**DECONCENTRATION POLICY**

It is Housing Authority of Racine County's policy to provide for deconcentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments. Toward this end, we will skip families on the waiting list to reach other families with a lower or higher income. We will accomplish this in a uniform and non-discriminating manner.

The Housing Authority of Racine County will affirmatively market our housing to all eligible income groups. Lower income residents will not be steered toward lower income developments and higher income people will not be steered toward higher income developments.

Prior to the beginning of each fiscal year, we will analyze the income levels of families residing in each of our developments, the income levels of census tracts in which our developments are located, and the income levels of the families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and deconcentration incentives to implement.

**14.3 NOTIFICATION OF THE REQUIREMENT**

The Housing Authority of Racine County shall identify all adult family members who are apparently not exempt from the community service requirement.

The Housing Authority of Racine County shall notify all such family members of the community service requirement and of the categories of individuals who are exempt from the requirement. ## Wi183I03

### **Voluntary Conversion of Public Housing Developments Certification**

The Housing Authority of Racine County has reviewed the the operation of our two single family homes (project 002) and have concluded the voluntary conversion is appropriate because removal of the development meets the necessary conditions for voluntary conversion described as follows:

Not be more expensive than continuing to operate the development as public housing. During the past five years the LPH program has received operating subsidies totaling \$136,150 thru formula grants: CFP, CIAP and PFS. This amounts to an annual average subsidy of \$1791 per unit. This is necessitated because this program is very expensive to operate. Although the operating loss in these two units varies year to year primarily due to repair costs, during our most recently completed year (2001), these units occurred a \$5770 loss (excluding the formula grant). The average voucher subsidy in Racine County is \$333 a month. By converting these units to Housing Choice Vouchers we could see an overall savings to the Agency.

Principally benefit the residents of the development to be converted and the community. At present the two remaining single family units are in areas of high concentration of poverty and minority neighborhoods. By vouchering the families out we would give them the opportunity to move to more desirable areas in the community.

Not adversely affect the availability of affordable housing in the Community. The Authority already has an approved 5h homeownership plan on file with HUD. If we convert these units we would dispose of them under our approved plan which provides that these units will be made available for sale to low income families or organizations.
