ATTACHMENT (A)

Admissions Policy for Deconcentration:

It is the Newport Housing Authority's policy to provide for deconcentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments. Toward this end, we will skip families on the waiting list to reach other families with a lower or higher income. We will accomplish this in a uniform and non-discriminating manner.

The PHA will affirmatively market our housing to all eligible income groups. Lower income residents will not be steered towards lower income developments and higher income residents will not be steered toward higher income developments.

Prior to the beginning of each fiscal year, we will analyze the income levels of families residing in each of our developments and the income levels of families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and deconcentration incentive to implement.
