**ii. Executive Summary of the Annual PHA Plan**

[24 CFR Part 903.7 9 (r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

**Section 8 Program**

The Housing Authority of the City of Fort Lauderdale (HACFL) has made several strides over the past year in the section 8 program, continuing to be a High Performer under SEMAP. Several steps have been taken to improve the efficiency of the program which serves 2028 HCV and over 400 HOPWA clients. Our Fraud Investigator continues to interview and review all zero income residents to accurately determine the correct tenant rents.

The Homeownership program is taking off as there are several residents of section 8 (under the FSS program) awaiting the completion of the new construction single family homes.

Looking ahead, the new Flexible Voucher Plan will bring its obvious rewards and concerns, but this agency is prepared to give the best service to the clients of section 8 that the program budget can afford.

**Public Housing**

Dixie Court Apartments demolition and re-development is proceeding. The demolition should be completed by August. Whereas the HACFL was unsuccessful at getting our application for 9% LIHTC funded in 2005 cycle, plans are to move forward with re-platting, site preparation and to re-apply in the 2006 funding cycle for the 9% LIHTC. Failing this, bonds and 4% LIHTC will be the financing route taken.

**Centralized Administrative and Maintenance Operations**

This will soon be a reality as construction work to complete this project should end in October. The economies of scale as well as other benefits to the operation and employees are expected to reap efficiencies in operation while offering improved customer service to clients

## ATTACHMENT A

### DECONCENTRATION POLICY

It is Fort Lauderdale Housing Authority's policy to provide for de-concentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments. Toward this end, we will skip families on the waiting list to reach other families with a lower or higher income. We will accomplish this in a uniform and non-discriminating manner.

The Fort Lauderdale Housing Authority will affirmatively market our housing to all eligible income groups. Lower income people will not be steered toward lower income developments and higher income people will not be steered toward higher income developments.

Prior to the beginning of each fiscal year, we will analyze the income levels of families residing in each of our developments, the income levels of census tracts in which our developments are located, and the income levels of the families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and de-concentration incentives to implement.

### **DECONCENTRATION INCENTIVES**

The Fort Lauderdale Housing Authority may offer one or more incentives to encourage applicant families whose income classification would help to meet the de-concentration goals of a particular development.

Various incentives may be used at different times, or under different conditions, but will always be provided in a consistent and nondiscriminatory manner.

### **OFFER OF A UNIT**

When the Fort Lauderdale Housing Authority discovers that a unit will become available, we will contact the first family on the waiting list who has the highest priority for this type of unit or development and whose income category would help to meet the de-concentration goal and/or the income targeting goal.

Attachment D  
Progress of 5 year Plan Mission & Goals

- The modernization of the interior of seventy-two Dixie Court Apartment units is complete. The roofs have been re-done, parking and roadways completed. Additional project lighting and landscaping are scheduled for completion by late summer 2005 as well as bids are currently being accepted for sandblasting and painting exterior of all buildings.
- The re-development of the remaining seventy-eight units in Dixie Court is continuing. The demolition contract has been signed and is expected to be complete by late August, re-platting of site and other site work will also be scheduled. This agency continues to explore the funding avenue of 9% LIHTC from the State of Florida as well as other options available for financing the plan.
- The seven units of new construction single-family homes to be sold to first-time homebuyers should begin construction late summer with the plan to complete by year end. Several purchasers are Housing Choice Voucher holders which will be home-ownership vouchers upon closing. The HACFL continue to market the Home Ownership Voucher Program through its FSS programs in both section 8 and PHA.
- The capital expenditure to purchase and renovate a building (in 2003) by Affordable Housing department was a timely decision. The completion of the project is expected by mid-October. The facility will house several departments including the section 8 program, public housing maintenance/management, Step-up Apprenticeship and Affordable Housing.
- The cooperation with the Resident Advisory Board will continue to be a top priority for the management and staff as there is a new president for the organization and meetings are scheduled to accomplish this.

### Resident Survey Follow-Up Plan

The following actions have been taken to address areas of concern based on the Resident Survey for the 12/31/2004 fiscal year end.

#### **Neighborhood Appearance**

The partial demolition, rebuilding, and major renovation of Dixie Court development will dramatically improve the appearance of this location. Housing Authority staff has held meetings with residents and are keeping them informed of the changes that are taking place.

Dr. Kennedy Homes is in the process of exterior painting and several of the roofs and porches have been repaired.

Each site has routine lawn service and major tree trimming. Sistrunk Gardens has had concrete walkways repaved and is currently undergoing major landscape improvements.

The Housing Authority contracts with an exterminator to conduct pest control on a monthly basis. Individual housekeeping issues are being addressed by having residents attend a housekeeping class conducted by our Public Housing Management Department.

Site Service Coordinators are responsible for periodic site inspections and reporting of any issues to the appropriate department. Each site has at least one (1) Service Aide to assist with the maintenance upkeep of the grounds.

The Fort Lauderdale Housing Authority consistently requests input from residents in all of our developments. Management staff along with the United Resident Council meet on issues, exchange ideas, and work together to provide services, housing, and opportunities to all of our residents.

attachment P

The needs of all of our developments are evaluated in conjunction with the residents and budgets are developed to make the best use of funding that is received.

### **Communication**

Ongoing training for staff will be provided in the area of customer service.

Resident Boards are asked to present, on behalf of their residents, a wish list of items that they would like to see incorporated into our annual or five (5) year budget plans.

Management and Maintenance staff will continue to attend Resident Association meetings to keep residents informed, listen to their concerns, and to encourage them to be part of the solution.

### **Safety**

Dixie Court is going through a partial demolition and 78 families have been relocated, leaving these units vacant. The Ft. Lauderdale Housing Authority has hired security personnel to patrol this area during this project and demolition is scheduled for mid August 2005.

In spite of the fact that we no longer receive PHDEP funding, the Ft. Lauderdale Housing Authority has contracted with 2 police officers to assist with safety issues on our sites and encourages awareness programs on site with resident participation.

## **Replacement Housing Factor Plan FY'S 2003-2007**

### **Item 1**

The Housing Authority of the City of Fort Lauderdale's Dixie Court Apartments was originally developed in 1940 as one hundred and fifty (150) Low Rent Housing units family site, Project number: FL29P010001.

In December 2001, HACFL completed disposition of one hundred (100) Low Rent Housing Apartments (Lakeview Gardens Apartments) FL29P010006 to the City of Fort Lauderdale (City). This was accomplished with the cooperation of the then residents of the Lakeview Gardens Apartments, the United States Department of Housing and Urban Development (HUD) and in response to the rezoning of the Lakeview site as well as the deterioration of the neighborhood as a residential community.

As a result, HACFL became eligible for RHF Funding in FY 2003 from HUD. Funds will accumulate for the first five (5) year increment of an estimated seven hundred and fifty thousand dollars (\$750,000).

The Master Rehabilitation Plan (MRP) for Dixie Court Apartments calls for the renovation of seventy-two (72) units and the demolition of seventy-eight (78) units and the Community Center. The 78 units will be rebuilt with a totally different configuration/site plan.

The Demolition Application for 78 units at Dixie Court was submitted to the Special Applications Center (SAC) on December 15<sup>th</sup> 2003 for approval to demolish the 78 units planned for demolition per the MRP for the Dixie Court Apartments. The standard approval timeframe quoted by SAC is 'up to 120 days'. It is evident therefore that the demolition has not yet been approved, however, we are pressing on with development plans in anticipation of the Demolition Application being approved within the next 60 days. This approval would then set in motion a series of events related to the demolition and rebuild of these units.

### **Item 2**

#### Schedule of Major Milestone

- |    |          |           |                                     |

The Phases of the MRP calls for the forty-four (one-bedroom elderly) units structure being constructed in the first phase.
