B. Strategy for Addressing Needs

Provide a brief description of the PHA's strategy for addressing the housing needs of families on the PHA's public housing and Section 8 waiting lists **IN THE UPCOMING YEAR**, and the Agency's reasons for choosing this strategy.

To address the housing needs of jurisdictional families and those on our waiting lists we will continue to optimize unit turnaround time for units offline due to maintenance, mod, vacancy, or other reason.

(1) Strategies

Need: Shortage of affordable housing for all eligible populations

Strategy 1. Maximize the number of affordable units available to the PHA within its current resources by:

Select all that apply

- Employ effective maintenance and management policies to minimize the number of public housing units off-line
- Reduce turnover time for vacated public housing units
- Reduce time to renovate public housing units
- Seek replacement of public housing units lost to the inventory through mixed finance development
- Seek replacement of public housing units lost to the inventory through section 8 replacement housing resources
- Maintain or increase section 8 lease-up rates by establishing payment standards that will enable families to rent throughout the jurisdiction
- Undertake measures to ensure access to affordable housing among families assisted by the PHA, regardless of unit size required
- Maintain or increase section 8 lease-up rates by marketing the program to owners, particularly those outside of areas of minority and poverty concentration
- Maintain or increase section 8 lease-up rates by effectively screening Section 8 applicants to increase owner acceptance of program
- Participate in the Consolidated Plan development process to ensure coordination with broader community strategies
- Other (list below)

Strategy 2: Increase the number of affordable housing units by:

Select all that apply

- Apply for additional section 8 units should they become available
- Leverage affordable housing resources in the community through the creation of mixed - finance housing
- Pursue housing resources other than public housing or Section 8 tenant-based assistance.
- Other: (list below)

Need: Specific Family Types: Families at or below 30% of median

(6) Deconcentration and Income Mixing

XIX. Deconcentration Rule

A. Objective:

The objective of the Deconcentration Rule for public housing units is to ensure that families are housed in a manner that will prevent a concentration of poverty families and/or a concentration of higher income families in any one development. The specific objective of the HA is to house no less than 40 percent of its public housing inventory with families that have income at or below 30% of the area median income by public housing development. Also the HA will take actions to insure that no individual development has a concentration of higher income families in one or more of the developments. The HA will track the status of family income, by development, on a monthly basis by utilizing income reports generated by the HA's computer system.

B. Exemptions:

The following are exempt from this rule.

- Public housing development with fewer than 100 public housing units. A covered development is defined as any single development or contiguous developments that total over 100 units.
- Public housing developments, which house only elderly persons or persons with disabilities, or both.
- Public housing developments, which consist of only one general occupancy family public housing development.
- Public housing developments approved for demolition or conversion to resident-based assistance.
- Mixed financing developments.

C. Actions:

To accomplish the deconcentration goals, the HA will take the following actions:

1. At the beginning of each HA fiscal year, the HA will establish a goal for housing 40% of its new admissions with families whose incomes are at or below the area median income. The annual goal will be calculated by taking 40% of the total number of move-ins from the previous HA fiscal year.
2. To accomplish the goals of deconcentration:
 - (a) Not less than 40% of the HA admissions on an annual basis shall be to families that have incomes at or below 30% of area median income (extremely low-income), and
 - (b) The HA shall determine the average income of all families residing in all the HA's covered

developments. The HA shall determine the average income of all families residing in each covered development. In determining average income for each development, this HA has adjusted its income analysis for unit size in accordance with procedures prescribed by HUD. The HA shall determine whether each of its covered developments falls above, within or below the established income range. The established income range is from 85 to 115 percent (inclusive) of the average family income, except that the upper limit (115 percent) shall never be less than the income at which a family would be defined an extremely low-income family.

NOTE: To calculate the extremely low-income figure: Find the average family size (HA wide) of the covered developments and extrapolate the amount from the HUD published extremely low-income limits. For example, if the average family size is 2.6, the two-person limit may be \$12,400 and the three-person limit may be \$13,950. Therefore, the figure will be \$12,400 plus 60% of the difference between the two figures, which is \$13,330. This figure will be recalculated upon receipt of new HUD determined income limits.

NOTE: Fair housing requirements. All admission and occupancy policies for public housing programs must comply with Fair Housing Act requirements and with regulations to affirmatively, further fair housing. The HA may not impose any specific income or racial quotas for any development or developments.

a. Yes No: Does the PHA have any general occupancy (family) public housing developments covered by the deconcentration rule? If no, this section is complete. If yes, continue to the next question.

b. Yes No: Do any of these covered developments have average incomes above or below 85% to 115% of the average incomes of all such developments? If no, this section is complete. If yes, list these developments on the following table:

Deconcentration Policy for Covered Developments

9. Additional Information

[24 CFR Part 903.12 (b), 903.7 (r)]

A. PHA Progress in Meeting the Mission and Goals Described in the 5-Year Plan

(Provide a statement of the PHA's progress against the goals and objectives established in the previous 5-Year Plan for the period FY 1999 - 2004.)

A. Five Year Plan Progress Report

The provisions of our mission statement are, in brief, to provide affordable, copasetic housing, promote resident economic opportunity and an environment free from discrimination while and if given continued, full and adequate levels of funding from HUD. In keeping within the framework of our mission, the included goals and strategic objectives in our Five Year Plan have provided the opportunity to review those priorities relevant to our objectives.

As we approach the inception of our new fiscal year we can report that our overall supply of available assisted housing has improved with 285 of our units currently viable in our housing stock, 50 in mod status, and 2 vacancies. It will continue to be a top priority for us to maintain or better our percentages to expand our available supply. We believe that following the course we have set has improved our PHAS and SEMAP scores defining AHA as a high performer and, thereby, increasing customer satisfaction in those we serve. Our mod program remains on schedule with a well trained, experienced, professional crew producing both timely and quality work.

Extensive outreach efforts to potential voucher landlords in our community has produced a 100% lease up rate and a 2004 SEMAP score of 100. It is our objective to maintain this score in continuing service to our residents. As necessary, meetings are conducted with potential S8 landlords to further explain and answer any questions that may arise in regard to specific program issues.

Neither our site nor development wide statistical analysis of income describes any areas within our housing stock showing concentrated poverty or levels of high income. All sites reflect an income mix within provided guidelines for deconcentration. Both the current measures in place and the pool of prospective tenants provide an adequate compositional mix.

It is programmatic at this HA to promote responsible self-sufficiency and asset development to all individuals and families. Available resident supportive services on site or those provided locally to

help improve recipient employability are advertised to those we assist. GED programs and others of educational or skills building intent are also informationally provided to our tenants. All assisted recipients are encouraged to avail themselves of the on site opportunity to participate in weekly health care screenings provided by Auburn University School of Nursing third year students. This cooperative partnership embracing community-based health care has been a lauded program with both our elderly and other assisted recipients. The youth in our community may take part in a performing arts program designed to culturally enrich and enhance their knowledge of the arts. This program is another cooperative effort with the University.

The policies and programs of AHA have been legally examined and certified to be discrimination free. At all times, affirmative measures to insure equal housing opportunity are exercised. We are, additionally, a HUD certified Housing Counseling agency with extended services in a five county area.
