Executive Summary (optional)

[903.7(r)]. If desired, provide a brief overview of the contents of the streamlined 5-Year/Annual Plan.

The Municipality of Aguas Buenas continues to move toward the major initiatives outlined in our Five-Year Plan approved by HUD in 2000. The plans, statements, and policies set forth and/or referenced in this same Plan all lead towards accomplishing Aguas Buenas' goals and objectives. It is for this purpose that the Municipality of Aguas Buenas established a Housing Department to administer the tenant-based Housing Choice Voucher Program as well as any other subsidized housing program in order to assist financially disadvantaged families in meeting their housing needs, namely decent, safe, and sanitary. The Municipality of Aguas Buenas' Housing Department has adopted the following mission statement:

- *To assist families during financial distress, while gradually reducing the amount paid by the Program in an efficient manner as well as motivating these same families to become self-sufficient.*

The Municipality of Aguas Buenas firmly believes that there are two major philosophy components, which is the foundation of the tenant-based housing program.

- a) **To afford extremely low-income families the opportunity of choice and mobility in selecting where they chose to live;**
- b) **Maintain the essential elements of a private relationship between the tenant and the landlord on matters other than rent.**

As a result of this philosophy the Housing Choice Voucher Program is tenant-based and does not tie the participant to any particular housing unit. Moreover, there is an undeniable need for low-income housing within the Municipality of Aguas Buenas as evidenced by the waiting list as well as the latest US Census of Population. There also exists a need for quality housing units for program participants but there is not an abundance of affordable housing for low income families within this same Municipality. Being cognizant of this, our Municipality has established realistic and attainable goals, whereby, particular thought has been given to the number of families which can be expected to need and want better housing. By setting attainable goals, the Municipality intends to become a facilitator for those-in-need, and for those who have available units by coming together in a manner beneficial to all principals. This is in direct relation to both the major commitments and priorities of the U. S. Department of Housing and Urban Development (HUD). **The Municipality of Aguas Buenas is a Tenant-Based (Section 8) only PHA.**

This Municipality also administers various tenant-based subsidized housing programs geared towards certain sectors of the population in general to afford them the same opportunities as other extremely low-income and low-income families within the general population. The programs being administered by the Municipality of Aguas Buenas are as follows:

- a) **HOPWA** – a program geared to provide assistance to a member of the family that is HIV positive or has AIDS. Families are offered rental assistance and short-term payments to prevent homelessness. The municipality has joined a consortium made of municipalities located within the San Juan-Bayamon MSA to secure the necessary funding for this same program. The Municipality of San Juan is the lead PHA in this consortium.
- b) **Family Unification Program** – a program geared to provide assistance to extremely low-income and moderate income families whereby they are threatened by the Commonwealth Child Welfare Agency in the removal of the children from the home due to the environment under which they live, or have already been removed. In essence, the family needs a safe, decent and sanitary dwelling unit so that the family maybe united. Our Municipality joined forces with the Commonwealth Department of the Family to provide a service to this sector of the population.
- c) **Family Self Sufficiency** – a program whereby strategies are developed to coordinate the use of housing assistance under the auspices of the Housing Choice Voucher Program (Section 8) with public and private resources. Hence, enabling extremely low-income and low-income families, who are eligible to receive said assistance to achieve economic independence, and self -sufficiency.
- d) **Special Housing Opportunities Programs (S.H.O.P.S.)** - this program encompasses various programs under one umbrella, which are targeted to certain sectors of the population. Under this umbrella program, the following is being offered:

1. **Assistance for the elderly** - this program is geared to offer assistance to a family and/or individual who are over the age of 62. Families are offered rental assistance and/or short-term payments to prevent homelessness as well as for other supportive services and health care.
2. **Assistance for HCV participants** - this type of assistance is geared to current participants who are in need of aid in the payment of the security deposit, whereby the family who receive this assistance enter into a repayment agreement, aid for the water and/or light security deposit, which is a grant to the family and other assistance determined necessary for the family.
3. **Special Assistance Program (S.A.P.)** - The purpose of this program is to issue *Special Temporary Vouchers* to families so that they can rent decent and affordable housing in the private market, while their current home is being rehabilitated by the Municipality through its Moderate Rehabilitation Program.
4. **Emergency Temporary Rental Assistance (E.T.R.A)** - This program is geared towards people experiencing a short-term housing crisis and who are not eligible for the Housing Choice Voucher Program. The family may apply for E.T.R.A. from the Municipality of Aguas Buenas, so as to avoid homelessness as well as offering them an opportunity to stabilize. If approved, the Municipal Housing Department will provide short-term temporary Rental Assistance for a period up to 4 months.

The Annual Plan of Aguas Buenas as presented herein furthers HUD's statutory goal in accordance with the Quality Housing and Work Responsibility Act of 1998, 24 CFR 903, Section 545, whereby, the Municipality of Aguas Buenas has established a unified vision of community actions. This same Plan will afford Aguas Buenas an opportunity to shape the various programs presented herein into effective, viable, and coordinated strategies by involving citizen participation. *The Annual Plan provides a framework for local accountability and an easily identifiable source by which public housing residents, participants in the tenant-based program, and other members of the public may locate basic PHA policies, rules, and requirements concerning its operations, programs and services.*

I EXECUTIVE STATEMENT

The Municipality of Aguas Buenas continues to move toward the major initiatives outlined in our Five-Year Plan approved by HUD in 2000. The plans, statements, and policies set forth and/or referenced in this same Plan all lead towards accomplishing Aguas Buenas' goals and objectives. It is for this purpose that the Municipality of Aguas Buenas established a Housing Department to administer the tenant-based Housing Choice Voucher Program as well as any other subsidized housing program in order to assist financially disadvantaged families in meeting their housing needs, namely decent, safe, and sanitary. The Municipality of Aguas Buenas' Housing Department has adopted the following mission statement:

- ? To assist families during financial distress, while gradually reducing the amount paid by the Program in an efficient manner as well as motivating these same families to become self-sufficient.*

The Municipality of Aguas Buenas firmly believes that there are two major philosophy components, which is the foundation of the tenant-based housing program.

- A. To afford extremely low-income families the opportunity of choice and mobility in selecting where they chose to live;**
- B. Maintain the essential elements of a private relationship between the tenant and the landlord on matters other than rent.**

As a result of this philosophy the Housing Choice Voucher Program is tenant-based and does not tie the participant to any particular housing unit. Moreover, there is an undeniable need for low-income housing within the Municipality of Aguas Buenas as evidenced by the waiting list as well as the latest US Census of Population. There also exists a need for quality housing units for program participants but there is not an abundance of affordable housing for low income families within this same Municipality. Being cognizant of this, our Municipality has established realistic and attainable goals, whereby, particular thought has been given to the number of families which can be expected to need and want better housing. By setting attainable goals, the Municipality intends to become a facilitator for those in need and for those who have available units by coming together in a manner beneficial to all principals. This is in direct relation to both the major commitments and priorities of the U. S. Department of Housing and Urban Development (HUD). **The Municipality of Aguas Buenas is a Tenant-Based (Section 8) only PHA.**

This Municipality also administers various tenant-based subsidized housing programs geared towards certain sectors of the population in general to afford them the same opportunities as other extremely low-income and low-income families within the general population. The programs being administered by the Municipality of Aguas Buenas are as follows:

- ? **HOPWA** – a program geared to provide assistance to a member of the family that is HIV positive or has AIDS. Families are offered rental assistance and short-term payments to prevent homelessness. The municipality has joined a consortium made of municipalities located within the San Juan-Bayamon MSA to secure the necessary funding for this same program. The Municipality of San Juan is the lead PHA in this consortium.

- ? **Family Unification Program** – a program geared to provide assistance to extremely low-income and moderate income families whereby they are threatened by the Commonwealth Child Welfare Agency in the removal of the children from the home due to the environment under which they live, or have already been removed. In essence, the family needs a safe, decent and sanitary dwelling units so that the family maybe united. Our Municipality joined forces with the Commonwealth Department of the Family to provide a service to this sector of the population.

- ? **Family Self Sufficiency** – a program whereby strategies are developed to coordinate the use of housing assistance under the auspices of the Housing Choice Voucher Program (Section 8) with public and private resources. Hence, enabling extremely low-income and low-income families, who are eligible to receive said assistance to achieve economic independence, and self-sufficiency.

- ? **Special Housing Opportunities Programs (S.H.O.P.S.)** - this program encompasses various programs under one umbrella, which are targeted to certain sectors of the population. Under this umbrella program, the following is being offered:
 - ? **Assistance for the elderly** - this program is geared to offer assistance to a family and/or individual who is over the age of 62. Families are offered rental assistance and/or short-term payments to prevent homelessness as well as for other supportive services and health care.

- ? **Assistance for HCV participants** - this type of assistance is geared to current participants who are in need of aid inn the payment of the security deposit, whereby the family who receive this assistance enter into a repayment agreement, aid for the water and/or light security deposit, which is a grant to the family and other assistance determined necessary for the family.
- ? **Special Assistance Program (S.A.P.)** - The purpose of this program is to issue *Special Temporary Vouchers* to families so that they can rent decent and affordable housing in the private market, while their current home is being rehabilitated by the Municipality through its Moderate Rehabilitation Program.
- ? **Emergency Temporary Rental Assistance (E.T.R.A)** - This program is geared towards people experiencing a short-term housing crisis and who are not eligible for the Housing Choice Voucher Program. The family may apply for E.T.R.A. from the Municipality of Aguas Buenas, so as to avoid homelessness as well as offering them an opportunity to stabilize. If approved, the Municipal Housing Department will provide short-term temporary Rental Assistance for a period up to 4 months.

The Annual Plan of Aguas Buenas as presented herein furthers HUD’s statutory goal in accordance with the Quality Housing and Work Responsibility Act of 1998, 24 CFR 903, Section 545, whereby, the Municipality of Aguas Buenas has established a unified vision of community actions. This same Plan will afford Aguas Buenas an opportunity to shape the various programs presented herein into effective, viable, and coordinated strategies by involving citizen participation. *The Annual Plan provides a framework for local accountability and an easily identifiable source by which public housing residents, participants in the tenant-based program, and other members of the public may locate basic PHA policies, rules, and requirements concerning its operations, programs and services.*

II SUMMARY OF POLICY OR PROGRAM CHANGES FOR THE UPCOMING YEAR

The Municipality of Aguas Buenas does not contemplate any significant changes and deviation in its policies from the previous year’s PHA Plan that is not covered in other sections of this same Plan.

However, the Municipality has determined to continue suspension until further notice, the assistance to low income families for deposit to rent a dwelling unit. This program is geared as a loan program whereby the families are obligated to repay the PHA at a minimum \$25.00.

Furthermore, the Municipality has adopted the following policy changes and has incorporated them into the revised administrative plan presented to HUD.

? **Upfront Income Verification**

The Municipality has established a policy to secure and include staff utilization of Upfront Income Verification (UIV) information gathered to verify the household income of program participants. This is a key strategy in reducing income and rent errors attributable to unreported income and to increase accuracy and efficiency in determining family eligibility and computing rent calculations.

III HOMEOWNERSHIP PROGRAM

One of the major objectives of the present Administration within the Municipality of Aguas Buenas is to create maximum opportunities to both low and very low income families to become first-time homeowners. Experience has clearly demonstrated that homeowners take more pride in, and better care of their individual housing units, than those families who occupy rental units. This fact will clearly assist in:

- ? Eliminating blight and blighting conditions within low income areas by preserving existing housing units.
- ? Develop self-sufficiency by encouraging other low and very low income families to become self-sufficient, in order to qualify as first-time homeowners.
- ? Revitalize and stabilize existing and deteriorated low income neighborhoods.

The municipality has a goal of establishing and implementing a viable Homeownership Program in accordance with the Quality Housing & Work Responsibility Act of 1998 and will adopt the necessary procedures to promote a Homeownership Program within its Housing Program. In this regard, the municipality will seek out not only HOME funds, but likewise will work with both the Puerto Rico Department of Housing, the Housing Development Bank, and other similar public private agencies in order to accomplish this same goal. To further this

goal, the municipality has developed and adopted Homeownership Action Plan. This same plan has been presented to the HUD local office and since been approved.

The following actions listed below, we feel, will address the obstacles that may be faced by potential buyers.

ACTIVITIES:

? PROVIDE GREATER ASSISTANCE IN MEETING BOTH DOWN PAYMENT AND CLOSING COST REQUIREMENTS

One of the greatest barriers to homeowners by potential low income purchases, are the initial costs, such as down payment and closing costs. The Municipality will, working with such housing agencies as previously set-forth within this same submission, in order to create both a viable and effective program whereby low income families have the opportunity to become first-time homeowners.

Currently, the Commonwealth of Puerto Rico is sponsoring two programs to assist families with the purchase of their homes. One such program is called, "*Llave Para Tu Hogar*" or "*A Key For Your Home*", which provides low-income families with grants ranging from \$3,000 to \$15,000 to be applied against the purchase price of home. This same home can not be more than the established, by the State, price of \$70,000.00. The second program called "*Ley 124*" or "*Law 124*" also provides low-income families with assistance to make the home affordable.

OBJECTIVE: CREATE AFFORDABLE HOUSING WITHIN THE COMMUNITY

Affordable housing within the Municipality of Aguas Buenas has been adversely impacted by the following factors over time:

1. Family Income;
2. Land Costs;
3. Financing;
4. Lack of Available Land for Development.

Cognizant of this, the Municipality of Aguas Buenas will develop a strategy that identifies policies, which may require modification, and initiate the following actions that will address the problem of affordable housing and the establishment of the Homeownership Program.

ACTIVITIES:

? IMPROVE LAND DEVELOPMENT REGULATION

At the present time the Puerto Rico Planning Board is the primary regulatory agency of the State government, that deals with land use and requirements for construction of housing sub-division, which combined with requirements of other State agencies tend to create obstacles to affordable housing. In this regard, the municipality will be working with our elected officials, namely-both the State Representative in the House of Representatives and our State Senator, in order to study existing applicable regulations and their impact upon the local housing market. Additionally, both the Mayor and representatives of the municipality will be working with their counterparts within the Planning Board in reviewing existing land policies.

? PROVIDING FOR THE COORDINATION OF FUNDING

In order to achieve any degree of success in creating affordable housing for households classified as being either low or very low income, requires funding from multiple funding sources. The Municipality will take into account and consider the appropriate changes in order to implement the Homeownership Program, whereby, it will consider the following:

1. Assistance will be provided for:
 - a. First time homeowner;
 - b. Family that owns or is acquiring shares in a cooperative.
2. The Program will become available to families participating in our tenant-based Housing Choice Voucher Program. However, the families currently participating in our Family Self-Sufficiency Program will be offered the program first.
3. The total family that will be serviced through this program will be limited to approximately 20% of participating families in the Housing Choice Voucher Program.

4. Funding levels.
5. Families who do not enjoy the benefits of the Family Self Sufficiency Program but are in good-standing within the locally administered Housing Choice Voucher Program will be briefed on the benefits of joining the Homebuyers Club with one of the two local banks authorized to offer such a program. The local banks are RG Premier Bank and Doral.

The Municipality of Aguas Buenas will take deliberate action as well as consider the appropriate changes in order to improve the application process for all federal programs that may have a beneficial impact upon the local housing market and affect programs covered within the Five-Year Plan.

IV STATEMENT OF PROGRESS IN MEETING THE 5-YEAR PLAN, MISSION AND GOALS

Within its 5-Year Plan, the Municipality of Aguas Buenas has achieved the following:

- ? Consolidated the Section 8 Voucher and Certificate Program, respectively, into a single market-driven program.
- ? Has been actively promoting freedom of housing choice so as to achieve spatial deconcentration of extremely low income families, within our homogeneous community.
- ? Continue with our established goal of providing improved conditions for extremely low-income families while maintaining their rent payments at an affordable level.
- ? Established the Homeownership program as planned. The families that entered the Program are currently looking for the home to purchase. The families have already taken a homeownership course. Had families moved from the FSS to become homeowners through a federally approved housing program such as those sponsored by the Rural Development Administration.
- ? Generate meetings with local banking to start participating families in Homebuyers Club.

- ? Established in-house programs to meet the needs of certain sectors of the population within the municipality.
- ? Established contacts with the local banks to service our Homeownership families as well as with some local neighborhood networks organization (non-profit).

While the Municipality of Aguas Buenas is pleased with what has been accomplished so far, Aguas Buenas is very much cognizant of the long road ahead so as to meet the needs of its citizens. On an on-going basis, the Municipality of Aguas Buenas continues to evaluate the goals and strategies that have been established so that it can better meet the demand of housing.

V FINANCIAL RESOURCES

OBJECTIVE:IMPROVE OPPORTUNITIES UNDER RENTAL HOUSING

Renters experience more housing problems than do homeowners as it clearly is demonstrated by our own experience under our locally administered Housing Choice Voucher Program (Section 8). When renters are compared to homeowners of the same household type and income levels, the percentage of renters with housing problems is higher than owners.

We have identified the need for rental housing based upon the number of requests made to the Municipality by the population at large to numerous Municipal Agencies. In most cases, it was primarily a general need for more rental housing, since better than 80% of the population do not qualify to purchase a dwelling unit and require some type of rental assistance. It is in this regard that the Municipality of Aguas Buenas has a one year goal to provide assistance of upwards to approximately 40 households with rental housing assistance.

The activities that will be undertaken by the Municipality to accomplish this goal are:

A. Housing Funding Sources -

Seek out whatever available alternative housing Programs as they become available from such agencies as Rural Economic and Community Development, Puerto Rico Housing Department, Housing Development of the Commonwealth of Puerto Rico, the U.S. Department of Housing and Urban Development; and local cooperatives, etc.

Additionally, work with island housing contractors that may be interested in constructing housing units within Aguas Buenas, by offering incentives

and assistance in one form or another that may be legally acceptable, in order to encourage such contractors to participate in the local housing market.

B. Additional Subsidized Funding under the Voucher Program

The Municipality of Aguas Buenas will work closely with the U.S. Department of Housing and Urban Development (HUD) in attempting to obtain additional vouchers, if and, when they become available so as to expand and strengthen our successfully administered Self-Sufficiency Program, thus permitting our Municipality to assist more families, while affording them the same opportunity as other families who have successfully completed their Family Self-Sufficiency Contract.

C. Target available assistance to Families with special needs

1. **HOPWA Program-**

The Municipality of Aguas Buenas cognizant of the needs of families that are infected with the HIV virus and have very limited economic resources with which to combat this disease has joined a consortium with the Municipality of San Juan to secure the funding necessary to provide safe, decent and sanitary housing for eligible families. The Municipality of San Juan is the lead PHA in this consortium.

2. **Family Unification Program-**

Aware of the fact that extremely low income families do not have the means with which to have a decent, secure and sanitary housing due to other hardships that they encounter on a day to day basis, the Municipality of Aguas Buenas has developed and implemented a Program to maintain families together. Victims of domestic violence face financial hardships when the main bread winner is the aggressor and threatens the lives of his family as well as the one that has to vacate the dwelling or the family must separate because of the volatile situation in which they must endure.

Furthermore, these same families must also face social as well as psychological problems which in turns lower their self esteem. When the family becomes frustrated they then become abusers themselves and take out their frustration on the children. Because of this, the Family Department or rather, the Child Welfare Agency, must intervene on behalf of the young and remove them to a safe place until the Courts decide what the next step will be.

To avoid the aforementioned situations, the Municipality of Aguas Buenas and the Commonwealth of Puerto Rico, Department of the Family, have joined forces to provide this same families decent, secure and sanitary housing. A *Memo of Understanding* was signed so that information could be exchanged

between the two government agencies and the proper referrals can be made so to assist these families in need.

3. **Family Self Sufficiency Program-**

The purpose of this FSS Program is to promote the development of local strategies to coordinate the use of public and private resources to enable families eligible to receive assistance under the Voucher Programs achieve economic independence and self-sufficiency.

4. **S.H.O.P.S. Program-**

This program encompasses various programs under one umbrella, which are targeted to certain sectors of the population. Under this umbrella program, the following is being offered:

- ? **Assistance for the elderly** - this program is geared to offer assistance to a family and/or individual who is over the age of 62. Families are offered rental assistance and/or short-term payments to prevent homelessness as well as for other supportive services and health care.

- ? **Assistance for HCV participants** - this type of assistance is geared to current participants who are in need of aid in the payment of the security deposit, whereby the family who receive this assistance enter into a repayment agreement, aid for the water and/or light security deposit, which is a grant to the family and other assistance determined necessary for the family.

- ? **Special Assistance Program (S.A.P.)** - The purpose of this program is to issue *Special Temporary Vouchers* to families so that they can rent decent and affordable housing in the private market, while their current home is being rehabilitated by the municipality through its Moderate Rehabilitation Program.

- ? **Emergency Temporary Rental Assistance (E.T.R.A)** - This program is geared towards people experiencing a short-term housing crisis and who are not eligible for the Housing Choice Voucher Program. The family may apply for E.T.R.A. from the Municipality of Aguas Buenas, so as to avoid homelessness as well as offering them an opportunity to stabilize. The Municipal Housing Department will provide short-term temporary Rental Assistance for a period up to 4 months.

E. Available Funding Sources

VI PHA'S COMMUNITY SERVICE AND SELF-SUFFICIENCY PROGRAM

The purpose of the FSS Program is to promote the development of local strategies to coordinate the use of assistance under the Tenant-based Housing Assistance Program (Housing Choice Voucher Program) with public and private resources, so as to enable families that are receiving assistance under this same program achieve economic independence and self-sufficiency.

The Municipality of Aguas Buenas has developed and implemented an FSS Program in conformity with the Housing Choice Voucher Program (Section 8) regulations and applicable civil rights authorities. At the current time the Municipality has monies allocated to assist 25 families of low and very low income. It has been successful in the implementation of said programs, due to the hard work and motivation provide by not only the Housing Staff, but also the Professional consulting firm.

To further its aim with the FSS Program, the Municipality appointed, and has received funding for, an FSS Coordinator to carry out the necessary functions in the formal structure of the Coordinating Committee. The Program Coordinating Committee (PCC) is integrated by professional representatives from public and private enterprises, actual FSS participants, church groups, community leaders, local business, and other resources. The representatives from these entities have an input in the program design and action steps of the FSS Program and are responsible for such functions as:

Furthermore, it is the intention of the Municipality of Aguas Buenas to further strengthen its current Family Self-Sufficiency Program (FSS) as well as aggressively pursue alternative means for participating families achieve self-sufficiency, economic independence and ultimately homeownership.

In order to achieve this objective, the Municipality has adopted a policy of increasing the frequency of appointments between the FSS family and the FSS Coordinator.  - A. The local Housing Inspector will receive the proper training so that when a prospective home has been inspected, it complies not only with established HQS but also with the American Disabilities Act.

- B. Brief the owner concerning established local and federal laws on how to make the prospective dwelling unit comply with said laws and HQS as established by HUD.

- C. Revise the payment standard in accordance with our plan so as to assure owner acceptance as well as the incentive to invest and make the dwelling unit an accessible unit for individuals with disabilities.

COORDINATION BETWEEN PUBLIC/PRIVATE RESOURCES

The Municipality will contact public and private operators of housing, including local financial institutions located within Aguas Buenas, to provide them with both information and descriptive materials making them aware of the need to further fair housing.

COORDINATING INFORMATION/REGULATIONS

Working closely with the housing division of HUD, the Municipality will obtain copies of regulations and other training aids in order to provide seminars, in order to create a public awareness of the importance of fair housing.

CREATE AWARENESS OF LEAD BASE PAINT HAZARDS

Since many of the private homes in Aguas Buenas were constructed prior to being informed that lead-based paint represented a health hazard to all the members of the household, and the effect that this same problem has upon children, the Municipality of Aguas Buenas is committed both in a short term, as well as in the long-term, to work with the Puerto Rico Department of Housing, in order to both develop and implement a viable, effective, safe, and cost-effective method of reducing this same hazard. While a great many precautions currently exist, effective abatement and likewise, hazard reduction activity requires participation from providers and contractors, aside from individual residents.

Aguas Buenas feels rather strongly, that in order to create an effective system of abatement services it must coordinate its activities with other state agencies dealing with this same problem. In cooperation with both the public and private sectors will initiate the following actions in order to achieve the most desirable results:

ACTIVITIES:

COMPLYING WITH EXISTING REGULATIONS

The Municipality of Aguas Buenas, has a goal of working with the existing management of the various Public Housing Projects located within the Community, to review all units in cooperation with the State Housing Department and other applicable State Agencies over the five-year period of the Consolidated Plan, in order to both assist and coordinate the required abatement services required.

X SEMAP SCORE

XI ADDITIONAL INFORMATION REQUIRED

SUBSTANTIAL DEVIATION FROM 5-YEAR PLAN OR AMENDMENT AND/OR MODIFICATION TO ANNUAL PLAN

In accordance with established HUD rules and regulations, the following will be the basic criteria that will be utilized by the Municipality of Aguas Buenas as it will constitute a substantial deviation from its 5-Year Plan and/or amendment or modification to its Annual Plan that has met full public process requirements including Resident Advisory Board Review:

- ? Changes to rent (minimum rent), admission policies and/or organization of the waiting list;
- ? Additions of new activities not included in the current annual Plan and/or 5-Year Plan;
- ? Any change with regard to homeownership or any other subsidized housing programs administered by the Municipality of Aguas Buenas.

- ? Changes to the grievance procedure as established within the Administrative Plan.

Nevertheless, the Municipality of Aguas Buenas will consider the following to constitute a “substantial deviation” from the HUD approved Five-Year Plan:

- ? Any modification to the PHA’s mission statement or any substantial adjustment to the goals and/or objectives.
- ? An exception to these definitions will be made for any of the above that are adopted to reflect changes in HUD regulatory requirements. Moreover, these same changes will not be considered substantial deviations or significant amendments by the Municipality.

XII STATEMENT OF HOUSING NEEDS

The following represents the estimated housing needs projected for the ensuing five-year (2005-2009) period. The data included within this portion of the plan is based upon existing available U.S. Census data, the Puerto Rico Housing Planning Board statistical data, as well as other reliable sources such as the local housing authority, and other similar agencies such as the Commonwealth Department of the Family.

Since this same jurisdiction, namely the Municipality of Aguas Buenas is not seeking funding on behalf of an eligible metropolitan statistical area under the HOPWA program, the needs described for housing and supportive services DO NOT address the needs of persons with HIV/AIDS and their families throughout the eligible metropolitan statistical area.

1. Housing Needs

The Comprehensive Housing Affordability Strategy (CHAS) Data book issued by the U.S. Department of Housing and Urban Development, indicates that the Municipality of Aguas Buenas, has a total of some 7,142 housing units, of which some 4,843 units are occupied by very low income families, 1,205 units by low income families, 351 units by moderate income families and some 717 housing units are being occupied by above income families.

It should be noted, that the housing needs were based upon the number of renter and owner-occupied units with one or more housing problems. The definition of housing units with problems included those that:

- ? Occupying units having physical defects or being in deteriorated state.
- ? Classified as being overcrowded.
- ? Meet the definition of having a cost burden of more than 30 percent.

Based upon the latter, housing needs were determined to represent a major problem in terms of identifying housing problems in both renter and owner-occupied households with more than one problem, such as residing within overcrowded, deteriorated and/or dilapidated dwelling units, or meeting the definition of housing cost burdens greater than 30 percent of family's income.

2. Renter Households

According to the 2000 U.S. Census of Population, there was registered a total of 9,240 year-round housing units within the Municipality of Aguas Buenas. Of this some 2,450 units are occupied by renter's on a year-round basis, of which 1,940 units have some type of housing problem.

It is estimated from figures obtained from such sources as the Department of Housing, the Family, the Planning Board, and our own internal figures based upon demands from the public at large upon local public housing units, and upon our locally administered Tenant Based Subsidized Housing Program, that rental housing demands will require some additional 510 units by the year 2009, for a total renter household size of 2,960. This is assuming that the present economic conditions will stabilize at present levels, and that all social programs currently in place, will continue to be funded at present levels over the next five years. Should any existing social program be eliminated and/or receive severe cutbacks, the demand for renter households will then sky-rocket at unpredictable levels.

It should be noted, that this same increase of 510 additional rental units on the local housing market, will, it is estimated, be among the extremely low and low income segment of our local society who are either unable and/or unwilling to relocate to other communities.

3. Substandard Units

Within the category of defining a substandard unit within the rental household group, it was determined that of these 590 units were found to be in deteriorating or dilapidated condition.

4. Other Housing Problems

According to the CHAS Data book dated 2000, there were some 1,164 or some 50.6% of the renters occupied housing units surveyed, which were classified as having other housing problems. CHAS defines “other housing problems” as living in overcrowded conditions or in units lacking complete kitchen or plumbing facilities.

In this regard, and based upon the statistical data presented herein and from such reliable sources as the Planning Board, Housing, Social Services, and our own local appraisal based upon our locally administered Tenant-based program we have identified the following Renter Households by Income Groups and categories. This information is illustrated in Table II.

TABLE II
MUNICIPALITY OF AGUAS BUENAS
RENTER HOUSEHOLDS BY INCOME GROUPS: 2000

RENTER HOUSEHOLDS	EXTREMELY LOW INCOME (0-30%)	VERY LOW INCOME (31-50%)	LOW INCOME (51-80%)	MODERATE INCOME (81-95%)	TOTAL
Elderly	85	91	58	20	254
Small Families	461	291	302	345	1,399
Large Families	104	149	61	54	368
Other	125	42	45	67	279
Total	775	573	466	486	2,300

5. Elderly Rental Households

According to the 2000, CHAS Data book, there was a total of some 254 renter households within the Municipality of Aguas Buenas of which 85 were classified as being of extremely low income, 91 households classified as being very low income, 58 households classified as being of low income and 20 households were classified as being of moderate income.

6. Cost Burden

Within this same income category involving elderly households, some 14 were within the 0-30%, 18 households were within 31-50% range while 20 households were within 51-80% range.

7. Small Family Rental Households

The small family rental household category, some 1,399 households, represented the following numbers:

- A. 461 units were classified as being of extremely low income;
- B. 291 units were classified as being of very low income;
- C. 302 units were classified as being of low income;
- D. 345 units were classified as being of moderate income.

8. Cost Burden

Within this same Small Family renter's household group some 72.9% of the households were classified as being of extremely low income, 49.1% households of very low income, 42.7% households of low income, and finally, 39.1% represented moderate income levels.

9. Large Family Renter Households

This same Comprehensive Housing Affordability Strategy (CHAS) Data book covering Puerto Rico and dated 2000, indicated that there was a total of some 368 large rental household families, of which some 104 were classified as being of extremely low income; 149 were classified as very low income and some 61 large family renter households representing low income families, while 54 renter households represented the moderate income category.

10. Cost Burden

Within this same large family renter's household income group of some 100 households fall within the 0-30% group, 130 such households are within the 31-50% range, 32 households are classified within the 51-80% range, and 34 households are classified within the above 81% range.

11. Homeless Persons

From a review of available reliable statistical data available at the present time, the Municipality of Aguas Buenas does not possess any homeless persons. Perhaps one of the reasons may be, that (1) Aguas Buenas is a rather small community in terms of population and therefore does not possess a highly developed central business district with all-night bars, cafeterias, bus stations, etc., where homeless people tend to congregate with total immunity, and (2) Since Aguas Buenas is adjacent to such major metropolitan areas such as Bayamon, San Juan, Guaynabo, and Caguas which possess the latter sites which attract homeless persons, they would tend to relocate to these other areas and thus freeing Aguas Buenas of having to deal with this same problem.

Since Aguas Buenas does not possess any homeless population, it has no need for shelters or supportive services covering this same segment of its local population.

12. Persons with Disabilities

Utilizing various information available to the Municipality of Aguas Buenas including both the U.S. Census (2000), the Puerto Rico Planning Board, and likewise numerous state and local agencies having to deal with disabilities, we likewise have estimated our needs fairly accurately.

According to the Puerto Rico Developmental Disabilities Planning Board, it is a nationally accepted fact that within the general population, 1.8 percent will have one form or another of a developmental disability. In this respect, Aguas Buenas with a 2000 total population of some 29,032, it is estimated that 523 persons are classified as having a developmental disability.

13. Persons With Physical and Developmental Disabilities

Within Aguas Buenas the 523 estimated persons as having been classified as having either a physical or developmental disabilities are currently residing with other family members, or residing within a rental unit.

One of the projects requested within our first year of activities is housing rehabilitation, a part of which, will be devoted not only to remove or correct health or safety hazards, in order to comply with applicable development standards or codes, and/or to improve general living conditions of the resident(s), including improved accessibility by handicapped persons.

At the present time there are no known day care centers, either private or public for developmental disability within Aguas Buenas. These same services are rendered in all adjacent municipalities - Guaynabo, Caguas, San Juan and Bayamon.

Within Aguas Buenas several obstacles prevent the disabled from obtaining adequate housing:

- ? Proper accessibility;
- ? Centrally located housing convenient to public transportation;
- ? The need for additional rent subsidies as those afforded under HUD's tenant-based subsidized housing programs.

It is the intent of the present Mayor to seek out and obtain funds from other sources in order to provide new housing for this segment of the population. It is anticipated that the Municipality of Aguas Buenas will require some 150 additional supportive units over the next five years in order to serve both existing and anticipated needs within this same segment of its society.

Needless to say, any additional new units, or for that matter any rehabilitated units will be required among other factors, to meet the requirements for handicapped persons as required by Americans with Disabilities Act, since most of all existing units occupied by the disabled were not designed and/or are not properly equipped to meet the special needs of this same category.

14. Estimate of Housing Needs Projected

The projected housing needs within Aguas Buenas were estimated based on various sources such as the 2000 Census, Puerto Rico Planning Board, Puerto Rico Department of Housing, and the local Housing Department. Housing needs in most communities of which Aguas Buenas is no different, come about as a result of the following:

- ? High housing costs;
- ? Housing located in areas subject to landslides, or unstable terrain;
- ? Physically deteriorated housing;
- ? Inadequate and overcrowded units.

The Puerto Rico Planning Board clearly indicates three (3) reasons for which a dwelling unit would be classified as being inadequate housing:

- ? High Housing cost;
- ? Being overcrowded;
- ? Being in a physical deteriorated condition.

It is in this regard that these general principles required to be operational through precise definitions according to the U.S. Census Bureau, such as a unit is considered overcrowded if the household consists of at least three persons and have 1.5 persons or more per room.

It should be noted, that households having unusually high housing costs when the following occurs:

- ? Two or more persons, with the heads of households less than 65 years of age paying more than 25 percent of their income for rent;
- ? Single person paying more than 35 percent of their income for rent;
- ? Two or more persons, with the heads of households over the age of 65, which are paying more than 35 percent of their income for rent.

Furthermore, housing units lacking complete indoor plumbing facilities or deteriorated/dilapidated housing units having all plumbing facilities are regarded as being inadequate. In this regard, estimating the total needs for housing within Aguas Buenas was based on the various sources previously noted, regarding each of the three components of housing need. From this analysis it was concluded that there exist housing needs for 1,682 housing units within the Municipality of Aguas Buenas covering extremely low and low income families. This same projection while based upon available data sources does not take into consideration any change and/or elimination of any existing housing programs, or a severe downturn in either the national or local economy.

The present municipal administration of Aguas Buenas is desirous in obtaining additional housing units over the next five years and preserving existing housing stock.

15. Barriers to Affordable Housing

Like any other community across this Nation, whether it be in Puerto Rico, or on the U.S. Mainland, the principle barriers to affordable housing within the Municipality of Aguas Buenas are:

- A. The high cost of land development due to general lack of both vacant and available land;
- B. The high cost of construction, which for the most part includes the construction of a sanitary sewer system, water lines, electrical services, within distant rural communities where vacant lands are currently available.

These combined factors, representing the high cost, clearly indicate that better than 80% of the total population of Aguas Buenas would indeed require some kind of assistance in order to solve their housing problems.

At the present time the only source of purchasing a home within Aguas Buenas is by securing a private mortgage through a banking institution or mortgage lending institution, which for the most part is not approving mortgages to low or moderate income families. At the present time, it appears that the minimum income required to purchase a home, averages at least \$30,000. This same requisite along with a stable with a stable credit and employment recorded are required.

Bearing this in mind, if a family does not qualify to purchase a dwelling unit, then they qualify to rent a housing unit. This is more acute, since (1) there exists a lack of rental properties available, and (2) those units that are available for rent, are so costly ranging from \$375 to \$700 a month, that without some form of a rental subsidy, are indeed beyond the low and moderate income families. This can be verified, since some 300 families are currently awaiting placement on a waiting list, seeking assistance under our own Tenant -based Subsidized Housing Assistance Program.

XIII HOUSING MARKET ANALYSIS

A. General Characteristics

According to the 2000 US Census, the significant characteristics of the housing market within the Municipality of Aguas Buenas are depicted in Table III:

Table III	
HOUSEHOLDS	TOTAL
YEAR ROUND UNITS	10,412
VACANT	1,172
FOR RENT	211
FOR SALE	48
FOR RECREATIONAL USE, ETC.	193
FOR OTHER REASONS	720
OCCUPIED	9,240
OWNER OCCUPIED	6,790
RENTER OCCUPIED	2,450
UNITS LACKING KITCHEN FACILITIES	474
UNITS LACKING COMPLETE PLUMBING FACILITIES	116
VACANCY RATE OWNER OCCUPIED UNITS	0.70%
VACANCY RATE RENTER OCCUPIED UNITS	7.90%
AVERAGE SIZE OF UNIT OCCUPIED BY OWNERS	3.16%
AVERAGE SIZE OF UNIT OCCUPIED BY RENTERS	3.01%
AVERAGE FAMILY SIZE	3.49%

It should be noted, that the total population or some 29,032 persons reside on only some 30.57square miles, representing a population density of some 949.8 persons per square mile and 340.6 dwelling units per square mile.

Because of Aguas Buenas' proximity to such Metropolitan cities such as Caguas, Bayamon, San Juan and Guaynabo and the scarcity of available land for

development, it makes the Municipality one of the highest population densities in Puerto Rico. This represents a major problem since land for housing construction is limited, and the cost of acquisition as well as the placement of the necessary infrastructure such as water, electric, and sewers, would place the cost of acquiring individual units way beyond the reach of low income families.

The tenant-based housing assistance program which is administered by the Municipality of Aguas Buenas, and funded by the U.S. Department of Housing and Urban Development include the following categories:

Housing Choice Vouchers	88
Family Self-Sufficiency	25
Family Unification Program	49
Total Tenant-based units	<u>161</u>
Other Tenant-based Assistance	<u>54</u>
Administered by the Municipality	215

The need for secure, decent and sanitary housing within the Municipality of Aguas Buenas, is the fact that there is some 500 families currently on a waiting list seeking housing under this same program. **When an acceptable rate per family within Puerto Rico is 3.5 persons per family, these same 500 families requesting housing under the Tenant-based Subsidized Housing Program which is representative of some 1,750 persons or 6% of the total Municipal population.**

B. Housing Market and Inventory Conditions

Both the 2000 Census of Population and likewise the Comprehensive Housing Affordability Strategy (CHAS) Data book of Puerto Rico provide both an accurate picture of the market conditions within the Municipality of Aguas Buenas.

Without exception of the total housing units (10,412), some 9,240 are occupied on a year round basis. In this regard, of the total occupied units (9,240), some 6,790 are occupied by the owner while the remainder 2,450 are occupied by renters, with the balance or 1,037 units being vacant.

It should be noted again, that the 1,172 units that are classified as being vacant are for the most part due to the high cost of rent and the lack of any additional subsidized rental assistance programs in order to assist low, very low and moderate income families who are unable to make the required monthly payments, in addition to making other basic expenses such as food, clothing, electric and water service.

At the end of the 90-day suspension period, a minimum rent is imposed retroactively to the time of suspension. The family will be afforded a responsible repayment agreement for the amount of back rent owed.
3. If the Municipality of Aguas Buenas has determined that there is no qualifying hardship exemption, the

Municipality of Aguas Buenas will reinstate the minimum rent including the back payment for minimum rent from the time of suspension on terms and conditions established by the Municipality.

G. Payment Standard

A payment standard will be set between 90%-110% of the Fair Market Rent for the PHA jurisdiction as established by QWHRA. The Municipality of Aguas Buenas has a payment standard of 100% of the FMR Metro Area.

The following represents the subsidy standards that determine the number of bedrooms required for families of various sizes and compositions:

<i>0 BR</i>	<i>1BR</i>	<i>2 BR</i>	<i>3 BR</i>	<i>4 BR</i>
361	440	519	650	730

The local area Office of HUD, namely the Economic and Market Analysis Division (EMAD), as well as the HUD Public Housing Director will be consulted on an annual basis, so as to confirm that the FMR employed are both accurate and reflect the general cost of housing for our area.

In the case of the PHA requesting a revision to the existing FMR, the PHA will include documentation showing the current median rent for standard units in our area. In this regard the PHA's recommendations will be supported by such analytical data such as:

- ? Evidence that significant changes in rents have been experienced in the rental market, which differ from those changes measured by the Consumer Price Index (CPI) factors

used to update the Annual Housing Services based on the Median Rent.

- ? When convenient and/or required the PHA will provide local housing Market surveys that indicate the current median rent levels for standard units of various sizes within our designated FMR area.

H. Determination of Unit Size in Relation to Family Composition

The Municipality of Aguas Buenas has applied the following requirements when determining the unit size in relation to the family composition under our subsidy standards:

- ? The subsidy standards provide for the smallest number of bedrooms required to house a family without causing overcrowding;
- ? The subsidy requirements are consistent with space requirements under the Housing Quality Standards;
- ? The subsidy standards have been applied consistently for all families of like size and composition;
- ? A child who may be temporarily away from the home because of placement in foster care is considered a member of the family in determining the family unit size;
- ? A family consisting of only a pregnant woman will be treated as a two-person family;
- ? Any live-in aide which has been authorized by the Municipality to reside within the unit to care for a family member who is either disabled or at least 50 years of age will be counted in determining the family unit size;
- ? The Municipality has agreed, that unless a live-in-aide resides with the family, the family unit size for any family consisting of a single person must be either a zero or one bedroom unit.

- ? The Municipality will grant an exception to its established subsidy standards, in determining the family unit size for a dwelling unit, if it determines that the exception is justified by the age, sex, health, handicapped or relationship of family members or other personal circumstances.

I. Exceptions to FMR on a Unit by Unit Basis

The PHA is entitled to establish its payment standard from 90%-110% of the FMR approved for MSA area of the PHA. The PHA will be allowed to approve initial gross rents on a unit by unit basis which exceed the FMR's or payment standard established by the PHA for units, which by virtue of size, amenities or location, or in the case of expanding housing opportunities for low income families, or to obtain units which have been made accessible to the disabled, which are determined to warrant exception rents. The PHA accepts the fact that this same authority will not be exercised for more than 20 percent of the units authorized by the ACC.

J. Affordability Adjustments

Upon recertification/redetermination of the applicant, any adjustments will be to the appropriate Payment Standard established by the PHA. Where it is has been accurately determined by the PHA that based upon the documentation available to the PHA, that an overpayment was made by the PHA, the PHA will immediately advise the participant of the same and request a meeting in order to establish a repayment schedule or other acceptable plan in order for the PHA to recover the overpayment.

K. Rent Adjustments

Rent adjustments requested by landlords will be processed as indicated in Section 982.509 Federal Register, April 30, 1998, page 23863. The owner must request said revision to the contract rent sixty (60) days prior to the HAP contract anniversary date.
