DECONCENTRATION POLICY

PUBLIC HOUSING:

In an ongoing effort for The Housing Authority to meet or exceed the laws and regulations regarding its public housing programs, the following Deconcentration Policy has been developed in order to comply with the Quality Housing and Work Responsibility Act of 1998, Section 513.

INCOME MIX TARGETING: To meet the requirements of the Act, and subsequent HUD regulations, at least 40 percent of families admitted to public housing by the Housing Authority must have incomes that do not exceed 30% of the area median. If 40% or more of the housing authority units are occupied by families whose incomes do not exceed 30% of the area median income, this requirement shall be considered as being met.

PROHIBITION OF CONCENTRATION OF LOW-INCOME FAMILIES: The housing authority may not, in meeting this income mix targeting, concentrate very low-income families, or other families with relatively low incomes, in public housing units in certain developments. The Housing Authority will review the income and occupancy characteristics of the housing site to ensure that a low-income concentration does not occur.

DECONCENTRATION: The Housing Authority shall make every effort to deconcentrate families of certain income characteristics within the PHA complexes. To achieve this, the Housing Authority may offer incentives for eligible families having higher incomes to occupy dwelling units in projects predominantly occupied by eligible families having lower incomes. At this time the family developments have homogeneous average incomes. They vary only from \$6,500 per year to \$9,500 per year. As all average income for families is lower than 30% of the median income of our area our goal is to attract higher income residents at Evergreen.

We will offer incentives to any families who have incomes above 30% of the median income. These incentives will include a single person could rent a 2-bedroom apartment, each family member could have their own bedroom, and we could reduce the monthly rent by utilizing additional deductions when determining rent. Those additional deductions would include travel costs to work, uniforms, union dues, and income tax deductions. Incentives by the Housing Authority allow for the eligible family to have the sole discretion in determining whether to accept the incentive and the agency may not take any adverse action toward any eligible family for choosing not to accept these incentives. The skipping of a family on the waiting list to reach another family to implement this Deconcentration Policy shall not be considered an adverse action. As such, the Housing Authority will continue to accept applications and place the individuals on a waiting list. Selection will be made based on a combination of the local preferences and an income target mix. Any eligible family who qualifies as a higher income family may accept a dwelling unit assignment and be placed randomly into a vacant housing unit.

The Housing Authority will track the income mix within each project and housing site, as an effort to avoid a concentration of higher or lower income families in any one development. The HUD FY 2003 Income Limits and Fair Market Rent Data show the Median Income for

Bloomington is \$55450 for a family of four. Thirty (30) percent of the median income is \$20800.

Thirty (30) percent of the Median Income per number in a household is as follows:

Number of Persons	1	2	3	4	5	6	7	8
Amount	14550	16650	18700	20800	22450	24100	25800	27450

The Housing Authority of the City of Bloomington has 633 units of Low Rent housing available. Per the QHWRA of 1998, forty (40) percent of the newly leased units must be housed with families with incomes 30% or less of the median income.

Efforts through marketing and outreach shall be made to increase the number of families with incomes greater than thirty (30) percent of median income at Evergreen. We will do this in order to avoid concentrations of very low-income families in the projects as per the requirements of the QHWRA of 1998.

Progress Statement

The Housing Authority of the City of Bloomington continues to strive and work toward meeting the mission and goals of the agency's 5-Year Plan. The plan, statements, budget summary, and policies set forth in the Annual Plan all lead towards the accomplishment of our goals and objectives.

The mission of the Housing Authority is to provide quality affordable housing opportunities and services. We were able to accomplish several of the goals of the 5-Year Plan last year and establish bench marks for future progress.

Areas of accomplishments for FY 2003 include, but are not limited to, the expansion of assisted housing by applying for additional rental vouchers. The Housing Authority, in collaboration with the McLean County Housing Authority, has applied for 198 enhanced vouchers. These vouchers will initially assist eligible families that currently received housing assistance in a development that owners have opted out of a Section 8 project-based contract. When a family decides to either move from the affected development or no longer participates in the voucher program, the enhanced voucher will become a regular voucher. This will eventually provide more available vouchers for family from our waiting list to utilize. Ultimately providing more rental vouchers for the community.

We have also established a not-for-profit as a separate entity of the Housing Authority. The McLean County Partnership for Revitalization has applied for the 501(c)(3) status. The board consists of two members from the Housing Authority, a member of the local government, Youthbuild Director and bank. We are working with a developer to finalize plans to build an affordable housing development.

We continue to provide training and educational programs to our residents of public housing and assisted housing. The CNA program will have its first graduates this fall. The Business Essential Computer Program continues to be a successful training program. Along with the computer program, we have developed computer labs in three of our housing sites for residents to use for job search, tutoring and a safe harbor for the youth of public housing. A graduate of the Business Essential Computer program and resident supervises it in one of our developments.

All these plans, statements, budget summaries and policies lead towards the accomplishments of our goals and objectives. Taken as a whole, they outline a comprehensive approach towards our mission. In summary, we are on course in meeting the goals of our PHA Plan.

Section 2: PHDEP Plan Goals and Budget

A. PHDEP Plan Summary

In the space below, summarize the PHDEP strategy to address the needs of the target population/target area(s). Your summary should briefly identify: the broad goals and objectives, the role of plan partners, and your system or process for monitoring and evaluating PHDEP-funded activities. This summary should not exceed 5-10 sentences.

Our Public Housing Drug Elimination Program uses a community-wide approach to achieve the goal of eliminating drugs and drug-related crime in public housing. The program has many participants from the community and great support from residents, Resident Councils, the police department, and local social service agencies. We have designed program activities to directly address the crime statistics supplied by the Bloomington Police Department for each targeted site and to also address the safety concerns of our residents. We will evaluate the PHDEP on an “outcomes” basis using tools designed by the University of Illinois and Illinois State University. Each activity in the grant will be evaluated using previously established goals and objectives.
