This information collection is authorized by Section 511 of the Quality Housing and Work Responsibility Act, which added a new section 5A to the U.S. Housing Act of 1937 that introduced 5-year and annual PHA Plans. The full PHA plan provides a ready source for interested parties to locate basic PHA policies, rules, and requirements concerning the PHA's operations, programs, and services, and informs HUD, families served by the PHA, and members of the public of the PHA's mission and strategies for serving the needs of low-income and very low-income families. This form allows eligible PHAs to make a streamlined annual Plan submission to HUD consistent with HUD's efforts to provide regulatory relief for certain types of PHAs. Public reporting burden for this information collection is estimated to average 11.7 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. HUD may not collect this information and respondents are not required to complete this form, unless it displays a currently valid OMB Control Number.

Resident Assessment Sub-Sub-System (RASS) Follow-up Plan

The Housing Authority has developed a follow-up plan for the following indicator listed below:

Neighborhood Appearance

Management staff had met with the Resident Advisory Board to discuss the Neighborhood Appearance issue. The residents felt that the majority of the problem was due to overflowing trash around garbage enclosures. They had suggested larger bins in some of the larger clusters. Staff had agreed to reprogram some capital funds to increase the size of the enclosures so they could accommodate larger bins. Approximately seven clusters were identified where the modifications would be made and then monitored.

The Resident Advisory Board also suggested continued newsletter reminders to parents to not send small children to empty trash and regular management policing of the garbage enclosures areas.
