ii. Executive Summary of the Annual PHA Plan

[24 CFR Part 903.7 9 (r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

Our mixed finance/mixed income development project known as Central City Apartments is moving forward. Our developer, East Lake Management & Development Corporation is anticipating lease-up of all 84 units by January 2006. Our development efforts are now shifting to Phase II of our mixed finance/mixed income development project. We are anticipating site selection in January 2006, and movement forward with the project early next year, with occupancy planned for early 2007. This phase will consist of public housing, affordable and market rate rental housing.

Through agreements with AMERENIP, our local electric provider we have been able to dramatically upgrade common area lighting in several of our developments including Samuel Gompers Homes, Orr-Weathers Apartments and Lansdowne Towers. We are planning through AMERENIP to upgrade lighting in our other developments. The next step will be to install security cameras in our developments starting with Samuel Gompers Homes early next year. We anticipate these actions will dramatically improve safety and security in all our major developments.

We are continuing to review our total inventory of living units and vacant properties. We will continue our plan to reduce the inventory of detached homes and vacant lots and hopefully place these on the local property tax roles so that they may add to necessary revenues, which go to supporting services provided by East St. Louis City government.

This coming year will present numerous challenges for the East St. Louis Housing Authority. A key challenge will be beginning the conversion of the agency to an asset-based management. We look forward to this challenge and believe that this conversion will only serve to strengthen the entire agency.

Additionally, governance of the East St. Louis Housing Authority is expected to pass from HUD and return to the City of East St. Louis after appointment of a Board of Commissioners to oversee the overall direction of the agency.

ESLHA certifies that its plan remains consistent with the city's Consolidated Plan.

1. Statement of Housing Needs

[24 CFR Part 903.7 9 (a)]

A. Housing Needs of Families in the Jurisdiction/s Served by the PHA

Based upon the information contained in the Consolidated Plan/s applicable to the jurisdiction, and/or other data available to the PHA, provide a statement of the housing needs in the jurisdiction by completing the following table. In the "Overall" Needs column, provide the estimated number of renter families that have housing needs. For the remaining characteristics, rate the impact of that factor on the housing needs for each family type, from 1 to 5, with 1 being "no impact" and 5 being "severe impact." Use N/A to indicate that no information is available upon which the PHA can make this assessment.

Housing Needs of Families in the Jurisdiction by Family Type							
Family Type	Overall	Afford-ability	Supply	Quality	Access-ibility	Size	Loca-tion
Income <= 30% of AMI	2,958	5	3	5	5	5	4
Income >30% but <=50% of AMI	908	5	5	5	5	5	4
Income >50% but <80% of AMI	884	3	5	5	3	5	3
Elderly	525	4	5	5	4	4	5
Families with Disabilities	UNK	UNK	UNK	UNK	UNK	UNK	UNK
Race/Ethnicity		5	5	5	5	5	5

Note: According to the City of East St. Louis Five-Year Consolidated Plan 2005-2009, the population of East St. Louis is expected to continue to decline. Taking into consideration the anticipated decline in population, condition of housing units and housing problems currently being experienced by renters, the estimate is that there will be a need to serve 2,700 renters over the next five years. Very low-income households are faced with a dilemma. While there appears to be adequate housing for very low-income households, in fact much of this housing for large families requiring three or more bedrooms is being rented by higher income households. "However, the number of 3 plus bedroom units (1,265) being rented at rents affordable to extremely low income households exceeded the number of large related extremely low-income households (373) by over 800 housing units." Low-income households are faced with problems similar to those faced by very low-income households. There are 1,904 rental units in the

City of East St. Louis with rents, which are affordable to low-income households. Low-income households rent sixty three percent of these rental units. "Analysis of this data reveals that there are enough rental units in the city having rents that could accommodate low income households of various types but these households are being occupied by higher income households." Eight hundred eighty four moderate-income families rent in the City of East St. Louis. The Consolidated Plan indicates that there is a need for moderate-income housing in the city. The apparent current lack of moderate-income rental housing has resulted in moderate-income families seeking low-income and very low-income housing in the East St. Louis market. The Consolidated Plan theorizes that an increase in moderate-income rental housing would result in more opportunities for low-income and very low-income families in the current East St. Louis rental market.

Note: The above information and quotes were extracted from the City of East St. Louis Five-Year Consolidated Strategic Plan 2005-2009 and Annual Action Plan 2005 pages 21-23.

C. Strategy for Addressing Needs

Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list **IN THE UPCOMING YEAR**, and the Agency's reasons for choosing this strategy.

(1) Strategies

Need: Short/middle term shortage of affordable housing for all eligible populations

Strategy 1. Optimize the number of affordable units available to the PHA within its current resources by:

Select all that apply

- Employ effective maintenance and management policies to minimize the number of public housing units off-line
- Reduce turnover time for vacated public housing units
- Reduce time to renovate public housing units
- Seek replacement of public housing units lost to the inventory through mixed finance development
- Seek replacement of public housing units lost to the inventory through section 8 replacement housing resources
- Maintain or increase Section 8 lease-up rates by establishing payment standards that will enable families to rent throughout the jurisdiction
- Undertake measures to ensure access to affordable housing among families assisted by the PHA, regardless of unit size required
- Maintain or increase Section 8 lease-up rates by marketing the program to owners, particularly those outside of areas of minority and poverty concentration
- Maintain or increase section 8 lease-up rates by effectively screening Section 8 applicants to increase owner acceptance of program

- Participate in the Consolidated Plan development process to ensure coordination with broader community strategies
- Other (list below)

Strategy 2: Increase the number of affordable housing units by:

Select all that apply

- Apply for additional Section 8 units should they become available
- Leverage affordable housing resources in the community through the creation of mixed - finance housing
- Pursue housing resources other than public housing or Section 8 tenant-based assistance.
- Other: (list below)

Need: Specific Family Types: Families at or below 30% of median

Strategy 1: Target available assistance to families at or below 30 % of AMI

Select all that apply

- Exceed HUD federal targeting requirements for families at or below 30% of AMI in public housing
- Exceed HUD federal targeting requirements for families at or below 30% of AMI in tenant-based Section 8 assistance
- Employ admissions preferences aimed at families with economic hardships
- Adopt rent policies to support and encourage work
- Other: (list below)

Need: Specific Family Types: Families at or below 50% of median

Strategy 1: Target available assistance to families at or below 50% of AMI

Select all that apply

- Employ admissions preferences aimed at families who are working
- Adopt rent policies to support and encourage work
- Other: (list below)

Need: Specific Family Types: The Elderly

Strategy 1: Target available assistance to the elderly:

Select all that apply

- Seek designation of public housing for the elderly

- Apply for special-purpose vouchers targeted to the elderly, should they become available
- Other: (list below)

Need: Specific Family Types: Families with Disabilities

Strategy 1: Target available assistance to Families with Disabilities:

Select all that apply

- Seek designation of public housing for families with disabilities
- Carry out the modifications needed in public housing based on the section 504 Needs Assessment for Public Housing
- Apply for special-purpose vouchers targeted to families with disabilities, should they become available
- Affirmatively market to local non-profit agencies that assist families with disabilities
- Other: (list below)

Need: Specific Family Types: Races or ethnicities with disproportionate housing needs

Strategy 1: Increase awareness of PHA resources among families of races and ethnicities with disproportionate needs:

Select if applicable

- Affirmatively market to races/ethnicities shown to have disproportionate housing needs
- Other: (list below)

Strategy 2: Conduct activities to affirmatively further fair housing

Select all that apply

- Counsel Section 8 tenants as to location of units outside of areas of poverty or minority concentration and assist them to locate those units
- Market the section 8 program to owners outside of areas of poverty /minority concentrations
- Other: (list below)

Other Housing Needs & Strategies: (list needs and strategies below)

(2) Reasons for Selecting Strategies

Of the factors listed below, select all that influenced the PHA's selection of the strategies it will pursue:

- Funding constraints
- Staffing constraints

- Limited availability of sites for assisted housing
- Extent to which particular housing needs are met by other organizations in the community
- Evidence of housing needs as demonstrated in the Consolidated Plan and other information available to the PHA
- Influence of the housing market on PHA programs
- Community priorities regarding housing assistance
- Results of consultation with local or state government
- Results of consultation with residents and the Resident Advisory Board
- Results of consultation with advocacy groups
- Other: (list below)

DECONCENTRATION OF POVERTY IN
PUBLIC HOUSING (UPDATE FY2006)**

The East St. Louis Housing Authority performed a deconcentration analysis as required by Notice PIH 2001-4 and 24 CFR §903.2 in December 2001. Each year the ESLHA has updated that analysis with the most recent census and housing authority statistical data available. The agency performed both an average income analysis and an average income (bedroom adjusted) analysis. The agency chose to adopt the average income analysis which is included as part of this summary.

The average income for all units was \$7,833 and the 85% to 115% income range was \$6,658 to \$9,008. One development [John Robinson (002) -\$292 (4%)] fell below the 85% to 115% income range. No developments fell above the 115% income range.

The Agency also reviewed the most recent census data available. Income and poverty data as follows was obtained from the HUD SOCDs Census Data Base. This information was obtained from the web on December 28, 2005. The median family income for the St. Louis, MO-IL MSA in 1999(1999 dollars) is \$54,123. Thirty percent of this figure is \$16,237. For the central city of East St. Louis the median family income in 1999 (1999 dollars) was \$24,567. Thirty percent of this figure is \$7,370.

The Agency does not believe any further action is required at this time. John Robinson Homes was slightly below the 85% income range as indicated above. The Agency will continue to monitor income levels in each of the developments. Based upon this analysis no further action is deemed necessary at this time.

DECONCENTRATION ANALYSIS
(Average Income Analysis)

A. Developments included in analysis:

3. During the November 16, 2005, draft copies of the 5 Year Plan for Fiscal Years 2005-2009 and the Annual Plan for Fiscal Year 2006 were distributed to all Presidents of developments and to the Land of Lincoln attorney. Attendees were asked to review the document and either prepare or be prepared to offer comments, suggestions and corrections at meeting(s) to be held in the future.

4. Resident Advisory Council presidents provided the following comments concerning the Plans. Additionally, initial Agency comments are provided in italics.

4. 5 –Year Plan, Goal: Promote Decent Affordable Housing, Objective DAH4: Help HUD-Assisted Renters Make Progress Toward Self-Sufficiency, Task 3

Several presidents expressed interest in the entrepreneurial opportunities that might present themselves through accomplishing this task. They wanted to know who was going to accomplish this task. They also indicated that several residents over the past few years had not been allowed to have home businesses. They thought that the new mixed finance development, Central City Apartments needed to have some stores located close to the units. Currently, there are none either for Central City now under development or for Parsons Place, a McCormick-Baron development located next door to Central City. Several presidents also thought that the Southern Illinois University East St. Louis campus could assist in helping

residents develop the skills to start their own businesses. *These comments have been provided to appropriate Agency resident relations staff for their review.*

5. 5-Year Plan, Goal: Strengthen Communities, Objective SC1: Reduce Crime in Our Communities, Tasks 7 & 8

One president expressed concerns about placing new security camera systems in our high rise apartment buildings. Since part of this Five Year Plan is to raze the six high rises buildings in the next five to seven years, if funding permits, the thought is that putting additional limited capital funds into systems for these buildings may not be the best course of action. The presidents agreed however, that new lighting/security camera systems would be appropriate for certain of the common areas around the Orr-Weathers and Lansdowne high rises. *These comments have been provided to appropriate Agency Modernization Department staff for their review.*

3. 5-Year Plan, Goal: Strengthen Communities, Objective SC2:Strengthen Resident Organizations and Participation of Residents in the Community, Task 1

Several presidents believe that this an extremely difficult task to achieve. Resident presidents are not certain what can be done to promote increased participation of residents in their various complexes in Resident Advisory Council and Board activities. Several presidents thought increased participation could be achieved more easily in our high-rise apartment buildings than in our family developments. *No Agency comment provided.*

4. Five Year Plan, Goal: Strengthen Communities, Objective SC2:Strengthen Resident Organizations and Participation of Residents in the Community, Task 2

Several presidents agreed that it would be a good idea to develop an Agency Community Service Focal Point to provide information and assist in providing meaningful community service opportunities. *No Agency comment provided.*

5. Five Year Plan, Goal: Reduce Agency Operating Costs Through Increasing the Efficient Use of All Available Resources, Task 1

Several presidents continued to express concern about the lack of ability of residents to individually control heat in the high rise building apartments. This continues to be a concern of residents living in these buildings. *Several of the major valve controls in the hot water (a steam conversion system) common building supply, baseboard heating system have been replaced over the past year. This hopefully will improve the performance of the overall heating system in our various high-rise buildings. The Authority has reviewed what it believes are the available options to install individual heat controls in each apartment and has not been able to come up with a satisfactory, cost effective solution. The current system, 1960s vintage technology allowed for louvers on the baseboards to be opened and closed by the resident to control heat in the unit. This was an inefficient system from its installation. Additionally, the age of the system has rendered many louvers inoperable and repair would require replacement of pipes heavily corroded with significant mineral deposit buildup on their interiors. The plan is to continue to try to make marginal improvements in the entire system for each building while pursuing plans to eventually replace each of the six high rise buildings in question.*

6. Management Review: Several of the presidents believe one or more of their members should be on the Management Review Committee when progress toward achieving goals outlined in the Five Year Plan are measured and progress reviewed.

7. Presidents provided several general comments including the following:

A. Heat/Thermostats in high-rise buildings continues to be a problem. *This item is discussed in item 5 above.*

B. Security continues to be a problem in the John DeShields Homes complex. *This item was referred to appropriate staff for action.*

C. One president felt it was wrong that security officers assigned to the various high-rise buildings had told residents that they could not sit in the lobby area of the high-rise building after 10:00 p.m., since these residents live there. *The problem here is that residents sitting in the lobby area of the apartment building on weekends in particular may allow individuals who have no business in the building into the building. This matter may be discussed further with weekend security if further similar complaints are received.*

Public Hearing Review & Comment

8. The availability for review of the Agency Annual Plan for FY2006, and public hearing to be held on January 3, 2006, were advertised in public notice sections of the East St. Louis Monitor for November 10th and 17th and in the Belleville News Democrat for November 11th and 18th. The local community, through these notices was informed that copies of the Annual Plan were available for review at the offices of the East St. Louis Housing Authority, the East St. Louis City Clerk's Office, and the East St. Louis Public Library. The public hearing was held on January 3, 2006. There were no attendees and no additional written comments received as a result of the public hearing or the above notices.
