9. Additional Information

[24 CFR Part 903.12 (b), 903.7 (r)]

A. PHA Progress in Meeting the Mission and Goals Described in the 5-Year Plan

(Provide a statement of the PHA's progress against the goals and objectives established in the previous 5-Year Plan for the period FY 2000 - 2004.)

During the past 5 years the Housing Authority has meet most goals it had outlined including expanding the supply of assisted housing. The Housing Authority created a 501 (C)(3) nonprofit which successfully developed a 32 unit Farm-worker Housing Project in an attempt to stabilize farm-worker families and allow them to connect to the community and have uninterrupted education through-out the school year.

In addition the Housing Authority has received funding to purchase 106 existing housing units and remodel them to assure the community of continued availability of affordable housing. It has also been successful in obtaining funding to construct another 48 units of affordable housing targeted at the 60% median income levels which had not been previously addressed.

The Housing Authority has also submitted application to create affordable senior housing within a community in its service area that was loosing its senior population to other areas due to the lack of housing to retain them in the community.

Over the past 5 years the Housing Authority has worked on several modernization projects with its public housing and USDA Rural Development units totaling close to \$3 million dollars in improvements. As part of the modernization to the Public Housing we have built a new community building at one of our sites that has afforded the Housing Authority to bring services to the residents at the site. Services are targeted to improve education and job skills for employability and higher paying positions. Along with this the Housing Authority has also been successful in establishing an FSS program to assist our clients in becoming self-sufficient.

The Housing Authority has worked hard in becoming more connected to the areas in which it serves. Working closely with city, state and county governments as well as various service and social agencies in those areas in a more cooperative method of doing business that will produce a wider range of opportunities for our clients.

One area that the Housing Authority did not accomplish is to create a Home Ownership program for its clients. This still remains a priority for this agency however and with the establishment of the Family Self-Sufficient program we are that much closer in making this a reality for our clients.

B. Criteria for Substantial Deviations and Significant Amendments

(1) Amendment and Deviation Definitions

24 CFR Part 903.7(r)

PHAs are required to define and adopt their own standards of substantial deviation from the 5-year Plan and Significant Amendment to the Annual Plan. The definition of significant amendment is important because it defines when the PHA will subject a change to the policies or activities described in the Annual Plan to full public hearing and HUD review before implementation.

a. Substantial Deviation from the 5-Year Plan

Substantial Deviation from the 5-year Plan is defined as:

1. Any change from which has been planned that would be considerably important to the 5-year plan. Such changes will require a full public hearing process as well as a review process with the resident advisory board and further require HUD review. This would not however be required if such changes were required due to HUD regulatory changes.

b. Significant Amendment or Modification to the Annual Plan

Significant Amendment or Modification to the Annual Plan is defined as:

- 1. Any changes to rent or admissions policies or organization of the waiting list.***
- 2. Additions of non-emergency work items (items not included in the current Annual Statement or 5-Year Action Plan) or change in use of replacement reserve funds under the Capital Fund;***
- 3. And any change with regard to demolition or disposition, designation, homeownership programs or conversion activities.***

An exception to this definition will be made for any of the above that are adopted to reflect changes in HUD regulatory requirements; such changes will not be considered significant amendments by HUD and will not require a public hearing or HUD review prior to implementation.
