### PROGRESS

Recent funding constraints have resulted in a “tightening of the belt” initiative by the Housing Authority. We have evaluated staff size and related staff costs as well as other expenses. We have taken positive steps to increase collections and occupancy. These steps have resulted, initially, in higher vacancies as we evict those that make no attempt to stay current with rent. However this initiative will result in stabilized complexes in the long term. The physical structure and appearance of our Public Housing properties continues to meet high standards. We will continue the effective use of Capital Fund dollars to augment our day to day maintenance to maintain this high level. The goal remains to reach a high performing status within the next 2 years.

The Voucher Program continues to have a 95% participation rate. We are working hard to maintain this level as we monitor the funding available. We have taken measures to reduce costs in an attempt to assist as many families and seniors as possible. We are still assisting approximately 1580 families and remaining within our budgeted funding. Staff will continue to focus on program improvements with our goal to improve our SEMAP score to reach a high achieving status within the next 2 years.

During the previous year and moving forward into this year, we have made substantial progress in improving the internal controls of the agency and the financial strength of the agency. We have developed many new policies and procedures in both of these areas and results are beginning to be seen. The Authority was able to raise its FASS score (the score that measures financial health) from a below standard 17 to a standard score in the low 20s. This score will continue to rise as collections improve and expenses are controlled where feasible. New budgeting tools are allowing better monitoring of revenues and expenses allowing better and more timely decision making.

During 2006 the Authority will continue to implement and monitor its policies and procedures that have been, and continue to be, developed to improve the Agency. We will focus on assisting as many families as the budget allows while working toward providing each participant safe and decent housing.

### Deconcentration Policy

Currently the Lehigh County Housing Authority's general occupancy projects fall within established income range. However, the Authority's projects are very small with the largest being only 25 units. In addition, the Authority has one 10 unit project, one 4 unit project and a 25 unit scattered site project.

The 25 unit scattered site development promotes deconcentration just by the nature of the project. The units are scattered throughout the Borough of Coplay with the largest concentration being 11 units. The 10 unit and the 4 unit are in the Borough of Fountain Hill. The properties have been able to maintain the established income range, however because of the small size one turnover could have an immediate impact. The projects have been monitored to insure the Authority is in compliance with the spirit of deconcentration and that the ranges do not get skewed too far in either direction. The 25 unit is in Slatington and continues to be compliant, but once again, because it is small it takes little to skew the range.

The Authority's jurisdiction is suburban Lehigh County. The County is mostly rural in nature with few pockets of poverty. The Authority's projects are not in poverty zones and are in residential neighborhoods of the municipalities.

The Authority's policy is to monitor its projects for compliance and to ensure consistency with both the deconcentration law and local goals. If deemed necessary and the project is too skewed toward any one income group, the Authority will take steps to balance the project. The current waiting lists are sufficient to allow for the selection from income groups.

### RASS Communication Implementation Plan Progress

During 2005 the Authority continued taking steps to improve communication between the residents and management. In 2006 Project Manager, Jack Murphy will begin his second full year managing all of our public housing units. We believe that this offers a more consistent approach. Jack has established a regular schedule at the various sites and with 2 new

Management Aides added to the public housing staff, the residents know how and where to contact management at any time. Jack has been holding resident meetings and will continue to hold meetings at regular intervals to hear and address resident concerns as well as keeping residents up to date on housing authority news. Guests such as a police officer and local and state officials have been invited to address the residents on issues of safety and other concerns.

Lehigh County Housing Authority  
PHA Plan 2006

The Authority will continue to survey the consumers as well as continue to educate consumers of their right to request accommodations. The Authority works with closely with the Good Shepherd Rehabilitation Center and the Center for Independent Living in Allentown, PA to keep up with the current technologies available to help to meet the needs of our residents with disabilities. Authority management manages a facility in Bethlehem that is designed for and leased to persons with severe physical disabilities. In addition LCHA manages a 20 unit independent living facility designed for and occupies by persons with mental illness. Through this we became aware of the newest technologies available. The Authority owns 12 homes used as group homes for persons with mental retardation. We work closely with the providers of care at these facilities to ensure we are meeting the needs of those residents.

Since the Authority is not planning to rehabilitate any existing properties or to build any new properties the extent of our physical accommodation work is by request of existing or prospective residents of our current facilities. The Authority will also take requests from caregivers or agencies representing persons with disabilities. The Authority remains dedicated to making reasonable accommodation based upon it policies and procedures.
