- Other (list below) **Maximize Lease-up of HCV to the extent possible under current funding restraints**

**Strategy 2: Increase the number of affordable housing units by:**

Development Name	Number of Units	Explanation (if any) [see step 4 at §903.2(c)(1)(iv)]	Deconcentration policy (if no explanation) [see step 5 at §903.2(c)(1)(v)]

**Excerpt from the Admissions and Continued Occupancy Policy  
 Enterprise Housing Authority  
 Policy concerning Deconcentration**

**SECTION XXVI. DECONCENTRATION RULE**

1. Objective: The objective of the Deconcentration Rule for public housing units is to ensure that families are housed in a manner that will prevent a concentration of poverty

families and/or a concentration of higher income families in any one development. The specific objective of the housing authority is to house no less than 40 percent of its public housing inventory with families that have income at or below 30% of the area median income by public housing development. Also the housing authority will take actions to insure that no individual development has a concentration of higher income families in one or more of the developments. The housing authority will track the status of family income, by development, on a monthly basis by utilizing income reports generated by the housing authority's computer system.

2. Exemptions. The following are exempt from this rule.
  - Public housing development with fewer than 100 public housing units. A covered development is defined as any single development or contiguous developments that total over 100 units.
  - Public housing developments which house only elderly persons or persons with disabilities, or both.
  - Public housing developments which consist of only one general occupancy family public housing development.
  - Public housing developments approved for demolition or conversion to tenant-based assistance.
  - Mixed financing developments.
  
3. Actions: To accomplish the deconcentration goals, the housing authority will take the following actions:
  - A. At the beginning of each housing authority fiscal year, the housing authority will establish a goal for housing 40% of its new admissions with families whose incomes are at or below the area median income. The annual goal will be calculated by taking 40% of the total number of move-ins from the previous housing authority fiscal year.
  
  - B. To accomplish the goals of deconcentration:
    - (1) Not less than 40% of the HA admissions on an annual basis shall be to families that have incomes at or below 30% of area median income (extremely low-income), and
  
    - (2) The HA shall determine the average income of all families residing in all the HA's covered developments. The HA shall determine the average income of all families residing in each covered development. In determining average income for each development, this HA has adjusted its income analysis for unit size in accordance with procedures prescribed by HUD. The HA shall determine whether or not each of its covered developments falls above, within or below the established income range. The established income range is from 85 to 115 percent (inclusive) of the average family income, **except that the upper limit (115 percent) shall never be less than the income at which a family would be defined an extremely low-income family.**

**Note:**

To calculate the extremely low-income figure: Find the average family size (HA wide) of the covered developments and extrapolate the amount from the HUD published extremely low-income limits. For example, if the average family size is 2.6, the two person limit may be \$12,400 and the three person limit may be \$13,950. Therefore, the figure will be \$12,400 plus 60% of the difference between the two figures, which is \$13,330. This figure will be recalculated upon receipt of new HUD determined income limits.

Fair housing requirements. All admission and occupancy policies for public housing programs must comply with Fair Housing Act requirements and with regulations to affirmatively further fair housing. The HA may not impose any specific income or racial quotas for any development or developments.
