The Housing Authority will track the status of family income, by development, on a monthly basis by utilizing income reports generated from our demographic data on the computer system. At the beginning of each Housing Authority fiscal year, the Housing Authority will establish a goal for housing 40% of it's new admissions with families whose incomes are at or below, the area median income. The Housing Authority's annual goal will be calculated by taking 40% of the total number of move-ins from the previous year.

Does the PHA have any general occupancy (family) public housing developments covered by the Deconcentration rule? No.
