ATTACHMENT 1 - ADMISSIONS POLICY FOR DECONCENTRATION

DECONCENTRATION POLICY

WHEREAS, the section 16 of the U.S. Housing Act of 1937 (42 U.S.C. 1437n), as amended, requires Public Housing Authorities to provide for deconcentration of very low-income families and income mixing in its public housing developments;

WHEREAS, the Housing Authority of the City of Pittston has analyzed the tenant incomes of each of its developments, as well as the household incomes of census tracts in which these developments are located; **AND**

WHEREAS, the Housing Authority of the City of Pittston will, to the greatest extent feasible, provide for deconcentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments.

NOW THEREFORE BE IT RESOLVED, toward this end, the Housing Authority of the City of Pittston amends its Admission and Occupancy Policy for its public housing program to select applicants, to the greatest extent feasible, in the following manner:

The Housing Authority will skip families on the waiting list to reach the appropriate families with a lower or higher income in a uniform and non-discriminating manner.

The Housing Authority will affirmatively market its public housing to all eligible income groups.

Prior to the beginning of each fiscal year, the Housing Authority will analyze the income levels of families residing in each of its public housing developments, the income levels of census tracts in which these developments are located, and the income levels of the families on the waiting list.

Based on this analysis, the Housing Authority will determine the level of marketing strategies and deconcentration incentives to implement.

NOW THEREFORE BE IT FURTHER RESOLVED, The Housing Authority of the City of Pittston may offer one or more incentives to encourage applicant families whose income classification would help to meet the deconcentration goals of a particular development;

AND THAT

Various incentives may be used at different times, or under different conditions, but will always be provided in a consistent and nondiscriminatory manner.
