[24 CFR Part 903.7 9 (r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

EXECUTIVE SUMMARY

The main purpose of the 2004 Annual Plan is to report program information, policies, procedures and upcoming changes for the fiscal year. It also acts as a progress report, in the pursuance of accomplishing goals and objectives set forth by the 5-Year PHA Plan. Among the goals set forth by the 5-Year Plan are: reducing the number of families on the Section 8 waiting list, maintaining SEMAP score as a high performer PHA with lease up rate of one hundred percent, continuing to limit the number of delinquent certifications and inspections, and improving the quality of the housing program.

Housing Needs

Factors such as affordability, size and location of housing have a severe impact on housing needs of families with low income, disabilities, health problems and/or lack of mobility. These family types are rated accordingly in the Housing Needs of families in the Jurisdiction by Family Type Table.

Strategies will continue to be used to address the needs for the extremely low income and very low-income families, also maintaining the lease up rate a one-hundred percent and increasing the number of housing units.

Strategies to aggressively increase the number of vouchers will be pursued by HCHA. These include obtaining vouchers targeted for the elderly and disabled as notice of funding becomes available.

Family Self Sufficiency (FSS) Program

The Family Self Sufficiency Program is administered by HCHA. HCHA delivers a multi-dimensional program of support services that allows participants to move from economic dependence.

The FSS program currently has 44 participants. The FSS participants have 64% employment, and 36% in training or seeking employment. Four families have graduated from the program and one has purchased a home with the remaining in the process of homeownership.

With the continuation of home visits and workshops for the FSS participants, HCHA anticipates the continued success of the FSS program.

Section 8 Housing Choice Voucher Program

The Section 8 waiting list was opened in January 2003 with 1000 applicants. HCHA as admitted 227 new applicants from the waiting list to bring the lease up rate to 100 %. HCHA will continue to keep the lease up rate at 100%.

Additional staff of a housing counselor, inspector and, relocation specialist, have been employed to continue to improve the limitations on delinquent certifications and inspections. Continued training of all staff is scheduled for 2004.

As of November 1, 2003, the payment standards were increased to an amount equal to the HUD Fair Market Rents. In determining these payment standards, HCHA used successful rates of families, rent burden, increased market rates, private sector compatibility and availability of housing units.

Attachment B: Statement of Progress towards PHA 5-Year Goals and Objectives

During the time since the inception of the 2000 PHA 5-Year Plan and the PHA Annual Plan, improvements have been made in the pursuit of the goals and objective set forth by the 5-Year Plan.

PHA Goal: Expand the Supply of Assisted Housing

During the current fiscal year, the Harris County Housing Authority (HCHA) made significant progress on the lease up rate to total 100%. With the opening of the waiting list in January 2003 more families have been assisted through the Section 8 Housing Choice Voucher Program. There have been a total of 227 newly admitted families from the waiting list. HCHA's goal is to maintain a waiting list in which all applicants will be assisted in two years.

The HCHA has modified the local preferences to include disabled/handicapped families.

Strategies to aggressively increase the number of housing choice vouchers, including special purpose vouchers targeted for the elderly and the disabled, will be pursued by appropriately responding to all Notices of Funding Available (NOFA's) during the year 2004.

PHA Goal: Improve the Quality of Assisted Housing.

Extensive training and certification will continue for most of the HCHA staff to improve the quality of assisted housing. The training will expand the knowledge that the experienced staff has acquired through years of service to Harris County residents and bring the staff up to date on current housing procedures and changes.

Customer service and satisfaction will continue with the addition of three case managers. The caseload has been redistributed as of November 1, 2003 to improve the quality of service to applicants and housing participants for the current and upcoming fiscal year.

The quality of the HCHA housing stock has continued to improve. Inspections for annual certifications are being performed within the term of the housing contract with the addition of a new inspector in October 2003. Annual inspections ensure that the quality of the housing units is being maintained.

PHA Goal: Increase Assisted Housing Choices

To increase housing choices for HCHA assisted housing participants, the voucher payment standards are reviewed annually. Increased market rents, compatibility with the private sector and availability of units are considered when reviewing the payment standards. The payment standards were increased to 100% of the current Fair Market Rents (FMRs) effective November 1, 2003. Assisted housing rents continue to be compatible with private sector rents providing increased housing choices for HCHA participants.

Harris County Housing Authority Statement of Progress

HCHA has increased housing choices through the addition of a relocation specialist, which assist families to locate a unit during the moving process. The HCHA also increased housing choices through a landlord briefing performed in September 2003. The purpose of this landlord briefing was to inform landlords of program changes and help market to areas outside poverty areas. Another landlord briefing is scheduled for the fiscal year 2004.

PHA Goal: Provide an Improved Living Environment

FSS

Section 8 families face a number of challenges on the road to economic independence and homeownership. They may lack the education, job experience, and knowledge of household financial management and self-confidence to successfully move from dependency to self-sufficiency. Some also face difficult personal obstacles, including difficulties raising children, health care problems, lack of transportation and childcare. HCHA delivers a multi-dimensional program of support services that allows program participants to break the cycle of poverty and make the transition to economic independence and homeownership. Training seminars and workshops for clients are presented on a regular basis through Family Pathfinders, Consumer Credit Counseling, Houston Community College and other organizations. These organizations provide financial and home management counseling, basic education, parenting and life-training skills for FSS participants.

The FSS program also implemented home visits and workshops for program participants and their children. The goal is to bring youth programs and services together to create a stronger connection between academic and occupational learning while providing activities specifically geared toward youth development. This includes follow-up services that are essential to the operation of an effective FSS program.

The HCHA FSS program currently has 44 participants, with 64% currently employed. The other 36% are currently seeking employment or attending training. There are a total of 34 families currently accumulating funds in an escrow savings account, which may be used toward the purchase of a home.
