5-YEAR PLAN
PHA FISCAL YEARS 2004– 2008
[24 CFR Part 903.5]

A. Mission

State the PHA's mission for serving the needs of low-income, very low income, and extremely low-income families in the PHA's jurisdiction. (select one of the choices below)

The mission of the PHA is the same as that of the Department of Housing and Urban Development: To promote adequate and affordable housing, economic opportunity and a suitable living environment free from discrimination.

X The PHA's mission is: (state mission here)

The mission of the Housing Authority of the County of Lawrence (HACL) is to provide adequate, decent, safe and affordable housing to low income residents of Lawrence County. The HACL will strive to become an active force in providing economic opportunities, including family self-sufficiency programs for all of its current and future residents. The Authority will increase efforts to provide a suitable living environment, without discrimination, to all of our tenants in cooperation with the larger community of Lawrence County. The Authority will strive to provide these services in a professional, sensitive, and business-like manner.

B. Goals

The goals and objectives listed below are derived from HUD's strategic Goals and Objectives and those emphasized in recent legislation. PHAs may select any of these goals and objectives as their own, or identify other goals and/or objectives. Whether selecting the HUD-suggested objectives or their own, **PHAS ARE STRONGLY ENCOURAGED TO IDENTIFY QUANTIFIABLE MEASURES OF SUCCESS IN REACHING THEIR OBJECTIVES OVER THE COURSE OF THE 5 YEARS.** (Quantifiable measures would include targets such as: numbers of families served or PHAS scores achieved.) PHAs should identify these measures in the spaces to the right of or below the stated objectives.

HUD Strategic Goal: Increase the availability of decent, safe, and affordable housing.

X PHA Goal: Expand the supply of assisted housing

Objectives:

Apply for additional rental vouchers:

X Reduce public housing vacancies: *2% yearly, 10% over 5 years.*

X Leverage private or other public funds to create additional housing opportunities:

The Housing Authority of the County of Lawrence will continue to aggressively pursue all possibilities for involving private resources, including banks and other lending institutions in developing strategies for home-ownership possibilities for tenants as first time homebuyers. Other real estate professionals such as Section 8 owners, builders and developers will also be consulted on various home-ownership possibilities, including rehabilitation of existing homes for sale or lease to current tenants that are able to achieve economic self-sufficiency. Also, other public resources will continue to be pursued in an effort to either bring more and better services

to the current tenants or to assist tenants to achieve economic self-sufficiency so that they are able to take advantage of other housing opportunities that may be available. For example, the HACL has had an on-going relationship with the Lawrence County Family Center that has shown very promising results. Through our efforts with the Family Center's Affordable Housing Initiative several public housing residents have become first-time homebuyers. The Family Center, in concert with the United Way and the Pennsylvania State Cooperative Extension will continue to offer their Homebuyers education courses to any interested public housing tenants. The courses are now offered on a one-on-one basis instead of in a classroom atmosphere which has proven more effective. There were approximately eighty individuals who explored their options under this program in the last year.

The Housing Authority will continue to work with the Family Center's "Parents as Teachers Program", which is a child development after school program. Combined with the above-mentioned Affordable Housing Initiative, these programs have proven to be a great tag-team effort. It is these types of cooperative agreements that the Housing Authority continues to pursue. Other public agencies or organizations, such as the Department of Public Welfare, the Lawrence County Area Agency on Aging, the Pennsylvania Housing Finance Agency, the County Redevelopment Authority and the County Department of Social Services, will also be contacted in an effort to reach agreements to provide a broad range of educational, economic and home-ownership opportunities.

X Acquire or build units or developments

The Housing Authority has formed a non-profit, Affordable Housing of Lawrence County, Inc., to build housing units for the physically and/or mentally disabled persons. We are actively pursuing funding for this program and have already received a grant from the Federal Home Loan Bank of Pittsburgh.

Other (list below)

X PHA Goal: Improve the quality of assisted housing
Objectives:

X Improve public housing management:

Our 2003 PHAS score was 82. Our goal is to achieve and maintain high performer status (90). The Housing Authority recognizes the necessity of a fair evaluation system established by HUD as a means to allocate staff resources; particularly to lessen the reporting burden on high performing PHAS, and to provide additional assistance to those Authorities that need more assistance in achieving their mandated purpose. The Authority is on schedule in meeting its projected goal of obtaining a higher performer status. We will continue our efforts to increase and maintain a PHAS score of 90 over the 5-year period.

Extended vacancies in the elderly development, McGrath Manor, and the family development, Grant Street, have adversely affected the Authority's PHAS scores. The HACL has completed the conversion of 16 zero-bedroom units to 10 one-bedroom units at McGrath Manor and has contracted with the New Castle Police Department to provide additional security patrols. The Authority also plans to demolish 32 units at Grant Street and replace those units with 32 others

to be built in various communities in order to comply with the 504 regulations. The Authority believes that, with these plans, the PHAS scores will continue to increase.

Improve voucher management: (SEMAP score) *High Performer score of 100*

X Increase customer satisfaction: *Improve preventive and routine maintenance.*

The Authority continues to understand and believe that a well-run maintenance program is critical, not only to the preservation and upkeep of the housing stock, but it is also critical to the livability of the units and the satisfaction of the tenants. The Housing Authority therefore intends as part of an ongoing, long-term objective, to place increased efforts on preventative maintenance surveys, inspections and scheduling.

X Concentrate on efforts to improve specific management functions: (list; e.g., public housing finance; voucher unit inspections)

1. *The Authority has installed new computer hardware and software to assist in unit inspections and has begun using the equipment.*

X Renovate or modernize public housing units: *In accordance with modernization plan..*

Demolish or dispose of obsolete public housing:

Provide replacement public housing:

Provide replacement vouchers:

X Other: (list below)

The conversion of (15) 0-bedroom units to (10) 1-bedroom units at Lawrence Manor and (16) 0-bedroom units to (10) 1-bedroom units at McGrath Manor is complete as projected in our 2000 and 2001 Plans. We are planning additional conversions at Lawrence Manor under our Capital Fund.

X PHA Goal: Increase assisted housing choices

Objectives:

X Provide voucher mobility counseling:

Each applicant entering the program and/or each tenant wishing to move outside the Housing Authority's jurisdiction is briefed on portability procedures.

X Conduct outreach efforts to potential voucher landlords.

Once a year the Housing Authority sends out a package explaining the Section 8 program to all real estate agents and interested landlords in Lawrence County. Those interested may call the Housing Authority and set up an appointment for further discussion.

X Increase voucher payment standards

Implement voucher homeownership program:

Implement public housing or other homeownership programs:

Implement public housing site-based waiting lists:

Convert public housing to vouchers:

X Other: (list below)

Public housing site-based waiting lists have been implemented.

HUD Strategic Goal: Improve community quality of life and economic vitality

X PHA Goal: Provide an improved living environment

Objectives:

X Implement measures to deconcentrate poverty by bringing higher income public housing households into lower income developments: *See our current economic deconcentration policy.*

X Implement measures to promote income mixing in public housing by assuring access for lower income families into higher income developments: *See our current economic deconcentration policy.*

X Implement public housing security improvements: *As completed under PHDEP.*

X Designate developments or buildings for particular resident groups (elderly, persons with disabilities) *The Housing Authority has designated Crescent Place, Skyview Towers, and Lawrence Manor as elderly-only buildings, and has re-designated McGrath Manor as a near elderly and elderly building.*

Other: (list below)

HUD Strategic Goal: Promote self-sufficiency and asset development of families and individuals

X PHA Goal: Promote self-sufficiency and asset development of assisted households

Objectives:

X Increase the number and percentage of employed persons in assisted families: *Establish a goal of a 5% annual increase of families with income.*

X Provide or attract supportive services to improve assistance recipients' employability: *The Housing Authority will continue to explore additional job readiness contracts with local social service providers.*

Provide or attract supportive services to increase independence for the elderly or families with disabilities.

Other: (list below)

HUD Strategic Goal: Ensure Equal Opportunity in Housing for all Americans

X PHA Goal: Ensure equal opportunity and affirmatively further fair housing

Objectives:

X Undertake affirmative measures to ensure access to assisted housing regardless of race, color, religion national origin, sex, familial status, and disability: *The PHA will continue all measures to insure access to assisted housing regardless of race. The PHA is not contemplating additional efforts in this regard since minorities and other target classes are not underrepresented in Authority units compared to the population as a whole.*

X Undertake affirmative measures to provide a suitable living environment for families living in assisted housing, regardless of race, color, religion national origin, sex, familial status, and disability: *See comment above.*

Implementation of Public Housing Resident Community Service Requirements

The Lawrence County Housing Authority has established a community service policy and program to meet the eight hour community service/self-sufficiency requirements of the QHWRA. The program became re-operational on July 31, 2003.

The Authority has undertaken an assessment of the number of persons preliminarily believed to be nonexempt from the community service/self-sufficiency requirement. Since these number are relatively small the PHA has constructed a program which they will initially administer. The Authority is reserving the option to contract with a third party, including the Resident Advisory Board, if after gaining some experience this becomes necessary.

The Authority communicated the requirements (including the complete list of exempt categories) to all public housing households and identified those individuals within the household, who according to the most recent PHA resident recertification, are required (non-exempt) and those not required (exempt) to participate in an eight hour community service program. Persons incorrectly identified are instructed to contact the PHA site office with documentation supporting their correct status.

The lease had been amended as of January 1, 2001 to require community service for all non-exempt persons and noncompliance (following proper appeal) will result in eviction.

The Housing Authority will be an active partner in assisting residents to meet the community service requirement. The Community Service Program is built around a combination of self-sufficiency and community service opportunities. The Authority has entered into a formal agreement with the Lawrence County Team PA CareerLink program to provide employment and training services to public housing residents including identifying employment opportunities, job readiness counseling, job placement assistance, information regarding training opportunities, and eligibility determination for specialized programs and services. CareerLink also does employment recruitment for Lawrence County employers and has access to current employment opportunities. Although community service opportunities, within the guidelines of the QHWRA, including service in and around Housing Authority property, will be identified and offered, the nonexempt residents will be directed toward the PA CareerLink Program. Whatever option is chosen it is the responsibility of the resident to meet the eight hour monthly service/self-sufficiency requirement as a provision of the lease and continued occupancy in public housing.

Residents participating in the CareerLink program (self-sufficiency) will be required to use the type of sign in-sign out process developed by that organization. The agency or organization for which the community service is provided by the resident will be responsible to document that service in a manner acceptable to the Authority.

The PHA has established a pet policy that is incorporated into the lease as a rider and requires a security deposit and monthly maintenance charge. The policy states that a common household pet is defined as a domesticated animal, such as a dog, cat, bird, rodent (including a rabbit), fish or turtle that is traditionally kept in the home for pleasure rather than for commercial purposes. Common household pet does not include reptiles (except turtles). Aquariums cannot be larger than five (5) gallons. No other type of pet will be permitted. Any other pet will be refused registration. Dogs must be no less than six (6) months old, completely housebroken, spayed or neutered, and cannot weigh more than twenty-five pounds. Cats must be no less than six (6) months old, litter box trained, de-clawed, spayed or neutered, and cannot weigh more than fifteen pounds. If the dog or cat grows to weigh more than the allowable weight, it then must be removed from the household immediately or the entire household will face the possibility of eviction. Only one four-legged, warm-blooded pet, is permitted, in a unit. Only one aquarium is permitted in a unit.

All pets are required to be pre-registered before being brought into the unit and registration must show type of pet, recent picture, name, age, and if applicable, license number and current inoculation information, name and address of pet's veterinarian, plus a signed responsibility card showing the name of three (3) persons to call to come get the pet in the event of the Tenant's illness or death.

Admissions Policy for Deconcentration

Economic Deconcentration of Very Low Income Families and Income Mixing in Public Housing.

A. Background and Overview of HUD Policy Objectives.

The Quality Housing and Work Responsibility Act (QHWRA) became law in October 1998. Many of the provisions of this Act are revisions to the United States Housing Act of 1937 (USHA) which has guided public housing policy for over 60 years.

One of the purposes of the QHWRA is to facilitate mixed income communities and decrease the concentration of poverty in public housing. Section 513 of the QHWRA establishes, among other things, “annual requirements for admitting families with incomes below 30% of area median income, and related income targeting requirements.”

In as much as the concentration of low income families is now prohibited in public housing, PHA’s must submit with their Public Housing Agency Annual Plans an Admission policy designed to provide for deconcentration of poverty and income mixing by bringing higher income tenants into lower income public housing projects and bringing lower income tenants into higher income public housing projects.

To further this objective the following rule has been established:

With respect to income targeting, the general rule is that in each fiscal year, at least 40% of families admitted to public housing by a PHA must have incomes that do not exceed 30% of area median. The “fungibility” provisions allow a PHA to admit less than 40% of families with incomes below 30% of median (very poor families) in a fiscal year, to the extent the PHA has provided more than 75% of newly available (Section 8) vouchers and certificates (including those resulting from turnover) to very poor families. HUD has also imposed 3 limitations on the use of fungibility.

PHAs are permitted to consider a number of approaches in designing an Admission Policy to achieve the goals of deconcentration and income mixing, included are the use of skipping over certain families on the waiting lists based on incomes; the establishment of certain preferences such as worker preferences; appropriate affirmative marketing efforts; additional applicant consultation and information; provision of additional supportive services and amenities; and rent incentives authorized by the QHWRA. Site based waiting lists may also be used as an integral part of the Admissions Policy to promote deconcentration.

To implement these new requirements, which is applicable to public housing, PHAs must:

- 1. Determine and compare the relative tenant incomes of each development, as well as the household incomes of census tracts in which the developments are located; and*
- 2. Consider what Admission Policy measures or incentives, if any, will be needed to bring higher income families into lower income developments (or if appropriate to achieve deconcentration of poverty, into developments in lower income census tracts) and lower income families into higher*

income developments (or if appropriate to achieve deconcentration of poverty, into developments in higher income census tracts). PHA policies must devote appropriate attention to both of these goals. PHA policies must affirmatively further fair housing.

B. The Housing Authority of the County of Lawrence operates under an Admission and Occupancy Policy approved by the Authority Board of Directors on July 5, 1988. The Policy has been amended numerous times; the latest amendment was made in December 2003. This Policy is hereby revised to provide for economic deconcentration and income mixing. Admission to public housing will include at least 40% of eligible applicants having incomes which do not exceed 30% of median income of the area. (Subject to "fungibility" provisions cited above).

The Housing Authority will strive for economic deconcentration and income mixing in all of its communities by doing the following:

- 1. The Authority will skip over a lower income applicant on the waiting list to a higher income applicant if the higher income applicant is needed to deconcentrate a lower income development. The reverse will also apply; the Housing Authority will skip over a higher income applicant if a lower income applicant is needed to deconcentrate a higher income community.*
- 2. The Housing Authority of the County of Lawrence has established a preference for employed persons. The employment preference will also be used to further economic deconcentration.*
- 3. The Housing Authority will employ positive and affirmative advertising methods in local newspapers.*
- 4. Applicants who are interested will be supplied with appropriate information regarding income and areas that may be available because of deconcentration efforts.*
- 5. Under the current regulations, the Housing Authority has determined that PA26-5B, Sciota Street and PA26-7, Lincoln Terrace, located in the City of New Castle, have the lowest average tenant incomes and have been targeted for higher income applicants. PA26-5A, Brinton Hill, located in the City of New Castle, has the highest average tenant incomes and is targeted for lower income applicants*

FOLLOW-UP PLAN FOR THE

2003 RESIDENT ASSESSMENT SURVEY

Based on the results of the Resident Assessment Survey performed by HUD's Real Estate Assessment Center, The Housing Authority is required to implement a follow-up plan covering the Communication and Neighborhood Appearance sections. The Housing Authority plans the following:

Communication

In order to insure that the tenants are aware of all activities and roles of the Housing Authority and that Housing Authority is aware of the tenant's needs, the Housing Authority has done the following:

1. In the Housing Authority newsletter, the Housing Authority will provide the tenants with the proposed modernization activities for the year.
2. In addition, the Housing Authority will provide an information calendar with Housing Authority meetings and events.
3. The Executive Director will meet with the management staff to ensure that all questions asked at the management level are responded to appropriately.
4. Our Resident Coordinator will contact tenants individually to see if any are interested in forming a tenant council.

Neighborhood Appearances

In order to improve the neighborhood appearance of our public housing communities, the Housing Authority will provide the following:

1. The Housing Authority recently hired a housing inspector and it will be the inspector's responsibility to ensure that units are properly maintained and that common areas are kept clean.
2. The inspector will notify individual tenants if their yards are not being maintained and will notify the managers to send letters that will indicate that if the areas are not kept clean, the tenant will be responsible for charges incurred for cleanup.
3. The inspector will notify the maintenance department when common areas need to be cleaned.
4. The Housing Authority has contracted with the Fraternal Order of Police to provide additional security patrols to check for abandoned cars, graffiti, and any tenants causing excessive noise in the communities.
5. The Housing Authority has developed a new system to fill vacant units in a more timely manner which will have the manager of each community responsible for filling their vacant units rather than a tenant selector which will provide a more efficient way of filling vacant units which will result in less vacant units.
