

PHA Plans

Streamlined Annual Version

U.S. Department of Housing and
Urban Development
Office of Public and Indian
Housing

OMB No. 2577-0226
(exp. 08/31/2009)

This information collection is authorized by Section 511 of the Quality Housing and Work Responsibility Act, which added a new section 5A to the U.S. Housing Act of 1937 that introduced 5-year and annual PHA Plans. The full PHA plan provides a ready source for interested parties to locate basic PHA policies, rules, and requirements concerning the PHA's operations, programs, and services, and informs HUD, families served by the PHA, and members of the public of the PHA's mission and strategies for serving the needs of low-income and very low-income families. This form allows eligible PHAs to make a streamlined annual Plan submission to HUD consistent with HUD's efforts to provide regulatory relief for certain types of PHAs. Public reporting burden for this information collection is estimated to average 11.7 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. HUD may not collect this information and respondents are not required to complete this form, unless it displays a currently valid OMB Control Number.

Privacy Act Notice. The United States Department of Housing and Urban Development, Federal Housing Administration, is authorized to solicit the information requested in this form by virtue of Title 12, U.S. Code, Section 1701 et seq., and regulations promulgated thereunder at Title 12, Code of Federal Regulations. Information in PHA plans is publicly available.

Streamlined Annual PHA Plan

for Fiscal Year: 2007

PHA Name:

ANSLEY HOUSING AUTHORITY

NOTE: This PHA Plan template (HUD-50075-SA) is to be completed in accordance with instructions contained in previous Notices PIH 99-33 (HA), 99-51 (HA), 2000-22 (HA), 2000-36 (HA), 2000-43 (HA), 2001-4 (HA), 2001-26 (HA), 2003-7 (HA), and any related notices HUD may subsequently issue.

Streamlined Annual PHA Plan Agency Identification

Streamlined Annual PHA Plan
Fiscal Year 20
[24 CFR Part 903.12(c)]

Table of Contents
[24 CFR 903.7(r)]

Provide a table of contents for the Plan, including applicable additional requirements, and a list of supporting documents available for public inspection.

A. PHA PLAN COMPONENTS

- 1. Site-Based Waiting List Policies
903.7(b)(2) Policies on Eligibility, Selection, and Admissions
- X 2. Capital Improvement Needs
903.7(g) Statement of Capital Improvements Needed
- 3. Section 8(y) Homeownership
903.7(k)(1)(i) Statement of Homeownership Programs
- 4. Project-Based Voucher Programs
- X 5. PHA Statement of Consistency with Consolidated Plan. Complete only if PHA has changed any policies, programs, or plan components from its last Annual Plan.
- X 6. Supporting Documents Available for Review
- X 7. Capital Fund Program and Capital Fund Program Replacement Housing Factor, Annual Statement/Performance and Evaluation Report
- X 8. Capital Fund Program 5-Year Action Plan

B. SEPARATE HARD COPY SUBMISSIONS TO LOCAL HUD FIELD OFFICE

Form HUD-50076, PHA Certifications of Compliance with the PHA Plans and Related Regulations: Board Resolution to Accompany the Streamlined Annual Plan identifying policies or programs the PHA has revised since submission of its last Annual Plan, and including Civil Rights certifications and assurances the changed policies were presented to the Resident Advisory Board for review and comment, approved by the PHA governing board, and made available for review and inspection at the PHA's principal office;

For PHAs Applying for Formula Capital Fund Program (CFP) Grants:

Form HUD-50070, Certification for a Drug-Free Workplace;

Form HUD-50071, Certification of Payments to Influence Federal Transactions; and

Form SF-LLL & SF-LLLa, Disclosure of Lobbying Activities.

1. Site-Based Waiting Lists (Eligibility, Selection, Admissions Policies)

[24 CFR Part 903.12(c), 903.7(b)(2)]

Exemptions: Section 8 only PHAs are not required to complete this component.

A. Site-Based Waiting Lists-Previous Year

1. Has the PHA operated one or more site-based waiting lists in the previous year? If yes, complete the following table; if not skip to B. **NO**

Site-Based Waiting Lists				
Development Information: (Name, number, location)	Date Initiated	Initial mix of Racial, Ethnic or Disability Demographics	Current mix of Racial, Ethnic or Disability Demographics since Initiation of SBWL	Percent change between initial and current mix of Racial, Ethnic, or Disability demographics

2. What is the number of site based waiting list developments to which families may apply at one time?
3. How many unit offers may an applicant turn down before being removed from the site-based waiting list?
4. Yes No: Is the PHA the subject of any pending fair housing complaint by HUD or any court order or settlement agreement? If yes, describe the order, agreement or complaint and describe how use of a site-based waiting list will not violate or be inconsistent with the order, agreement or complaint below:

B. Site-Based Waiting Lists – Coming Year

If the PHA plans to operate one or more site-based waiting lists in the coming year, answer each of the following questions; if not, skip to next component. **NO**

1. How many site-based waiting lists will the PHA operate in the coming year?
2. Yes No: Are any or all of the PHA’s site-based waiting lists new for the upcoming year (that is, they are not part of a previously-HUD-approved site based waiting list plan)?
If yes, how many lists?

3. Yes No: May families be on more than one list simultaneously
If yes, how many lists?
4. Where can interested persons obtain more information about and sign up to be on the site-based waiting lists (select all that apply)?
- PHA main administrative office
 - All PHA development management offices
 - Management offices at developments with site-based waiting lists
 - At the development to which they would like to apply
 - Other (list below)

2. Capital Improvement Needs

[24 CFR Part 903.12 (c), 903.7 (g)]

Exemptions: Section 8 only PHAs are not required to complete this component.

A. Capital Fund Program

1. X Yes No Does the PHA plan to participate in the Capital Fund Program in the upcoming year? If yes, complete items 7 and 8 of this template (Capital Fund Program tables). If no, skip to B.
2. Yes X No: Does the PHA propose to use any portion of its CFP funds to repay debt incurred to finance capital improvements? If so, the PHA must identify in its annual and 5-year capital plans the development(s) where such improvements will be made and show both how the proceeds of the financing will be used and the amount of the annual payments required to service the debt. (Note that separate HUD approval is required for such financing activities.).

B. HOPE VI and Public Housing Development and Replacement Activities (Non-Capital Fund)

Applicability: All PHAs administering public housing. Identify any approved HOPE VI and/or public housing development or replacement activities not described in the Capital Fund Program Annual Statement.

1. Yes X No: Has the PHA received a HOPE VI revitalization grant? (if no, skip to #3; if yes, provide responses to the items on the chart located on the next page, copying and completing as many times as necessary).
2. Status of HOPE VI revitalization grant(s): **N/A**

HOPE VI Revitalization Grant Status	
a. Development Name:	
b. Development Number:	
c. Status of Grant:	
<input type="checkbox"/>	Revitalization Plan under development
<input type="checkbox"/>	Revitalization Plan submitted, pending approval
<input type="checkbox"/>	Revitalization Plan approved
<input type="checkbox"/>	Activities pursuant to an approved Revitalization Plan underway

3. Yes X No: Does the PHA expect to apply for a HOPE VI Revitalization grant in the Plan year?
If yes, list development name(s) below:
4. Yes X No: Will the PHA be engaging in any mixed-finance development activities for public housing in the Plan year? If yes, list developments or activities below:
5. Yes X No: Will the PHA be conducting any other public housing development or replacement activities not discussed in the Capital Fund Program Annual Statement? If yes, list developments or activities below:

3. Section 8 Tenant Based Assistance--Section 8(y) Homeownership Program
(if applicable) [24 CFR Part 903.12(c), 903.7(k)(1)(i)]

1. Yes X No: Does the PHA plan to administer a Section 8 Homeownership program pursuant to Section 8(y) of the U.S.H.A. of 1937, as implemented by 24 CFR part 982 ? (If “No”, skip to the next component; if “yes”, complete each program description below (copy and complete questions for each program identified.)

2. Program Description:

a. Size of Program

- Yes No: Will the PHA limit the number of families participating in the Section 8 homeownership option?

If the answer to the question above was yes, what is the maximum number of participants this fiscal year?

b. PHA-established eligibility criteria

- Yes No: Will the PHA’s program have eligibility criteria for participation in its Section 8 Homeownership Option program in addition to HUD criteria?
If yes, list criteria:

c. What actions will the PHA undertake to implement the program this year (list)?

3. Capacity of the PHA to Administer a Section 8 Homeownership Program:

The PHA has demonstrated its capacity to administer the program by (select all that apply):

- Establishing a minimum homeowner downpayment requirement of at least 3 percent of purchase price and requiring that at least 1 percent of the purchase price comes from the family's resources.
- Requiring that financing for purchase of a home under its Section 8 homeownership will be provided, insured or guaranteed by the state or Federal government; comply with secondary mortgage market underwriting requirements; or comply with generally accepted private sector underwriting standards.
- Partnering with a qualified agency or agencies to administer the program (list name(s) and years of experience below):
- Demonstrating that it has other relevant experience (list experience below):

4. Use of the Project-Based Voucher Program

Intent to Use Project-Based Assistance

Yes No: Does the PHA plan to "project-base" any tenant-based Section 8 vouchers in the coming year? If the answer is "no," go to the next component. If yes, answer the following questions.

1. Yes No: Are there circumstances indicating that the project basing of the units, rather than tenant-basing of the same amount of assistance is an appropriate option? If yes, check which circumstances apply:
 - low utilization rate for vouchers due to lack of suitable rental units
 - access to neighborhoods outside of high poverty areas
 - other (describe below):
2. Indicate the number of units and general location of units (e.g. eligible census tracts or smaller areas within eligible census tracts):

5. PHA Statement of Consistency with the Consolidated Plan

[24 CFR Part 903.15]

For each applicable Consolidated Plan, make the following statement (copy questions as many times as necessary) only if the PHA has provided a certification listing program or policy changes from its last Annual Plan submission.

1. Consolidated Plan jurisdiction: State of Nebraska

2. The PHA has taken the following steps to ensure consistency of this PHA Plan with the Consolidated Plan for the jurisdiction: (select all that apply)

- The PHA has based its statement of needs of families on its waiting lists on the needs expressed in the Consolidated Plan/s.
- The PHA has participated in any consultation process organized and offered by the Consolidated Plan agency in the development of the Consolidated Plan.
- The PHA has consulted with the Consolidated Plan agency during the development of this PHA Plan.
- Activities to be undertaken by the PHA in the coming year are consistent with the initiatives contained in the Consolidated Plan. (list below)
- Other: (list below)

3. The Consolidated Plan of the jurisdiction supports the PHA Plan with the following actions and commitments: (describe below) The Ansley Housing Authority complies with the State of Nebraska Consolidated Plan.

6. Supporting Documents Available for Review for Streamlined Annual PHA Plans

PHAs are to indicate which documents are available for public review by placing a mark in the “Applicable & On Display” column in the appropriate rows. All listed documents must be on display if applicable to the program activities conducted by the PHA.

MAINTENANCE POLICY

The Hall County Housing Authority (HCHA) Maintenance Supervisor is responsible for managing the maintenance function in the most cost effective manner possible while maximizing the useful life of Authority properties and providing the best service to Authority residents. The following policy statements are designed to establish the structure of an effective and efficient maintenance system.

1.0 COMPONENTS OF A MAINTENANCE SYSTEM

The Ansley Housing Authority maintenance system shall include certain components:

- A. A system of priorities for work requests;
- B. Comprehensive working procedures;
- C. Performance goals;
- D. A work order system;
- E. A long-range planning system.
- F. An inventory and tracking system

By developing a maintenance system that has these components in place, the authority will have the tools it needs to control the performance of maintenance work at the Ansley Housing Authority.

1.1 PRIORITY SYSTEM

The work priorities adopted by the Ansley Housing Authority exemplify its philosophy of delivering maintenance services. This priority system ensures that the most important maintenance work is done at a time it can be performed most cost-effectively. Minimizing vacancy loss is part of the cost-effectiveness calculation. The maintenance priorities of the Ansley Housing Authority are the following:

- A. Emergencies
- B. Scheduled Operations and Services
- C. Vacancy Preparation
- D. Resident On-Demand Requests

Placing planned maintenance and vacancy preparation work ahead of resident work requests does not indicate that resident requests are unimportant. It emphasizes the importance of maintaining control of the maintenance work by performing scheduled routine and preventive work first. By doing so the Authority will decrease on-demand work and maintain the property in a manner that will keep and attract good tenants.

1.2 DEVELOP PERFORMANCE STANDARDS AND GOALS

The Hall County Housing Authority Maintenance Supervisor will develop performance standards and goals for Ansley maintenance staff. These standards and goals will allow the effectiveness of maintenance systems and activities to be evaluated. In evaluating these systems and activities the Housing Authority will take into consideration several factors.

Ansley will use the stricter of Local Housing Code and HUD Housing Quality Standards. A breakdown is found in the Ansley document "Comparative Analysis of Local Product Maintenance Code to Housing Quality Standards." This document can be found at the end of this policy and is listed as Attachment 1. The Ansley Housing Authority will also use the Public Housing Assessment System (PHAS) standards and employee job descriptions. These factors will be blended and used to assure that Ansley goals and performance standards are met.

Nothing in the documents listed above will prevent the Housing Authority from setting a standard that is higher than that contained in the documents.

These standards and goals will be used to evaluate current operations and performance and to develop strategies to improve performance and meet the standards that have been set.

1.3 WORK ORDER SYSTEM

The Ansley Housing Authority shall have a comprehensive work order system that includes all work request information: source of work, description of work, priority, cost to complete, days to complete, and hours to perform. This information is required for the Authority to plan for the delivery of maintenance services as well as evaluate performance. To obtain the greatest effectiveness from the work order system, all work requests and activities performed by maintenance staff must be recorded on work orders.

Work orders will contain, at a minimum, the following information:

- A. Preprinted number
- B. Priority assigned

- C. Location of work
- D. Date and time received
- E. Worker(s) assigned
- F. Description of work requested
- G. Description of work performed
- H. Actual time to complete
- I. Materials used to complete work
- J. Resident charge (if applicable)
- K. Resident signature

1.4 LONG-RANGE PLANNING

The Ansley Housing Authority will put in place a long-range maintenance plan in order to ensure the most cost-effective use of Authority resources and the maximum useful life of Authority properties.

The HCHA Maintenance Supervisor will develop a property-specific long-range planning process that includes the following components:

- A. A property maintenance standard;
- B. An estimate of the work required to bring the property to the maintenance standard;
- C. An estimate of the work required to keep the property at the maintenance standard including routine and preventive maintenance workloads, vacant unit turn-around, inspection requirements and resident on-demand work;
- D. An estimate of the on-going cost of operating the property at the maintenance standard;
- E. A market analysis of the property to determine if there are any capital improvements needed to make the property more competitive;
- F. A cost estimate to provide the specified capital improvements; and

- G. A revised work plan and cost estimate of maintaining property at the improved standard.

By developing a work plan, the Authority will be able to anticipate its staff, equipment and materials needs. It will also be possible to determine need for contracting particular services.

2.0 MAINTAINING THE PROPERTY

All maintenance work performed at Housing Authority properties can be categorized by the source of the work. Each piece of work originates from a particular source -- an emergency, the routine maintenance schedule, the preventive maintenance schedule, a unit inspection, a unit turnover, or a resident request.

2.1 *RESPONDING TO EMERGENCIES*

Emergencies are the highest priority source of work. The Ansley Housing Authority will consider a work item to be an emergency if the following occur:

- A. The situation constitutes a serious threat to the life, safety or health of residents or staff; or
- B. The situation will cause serious damage to the property structure or systems if not repaired within twenty-four (24) hours.

If a staff member is unsure whether or not a situation is an emergency, he or she will consult with his or her supervisor. If a supervisor is not available, the employee will use his or her best judgment to make the decision.

For emergencies that occur after regular working hours, the Ansley Housing Authority shall have a twenty-four (24) emergency response system in place. This response system includes the designation of a maintenance employee in charge for each day as well as a list of qualified pre-approved contractors, access to purchase orders for obtaining required supplies or equipment, and access to Authority materials and supplies. The designated employee shall prepare a work order and report on any emergency within twenty-four hours after abatement of the emergency.

2.2 *PREPARE VACANT UNITS FOR REOCCUPANCY*

It is the policy of the Ansley Housing Authority to reoccupy vacant units as soon as possible. This policy allows the Authority to maximize the income produced by its properties and operate attractive and safe properties.

The Maintenance Supervisor is responsible for developing and implementing a system that ensures an average turn-around time of ten (10) calendar days. In order to do so, he or she must have a system that can perform the following tasks:

- A. Forecast unit preparation needs based on prior years' experience;
- B. Estimate both the number of units to be prepared and the number of hours it will take to prepare them; and
- C. Control work assignments to ensure prompt completion.

The maintenance procedure for reoccupying vacant units relies on the prompt notification by management of the vacancy, fast and accurate inspection of the unit, ready availability of workers and materials, and good communication with those responsible for leasing the unit.

The Maintenance Supervisor has the ability to create special teams for vacancy turnaround or to hire contractors when that is required to maintain Authority goals.

2.3 PREVENTIVE MAINTENANCE PROGRAM

Preventive maintenance is part of the planned or scheduled maintenance program of the Ansley Housing Authority. The purpose of the scheduled maintenance program is to allow the Authority to anticipate maintenance requirements and make sure the Authority can address them in the most cost-effective manner. The preventive maintenance program focuses on the major systems that keep the properties operating. These systems include heating and air conditioning, electrical, life safety and plumbing.

A. General Operating Systems

The heart of any preventive maintenance program is a schedule that calls for the regular servicing of all systems. The development of this schedule begins with the identification of each system or item that must be checked and serviced, the date it must be serviced, and the individual responsible for the work. The servicing intervals and tasks for each system must be included in the schedule. The completion of all required tasks is considered a high priority for the Ansley Housing Authority.

The systems covered by the preventive maintenance program include but are not limited to:

1. Catch basins
2. Compactors
3. Condensate pumps

4. Exhaust fans
5. Exterior lights
6. Fire extinguishers and other life safety systems
7. Heating equipment
8. Mechanical equipment
9. Sanitary drains
10. Air Conditioning equipment
11. Boilers and water heaters

A specific program will be developed for each system. This program shall include a list of the scheduled service maintenance for each system and the frequency and interval at which that service must be performed. The equipment and materials required to perform the service will be listed as well so that they will be on hand when needed. An assessment of the skills or licensing needed to perform the tasks will also be made to determine if an outside contractor must be used to perform the work. The preventive maintenance schedule must be updated each time a system is added, updated, or replaced.

B. Roof Repairs/ Replacement

Maintenance of roofs requires regular inspections by knowledgeable personnel to ensure that there is no unauthorized access to roof surfaces and that there is good drainage, clear gutters and prompt discovery of any deficiencies.

The Maintenance Supervisor is responsible for the development of a roof maintenance plan that includes these features:

1. The type, area, and age of roof
2. Warranties and/or guarantees in effect
3. Company that installed the roof
4. Expected useful life of roof
5. History of maintenance and repair
6. Inspection schedule

The authority maintenance staff will usually undertake only minor roof repairs. Therefore there should be a list of approved roofing contractors to take on more serious problems for roofs no longer under warranty.

C. Equipment Maintenance

The Ansley Housing Authority will protect the investment it has made in motorized equipment by putting in place a comprehensive maintenance program. The equipment to be covered include:

1. Leaf blowers
2. Weed cutters
3. Lawn Mowers and snow blowers
4. Chain saws

The Maintenance Supervisor is responsible for the development of this plan which shall contain components for minimal routine service as well as servicing for seasonal use. Serviceable components for each vehicle or piece of motorized equipment will be listed in the plan along with the type and frequency of service required.

The Maintenance Supervisor shall also maintain a system to ensure that any employee that operates a piece of motorized equipment has the required license or certification.

D. Lead-Based Paint

The Ansley Housing Authority is committed to controlling lead-based paint hazards in all its dwellings, especially family dwellings constructed before 1978. If any hazards are discovered, the Authority will develop a plan to abate the hazard. The Executive Director and Maintenance Supervisor shall have the authority and responsibility to direct all activities associated with lead hazard control. The control plan will include such activities as:

1. Detecting the possible presence of lead paint;
2. Protection of residents and workers from lead-based paint hazards;
3. Surface protection of non-painted surfaces;
4. Equipment use and care;

5. Paint quality; and
6. Method of application.

Other responsibilities include directing training sessions, issuing special work orders, informing residents, responding to cases of children with elevated blood lead levels, correcting lead-based paint hazards on an emergency repair basis, and any other efforts that may be appropriate.

E. Life Safety Systems

The Ansley Housing Authority shall have a comprehensive program for maintenance of life safety systems to ensure that they will be fully functional in the case of an emergency. The Maintenance Supervisor shall be responsible for the development and implementation of a schedule that includes the inspection, servicing and testing of this equipment. The equipment to be included in the plan includes the following:

1. Fire extinguishers
2. Smoke detectors
4. Emergency call system

The plan will include testing and servicing by manufacturer's recommendations. It will also include a determination of the most reliable and cost effective way to perform the work including the decision to hire a contractor.

2.4 INSPECTION PROGRAM

The Ansley Housing Authority's goals of efficiency and cost-effectiveness are achieved through a carefully designed and rigorously implemented inspection program. This program calls for the inspection of all areas of the Authority's facilities -- the dwelling units, the grounds and building exteriors, and major service systems.

A. Dwelling Unit Inspections

The unit inspection system of the Ansley Housing Authority has two primary goals:

1. To assure that all dwelling units comply with standards set by HUD and local codes; and
2. To assure that the staff of the Ansley Housing Authority knows at all times the condition of each unit for which it is responsible.

The achievement of these goals require more than the annual HUD required inspection. The Maintenance Supervisor is responsible for developing a unit inspection program that schedules inspections at the frequency required.

For all non-emergency inspections, the Resident shall be given at least two (2) days written notice of the inspection.

Ansley Housing Authority employee(s) will be designated as inspector and shall perform the unit inspection program of the agency. The inspector will be accompanied by a maintenance staff member. During each inspection, the maintenance staff member will perform specified preventive and routine maintenance tasks. Any other work items noted at the time of the inspection will be documented on the Ansley Housing Authority inspection form. All uncompleted work items shall be converted to a work order within twenty-four hours of the completion of the inspection. The maintenance staff shall endeavor to complete all inspection-generated work items within 30 days of the inspection.

All maintenance staff is responsible for monitoring the condition of dwelling units. Whenever a maintenance staff member enters a dwelling unit for any purpose, such as completing a resident request for service or accompanying a contractor, he or she shall record any other work he or she sees while in the apartment. These work items shall also be converted to a service request within twenty-four hours of discovery.

B. Building and Grounds Inspections

Regular inspections of the property grounds and building exteriors are required to maintain the curb appeal of the property. This curb appeal is required to maintain the attractiveness of the property for both current and prospective residents. The inspection procedure will specify the desired condition of the areas to be inspected. This defined condition will include any HUD or locally required standards. The existence of these standards shall not prevent the Housing Authority from setting a higher standard that will make the property more competitive in the local market.

Building and grounds inspections must cover these areas:

1. Hallways
2. Community room and other common space such as kitchens or public restrooms
3. Laundry facilities
4. Common entries

5. Grounds
6. Porches or patios
7. Parking lots
8. Sidewalks and fences
9. Lawns, shrubs and trees
10. Trash collection areas
11. Building foundations

An inspection form will be developed for common areas and building exteriors and grounds. The staff member responsible for the inspection shall note all deficiencies on the form and ensure that these deficiencies are recorded on work order within twenty-four hours of the inspection. The Ansley Housing Authority will complete all inspection-generated work items within thirty (30) days of the inspection.

Nothing in this policy shall prevent any Ansley Housing Authority staff member from reporting any needed work that they see in the regular course of their daily activities. Such work items shall be reported to the HCHA Administrative Office.

C. Systems Inspections

The regular inspection of all major systems is fundamental to a sound maintenance program. The major systems inspection program overlaps with the preventive maintenance program in some areas. To the extent that inspections, in addition to the scheduled service intervals, are needed, they will be a part of the inspection schedule. Any work items identified during an inspection shall be converted to a work order within twenty-four hours and completed within thirty (30) days.

2.5 SCHEDULED ROUTINE MAINTENANCE

The Ansley Housing Authority includes in this work category all tasks that can be anticipated and put on a regular timetable for completion. Most of these routine tasks are those that contribute to the curb appeal and marketability of the property.

A. Pest Control/Extermination

The Ansley Housing Authority will make all efforts to provide a healthy and pest-free environment for its residents. The Authority will determine which, if any,

pests infest its properties and will then provide the best possible treatment for the eradication of those pests.

The Executive Director will determine the most cost-effective and effective way of delivering the treatments -- whether by contractor or licensed Authority personnel.

The extermination plan will begin with an analysis of the current condition at each property. The Maintenance Supervisor shall make sure that an adequate schedule for treatment is developed to address any existing infestation. Special attention shall be paid to cockroaches. The schedule will include frequency and locations of treatment. Different schedules may be required for each property.

Resident cooperation with the extermination plan is essential. All apartments in a building must be treated for the plan to be effective. Residents will be given information about the extermination program at the time of move-in. All residents will be informed of the treatment schedule at least 48 hours before implementation. The notification will be in writing and will include instructions that describe how to prepare the unit for treatment. If necessary, the instructions shall be bi-lingual to properly notify the resident population.

B. Landscaping and Grounds

The Ansley Housing Authority will prepare a routine maintenance schedule for the maintenance of the landscaping and grounds of its properties that will ensure their continuing attractiveness and marketability.

Routine grounds maintenance includes numerous activities:

1. Litter control
2. Lawn care
3. Maintenance of driveways, sidewalks and parking lots
4. Care of flower and shrubbery beds and trees
5. Maintenance of benches and fences
6. Snow removal

The Maintenance Supervisor shall be responsible for the development of a routine maintenance schedule that shall include the following:

1. A clearly articulated standard of appearance for the grounds that acknowledges but is not limited to HUD and local code standards;
2. A list of tasks that are required to maintain that standard and the frequency with which the tasks must be performed;
3. The equipment, materials, and supplies required to perform the tasks and a schedule for their procurement; and
4. A separate snow removal plan including a schedule for preparing equipment for the season and the procurement of other necessary materials and supplies.

C. Building Exteriors and Interior Common Areas

The appearance of the outside of Authority buildings as well as their interior common areas is important to their marketability. Therefore, the Ansley Housing Authority has established a routine maintenance schedule to ensure that they are always maintained in good condition. The components to be maintained include:

1. Lobbies
2. Public restrooms
3. Lighting fixtures
4. Common rooms and community spaces
5. Exterior porches and railings
6. Building walls
7. Windows

The Maintenance Supervisor is responsible for the development of a routine maintenance schedule for building exterior and interior common areas. The schedule shall be based on the following:

1. A clearly articulated standard of appearance for the building
2. A list of tasks required to maintain that standard
3. The frequency with which the tasks must be performed
4. A list of materials, equipment and supplies required to perform the tasks.

D. Interior Painting

The appearance and condition of the paint within each unit is important to unit condition and resident satisfaction. Accordingly, the Ansley Housing Authority will develop a plan to ensure that interior paint in resident dwelling units is satisfactorily maintained.

As part of this plan painting standards will be developed that include:

1. Surface preparation
2. Protection of non-painted surfaces
3. Color and finish
4. Paint quality
5. Methods of application approved

The plan will set out the conditions for the consideration of a painting request. These standards include the period of time that has elapsed since the last time the unit was painted. Alternatives for performance of the work will be included including the conditions under which a resident will be allowed to paint his or her own unit.

2.6 RESIDENT ON-DEMAND SERVICE

This category of work refers to all resident generated work requests that fall into no other category. These are non-emergency calls made by residents seeking maintenance service. These requests for service cannot be planned in advance or responded to before the resident calls.

It is the policy of the Ansley Housing Authority to complete these work requests within ten (10) days. However, unless the request is an emergency or entails work that compromises the habitability of the unit, these requests will not be given a priority above scheduled routine and preventive maintenance. By following this procedure, the Ansley Housing Authority believes it can achieve both good resident service and a maintenance system that completes the most important work first and in the most cost effective manner.

3.0 CONTRACTING FOR SERVICES

The Ansley Housing Authority will contract for maintenance services when it is in the best interests of the Authority to do so. When the employees of the Authority have the time and skills to perform the work at hand, they will be the first choice to perform a given task. When the employees of the Authority have the skills to do the work required,

but there is more work than there is time available to complete it, the Housing Authority will determine whether it is more cost effective to use a contractor to complete the work. If the Authority staff does not have the skills to complete the work, a contractor will be chosen. In the last instance, the Authority will decide whether it will be cost effective to train a staff member to complete the work.

Once the decision has been made to hire a contractor, the process set out in the Ansley Housing Authority Procurement Policy will be used. These procedures vary depending on the expected dollar amount of the contract. The Executive Director will work with the Maintenance Supervisor and/or Contract Manager to facilitate the contract award. The Director will be responsible for the contribution of the Maintenance Department to this process. The most important aspect of the bid documents will be the specifications or statement of work. The clearer the specifications the easier it will be for the Authority to get the work product it requires.

3.1 CONTRACT SUPERVISION

After the contract has been let, the Ansley Housing Authority will provide adequate and appropriate oversight depending upon the size and scope of the work to be performed. All service contracts over \$2,000 will include Davis Bacon oversight and enforcement. In most cases, contractors doing work on Ansley property will take part in a pre-construction meeting prior to doing any work on the grounds. This will allow for reviewing the scope of work, timeframes involved, resident notification and questions or potential problems that may occur.

Once the contract has been signed, the preconstruction meeting has occurred (if necessary) and all essential paperwork has been received, a “notice to proceed” will be issued to the contractor signaling that work may begin.

Oversight will continue during this phase as much as possible verifying that the work meets specifications and that all applicable laws are being followed. Before payment is issued, a final inspection will occur, preferably with the contractor, reviewing the completed work and making arrangements to fix any outstanding problems. Final payment will not be issued until work passes the final inspection.

3.2 SECURITY PROVISIONS

The Ansley Housing Authority has only one maintenance staff person on site and administration personnel that are present weekly. The only security threat would involve parts and equipment on site. Due to the nature of this Agency there is little that can be done regarding regular supervision. However, an inventory of parts will be kept and updated annually. Also, all purchases are done through a purchase order system that is reviewed and approved by the maintenance Supervisor or Executive Director. All bills are reviewed by the executive Director and the Board. In addition, all supplies used during maintenance will be documented using the work order logs. This will serve as a double check to the inventory.

PROCUREMENT POLICY

This Procurement Policy complies with HUD's Annual Contributions Contract (ACC), HUD Handbook 7460.8, "Procurement Handbook for Public Housing Agencies," and the procurement standards of 24 CFR 85.36.

1.0 GENERAL PROVISIONS

1.1 PURPOSE

The purpose of this Procurement Policy is to provide a procurement system of quality and integrity; to assure that the Authority procures supplies, service and construction effectively, efficiently and at the most favorable prices; and to assure that Authority purchasing actions are in full compliance with applicable Federal standards, HUD regulations, and State and local laws.

1.2 APPLICATION

This Procurement Policy applies to all contracts for the procurement of supplies, services, and construction entered into by the Authority after the effective date of this Policy. It shall apply to every expenditure of Federal funds by the Authority for public purchasing, irrespective of the source of funds, including contracts that do not involve an obligation of funds (such as concession contracts). Nothing in this Policy, however, shall prevent the Authority from complying with the terms and conditions of any grant, contract, gift or bequest that is otherwise consistent with law. The term "procurement," as used in this Policy includes both contracts and modifications (including change orders) for construction or services, as well as purchase, lease, or rental of supplies and equipment.

1.3 PUBLIC ACCESS TO PROCUREMENT INFORMATION

Procurement information shall be a matter of public record to the extent provided by State law and shall be available to the public as provided by that law.

1.4 EXECUTIVE DIRECTOR'S RESPONSIBILITIES

The Contracting Officer shall administer all procurement transactions. The Contracting Officer shall be the Executive Director or any other individual so designated by the Executive Director. The Board of Commissioners appoints and delegates procurement authority to the Executive Director and is responsible for insuring that any procurement policies adopted are appropriate for the Housing Authority. Any delegations of contracting authority must be documented in writing. The Contracting Officer shall ensure that the following occur:

- A. Procurement requirements are subject to a planning process to assure efficient and economical purchasing;
- B. Contracts and modifications are in writing and clearly specify the desired supplies, services, or construction; are supported by sufficient documentation regarding the history of the procurement, including as a minimum the method of procurement chosen, the selection of the contract type, the rationale for selecting or rejecting offers, and the basis for the contract price; and that contracts and modifications are awarded only by Authority employees designated in writing as having such authority;
- C. For procurements other than small purchases, public notice is given of each upcoming procurement, an adequate time period is provided for preparation and submission of bids or proposals, and notice of contract awards is made available to the public;
- D. Solicitation procedures are conducted in full compliance with Federal standards stated in 24 CFR 85.36, or State and local laws that are more stringent, provided they are consistent with 24 CFR 85.36;
- E. An independent cost estimate is prepared before solicitation is issued and is appropriately safeguarded for each procurement above the small purchase limitation, and a cost or price analysis is conducted of the responses received for all procurements;
- F. Contract award is made to the responsive and responsible bidder offering the lowest price (for sealed bid contracts) or contract award is made to the offeror whose proposal offers the greatest value to the Authority, considering price, technical, and other factors as specified in the solicitation (for contracts awarded based on competitive proposals); unsuccessful firms are notified within ten days (or other time period required by State or local law) after contract award;
- G. Work is inspected before payment, and payment is made promptly for contract work performed and accepted; and
- H. The Authority complies with applicable HUD review requirements and any local procedures supplementing this Statement.

1.5 CONTRACTOR RESPONSIBILITY

Procurements shall be conducted only with responsible contractors, i.e., those who have the technical and financial competence to perform and who have a satisfactory record of integrity. The Authority shall review each proposed contractor's ability to perform the contract successfully, considering factors such as the contractor's integrity (including a review of the List of Parties Excluded from Federal Procurement and Nonprocurement

Programs published by the U.S. General Services Administration), compliance with public policy, record of past performance (including contacting previous clients of the contractor, such as other Housing Authorities), and financial and technical resources. Contracts shall not be awarded to debarred, suspended, or ineligible contractors.

1.6 *QUALIFIED BIDDER'S LISTS*

Interested businesses shall be given an opportunity to be included on a qualified bidder's lists. Any pre-qualified lists of persons, firms, or products, which are used in the procurement of supplies and services, shall be kept current and shall include enough qualified sources to ensure competition. Firms shall not be precluded from qualifying during the solicitation period. Solicitation mailing lists of potential contractors shall include, but not be limited to, such pre-qualified suppliers.

1.7 *COMPETITIVE SPECIFICATIONS*

The Authority shall seek full and open competition in all of its procurement transactions. All specifications shall be drafted so as to promote overall economy for the purpose intended and to encourage competition in satisfying the Authority's needs. Specifications shall be reviewed prior to solicitation to ensure that they are not unduly restrictive or represent unnecessary or duplicative items. Functional or performance specifications are preferred. Detailed product specifications shall be avoided whenever possible. Consideration shall be given to consolidating or breaking out procurements to obtain a more economical purchase. For equipment purchases, a lease versus purchase analysis should be performed to determine the most economical form of procurement.

1.8 *LIMITATIONS ON COMPETITION*

The following specification limitations shall be avoided: geographic restrictions not mandated or encouraged by applicable Federal law (except for architect-engineer contracts, which may include geographic location as a selection factor if adequate competition is available); unnecessary bonding or experience requirements; brand name specifications (unless a written determination is made that only the identified item will satisfy the Authority's needs); and brand name or equal specifications (unless they list the minimum essential characteristics and standards to which the item must conform to satisfy its intended use). Nothing in this procurement policy shall preempt any State licensing laws. Specifications shall be scrutinized to ensure that organizational conflicts of interest do not occur (for example, having a consultant perform a study of the Authority's computer needs and then allowing that consultant to compete for the subsequent contract for the computers).

1.9 *COOPERATIVE PURCHASING*

The Authority may enter into State and local intergovernmental agreements to purchase or use common goods and services. The decision to use an intergovernmental agreement

or conduct a direct procurement shall be based on economy and efficiency. If used, the intergovernmental agreement shall stipulate who is authorized to purchase on behalf of the participating parties and shall specify inspection, acceptance, termination, payment, and other relevant terms and conditions. The Authority shall use Federal or State excess and surplus property instead of purchasing new equipment and property whenever such use is feasible and reduces project costs.

1.10 *IN HOUSE VS. CONTRACTING*

In all cases, the Authority will review the necessary work and determine if the Authority would benefit more from doing the proposed work internally. Only if the benefits of contracting the work are determined to outweigh doing the work in-house will the Authority proceed with privatizing the necessary labor.

1.11 *STANDARDIZED PARTS*

The Authority will also benefit from a standardization of parts in resident apartments and throughout the authority whenever possible. Standardization of parts will allow for quantity discounts and inventory reduction. This practice will be standard operating procedure and shall occur whenever possible.

2.0 *PROCUREMENT METHODS*

2.1 *SMALL PURCHASE PROCEDURES*

If it has been decided that the Housing Authority will directly purchase the required items, one of the following procurement methods shall be chosen, based on the nature and anticipated contract value of the total requirement.

- A. General** - Any contract not exceeding \$25,000 may be made in accordance with the small purchase procedures authorized in this section. Contract requirements shall not be artificially divided so as to constitute a small purchase under this section (except as may be reasonably necessary to comply with Section 5.0 of this Policy).

- B. Petty Cash Purchases** - Small purchases less than One Hundred Dollars (\$100.00) which can be satisfied by local sources may be processed through the use of a petty cash account. The Contracting Officer shall ensure that the account is established in an amount sufficient to cover small purchases made during a reasonable period (e.g., one month), security is maintained, and only authorized individuals have access to the account. The account shall be periodically reconciled and replenished by submission of a voucher to the Authority's Executive Director and periodically audited by the Bookkeeper or designee to validate proper use and to verify that the account total equals cash on hand plus the total of accumulated vouchers.

- C. **Small purchases of \$1,000 or less** - For small purchases below \$1,000 [or the dollar limit established in D below], only one quotation need be solicited if the price received is considered reasonable. Such purchases must be distributed equitably among qualified sources. If practicable, a quotation shall be solicited from other than the previous source before placing a repeat order.

- D. **Small purchases over \$1,000** - For small purchases in excess of \$1,000 [or a higher amount up to 10% of the dollar limit in A above] but not exceeding \$25,000 [or a lower dollar limit stated in A above] no less than three offerors shall be solicited to submit price quotations. These quotes may be obtained orally, by telephone, or in writing, as allowed by State or local laws. Award shall be made to the offeror providing the lowest acceptable quotation, unless justified in writing based on price and other specified factors, such as for architect-engineer contracts. If non-price factors are used, they shall be disclosed to all those solicited. The names, addresses, and/or telephone numbers of the offerors and persons contacted, and the date and amount of each quotation shall be recorded and maintained as a public record (unless otherwise provided in State or local law).

2.2 **SEALED BIDDING**

- A. **Conditions for Use** - Contracts shall be awarded based on competitive sealed bidding if the following conditions are present: a complete, adequate, and realistic specification or purchase description is available; two or more responsible bidders are willing and able to compete effectively for the work; the procurement lends itself to a firm fixed price contract; and the selection of the successful bidder can be made principally on the basis of price. Sealed bidding is the preferred method for construction procurement. For modernization projects, sealed bidding shall be used for all construction and equipment contracts exceeding the small purchase limitation. For professional services contracts, sealed bidding should not be used.

- B. **Solicitation and Receipt of Bids** - An invitation for bids shall be issued including specifications and all contractual terms and conditions applicable to the procurement, including a statement that award will be made to the lowest responsible and responsive bidder whose bid meets the requirements of the invitation for bids. The invitation for bids shall state the time and place for both the receipt of bids and the public bid opening. All bids received shall be time-stamped but not opened and shall be stored in a secure place until bid opening. A bidder may withdraw its bid at any time prior to bid opening.

- C. **Bid Opening and Award** - Bids shall be opened publicly, an abstract of bids shall be recorded, and the bids shall be available for public inspection. If equal low bids are received from responsible bidders, award shall be made by drawing lots or similar random method, unless otherwise provided in State or local law and stated in the invitation for bids. If only one responsive bid is received from a

responsible bidder, award shall not be made unless a cost or price analysis verifies the reasonableness of the price.

D. Mistakes in Bids -

1. Correction or withdrawal of inadvertently erroneous bids may be permitted, where appropriate, before bid opening by written or telegraphic notice received in the office designated in the invitation for bids prior to the time set for bid opening. After bid opening, corrections in bids shall be permitted only if the bidder can show by clear and convincing evidence that a mistake of a nonjudgmental character was made, the nature of the mistake, and the bid price actually intended. A low bidder alleging a nonjudgmental mistake may be permitted to withdraw its bid if the mistake is clearly evident on the face of the bid document but the intended bid is unclear or the bidder submits convincing evidence that a mistake was made.
2. All decisions to allow correction or withdrawal of bid mistakes shall be supported by a written determination signed by the Contracting Officer. After bid opening, no changes in bid prices or other provisions of bids prejudicial to the interest of the Authority or fair competition shall be permitted.
3. **Bonds** - In addition to the other requirements of this Policy, the following requirements apply:
 - a. For construction contracts exceeding \$100,000, other than those specified in 3b and 3c below, contractors shall be required to submit the following, unless otherwise required by State or local laws or regulations:
 - (1) a bid guarantee from each bidder equivalent to 5% of the bid price; and
 - (2) a performance bond for 100% of the contract price; and
 - (3) a payment bond for 100% of the contract price.
 - b. In the case of construction of conventional development projects funded pursuant to the U.S. Housing Act of 1937, the contractor shall be required to submit the following, unless otherwise required by State or local laws or regulations:
 - (1) a bid guarantee from each bidder equivalent to 5% of the bid price; and

- (2) one of the following:
 - (i) a performance and payment bond for 100% of the contract price; or
 - (ii) a 20% cash escrow; or
 - (iii) a 25% irrevocable letter of credit.

c. In the case of construction under the Capital Fund Program funded pursuant to the U.S. Housing Act of 1937, for any contract over \$25,000, the contractor shall be required to submit the following, unless otherwise required by State or local laws or regulations:

- (1) a bid guarantee from each bidder equivalent to 5% of the bid price; and
- (2) one of the following:
 - (i) a performance and payment bond for 100% of the contract price; or
 - (ii) separate performance and payment bonds, each for 50% or more of the contract price; or
 - (iii) a 20% cash escrow; or
 - (iv) a 25% irrevocable letter of credit.

2.3 COMPETITIVE PROPOSALS

- A. Conditions for Use** - Competitive proposals (including turnkey proposals for development) may be used if there is an adequate method of evaluating technical proposals and where the Authority determines that conditions are not appropriate for the use of sealed bids. An adequate number of qualified sources shall be solicited (normally, at least 3).
- B. Solicitation** - The request for proposals (RFP) shall clearly identify the relative importance of price and other evaluation factors and subfactors, including the weight given to each technical factor and subfactor. A mechanism for fairly and thoroughly evaluating the technical and price proposals shall be established before the solicitation is issued. Proposals shall be handled so as to prevent disclosure of the number of offerors, identity of the offerors, and the contents of their proposals. The proposals shall be evaluated only on the criteria stated in the request for proposals.

- C. **Negotiations** - Unless there is no need for negotiations with any of the offerors, negotiations shall be conducted with offerors who submit proposals determined to have a reasonable chance of being selected for award, based on evaluation against the technical and price factors as specified in the RFP. Such offerors shall be accorded fair and equal treatment with respect to any opportunity for negotiation and revision of proposals. The purpose of negotiations shall be to seek clarification with regard to and advise offerors of the deficiencies in both the technical and price aspects of their proposals so as to assure full understanding of and conformance to the solicitation requirements. No offeror shall be provided information about any other offeror's proposal, and no offeror shall be assisted in bringing its proposal up to the level of any other proposal. Offerors shall not be directed to reduce their proposed prices to a specific amount in order to be considered for award. A common deadline shall be established for receipt of proposal revisions based on negotiations.
- D. **Award** - After evaluation of proposal revisions, if any, the contract shall be awarded to the responsible firm whose qualifications, price and other factors considered are the most advantageous to the Authority.
- E. **Architect/Engineer Services** - Architect/engineer services in the excess of the small purchase limitation (or less if required by State or local law) may be obtained by either the competitive proposals method or qualifications-based selection procedures, unless State law mandates a specific method. Sealed bidding, however, shall not be used to obtain architect/engineer services. Under qualifications-based selection procedures, competitors' qualifications are evaluated and the most qualified competitor is selected, subject to the negotiation of fair and reasonable compensation. Price is not used as a selection factor under this method. Qualifications-based selection procedures shall not be used to purchase other types of services even though architect-engineer firms are potential sources.

2.4 **NONCOMPETITIVE PROPOSALS**

- A. **Conditions for Use** - Procurements shall be conducted competitively to the maximum extent possible. Procurement by noncompetitive proposals may be used only when the award of a contract is not feasible using small purchase procedures, sealed bids, or competitive proposals, and one of the following applies:
 - 1. The item is available only from a single source, based on a good faith review of available sources;
 - 2. An emergency exists that seriously threatens the public health, welfare, or safety; endangers property; or would otherwise cause serious injury to the Authority, as may arise by reason of a flood, earthquake, epidemic, riot, equipment failure, or similar event. In such cases, there must be an

immediate and serious need for supplies, services, or construction such that the need cannot be met through any other procurement methods, and the emergency procurement shall be limited to those supplies, services, or construction necessary to meet the emergency;

3. HUD authorizes the use of noncompetitive proposals; or
 4. After solicitation of a number of sources, competition is determined inadequate.
- B. **Justification** - Each procurement based on noncompetitive proposals shall be supported by a written justification for using such procedures.
- C. **Price Reasonableness** - The reasonableness of the price for all procurements based on noncompetitive proposals shall be determined by performing a cost analysis, as described in section 2.5 below.

2.5 ***COST AND PRICE ANALYSIS***

- A. **General** - Some form of cost or price analysis shall be performed for all procurement actions, including contract modifications, using the procedures described in HUD Handbook 2210.18. The method of analysis shall be determined as follows. The degree of analysis shall depend on the facts surrounding each procurement.
- B. **Submission of Cost or Pricing Information** - If the procurement is based on noncompetitive proposals, or when only one offer is received, or for other procurements as deemed necessary by the Authority (e.g., when contracting for professional, consulting, or architect/engineer services) the offeror shall be required to submit:
1. A cost breakdown showing projected costs and profit;
 2. Commercial pricing and sales information, sufficient to enable the Authority to verify the reasonableness of the proposed price as a catalog or market price of a commercial product sold in substantial quantities to the general public; or
 3. Documentation showing that the offered price is set by law or regulation.
- C. **Cost Analysis** - Cost analysis shall be performed if an offeror/contractor is required to submit a cost breakdown as part of its proposal. When a cost breakdown is submitted a cost analysis shall be performed of the individual cost elements, the Authority shall have a right to audit the contractor's books and records pertinent to such costs, and profit shall be analyzed separately. Costs shall be allowable only to the extent that they are consistent with applicable Federal

cost principles (for commercial firms, Subpart 31.2 of the Federal Acquisition Regulation, 48 CFR Chapter 1). In establishing profit, the Authority shall consider factors such as the complexity and risk of the work involved, the contractor's investment and productivity, the amount of subcontracting, the quality of past performance, and industry profit rates in the area for similar work.

- D. **Price Analysis** - For competitive procurements in which cost or pricing information is not required of contractors, the Authority shall perform a comparison of prices received in relation to the independent cost estimate, to ensure that the price being paid is reasonable.

2.6 *BLANKET PURCHASE AGREEMENTS*

In some cases it is beneficial for the authority to use a blanket purchase agreement. Once a product is bid, assuming that product will be purchased repeatedly over a period of time, it is beneficial to the authority in both time and money to continue purchasing that item without re-bidding. This, "blanket purchase agreement", will be used whenever possible to eliminate unnecessary work and to save money.

2.7 *CANCELLATION OF SOLICITATIONS*

An invitation for bids, request for proposals, or other solicitation may be cancelled before offers are due if the Authority no longer requires the supplies, services or construction; the Authority can no longer reasonably expect to fund the procurement; proposed amendments to the solicitation would be of such magnitude that a new solicitation would be desirable; or similar reasons. The reasons for cancellation shall be documented in the procurement file and the reasons for cancellation and/or rejection shall be provided upon request to any offeror solicited.

3.0 *TYPES OF CONTRACTS, CLAUSES, AND CONTRACT ADMINISTRATION*

3.1 *CONTRACT TYPES*

Any type of contract which is appropriate to the procurement and which will promote the best interests of the Authority may be used, provided that the cost plus a percentage of cost and percentage of construction cost methods are prohibited. All procurements shall include the clauses and provisions necessary to define the rights and responsibilities of the parties. A cost reimbursement contract shall not be used unless it is likely to be less costly or it is impracticable to satisfy the Authority's needs otherwise; the proposed contractor's accounting system is adequate to allocate costs in accordance with applicable cost principles (for commercial firms, see HUD Handbook 2210.18); and the contractor is paid only allowable costs. A time and material contract may be used only if a written

determination is made that no other contract type is suitable, and the contract includes a ceiling price that the contractor exceeds at its own risk.

3.2 *OPTIONS*

Options for additional quantities or performance periods may be included in contracts, provided that (i) the option is contained in the solicitation; (ii) the option is a unilateral right of the Authority; (iii) the contract states a limit on the additional quantities and the overall term of the contract; (iv) the options are evaluated as part of the initial competition; (v) the contract states the period within which the options may be exercised; (vi) the options may be exercised only at the price specified in or reasonably determinable from the contract; and (vii) the options may be exercised only if determined to be more advantageous to the Authority than conducting a new procurement.

3.3 *CONTRACT CLAUSES*

In addition to containing a clause identifying the contract type, all contracts shall include any clauses required by Federal statutes, executive orders, and their implementing regulations, as provided in 24 CFR 85.36(i), such as the following:

- A. Termination for convenience
- B. Termination for default
- C. Equal Employment Opportunity
- D. Anti-Kickback Act
- E. Davis-Bacon Act
- F. Contract Work Hours and Safety Standards Act
- G. Reporting requirements
- H. Patent rights
- I. Rights in data
- J. Examination of records by Comptroller General, and retention of records for three years after closeout
- K. Clean air and water
- L. Energy efficiency standards
- M. Bid protests and contract claims

- N. Value engineering
- O. Payment of funds to influence certain Federal transactions.

3.4 CONTRACT ADMINISTRATION

A contract administration system designed to ensure that contractors perform in accordance with their contracts shall be maintained. The system shall include procedures for inspection of supplies, services, or construction, as well as monitoring contractor performance, status reporting on construction contracts, and similar matters. All contracts will include a provision for a final inspection by staff or designee to ensure quality and proper completion of the specific contract.

4.0 APPEALS AND REMEDIES

4.1 GENERAL

It is the Authority's policy to resolve all contractual issues informally at the Authority level, without litigation. Disputes shall not be referred to HUD until all administrative remedies have been exhausted at the Authority level. When appropriate, the Authority may consider the use of informal discussions between the parties by individuals who did not participate substantially in the matter in dispute to help resolve the differences. HUD will only review protests in cases of violations of Federal law or regulations and failure of the Authority to review a complaint or protest.

4.2 BID PROTESTS

Any actual or prospective contractor may protest the solicitation or award of a contract for serious violations of the principles of this Policy. Any protest against a solicitation must be received before the due date for receipt of bids or proposals, and any protest against the award of a contract must be received within ten (10) calendar days after contract award, or the protest will not be considered. All bid protests shall be in writing and submitted to the Contracting Officer or designee, who shall issue a written decision on the matter. The Contracting Officer may, at his or her discretion, suspend the procurement pending resolution of the protest, if warranted by the facts presented.

4.3 CONTRACT CLAIMS

All claims by a contractor relating to performance of a contract shall be submitted in writing to the Contracting Officer, or designee, for a written decision. The contractor may request a conference on the claim. The Contracting Officer's decision shall inform the contractor of its appeal rights to the Board Chairperson.

5.0 ASSISTANCE TO SMALL AND OTHER BUSINESSES

5.1 *REQUIRED EFFORTS*

Consistent with Presidential Executive Orders 11625, 12138, 12432, and Section 3 of the HUD Act of 1968, the Authority shall make efforts to ensure that small and minority-owned businesses, women's business enterprises, and individuals or firms located in or owned in substantial part by persons residing in the area of an Authority development are used when possible. Such efforts shall include, but shall not be limited to the following:

- A. Including such firms, when qualified, on solicitation mailing lists;
- B. Encouraging their participation through direct solicitation of bids or proposals whenever they are potential sources;
- C. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by such firms;
- D. Establishing delivery schedules, where the requirement permits, which encourage participation by such firms;
- E. Using the services and assistance of the Small Business Administration and the Minority Business Development Agency of the Department of Commerce;
- F. Including in contracts a clause requiring contractors, to the greatest extent feasible, to provide opportunities for training and employment for lower income residents of the development area and to award subcontracts for work in connection with the project to business concerns which are located in, or owned in substantial part by persons residing in the area of the development, as described in 24 CFR 135; and
- G. Requiring prime contractors, when subcontracting is anticipated, to take the positive steps listed in A through F above.

5.2 *DEFINITIONS*

A small business is defined as a business that is independently owned, not dominant in its field of operation, and not an affiliate or subsidiary of a business dominant in its field of operation. The size standards in 13 CFR 121 shall be used, unless the Authority determines that their use is inappropriate.

A minority-owned business is defined as a business which is at least 51% owned by one or more minority group members; or, in the case of a publicly-owned business, one in which at least 51% of its voting stock is owned by one or more minority group members, and whose management and daily business operations are controlled by one or more such

individuals. Minority group members include, but are not limited to, Black Americans, Hispanic Americans, Native Americans, Asian Pacific Americans and Asian Indian Americans, and Hasidic Jewish Americans.

A women's business enterprise is defined as a business that is at least 51% owned by a woman or women who are U.S. citizens and who also control or operate the business.

A business concern located in the area of the development is defined as an individual or firm located within the relevant Section 3 covered development area, as determined pursuant to 24 CFR 135.15; listed on HUD's registry of eligible business concerns; and meeting the definition of small business above. A business concern owned in substantial part by persons residing in the area of the development is defined as a business concern which is 51% or more owned by persons residing within the Section 3 covered project, owned by persons considered by the U.S. Small Business Administration to be socially or economically disadvantaged, listed on HUD's registry of eligible business concerns, and meeting the definition of small business above.

6.0 ETHICS IN PUBLIC CONTRACTING

6.1 GENERAL

The Authority shall adhere to the following code of conduct and shall establish a system of sanctions for violations consistent with applicable State or local law.

6.2 CONFLICT OF INTEREST

No employee, officer or agent of this Authority shall participate directly or indirectly in the selection or in the award or administration of any contract if a conflict, real or apparent, would be involved. Such conflict would arise when a financial or other interest in a firm selected for award is held by:

- A. An employee, officer or agent involved in making the award;
- B. His/her relative (including father, mother, son, daughter, brother, sister, uncle, aunt, first cousin, nephew, niece, husband, wife, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, stepfather, stepmother, stepson, stepdaughter, stepbrother, stepsister, half brother, or half sister);
- C. His/her partner; or,
- D. An organization which employs, is negotiating to employ, or has an arrangement concerning prospective employment of any of the above.

6.3 GRATUITIES, KICKBACKS, AND USE OF CONFIDENTIAL INFORMATION

Authority officers, employees or agents shall not solicit or accept gratuities, favors, or anything of monetary value from contractors, potential contractors, or parties to subcontracts and shall not knowingly use confidential information for actual or anticipated personal gain.

6.4 *PROHIBITION AGAINST CONTINGENT FEES*

Contractors shall not retain a person to solicit or secure an Authority contract for a commission, percentage, brokerage, or contingent fee, except for bona fide employees or bona fide established commercial selling agencies.
