 people between 1980 and 1990. Wellsville's loss of 563 persons resulted in its loss of city status.

Even though there was a population loss between 1980 and 1990 however, there were 701 more households in Columbiana County. This represents a change in the county from 2.8 persons per household in 1980 to 2.6 persons per household in 1990.

According to the CHIS, people who were 65 years of age and older represented a large percentage of the total population in 1990 (12%) than in 1980. Approximately 28% of the county's elderly

were poor. According to the analysis in the CHIS, Columbiana County has an older population than average for the state.

Poverty levels in Columbiana County increased from 10.6% of total households in 1980 to 15.6% of total households in 1990. That represents almost a 50% increase in the incidence of poverty. In the State of Ohio, 12.5% of the households from the 1990 Census were considered to be below the poverty line. In Columbiana County, that same figure was 15.6%.

Nearly 24% of the county's school aged children in 1990 were eligible for free and reduced school lunches. Over 16% of the county's children lived in households that receive public assistance. About 31% of students in East Liverpool fail to graduate from high school.

## Summary of Housing Needs

### Housing Cost Burden

Because of the loss of higher paid blue-collar jobs in the mills and the fact that the area has not recovered economically since, housing cost burden is a significant issue for many residents, not only in Columbiana County, but in the State of Ohio as well. In fact, according to the State of Ohio Consolidated Plan, more than one in five Ohio households (23%) experience some kind of housing need, with cost burden being the greatest. More specifically, nearly 40% of Ohio renters and 16% of Ohio homeowners experience housing need, and for renters, cost burden affects 99% of those household experiencing need.

When comparing areas of the County that have poverty status with areas that have high housing cost burden, East Liverpool, Wellsville, and Middleton Township in addition to East Palestine and New Waterford head the list. These areas are also the areas in which the CMHA owns and manages property.

The CHIS explains the housing cost burden phenomenon well. "If employment were divided into white-collar and blue-collar sectors with white-collar representing the categories of Wholesale and Retail Trade; Finance, Insurance and Real Estate; Services; and State and Local Government, earning trends can be summarized. Between 1976 and 1990, white-collar to blue-collar earnings increased 3%. In 1976, white-collar earnings were 62% of blue-collar earnings, while in 1990, that same figure was 65%. During this same time, white-collar jobs increased 10%. In 1976, white-collar employees made up 52% of the total labor force while in 1990, 62% of the total labor force were white-collar employees. The 1990 employees only made 65% of what blue-collar employees made even though they gained an earnings increase of 3%. **So, compared with 1976, there were 10% more employees earning 35% less in income.** The trends indicate that many are being forced to take lower paying jobs reducing their gross earnings potential and increasing the chances of suffering from housing cost burden."

Of the total 9,616 renters in Columbiana County, 3,009 or 31.3% of them pay more than 35% of their income for rent. 2,398 owners, or 10.4%, out of 23,159 owners in total pay more than 35% of their income for their monthly mortgage payment.

### Housing Age, Cost of Utilities, Housing Values

Housing that is available in Columbiana County is generally older construction built before 1950. 44.1% of all housing units fall into this age category. 26.3% of the housing was built between 1950 and 1970, while 29.5% was built between 1970 and 1990. More than three quarters of the units are single-family properties. 39.7% of units have individual wells as their source of water, and 45.7% have septic systems for sewage disposal. This older housing is frequently more expensive to maintain and modernize, increasing the cost burden for low to moderate-income families.

Home heating costs are also a contributory factor in housing cost burden. The major home heating fuels include gas, electric and fuel oil. Severe winters drive up utility bills, regardless of the fuel source used thus making housing more expensive.

The Community Action Agency runs a Home Weatherization Assistance Program, however, with funding constraints, the number of homes that can be weatherized is declining. "CAA staff reports that they receive many calls for weatherization services from people who have other extensive housing needs such as wiring, plumbing and furnace replacement. Of the homes that are inspected for the program there have been about 5 homes each year that cannot be weatherized because of needed rehabilitation."

"According to information from the CAA, staff from the Corporation on Ohio Appalachian Development which administers HWAP funding for the CAA notes that there seems to be an unusual number of cracked heat exchangers on the heating units in comparison to other areas of the country and region. They theorize that this is due to years of heavy air pollution because of the industrial base along the river. "The CAA also estimates that 65% of the housing stock that they weatherize is in need of major rehabilitation. The program has a continuous waiting list. Most of the homes are in the East Liverpool area but the program is county-wide."

The median value of an owner occupied housing unit in Ohio in 1990 was \$62,900. In Columbiana County, that same figure was \$42,300. Although the CHIS acknowledges that lower housing values would seem to indicate a lower cost burden, the document points out that poor housing conditions are also reflected in lower housing values. 8.8% of owner occupied housing was valued at less than \$15,000, and in East Liverpool City, that figure was 25.8%.

### Type and Quality of Housing

Of the 44,035 residential housing units in Columbiana County, 92.6% of them were occupied as of 1990. Of the 3,260 units that were vacant, 44% of them were 2-bedroom units, 29.1% were 3-bedroom units and 15.7% were 1-bedroom units.

75% of the units were owner occupied, and 25% were rental units. Rental property is generally in the older housing units according to the CHIS.

While the State of Ohio has approximately 19.2% multi-family housing in its total housing inventory, Columbiana County has only 8.1% of its units in this category. While 4.7% of housing units in the State are mobile homes, 9.7% of Columbiana County's housing is mobile homes. Few restrictions have been enacted as to the location of mobile homes, and as a result, mobile homes are located throughout the County.

Because there are no county wide housing and building codes, consistency of quality is compromised. The CHIS notes that the poorer quality areas can be found within the cities and villages of the County. These are generally areas in which low and moderate -income families reside.

### **Needs of Homeless and Special Needs Populations**

The Coalition on Housing and Homelessness in Ohio (COHHIO), formerly the Ohio Coalition for the Homeless, estimated that approximately 106,000 Ohioans experienced a period of homelessness during 1991. As Ohio's homeless population has continued to increase, several easily identifiable subpopulations with special needs have emerged. The populations identified include the mentally disabled, alcohol and drug abusers, school -age children and youth, victims of domestic violence, persons with AIDS, the elderly, families with children, veterans, and individuals and families at risk for homelessness.

According to the CHIS, there are questions regarding the severity of needs of the homeless population in Columbiana County, however. "Since there is not an influx of new people into the area in search of employment (since work is simply not available), some felt that the conditions for homelessness are very limited. Although problems do not appear to be as obvious as in larger metropolitan areas, homelessness does occur."

### **Impediments to Fair Housing Choice**

According to the Consolidated Plan, the major barriers to affordable housing in Ohio include:

- A lack of affordable housing development capacity in many of Ohio's smaller communities and rural areas, as well as some urban areas;
- A lack of private capital for housing in many of Ohio's distressed areas – both rural and urban;
- Limited ability of state government to impact local land use regulations; and
- Limited staff capacity within state government, in many local governments, and in most non-profit organizations to take on significant new housing initiatives.

Additional impediments were cited previously, including, most notably, the significant cost burden for many Columbiana County residents.

### **Summary (In Chart Form) of the Housing Needs of Columbiana County Families**

The chart that appears in the Agency Plan expresses the concepts discussed above in a summarized format. As can be seen by the chart, affordability is the greatest need in the jurisdiction. The information that was used for developing this section came from the State of Ohio Consolidated Plan, the Columbiana County CHIS and other relevant reports and documentation.

### **Needs as Expressed by CMHA Waiting Lists**

Waiting lists for both public housing and Section 8 appear in the Agency Plan. The vast majority of applicants to CMHA's housing program are extremely low-income families. In the public housing program, three quarters of applicants are in need of 1-bedroom units. Many of these applicants are single non-elderly, non-disabled individuals. Family size of Section 8 applicants are largely (nearly 61%) 1 or 2 person households.

### **Strategy to Address Housing Needs**

The Authority has developed 5 overriding goals and associated objectives to address the housing needs that have been identified in this Annual Plan. These goals and objectives are in sync with those created by the State of Ohio and Columbiana County.

## 2.STATEMENTOFFINANCIALRESOURCES

### Background

*The Quality Housing and Work Responsibility Act of 1998 requires that PHAs include a statement of the financial resources available to their agency, and the planned uses of those resources. This section of the Agency Plan includes a discussion of those resources for all programs managed by the Columbiana Metropolitan Housing Authority.*

The Authority is contractually obligated to provide HUD with individual program budgets. The Authority maintains records that conform to Generally Accepted Accounting Principles (GAAP) as applicable to Federal, State and local governments.

Periodic financial reports are prepared and presented to the Board of Commissioners. Quarterly and semi-annually reporting is provided to HUD based on program requirements. An independent accounting firm performs an annual audit and issues an opinion upon examination of the financial statements and program records.

It is important to the CMHA that it become more effective, creative and entrepreneurial in its operations. To this end, the CMHA works to:

- Decrease costs through improved operations;
- Apply for grants to increase the Authority's services in the community;
- Increase the Authority's revenue through entrepreneurial activities directly related to the goals, objectives and mission of the Authority; and
- Maximize government revenues with additional federal and local government housing funds and programs where possible.

### Potential Financial Resources

*The Columbiana Metropolitan Housing Authority will periodically investigate the following financial resources to determine the viability and applicability to current and future housing programs and needs for the community.*

- Tax credit programs, both low-income and historic rehabilitation.
- Federal Government Mortgage Loan Insurance represents both multi-family and single family loans, i.e. Section 202, 203, 221(d)(3), (d)(4), CDBG (mortgage loan insurance), Title I mortgage insurance, and the HOPE Investment Partnership program.
- Bond Financing, Private Activity Bonds and Exempt Facilities Bonds have lower interest rates than conventional financing.

- Private sector Investment and lending institutions provide loans under the Community Reinvestment Act to developers of low-income housing. These private capital sources of dollars make sense on larger, more efficient projects due to the funding costs, the funding quality and predictability, and the underwriting flexibility.
- AFL-CIO Housing Investment Trust is involved in a five-year program with HUD to provide construction financing.
- Federal Home Loan Bank Program offers the Affordable Housing Program (construction purchase and/or rehabilitation of owner-occupied housing, or construction purchase and/or rehabilitation of rental housing) and Community Investment Program (construction financing, principal reduction, down-payment assistance, interest rate buy down) Programs.
- Grant opportunities:
  - ✓ Capital funds may be used for demolition, development, operating funds, renovation and new construction. These funds will be approached strategically as part of a larger revitalization and investment strategy.
  - ✓ Home Investment Partnership program funds could be used to acquire housing units, build new housing, rehabilitate rental or owner-occupied housing, provide assistance to eligible homebuyers, provide tenant-based rental assistance, establish a loan guarantee fund, perform demolition, provide necessary on-site and off-site improvements, pay relocation costs, pay administrative expenses, create or assist eligible units in mixed income or mixed use projects.
  - ✓ CDBG, as authorized under Title I of the Housing and Community Development Act (HCDA) of 1974, is used primarily for infrastructure renovation by cities, but could also be dedicated to the maintenance and production of low-income housing, as well as the issuance of mortgages. The CDBG Section 108 Loan program is a creative use of CDBG funds, where a PHA in partnership with a City, borrows against future allocations of CDBG funds.

### 3. STATEMENT OF POLICIES GOVERNING ELIGIBILITY, SELECTION AND ADMISSIONS

#### Discussion

*The Quality Housing and Work Responsibility Act of 1998 (QHWRA) requires that Authorities provide a statement of the policies governing eligibility, selection, admissions, assignment and occupancy of families with respect to public housing dwelling units, including procedures for maintaining waiting lists and a deconcentration policy. Through regulations, the U.S. Department of Housing and Urban Development has selected those areas that are to be provided in statement form. They are shown as follows*

#### Public Housing

##### 1. Eligibility

- a. The CMHA verifies eligibility at the time of the applicant interview.
- b. The CMHA conducts criminal/drug -related activity background and rental history checks.

  - a. Applicants and residents can refer to the Lease and the ACOP for information about the rules of occupancy of CMHA's public housing. Both of these documents are included in this Agency Plan.
  - b. Residents must notify the PHA of changes in family composition whenever they occur.
  
1. Deconcentration and Income Mixing
  - a. The CMHA has one (1) public housing family development that is covered by the deconcentration rule.
  - b. The rule requires that a deconcentration policy be created if any developments are below 85% or above 115% of the average incomes of all developments. Since there is only one covered property, the average income of the property is the same as the average income of the covered properties (i.e., 100%). Therefore, no further analysis or policy development is necessary or required by the rule.

## 2003 AGENCY PLAN ATTACHMENTS

### STATEMENT OF 5 YEAR GOALS

#### 1. FOCUS ON DECONCENTRATION AND MODERNIZATION OF RENTAL UNITS AND RECRUITMENT OF APPLICANTS:

We will demolish five 5 bedroom units at La Belle Terrace by December 31, 2003.

Whenever we consider modernization on our developments we take into consideration the ability to compete on the open market (i.e. heat pumps for both heat & air conditioning, new kitchens & baths, also new windows in all developments).

We will enter into an Energy Performance Contract to make our properties more energy efficient. This contract will be signed by December 31, 2003.

We continue to develop new areas to promote the Housing Authority. We advertise regularly in local publications, at agency fairs and from time to time on a monthly radio program.

#### 2. IMPROVE CUSTOMER SERVICE AND EMPLOYEE SERVICES AND SUPPORT SYSTEMS.

We constantly seek ways to assist the residents and increase our customer service. We have a monthly newsletter that contains upcoming information and names and phone numbers of staff members to contact. We have responded to residents on work orders by handling their call the same day and will continue this practice as far as possible. We have made curb appeal one of our most important items.

#### 3. PROVIDE OPPORTUNITIES FOR RESIDENTS AND ENFORCE SECURITY PROGRAMS TO PROTECT THE FAMILIES.

We partner with many service providers, including the local school system for GED training and testing, the local branch campus of Kent State University also conducts meetings to explain to residents what they have available to help them attend KSU. We have recently received funding from Columbiana County Jobs and Family Services to continue our program through December 31, 2003 and are working to secure additional funding for 2004.

We provide security guards and at our two family sites we have two full time policemen, who patrol the each development in a community policing atmosphere.

Our monthly newsletter, for all residents provide a calendar of events for their social and economic self-sufficiency.

We have signed a MOU with a non-profit entity to conduct home ownership with Section 8 Vouchers. Our goal is to have five families buy a home within the next five years.

4. UNDERTAKE AFFIRMATIVE MEASURES TO PROVIDE A SUITABLE LIVING ENVIRONMENT FOR FAMILIES LIVING IN ASSISTED HOUSING, REGARDLESS OF RACE, COLOR, RELIGION, NATIONAL ORIGIN, SEX, FAMILIAL STATUS, AND DISABILITY.

We will do this through advertisements, enforcement of lease violations and evictions for discrimination actions toward neighbors
