ii. Executive Summary of the Annual PHA Plan

[24 CFR Part 903.7 9 (r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

The Housing Authority has developed its Annual and 5 yr Plans to address affordable housing needs for low income residents of the City of Fort Myers by operating safe, secure housing and providing programs that support and encourage economic self-sufficiency opportunities for residents. As part of its planning, the Housing Authority developed and reviewed a set of goals and objectives which are designed to provide a comprehensive approach to accomplishing its overall mission. One facet of the Plan provides for an on-going review of all HACFM operations to improve service delivery, achieve maximum fiscal prudence and maximize revenue from both conventional and non-conventional sources. Another facet of the plan provides for managing existing and future assets to ensure a trend of increasing positive cash flow for the Housing Authority, which is significant in relation to HUD's reductions of Capital and Operating funding .

During FY 2005 & 06, the HACFM has maintained the HUD "Elderly Only Designation" for three of its developments, namely Bonair Towers, Royal Palm Tower, and Flossie M. Riley Garden Apartments, granted in 2004. The HACFM also followed all HUD mandates during this period concerning involuntary resident participation in the Community Service Program. Residents were notified in meetings, by mail and by notices posted throughout the HA. Staff reports eligible residents service hours and maintains a listing of community activities for resident participation.

The HACFM was awarded a HOPE VI grant in the amount of \$20 million in October, 2005. The HOPE VI plan involves public / private partnerships that reach out to all segments of the community. During 2006, the HACFM addressed resident relocation, submitted the Community Supportive Services segment, and worked with its developers to implement all facets of the HOPE VI Project. In 2007, demolition and new construction as part of HOPE VI for Michigan Court and Flossie M. Riley Garden Apartments will be undertaken.

The HACFM's certified Family Self Sufficiency Program is highly successful, with 28 families currently participating along with an active task force of local service

partners. The HACFM applied for HUD ROSS (Resident Opportunity for Self Sufficiency) FSS Grants in 2005 & 2006 to fund the Program Director’s salary. Both the 2005 & 2006 Grants were awarded. The HACFM was awarded a three year 2004 HUD ROSS Family grant to assist in funding the Family Self-Sufficiency program activities. A 2006 HUD ROSS application for an additional 3 year award in the amount of \$250,000 is pending.

The HACFM received a Neighborhood Network Center grant for Michigan Court to offer computer technology to residents and improve their path to self-sufficiency. The Center served approximately 1,000 residents per month during 2005 & 2006. The HACFM applied for and received a new FY 2006 Neighborhood Network Center Grant in the amount of \$300,000 for the new location in the Community Supportive Services (CSS) building in connection with the HOPE VI project.

During 2006, the HACFM assumed implementation of the HUD Section 8 Voucher program which is allotted 1533 vouchers. In addition, 300 Sec 8 relocation vouchers will be utilized in conjunction with the HOPE VI project. Staff training, a Landlord Outreach Program and Program Auditing are HACFM priorities with a goal of fully utilizing vouchers. There are 93 voucher participants in the FSS program.

Over the past four years, Average Unadjusted Income for all 3 family Public Housing developments rose from \$8668 in 2003 to \$8753 in 2004 to \$9538 in 2005 to \$10,811 in 2006. All 3 family developments fall within the HUD guidelines for Income Deconcentration.

During 2006, the percentage of extremely low-income families on the Public Housing waiting list stayed at 89%; and the number of families with children on the PH wait list rose to 83% from 58%.

In the coming year, the HACFM will continue to work with the community to implement the HOPE VI project; will focus on providing and improving the Section 8 Voucher Program; will ensure on-going tenant file auditing, and will continue focusing on increasing resident involvement, providing safety and security, and improving neighborhood appearance. Operationally, the HACFM will continue as well to review all operations and establish viable options in an effort to manage existing and future assets with an overall goal of self-sufficiency.

DECONCENTRATION OF POVERTY AND INCOME-MIXING

The HACFM has one waiting list for all public housing developments. It has no site-based waiting lists. The admission policy randomly mixes higher income tenants into lower income projects and lower income tenants into higher income projects, thus providing deconcentration of poverty and income-mixing.

Gross annual income is used for income limits at admission and for income-mixing purposes.

Skipping of a family on the waiting list specifically to reach another family with a lower or higher income is not to be considered an adverse action to the family. Skipping can be uniformly applied until the target threshold is met.

The PHA uses gathered tenant income information in its assessment of public housing developments to determine the appropriate designation to be assigned to the project for the purpose of assisting the HACFM in its deconcentration goals.

Deconcentration and Income-Mixing Goals

Admission policies related to the deconcentration efforts of the HACFM do not impose specific quotas. Therefore, the HACFM will not set specific quotas, but will strive to achieve deconcentration and income-mixing in its developments through its random admissions policy based upon a single waiting list.

Project Designation Methodology

The HACFM determines and compares tenant incomes at all of its family PH developments. On analyzing its findings, the HACFM will apply the policies, measures and incentives listed herein to bring higher income families into lower income developments and lower income families into higher income developments.

Our goal is to have eligible families with higher incomes occupy dwelling units in projects occupied predominantly by eligible families having lower incomes, and eligible families with lower incomes occupy dwelling units in projects predominantly occupied by eligible families having higher incomes. The waiting list statistics indicate there are sufficient extremely low income and very low income persons to balance incomes in developments designated higher income developments.

The HACFM uses the “Aggregate Average Method” to achieve its deconcentration objectives. Resident income is reviewed annually. Using the incomes of all families in all developments as a baseline, the HACFM then determines the average income of all of its resident families, by development. This information is kept on file in the HACFM. The HACFM will designate higher income developments those with average income above the aggregate average, and will designate lower income developments those with average income below the aggregate average.

The Housing Authority of the City of Fort Myers has 3 PH family developments, namely Michigan Court Family, Southward and Palmetto Court.

The average unadjusted income for all 3 of these HACFM Public Housing family developments is \$10,811. The average unadjusted income for Michigan Court Family compares at 98 % to the total average income for all developments; Southward compares at 103%; and Palmetto compares at 107%; all three being well within the HUD guidelines.

UNITS		PERCENT	AVERAGE INC.
210	Michigan	98%	\$10,620
196	Southward	103%	\$11,141
95	Palmetto	107%	\$11,574
501	Total Avg. Unadjusted Income	\$10,811

D. Other Information Required by HUD

Use this section to provide any additional information requested by HUD.

1. Amendment and Deviation Definitions

24 CFR Part 903.7(r)

PHAs are required to define and adopt their own standards of substantial deviation from the 5-year Plan and Significant Amendment to the Annual Plan. The definition of significant amendment is important because it defines when the PHA will subject a change to the policies or activities described in the Annual Plan to full public hearing and HUD review before implementation.

In accordance with PIH notice 99-51 (HA) issued December 14, 1999, PHA's must define "substantial deviation" of Annual Plans from the 5-Year Plan and "significant amendment or modification" of the Annual Plan. The Quality Housing and Work Responsibility Act of 1998 requires that PHA's explain "substantial deviation" from the 5-Year Plan in their Annual Plans. The Act also provides that, while PHAs may change or modify their plans or policies described in them, any "significant deviation" to the plan would require PHAs to submit a revised PHA plan that has met full public process requirements.

The Housing Authority of the City of Fort Myers' definition of "substantial deviation" of Annual Plans from the 5-Year Plan and "significant amendment or modification" of the Annual Plan will consider the following to be significant amendments or modifications:

CRITERIA FOR DETERMINING SUBSTANTIAL DEVIATION AND SIGNIFICANT AMENDMENT OR MODIFICATION:

Substantial Deviation:

The Housing Authority of the City of Fort Myers, after submitting its Annual Plan to HUD, may modify, amend or change any policy, rule, regulation or other aspect of its plan. If any modifications, amendments or changes in any policy, rule, regulation or other aspect of the plan are not inconsistent with the Housing Authority of the City of Fort Myers' Mission Statement, its Goals and Objectives, or HUD regulations, then these shall not be deemed significant amendments or modifications to the Annual and 5-Year Plan. If new program activities are required or adopted to reflect changes in HUD regulations or as a result of national or local emergencies, these activities are exempted actions and will not be considered as Substantial Deviation from the 5-year Plan.

- If any new program activities undertaken do not otherwise further the Housing Authority of the City of Fort Myers's Mission Statement and Goals and Objectives, then such activities may be considered a substantial deviation from the 5-Year Plan.
- If there is insufficient budget authority from HUD necessitating the need to alter, reduce or terminate any specific program activity, this change in activity may be considered a Substantial Deviation, depending upon whether the change in activity

reflects an overall change in the direction of the Housing Authority's goals and objectives.

Significant Amendment/Modification:

- A change in policy pertaining to the operation of the Housing Authority relating to major strategies to address housing needs and to major policies governing eligibility, selection or admissions and rent determination will be considered Significant Amendments or Modifications. All significant modifications require full public process.
- New program activities that are required or adopted to reflect changes in HUD regulations or are implemented due to national or local emergencies are Exempted actions and will not be considered Substantial Amendments or Modifications to the 5 year or Annual Plan.
- The HA may set funds in a line item where there were none. New work items (excluding Emergency Work items) that are not included in the CFP and that cumulatively exceed 10% of the fiscal year's CFP (\$150,000), may be considered Significant Amendments or Modifications.
- Changes in use of the replacement reserve under the CFP may be considered Significant Amendments or modifications.
- Demolition and or/disposition activities, new or amended development plans, designation or conversion actions not currently identified in the 5-year plan may be considered Significant Amendments or Modifications.
