In the almost 20 years of service that the Melvindale Housing Commission has provided to its public housing facility, it continues to remain faithful in providing affordable and decent housing to our residents as a equal opportunity housing facility.

We will continue to upgrade and update our facility to provide competitive affordable independent housing in a safe and secure environment.

Preventive maintenance will remain a high priority to help retain a high standard of the property, which contributes to the safe and secure environment necessary for the vulnerable population we serve.

The personnel of the Melvindale Housing Commission work hard to insure that the residents feel this is their home. That they are as safe here as they would be anywhere.

The residents work hard in patrolling themselves. They know that no matter what kind of security features have been installed, they must watch out for each other. They understand the building is only as safe as they make it. That the safety items that have been put into place can't work if rules are not followed. Therefore knowing your neighbor and environment is an important issue for them.

The remarkable spirits and sense of pride shown from our residents, employees and our city shows that team work makes good things happen.

The Melvindale Housing Commission operates a 199-unit senior/handicap public housing high-rise, as well as a small section 8 program. The year 2005 and beyond offer new challenges for public housing. The Melvindale Housing Commission accepts these challenges through their commitment to provide safe, decent, affordable housing for low-

income individuals and families.

The strength of our mission encourages forward movement supporting our position for affordable independent living. By remaining in compliance with applicable statutes and regulations, we will continue to make our units marketable to the community so as to become the housing of choice for the very low-income individuals and families of our community. We seek to achieve a level of customer satisfaction, which will give the agency the highest score possible in the Public Housing Assessment System by promoting a positive work environment and projecting a customer friendly and fiscally prudent leadership. A quality preventive maintenance plan will assist in retaining a high standard of property and in turn will contribute to the safe and secure environment necessary for the low income and very low income residents we serve and will continue to serve.

Through appropriate improvement and beautification of landscaping and litter free properties, we strive to develop pride in the environment of our present and future residents, thus achieving the perception that low-income housing means safe, friendly, comfortable and affordable housing. We look to the future to expand the range and quality of housing choices available, and to reduce the turn around time for placement of our clients.

To reduce our dependency of federal funding by researching alternative funding sources to meet operational goals, and strive to operate so that income exceeds expenses. One way this may be achieved is to provide opportunities for the outside community to participate in in-house activities and functions. This effort will enhance the image of public housing in our community and will strengthen community marketability by allowing the general public to view the inside of a public housing facility.

The self-sufficiency of our participants is of great importance to us. By assisting them in achieving this goal, they become not only economically and financially strengthened, but also, will build confidence and the feeling of independence. This being strengthened with our recent ROSS grant where we have the ability to have a social work on our staff.
