**ii. Executive Summary of the Annual PHA Plan**

[24 CFR Part 903.7 9 (r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

Berwick is located across the Atchafalaya River from Morgan City and is considered part of the hub of the offshore oil industry. It is the oldest settlement in St. Mary Parish with a population of approx 4,375 persons. Approximately 6% of the households in the Town live in public housing. The Housing Authority (HA) has a total of 128 units in nine locations in the Town, several of which are only a few units on scattered sites. The larger of the developments contains 50 units on contiguous sites, all of which are duplexes. That development contains a horseshoe shaped street named Guzzetta Drive, which provides the most police calls of any neighborhood in the Town. The development is located on the edge of a mixed population neighborhood.

A primary objective of the 2007 Annual Plan is to facilitate improve of the management capabilities of the Housing Authority to enable removal of the designation of "Substandard Physical" from the authority and regain its high performer ranking. To that end the BHA shall provide training to its staff to improve the physical condition of its stock and improve its preventive maintenance procedures.

During the past several years the Berwick Housing Authority (BHA) has continued to work to improve to improve the authority after it cleared the findings resulting from an investigation by the Legislative Auditor several years ago. Except for several questionable items on a REAC inspection last year, the BHA had made great strides toward its goal of re-achieving its former status of high performer.

The BHA has completed now completed two modernization contract and is presently has a third modernization contract in progress with major focus on re-roofing and sidewalk work. Also a contract has been completed for the long planned Resident Activity Center at the rear of the administration office. All of these projects were part of initiatives outlined in earlier Annual Plans which focused on the newly established resident's council, particularly in the planning of the long delayed resident's center at the rear of the administrative office.

Another of the main objectives set out that is continuing to be successful is the implementation of an after school tutoring program for the residents. The final initiative for was to implement a security patrol program for weekends and that has also been implemented with much success.

An important goal of the BHA is to provide and maintain quality affordable housing in a professional and fiscally prudent manner free from discrimination. The Annual Plan was developed with that and the stated primary goal in mind, and a number of the provisions that have been formulated reflect that and other objectives that will have to be accomplished to achieve the stated mission of the housing authority.

A significant part of the planning for physical improvements will be the continuation of the phased plan for re-roofing of the agency's apartments.

The PHA was designated "substandard physical" as a result of its recent REAC inspection for relatively minor items that have been addressed to the degree that they can. The PHA has entered into a MOA with HUD to address these and other issues for the improvement of the agency. All areas referenced in the substandard inspection have been addressed by changing or repairing all affected items noted in a top 20 item report submitted by HUD. We believe that by addressing the top 20 list will help improve our scores by 10 to 15 points, which will give us the status of High performer once again.

We have also gotten the residents involved with this process by presenting monthly items of concerns for at the monthly resident council meeting and via the monthly calendar.

After duly advertising, the Berwick Housing Authority (BHA) held a public hearing on September 18, 2006, for the 2007 Annual Plan to fully explain the plan to those in attendance.

The BHA welcomes resident and public input on its Agency Plan.

**C. Strategy for Addressing Needs**

Provide a brief description of the PHA’s strategy for addressing the housing needs of families in the jurisdiction and on the waiting list **IN THE UPCOMING YEAR**, and the Agency’s reasons for choosing this strategy.

The Town of Berwick is remote from the areas of focus of State’s Consolidated Plan and other marketing studies for housing, and the PHA waiting list is a more accurate resource to evaluate housing needs for lower income families in the jurisdiction. An analysis of the applicants currently on the BHA waiting list indicates virtually the same number of applicants as last year. However, the extremely low income families (at or below 30% AMI), increased from 23% of applicants to 45%. Thirty-two percent of applicants are low-income families (Compared to 63% last year), and families with children comprise 58% of the applicants as compared to 73% last year. With regard to unit size the number requesting 1 BR units is again higher than last year and four times as high as for 2 BR units, of which the numbers are far below last year. The number of applicants wanting 3 BR units increased some although the number of families with children declined. The percentage of white families on the waiting list has dropped dramatically to 35% while the number of black families increased 40% to 65% of the total.

In the aftermath of Hurricanes Katrina and Rita, that BHA continues to cooperate with HUD and neighboring housing agencies to provide assistance where able to address the housing needs of assisted families displaced by the storms. As a result of the hurricanes, the neighboring City of Morgan City allowed one of the FEMA Mobile Home parks to be constructed in its area to meet the needs of the hurricane evacuees. However, after being open for nearly six months, only a handful of the more than 150 trailers were occupied and FEMA has moved many of them to other locations.

The BHA follows a policy to provide for de-concentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments.

Toward that end, the BHA will skip families on the waiting list to reach other families with a lower or higher income. This policy will be implemented in a uniform and non-discriminating manner. The plans, statements, budget summary, and policies set forth in the 2007 Annual Plan all lead to the accomplishment of the PHA goals and objectives. Taken as a whole, they outline a comprehensive approach toward achievement of the stated mission of the Berwick Housing Authority. The plan has been developed with input and participation of the residents and is consistent with the State Consolidated Plan.

### **Attachment "A1": Admissions Policy for Deconcentration Berwick Housing Authority**

The BHA follows a policy to provide for de-concentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments.

#### **Selection from the Waiting List - Income Targeting and Deconcentration**

1. The Berwick Housing Authority shall follow the statutory requirement that at least 40% of newly admitted families in any fiscal year be families whose annual income is at or below 30% of the area median income. To insure this requirement is met the PHA shall quarterly monitor the incomes of newly admitted families and the incomes of the families on the waiting list. If it appears that the requirement to house extremely low-income families will not be met, the PHA will skip families on the waiting list to reach other families with a lower or higher income. The PHA will accomplish this in a uniform and non-discriminating manner.
2. If there are not enough extremely low-income families on the waiting list the PHA will conduct outreach on a non-discriminatory basis to attract extremely low-income families to reach the statutory requirement.
3. The PHA shall make every effort possible to provide for de-concentration of poverty and incomes mixing in its communities by bringing higher income residents into lower income developments and lower income resident into higher income developments.
4. The PHA does not intend to utilize and/or impose any specific income or racial quotas nor will the PHA offer incentives for eligible families to occupy units in developments predominately occupied by families having either lower or higher incomes.
