REAC FOLLOW-UP PLAN

The Housing Authority recently received its Resident Assessment from REAC. The assessment indicated follow-up action to increase the average score in the areas of neighborhood appearance and communication. While the Housing Authority is making every effort to meet the requirements, we have developed an action plan to improve the above ratings as follows:

- Establish systems to monitor and evaluate communication and neighborhood appearance on a daily basis;
- Conduct quarterly meetings with resident on issues regarding the above and the receiving of suggestions and recommendations;
- Daily inspection of grounds and buildings; and
- Planning sessions for improvements.

The Follow-Up Plan activities has been implemented and certified.

The Communication Follow-up Plan consist of the following actions and directives:

We have established a system to monitor and evaluate communication on a daily basis;

We meet with residents and resident advisory board on issues and receive suggestions and recommendations;

A newsletter is provided with information and events; and

Employees attend resident organization meetings on as needed basis. During these regularly scheduled meetings residents concerns will be addressed, residents will be informed of planned renovations, and residents will be encouraged to become involved and provide input in policy development.

The Neighborhood Appearance Follow-up Plan consist of the following actions and directives:

Florence Housing Authority's goal is to better maintain its Public Housing communities and enhance all residents quality of life through proper maintenance, preventive maintenance and capital improvements. The Authority will strive to make its developments compliment the surrounding communities and unsure that there is not a clear line that defines the borders of Public Housing due to perpetual problems, such as litter, broken glass and vandalism. The Authority has in place a process for residents to contact the maintenance department for work orders or to report common area repairs. Residents will be involved if new solutions are needed for existing and/or long term problems. The Authority's management has a strong commitment to responding in a timely and professional manner to appearance problems in all Public Housing communities.

The following outlines actions and efforts to be initiated by the Authority:

- 1) Communicate with impacted Public Housing residents either in resident meetings or individually regarding their concerns and perceptions of their Public Housing neighborhood's appearance. It is the goal of the Authority to improve the problems identified by the residents so as to increase their satisfaction with their living environment and the management of the Authority's operation.
- 2) Implement a system for dealing with vacant apartments.
- 3) Exterminate pests regularly and on an as-needed basis.
- 4) Implement weekly trash days on which large items can be picked up.
- 5) Be proactive about improving the appearance of the Public Housing neighborhoods. Do an assessment (at least visual) of each community on a regular basis. Involve Public Housing administrative and maintenance staff in the inspection process.
- 6) Encourage resident reporting of problem areas. Enforce all related lease provisions, which concern maintaining clean yards, vandalism, graffiti and objects on porches.
- 7) Eliminate graffiti within 24 hours of report to the Authority's Work Center Coordinator.

Maintenance Plan

The Housing Authority has an adopted Maintenance Plan that contains rules, standards and policies governing maintenance and management of its public housing developments. The plan also includes a policy for the prevention and eradication of pest infestation, including cockroach. The Maintenance Plan is posted on the bulletin board and available for public review.

SECTION XXVI.
DECONCENTRATION RULE

1. Objective: The objective of the Deconcentration Rule for public housing units is to ensure that families are housed in a manner that will prevent a concentration of poverty families and/or a concentration of higher income families in any one development. The specific objective of the housing authority is to house no less than 40 percent of its public housing inventory with families that have income at or below 30% of the area median income by public housing development. Also the housing authority will take actions to insure that no individual development has a concentration of higher income families in one or more of the developments. The housing authority will track the status of family income, by development, on a monthly basis by utilizing income reports generated by the housing authority's computer system.

2. Exemptions. The following are exempt from this rule.
 - Public housing development with fewer than 100 public housing units. A covered development is defined as any single development or contiguous developments that total over 100 units.
 - Public housing developments which house only elderly persons or persons with disabilities, or both.
 - Public housing developments which consist of only one general occupancy family public housing development.
 - Public housing developments approved for demolition or conversion to tenant-based assistance.
 - Mixed financing developments.

3. Actions: To accomplish the deconcentration goals, the housing authority will take the following actions:
 - A. At the beginning of each housing authority fiscal year, the housing authority will establish a goal for housing 40% of its new admissions with families whose incomes are at or below the area median income. The annual goal will be calculated by taking 40% of the total number of move-ins from the previous housing authority fiscal year.

 - B. To accomplish the goals of:
 - (1) Housing not less than 40% of its public housing inventory on an annual basis with families that have incomes at or below 30% of area median income, and
 - (2) The HA shall determine the average income of all families residing in all the HA's covered developments. The HA shall determine the average income of all families residing in each covered development. In determining average income for each development, this HA has adjusted its income analysis for unit size in accordance with procedures prescribed by HUD. The HA shall determine whether each of its covered developments falls above, within or below the Established Income Range. The Established Income Range is 85 percent to 115 percent (inclusive of 85 percent and 115 percent) of the HA-wide average income for covered developments.

Fair housing requirements. All admission and occupancy policies for public housing programs must comply with Fair Housing Act requirements and with regulations to affirmatively further fair housing. The HA may not impose any specific income or racial quotas for any development or developments.

FLORENCE HOUSING AUTHORITY SECTION 8 HOMEOWNERSHIP PROGRAM CAPACITY STATEMENT

The Florence Housing Authority affirms that it has the capacity to successfully operate and administer a Section 8 Homeownership Program. The Authority hereby demonstrates this ability by acknowledging that it has adopted as part of its Section 8 Homeownership Program policy the following two (2) provisions:

- a) A minimum homeowner downpayment requirement of at least 3 percent with at least 1 percent of the downpayment coming from the family's resources is required of all program participants.
- b) Financing for purchase of a home under the Authority's Section 8 Homeownership Program is required to be provided, insured or guaranteed by the State or Federal government, must comply with secondary mortgage market underwriting requirements; or must comply with generally accepted private sector underwriting standards.

ATTACHMENT “G”

This is to certify that The Florence Housing Authority has reviewed each development operating as public housing; considered the implications of converting the public housing to tenant-based assistance ; and concluded that conversion may be inappropriate because removal of the developments would not meet the necessary conditions for voluntary conversion.

That the initial assessment indicated that 1) cost would be a factor; 2) the ability to occupy the developments; 3) cost and/ or workability of vouchers in the community and 4) other relevant factors that voluntary conversion may be inappropriate.

Component 10 (B) Voluntary Conversion Initial Assessments

- a. How many of the PHA’s developments are subject to the Required Initial Assessments? 4

- b. How many of the PHA’s developments are not subject to the Required Initial Assessments based on exemptions (e.g., elderly and/or disabled developments not general occupancy projects)? 3 Sites

- c. How many Assessments were conducted for the PHA’s covered developments? 1

- d. Identify PHA developments that may be appropriate for conversion based on the Required Initial Assessments:

Development Name	Number of Units
NONE	

- e. If the PHA has not completed the Required Initial Assessments, describe the status of these assessments. Completed

THEREFORE, the Housing Authority has determined that our developments are not appropriate for conversion based on the following reasons:

1. Conversion **would be** more expensive than continuing to operate the developments (or a portion of it) as public housing;
2. Conversion **would not** principally benefit residents of the public housing development to be converted and the community; and
3. Conversion **would** adversely affect the availability of affordable housing in the community.

The Housing Authority does not plan to demolish or dispose of any public housing units;

Public Housing developments accounts for a large percentage of the housing stock in the community and would effect the availability of affordable housing in the community; and

Conversion would not benefit the residents due to the limited housing stock in the community and the current programs/services being offered by the housing authority. Additionally, our public housing developments are equal to or above existing housing stock in the community;
