- Other: (describe)

b. Which non-income (screening) factors does the PHA use to establish eligibility for admission to public housing (select all that apply)?

- Criminal or Drug-related activity
- Rental history
- Housekeeping
- Other (describe)

The following statement from our adopted Admissions and Continued Occupancy Policy describes our policy regarding non income screening factors:

8.3 *SUITABILITY*

- A. Applicant families will be evaluated to determine whether, based on their recent behavior, such behavior could reasonably be expected to result in compliance with the public housing lease. The West Point Housing Authority will look at past conduct as an indicator of future conduct. Emphasis will be placed on whether a family's admission could reasonably be expected to have a detrimental effect on the development environment, other tenants, West Point Housing Authority employees, or other people residing in the immediate vicinity of the property. Otherwise eligible families will be denied admission if they fail to meet the suitability criteria.
- B. The West Point Housing Authority will consider objective and reasonable aspects of the family's background, including the following:
 - 1. History of meeting financial obligations, especially rent and any utility payments;
 - 2. Ability to maintain (or with assistance would have the ability to maintain) their housing in a decent and safe condition based on living or housekeeping habits and whether such habits could adversely affect the health, safety, or welfare of other tenants;
 - 3. History of criminal activity by any household member involving crimes of physical violence against persons or property and any other criminal activity including drug-related criminal activity that

would adversely affect the health, safety, or well being of other tenants or staff or cause damage to the property;

4. History of disturbing neighbors or destruction of property;
5. Having committed fraud in connection with any Federal housing assistance program, including the intentional misrepresentation of information related to their housing application or benefits derived there from; and
6. History of abusing alcohol in a way that may interfere with the health, safety, or right to peaceful enjoyment by others.

C. The West Point Housing Authority will ask applicants to provide information demonstrating their ability to comply with the essential elements of the lease. The West Point Housing Authority will verify the information provided. Such verification may include but may not be limited to the following:

1. A credit check of the head, spouse, co-head, and any other adult family members;
2. A rental history check of all adult family members;
3. A criminal background check on all adult household members, including live-in aides at no cost to the applicant. This check will be made through State or local law enforcement or court records in those cases where the household member has lived in the local jurisdiction for the last three years. Where the individual has lived outside the local area, the West Point Housing Authority may contact law enforcement agencies where the individual had lived or request a check through the FBI's National Crime Information Center (NCIC). This criminal background check will proceed after each adult household member has signed a consent form designed by the West Point Housing Authority.

The information received as a result of the criminal background check shall be used solely for screening, lease enforcement and eviction purposes. The information derived from the criminal background check shall be shared only with employees of the West Point Housing Authority who have a job-related need to have access to the information. The information shall be maintained confidentially, not misused or improperly disseminated, and destroyed once the purpose(s) for which it was requested has been accomplished and the period for filing a challenge to the West Point Housing Authority's action has expired without a challenge or final disposition of any litigation has occurred;

4. A home visit. The home visit provides the opportunity for the

family to demonstrate their ability to maintain their home in a safe and sanitary manner. This inspection considers cleanliness and care of rooms, appliances, and appurtenances. The inspection may also consider any evidence of criminal activity; and

5. A check of the State's lifetime sex offender registration program for each adult household member, including live-in aides. No household with an individual registered under a State sex offender registration will be admitted to public housing. The West Point Housing Authority will check with our State registry and if the applicant has resided in another State(s), with that State(s)'s list.

If an applicant is about to be denied housing based on either the criminal check or the sex offender registration program, the applicant will be informed of this fact and given an opportunity to dispute the accuracy of the information before the denial or eviction occurs.

Generally, no more than one opportunity will be given to reschedule without good cause, and no more than two opportunities will be given for good cause. When good cause exists for missing an appointment, the West Point Housing Authority will work closely with the family to find a more suitable time. Applicants will be offered the right to an informal review before being removed from the waiting list.

b. Yes No: Is this policy consistent across all waiting list types?

c. If answer to b is no, list variations for any other than the primary public housing waiting list/s for the PHA:

(4) Admissions Preferences

a. Income targeting:

Yes No: Does the PHA plan to exceed the federal targeting requirements by targeting more than 40% of all new admissions to public housing to families at or below 30% of median area income?

b. Transfer policies:

In what circumstances will transfers take precedence over new admissions? (list below)

- Emergencies
- Overhoused
- Underhoused
- Medical justification
- Administrative reasons determined by the PHA (e.g., to permit modernization work)
- Resident choice: (state circumstances below)
- Other: (list below)

The following is a statement from our adopted Admissions and Continued Occupancy Policy regarding transfers:

16.0 UNIT TRANSFERS

16.1 OBJECTIVES OF THE TRANSFER POLICY

The objectives of the Transfer Policy include the following:

- A. To address emergency situations.
- B. To fully utilize available housing resources while avoiding overcrowding

by ensuring that each family occupies the appropriate size unit.

- C. To facilitate a relocation when required for modernization or other management purposes.
- D. To facilitate relocation of families with inadequate housing accommodations.
- E. To provide an incentive for families to assist in meeting the West Point Housing Authority's deconcentration goal, if appropriate.
- F. To eliminate vacancy loss and other expenses due to unnecessary transfers.

16.2 CATEGORIES OF TRANSFERS

Category A: Emergency transfers. These transfers are necessary when conditions pose an immediate threat to the life, health, or safety of a family or one of its members. Such situations may involve defects of the unit or the building in which it is located, the health condition of a family member, a hate crime, the safety of witnesses to a crime, or a law enforcement matter particular to the neighborhood.

Category B: Immediate administrative transfers. These transfers are necessary in order to permit a family needing accessible features to move to a unit with such a feature or to enable modernization, revitalization, disposition or demolition work to proceed.

Category C: Regular administrative transfers. These transfers are made to offer incentives to families willing to help meet certain West Point Housing Authority occupancy goals, to correct occupancy standards where the unit size is inappropriate for the size and composition of the family, to allow for non-emergency but medically advisable transfers, and other transfers approved by the West Point Housing Authority when a transfer is the only or best way of solving a serious problem.

16.3 DOCUMENTATION

When the transfer is at the request of the family, the family may be required to provide third party verification of the need for the transfer.

16.4 INCENTIVE TRANSFERS

Transfer requests will be encouraged and approved for families who live in a development where their income category (below or above 30% of area median) predominates and wish to move to a development where their income category does not predominate.

4. The Consolidated Plan of the jurisdiction supports the PHA Plan with the following actions and commitments: (describe below)

Executive Summary

The Consolidated Plan Executive Summary reports that the housing and community development needs of Georgians are, among other things:

Regardless of tenure, income or household size, the most common problem affecting all households is cost burden.

Cost burden is the most significant problem affecting both elderly and small family households. Overcrowding is the most significant concern of this household type.

Insufficient income is the single largest barrier to affordable housing.

Low and moderate income households are at high risk of exposure to lead based paint hazards such as chipping or peeling paint and dust.

The Housing and Community Development Strategic Plan states:

The State anticipates providing assistance to put extremely low, low and moderate income households in affordable housing free of overcrowded, structurally substandard conditions, with supportive services where appropriate for populations with special need.

Direct Benefit Priorities:

To increase the number of Georgia's low and moderate income households who have obtained affordable, rental housing free of overcrowded and structurally substandard conditions.

To increase the number of Georgia's low and moderate income households who have achieved and are maintaining homeownership free of overcrowded and structurally substandard conditions.

Strategic Plan Five Year Objectives:

Rehabilitate or construct affordable rental units;

Provide rental assistance for very low and low income households;

Assist households to achieve or maintain homeownership in housing free of overcrowded and structurally substandard conditions;

Assist organizations annually to provide housing and supportive services to the homeless; and

Assist organizations annually to provide housing and supportive services to Georgia's Special Need populations.

Public Housing Authorities:

The Consolidated Plan Executive Summary provides the following comments relating to Public Housing Authorities in Georgia.

Public Housing Authorities implement a large portion of Georgia's housing assistance effort. Local governments have created 202 PHAs, providing public housing. Seventeen PHAs offer Section 8 rental subsidies. PHAs utilize funds from public housing rent receipts, federal subsidies from HUD and proceeds from bond issues for some development costs.

Over 108,000 residents live in the 55,834 units of local public housing available across Georgia.

No public housing authorities are operated by the State. Therefore, the State has not developed a plan to encourage public housing residents to become more involved in the public housing management or to become owners of their units. However, the State encourages individual PHAs to develop such a plan with residents. The State also continues to encourage within its programs the transition of public housing residents into private housing living situations.

Among the Federal resources available to Georgia (Part VI, Section C) include Section 8 Rental Certificates and Vouchers to address affordable housing needs; HOPE I (Public Housing Homeownership) to address homeownership needs; and for Public Housing, the Comprehensive Grant Program and Public Housing Development funds.

State's Housing Priorities and Objectives:

This section outlines activities by priority and objective. While the activities, priorities and objectives do not directly relate to the public housing program, the activities do include the Section 8 program. Again while none of the activities tap public housing funds, the activities do parallel the goals and objectives of the Housing Authority of the City of West Point. The Priorities and Objectives are listed as follows:

Priority: To increase the number of Georgia’s low and moderate income households who have obtained affordable, rental housing which is free of overcrowded and structurally substandard conditions.

(Refers specifically to the Section 8 Rental Assistance Program administered by the Georgia Department of Community Affairs).

Priority: To increase the number of Georgia’s low and moderate income households who have achieved and are maintaining homeownership in housing free of overcrowded and structurally substandard conditions.

Priority: To increase the access of Georgia’s homeless to a continuum of housing and supportive services which address their housing, economic, health and social needs.

Priority: To increase the access of Georgia’s Special Need populations to a continuum of housing and supportive services which address their housing, economic health and social needs.

(Includes as an activity the implementation of Georgia’s Section 8 Rental Assistance Program and refers specifically to the Georgia Department of Community Affairs continuing to administer the program in Georgia’s 149 counties).

In summary, the Housing Authority of the City of West Point’s Agency Plan goals, objectives, policies and programs are consistent with the Consolidated Plan for the State of Georgia.

D. Other Information Required by HUD

Use this section to provide any additional information requested by HUD.

The final Agency Plan rule contains a requirement in 24 CFR 903.7 that agency plans contain a locally derived definition of substantial deviation and significant amendment or modification. The Housing Authority of the City of West Point has adopted a definition of substantial deviation and significant amendment or modification. It is found in Attachment I.

Annual Plan

Fiscal Year 07/01/2005 – 06/30/2006

CHANGES TO ADMISSIONS AND CONTINUED OCCUPANCY POLICY TO PROMOTE DECONCENTRATION OF POVERTY OR TO ASSURE INCOME MIXING

DECONCENTRATION POLICY

It is the West Point Housing Authority's policy to provide for deconcentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments. Toward this end, we will skip families on the waiting list to reach other families with a lower or higher income. We will accomplish this in a uniform and non-discriminating manner.

The West Point Housing Authority will affirmatively market our housing to all eligible income groups. Lower income residents will not be steered toward lower income developments and higher income people will not be steered toward higher income developments.

Prior to the beginning of each fiscal year, we will analyze the income levels of families residing in each of our developments and the income levels of the families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and deconcentration incentives to implement.

DECONCENTRATION INCENTIVES

The West Point Housing Authority may offer one or more incentives to encourage applicant families whose income classification would help to meet the deconcentration goals of a particular development.

Various incentives may be used at different times, or under different conditions, but will always be provided in a consistent and nondiscriminatory manner.

Deconcentration and Income Mixing

- a. Yes No: Does the PHA have any general occupancy (family) public housing developments covered by the deconcentration rule? If no, this section is complete. If yes, continue to the next question.
- b. Yes No: Do any of these covered developments have average incomes above or below 85% to 115% of the average incomes of all such developments? If no, this section is complete.

If yes, list these developments as follows:

Deconcentration Policy for Covered Developments			
Development Name:	Number of Units	Explanation (if any) [see step 4 at §903.2(c)(1)(iv)]	Deconcentration policy (if no explanation) [see step 5 at §903.2(c)(1)(v)]

Criteria

The final rule on Deconcentration (24 CFR Part 903) describes public housing developments not subject to deconcentration. HUD determined that certain developments should be exempt from the requirement to deconcentrate poverty because of the development's resident population, type or types of units, or number of units. Public housing developments that are exempt from application or the requirement to deconcentrate poverty and mix incomes are the following:

Sec 903.2 (b)(2):

- (i): Public housing developments operated by a PHA with fewer than 100 public housing units;

(ii): Public housing developments operated by a PHA which house only elderly persons or persons with disabilities, or both;

(iii): Public housing developments operated by a PHA that operates only one general occupancy, family public housing development;

(iv): Public housing developments approved for demolition or for conversion to tenant-based assistance; and,

(v): Public housing developments which include public housing units operated in accordance with a HUD-approved mixed-finance plan..

A public housing development includes units or buildings with the same project number. Also, contiguous sites with more than one project number may be considered one development.

Public housing developments that are subject to the requirement to deconcentrate poverty are general occupancy, family public housing developments, excluding those developments, identified above, as being exempt from the requirement, and are referred to as “covered developments.”

Current HUD regulations state that covered developments with average incomes below 30% of the Area Median Income are exempt from deconcentration and income mixing requirements.

Documentation

The Housing Authority owns and operates the following public housing developments.

GA065-1: a “covered development” consisting of 42 units on one site designed for general occupancy;

GA065-2: a “covered development” consisting of 8 units on one site designed for general occupancy;

GA065-3: a “covered development” consisting of 110 units on one sites designed for general occupancy;

GA065-4: a “covered development” consisting of 55 units on one site designed for general occupancy;

GA065-7: a “covered development consisting of 8 units on scattered sites designed for general occupancy.

With the exception of GA065-1, all developments are contiguous and are considered one development for the purpose of Deconcentration.

The Deconcentration and income mixing analysis was conducted on January 27, 2005. One development, GA065-7, exceeds the income range with an average income at 132 % of the average income of all of the covered developments. The average income of the contiguous developments is at 99%. All covered developments are well below the Area Median Income for Troup County, which is \$49,600, at 11% and 15% of the Area Median Income.

There are no external factors such as crime, vandalism, location, neighborhood appearance that might make these developments less desirable than the other development.

GA065-7 is an 8 unit scattered site development consisting solely of three bedroom single family dwellings. It is the newest development and has consistently housed the families who have demonstrated ability to maintain decent, safe and sanitary households; have good rent paying habits; good housekeeping and other positive traits; and in general abide by the lease provisions and policies and procedures of the Housing Authority. Families in these scattered site units are working families, which explains the significant disparity between the scattered site development and the larger, more concentrated development located on one site. This development generally maintains full occupancy. Such families are usually transferred from other developments. This policy results in little or no turnover.

The Housing Authority has a deconcentration policy as a part of its adopted Admissions and Continued Occupancy Policy and is provided below.

10.4 DECONCENTRATION POLICY

It is the Housing Authority of the City of West Point's policy to provide for deconcentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments. Toward this end, we will skip families on the waiting list to reach other families with a lower or higher income. We will accomplish this in a uniform and non-discriminating manner.

The Housing Authority of the City of West Point will affirmatively market our housing to all eligible income groups. Lower income residents will not be steered toward lower income developments and higher income people will not be steered toward higher income developments.

Prior to the beginning of each fiscal year, we will analyze the income levels of families residing in each of our developments and the income levels of the

families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and deconcentration incentives to implement.

10.5 Deconcentration Incentives

The Housing Authority of the City of West Point may offer one or more incentives to encourage applicant families whose income classification would help to meet the deconcentration goals of a particular development.

Various incentives may be used at different times, or under different conditions, but will always be provided in a consistent and nondiscriminatory manner.

10.6 Offer of a Unit

When the Housing Authority of the City of West Point discovers that a unit will become available, we will contact the first family on the waiting list who has the highest priority for this type of unit or development and whose income category would help to meet the deconcentration goal and/or the income targeting goal.

The Housing Authority of the City of West Point will contact the family first by telephone to make the unit offer. If the family cannot be reached by telephone, the family will be notified of a unit offer via first class mail. The family will be given five (5) business days from the date the letter was mailed to contact the Housing Authority of the City of West Point regarding the offer.

The family will be offered the opportunity to view the unit. After the opportunity to view the unit, the family will have two (2) business days to accept or reject the unit. This verbal offer and the family's decision must be documented in the tenant file. If the family rejects the offer of the unit, the Housing Authority of the City of West Point will send the family a letter documenting the offer and the rejection.

10.7 Rejection of Unit

If in making the offer to the family the Housing Authority of the City of West Point skipped over other families on the waiting list in order to meet their deconcentration goal or offered the family any other deconcentration incentive and the family rejects the unit, the family will not lose their place on the waiting list and will not be otherwise penalized.

If the Housing Authority of the City of West Point did not skip over other families on the waiting list to reach this family, did not offer any other deconcentration incentive, and the family rejects the unit without good cause, the family will forfeit their application's date and time. The family will keep their preferences, but the date and time of application will be changed to the date and time the unit was rejected.

If the family rejects with good cause any unit offered, they will not lose their place on the waiting list. Good cause includes reasons related to health, proximity to work, school, and childcare (for those working or going to school). The family will be offered the right to an informal review of the decision to alter their application status.

9.
