Resident Membership Of Lehigh County Housing Authority Board of Commissioners: Judith Smyth of George Dilliard Manor. Ms. Smyth was appointed to a 5 year term beginning 1/1/2002.

PROGRESS

Voucher participation continues to be at or near 100%. We continue to be able to administer the program and maintain the high number of participants within the current funding constraints. We will continue monitoring this relationship with the intention of maintaining these numbers with minimal adjustments to the current program. Staff will continue to focus on improving and then maintaining complete tenant files. We will concentrate on improving our SEMAP score with a goal of a better than 90% score within the next 3 years.

The Public Housing units consistently score high on its physical inspections. We will continue to focus on the physical structure and appearance of the properties through efficient and effective day to day maintenance and by efficient and effective strategic use of our capital fund dollars. We have recognized a decrease in reserves and therefore we will closely monitor the budget and target areas to improve cash flow with the goal of building reserves. The overall goal is to reach the High

Performing status with a score of better than 90% within the next three years. The Authority will adjust staffing at its Public Housing sites to allow for more efficient and effective management and maintenance and to maintain a better control of the budget.

The Housing Authority will continue to develop new budgeting tools that will allow us to closely monitor cash flow and to react quickly to problem areas. Over the next 5 years the Authority will work toward establishing a project based budget and asset management plan for its public housing properties.

DECONCENTRATION POLICY

Deconcentration Policy

Currently the Lehigh County Housing Authority's general occupancy projects fall within established income range. However, the Authority's projects are very small with the largest being only 25 units. In addition, the Authority has one 10 unit project, one 4 unit project and a 25 unit scattered site project.

The 25 unit scattered site development promotes deconcentration just by the nature of the project. The units are scattered throughout the Borough of Coplay with the largest concentration being 11 units. The 10 unit and the 4 unit are in the Borough of Fountain Hill. The properties have been able to maintain the established income range, however because of the small size one turnover could have an immediate impact. The projects have been monitored to insure the Authority is in compliance with the spirit of deconcentration and that the ranges do not get skewed too far in either direction. The 25 unit is in Slatington and continues to be compliant, but once again, because it is small it takes little to skew the range.

The Authority's jurisdiction is suburban Lehigh County. The County is mostly rural in nature with few pockets of poverty. The Authority's projects are not in poverty zones and are in residential neighborhoods of the municipalities.

The Authority's policy is to monitor its projects for compliance and to ensure consistency with both the deconcentration law and local goals. If deemed necessary and the project is too skewed toward any one income group, the Authority will take steps to balance the project. The current waiting lists are sufficient to allow for the selection from income groups.

RASS Communication Implementation Plan Progress

During 2004 the Authority began taking steps to improve communication between the residents and management. The Authority appointed a single Project Manager, Jack Murphy, to manage all of its public housing units.

We believe that this offers a more consistent approach. Jack has established a regular schedule at the various sites and with a new Clerk Typist added to the public housing staff, the residents know how and where to contact management at any time. Jack has been holding resident meetings and will continue to hold meetings at regular intervals to hear and address resident concerns as well as keeping residents up to date on housing authority news. Guests such as a police officer and local and state officials have been invited to address the residents on issues of safety and other concerns.

Lehigh County Housing Authority
PHA Plan 2005

The Authority will continue to survey the consumers as well as continue to educate consumers of their right to request accommodations. The Authority works closely with the Good Shepherd Rehabilitation Center and the Center for Independent Living in Allentown, PA to keep up with the current technologies available to help to meet the needs of our residents with disabilities. Authority management had recently rented up and managed a facility in Allentown that is owned by Good Shepherd. This facility was designed for and leased to persons with severe physical disabilities. In addition LCHA manages a 12 unit independent living facility designed for and occupied by persons with severe physical disabilities. Through this we became aware of the newest technologies available.

Since the Authority is not planning to rehabilitate any existing properties or to build any new properties the extent of our physical accommodation work is by request of existing or prospective residents of our current facilities. The Authority will also take requests from caregivers or agencies representing persons with disabilities. The Authority remains dedicated to making reasonable accommodation based upon its policies and procedures.
