The definition of significant amendment is important because it defines when the PHA will subject a change to the policies or activities described in the Annual Plan to full public hearing and HUD review before implementation.

Substantial Deviation from the 5-Year Plan: The Authority defines a : substantial deviation” as any deletion or addition of any modernization work item, addition or deletion of any new or old program or activity, changes with regard to demolition or disposition, designation, homeownership programs or conversion activities, any changes made to rent, admission or wait list policies or changes made to any section of the Annual or 5-Year Plan.

Significant Amendment or Modification to the Annual Plan: The Authority defines “significant amendment” as a change in the use of replacement reserves under the Capital Funds program or the addition of non-emergency work items not included in the current Annual Plan.

- **An exception to this definition will be made for any of the above that are adopted to reflect changes in HUD regulatory requirement.**

Housing Needs

Public Housing

We continue to have a wait list for all units, but the 4 and 5 bedroom wait list is never as long as other size units. Our biggest problem now seems to be persons who apply and then fail to respond to our notices or prove preferences. We have amended our wait list policy this year and are now only giving preference to Gallia County residents (or those who go to school or work in the county) and those displaced by federal disaster. We believe this will result in a smoother and more timely admittance rate.

Section 8

Our numbers were not steady enough for us to think about applying for more units. With new regulations will over lease only minimally but still strive to have 100% occupancy by years end. As of September, 2003 we have been at 100% or over for many months. Our wait list preferences have been amended which we think will allow for smoother and quicker method in issuing vouchers.

Homeownership

As of September, 2003 we have sold 15 of the 23 homes in our 5h program. We expect to sell one more before years end. The last 14 houses have been sold with funding coming from Rural Development. We advertise in the newspaper and by signs on the homes throughout the year and send letter to area agencies and businesses once or twice a year.

Attachment I

Grievance Procedure

Our grievance procedure as adopted in 1999 and amended in July, 2000 is still in force. There have been no further changes.

Attachment J

Audit

Our 2002 audit has was submitted through REAC on September 10, 2003. To our knowledge there were no findings or recommendations. A copy of the audit, if available, will be sent with the hard copy of the 2004 Annual Plan when it is submitted to the Columbus Office by US Mail.

Attachment K

Policy and Program Changes

Our amended ACOP and ADMIN Plan are attached.

Attachment L

Consistency with Consolidated Plan

We are consistent with the Plan by providing safe, decent and sanitary housing to low income families in Gallia County and by promoting homeownership opportunities to same.

DECONCENTRATION POLICY

The PHA policies governing eligibility, selection, and admissions required as a part of the Annual Plan must provide for deconcentration of poverty and income-mixing by bringing higher income tenants into lower income projects and lower income tenants into higher income projects.

At this time Gallia MHA has two projects. There is no significant difference in the income of the tenants in either project

If the income of one project appears to be changing into one with either more lower or higher income tenants, the following policy will be followed:

In order to encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments, GMHA will skip families on the waiting list to reach other families with a lower or higher income. We will accomplish this in a uniform and non-discriminating manner.

GMHA will affirmatively market our housing to all eligible income groups. Lower income residents will not be steered toward lower income developments and higher income people will not be steered toward higher income developments.

Prior to the beginning of each fiscal year, we will analyze the income levels of families residing in each of our developments, the income levels of census tracts in which our developments are located (if available) and the income levels of the families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and deconcentration incentives to implement.

Gallia MHA may consider offering one or more incentive to encourage applicant families whose income classification would help to meet the deconcentration goals of a particular development. Any incentive will be based on the financial situation of the Authority at that time. Various incentives may be used at different time, or under different condition, but will always be provided in a consistent and nondiscriminatory manner.

Resolution 99-05**

Attachment N

Conversion: GMHA has two developments. GME 100 units and RGE 40 units. Our review indicated that converting to vouchers would be more expensive than operating the units as public housing; would not benefit residents in any way, other than allowing them to transfer the vouchers to other counties or states; and would affect the availability of limited affordable housing in Gallia County - vouchers could be used on property currently rented by residents who do not qualify for vouchers and are paying market rent. Documentation of our figures is available in our Office.
