**DECONCENTRATION POLICY**

**PUBLIC HOUSING**

In an ongoing effort for The Housing Authority to meet or exceed the laws and regulations regarding its public housing programs, the following Deconcentration Policy has been developed in order to comply with the Housing Quality and Work Responsibility Act of 1998, Section 513.

**INCOME MIX TARGETING**

To meet the requirements of the Act, and subsequent HUD regulations, at least forty percent (40%) of families admitted to public housing by the Housing Authority must have incomes that do not exceed thirty percent (30%) of the area median. If forty percent (40%) or more of the housing authority units are occupied by families whose incomes do not exceed thirty percent (30%) of the area median income, this requirement shall be considered as being met and efforts will be concentrated on maintaining this mix.

Additionally, to meet this goal, the housing authority may use the provisions of fungibility to the extent that the housing authority has provided more than seventy-five percent of newly available vouchers and certificates in its Section 8 program, including those resulting from turnover, to very poor families. The number of fungible housing credits used to drop the annual requirement for housing very poor families below forty percent (40%) of the newly available units in public housing is limited to the lowest of the following:

1. The number of units equivalent to ten (10) percent of the number of newly available vouchers and certificates in that fiscal year; or,
2. The number of public housing units that (i) are in public housing projects located in census tracts having a poverty rate of 30% or more, and (ii) are made available for occupancy by, and actually occupied in that year by, families other than very poor families, or
3. The number of units that cause the housing authority's overall requirement for housing very poor families to drop to 30% of its newly available units.

## **DECONCENTRATION POLICY**

### **PAGE 2**

### **PROHIBITION OF CONCENTRATION OF LOW-INCOME FAMILIES**

The housing authority may not, in meeting this income mix targeting, concentrate very low-income families, or other families with relatively low incomes, in public housing units in certain projects or certain buildings, i.e. high-rise, within projects. The Housing Authority must review the income and occupancy characteristics of the housing projects and the buildings, i.e. high-rise, of each project to ensure that a low-income concentration does not occur.

### **DECONCENTRATION**

The Housing Authority shall make every effort to deconcentrate families of certain income characteristics within the PHA complexes. To achieve this, the Housing Authority may offer incentives for eligible families having higher incomes to occupy dwelling units in projects predominantly occupied by eligible families having lower incomes, and provide for occupancy of eligible families having lower incomes in project predominantly occupied by eligible families having higher incomes.

Incentives by the Housing Authority allow for the eligible family to have the sole discretion in determining whether to accept the incentive and the agency may not take any adverse action toward any eligible family for choosing not to accept these incentives.

The skipping of a family on the waiting list to reach another family to implement this Deconcentration Policy shall not be considered an adverse action. As such, the Housing Authority will continue to accept applications and place the individuals on a waiting list. Selection will be made based on a combination of the local preferences and an income target mix. Any eligible family who qualifies as a higher income family may accept a dwelling unit assignment and be placed randomly into a vacant housing unit.

The Housing Authority will track the income mix within each project and building, i.e. high-rise, as an effort to avoid a concentration of higher or lower income families in any one high rise building (i.e. building of three (3) or more stories) or development.

# **DECONCENTRATION POLICY**

**PAGE 3**

## **SECTION 8 TENANT-BASED ASSISTANCE**

### **INCOME MIX TARGETING**

In each fiscal year, not less than seventy-five percent (75%) of the new admissions must have incomes at or below thirty percent (30%) of the area median income.

At least forty percent (40%) of new admissions to a specific project must have incomes at or below thirty percent (30%) of the area median income. Other admissions to a specific project must be at or below eight percent (80%) of the area median, with allowances for any HUD-instituted modifications.

## DECONCENTRATION POLICY

### **NARRATIVE**

Per the HUD Fiscal Year 2005 Income Limits and Fair Market Rent data the Median Income for Marion County, Illinois, is \$47,050. Thirty percent (30%) of median income is \$14,115.

Thirty percent (30%) of Median per number in household is as follows:

<b>Person(s)</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>	<b>6</b>
30% median	\$10,350	\$11,850	\$13,350	\$14,800	\$16,000	\$17,200
Very-low Income	\$17,300	\$19,750	\$22,250	\$24,700	\$26,700	\$28,650
Low Income	\$27,650	\$31,600	\$35,550	\$39,500	\$42,700	\$45,850

Marion County Housing Authority has 445 units available. Per QHWA the forty percent (40%) of leased units that must be housed with families within the thirty percent (30%) of median income is One Hundred Seventy-eight (178) tenants.

The most recent available percentages of leased units indicate that 358 or eighty-two percent (82%) of the families have incomes under \$14,115; this surpassing QHWRA requirements standards by 42%.

## DECONCENTRATION POLICY

### NARRATIVE CONTINUED

#### PAGE 5

The percentage of families leased that have incomes under \$14,115 (which is thirty percent (30%) of the overall median income) by project are:

57-01 Centralia	88%
57-02 Salem	86%
57-03 Centralia	95%
57-04 Salem	78%
57-05 Sandoval	87%
57-06 Odin	75%

57-12 Centralia	83%
57-13 Kinmundy	75%
57-14 Alma	60%
57-15 Salem	40%
57-16 Sandoval	90%

Each project has greater than 40% of the families with 30% or less of the median income. Monitoring will be conducted to confirm that at least forty percent (40%) of all leased units will be within thirty percent (30%) of median income.

Efforts, through marketing and outreach, shall be made to increase the number of families with incomes greater than 30% of median income in the developments noted above in order to avoid concentrations of very low income families in the projects as per the requirements of the QHWRA of 1998.

Section 8 Vouchers/Certificate are current at 90% of total families on the program that have total family income at or below thirty percent (30%) of median income.

**PEST AND ROACH ERADICATION PLAN**

A. THE PLAN

The Pest and Roach Eradication Plan consists of six basic steps conducted by a licensed professional chemical technician.

1. INSPECTION

Inspection of units is conducted to look for harbourage areas of pests, conditions of moisture, heat or darkness that favor infestations, food and water that can be used by the pests, probable means of entry of the infestation (such as incoming foods, open sewers), and evidence of infestation (such as damage, droppings and tracks). The inspection provides the measures that may or may not be used and any safety precautions for the tenants that may be necessary.

2. IDENTIFICATION

Positive and accurate identification of the infestation is made to evaluate the problem and to make appropriate recommendation for control.

3. RECOMMENDATION

Procedures for extermination are explained to the tenant and the tenant is advised on what should be done to make the control program a more successful and lasting one. The tenant may be advised to empty all cabinets and to cover any food items.

4. TREATMENT

Treatment may include spraying of legal and appropriate pesticides and/or the use of traps. A follow-up treatment is usually required.

5. EVALUATION

Pest infestation level is monitored. The tenant is advised on matters of sanitation and how to prevent new pest problems from becoming

established. Tenant is advised to report any recurrent pest problem so that it can be attended to. Reapplication of pest management procedures are conducted as necessary.

#### 6. PREVENTION

Common areas are treated periodically in an effort to control pest infestation.

#### B. INSTIGATION OF PEST AND ROACH ERADICATION

##### 1. EMPTY UNITS

All units shall be inspected after being vacated. Treatment shall be applied prior to the next lessee's moving in.

##### 2. LEASED UNITS

Notification of a pest or roach problem by an existing tenant shall cause an inspection to be made and a scheduled eradication to be performed.

##### 3. ADJOINING UNITS

Adjoining units or entire complexes may be treated with proper notification.

## ANNUAL PLAN

## PROGRESS REPORT

YEAR 5 OF FIVE YEAR PLAN - FISCAL YEAR ENDING DECEMBER 31, 2005

**GOAL 1: Meeting the needs of the population**

Available vouchers were utilized 100%. The Fair Share Vouchers have been fully implemented. No further monies were available from the U.S. Dept. of Housing and Urban Development for more vouchers.

**GOAL 2: Ensuring equal opportunity in the Housing Authority**

The Administration Plan for Section 8 Outreach Plan has successfully expanded service areas beyond Marion County into continuous counties that lack public housing agencies.

**GOAL 3: Promoting self-sufficiency and asset development**

The Authority has been reassessing the impact of the cessation of the Community Service requirement in cooperation with the Department of Human Services. We are still working with the local higher education facilities. The Authority continues to keep residents informed of available scholarships. The Community Service Program has been implemented. The Section 8 Housing Choice Voucher Family Self-Sufficiency program has currently successfully implemented 30% of the mandatory contracts in its first year.

**GOAL 4: Improving the Community**

The Housing Authority continues its relationship with the Centralia Development Association in securing economic opportunity for the community. The police and the leasing department continue to work closely in an effort to keep up a high caliber of residents. The general population fully utilizes the sub-station. Community Police Officer Ken Ingersoll was enabled to implement an in-car computer system for accessing tenant data in connection to the tenant identification program and parking permits. A Curfew and Criminal Trespass policy was implemented for public housing property to improve neighborhood problems.

**GOAL 5: Improving housing stock**

A contract for county-wide inspection of all aspects of the public housing stock was renewed and suggestions were implemented. The on-going Capital Funds program continues to improve the physical plant, therefore abating any demolition schedule for existing public housing stock. The addition of housing vouchers in the community continues to greatly influence the condition of the private housing stock. Fewer units are rejected due to condition each year. The Board of Commissioners has exercised its options to use Section 8 Voucher administrative fee reserves to obtain additional not-for-profit housing for low income families through the purchase of additional property for construction of 30 affordable housing units for eligible low-income families.

### **FYE 2004 – CUSTOMER SATISFACTION SURVEY FOLLOW-UP PLAN**

---

REQUIRED FOR ALL SCORES UNDER 75%

(RESIDENTS SURVEYED IN NOVEMBER 2004)

**COMMUNICATION** scores on the resident Customer Satisfaction Survey was one point below the required 75%. The Housing Authority has implemented the following guidelines to achieve improvements in this area:

The Housing Authority will communicate with residents through the resident council, resident newsletters, resident meetings, and individual mailings through the United States Postal Service to insure that residents are well informed of any scheduled maintenance, repairs, or modernization activities in advance.

The Capital Fund Program's Director and Field Representative have personalized communication with residents who may have active modernization in process in their home by direct contact with family members.

The Housing Authority will initiate guidelines that require management to distribute brochures at the resident's annual reviews outlining the rules of the lease.

Management will initiate incentives to encourage residents to participate in resident organization meetings and events. Resident newsletters will be issued on a quarterly time schedule and will highlight a community calendar for resident meetings.

Management staff will participate in sensitivity training seminars to increase communication-people skills.

**PROGRAM PLAN FOR THE SECTION 8**  
**PROJECT-BASED VOUCHERS**

The Marion County Housing Authority (MCHA), in accordance with FR-4633-N-01 dated January 16, 2001 and upon approval from the Department of Housing and Urban Development, intends to attach a minimum of ten (10) Section 8 Housing Choice Voucher assistance units for Project-Based Vouchers.

MCHA will advertise in newspaper of general circulation once a week for three consecutive weeks for Request for Proposals (RFP) from owners/developers interested in entering a contract with the MCHA accepting project-based vouchers. MCHA will only consider proposals in response to advertisement. The proposal must meet the requirements of 24 CFR Part 983 relating to eligible and ineligible properties and not involve the displacement of tenants. Selection of proposals will be rated based on awarded points according to the mandatory requirement criteria as stated in the RFP.

The general locations for project-based assistance will be consistent with the existing Housing Choice Voucher program Administrative Plan outreach within Marion County and its surrounding unassisted areas.

The administration of the project-based assistance will remain consistent with the MCHA Annual Plan in that it will achieve deconcentrating goals by creating housing that is safe, affordable, and in an environment that will expand housing and economic opportunities.
