A. PHA Progress in Meeting the Mission and Goals Described in the 5-Year Plan

(Provide a statement of the PHA's progress against the goals and objectives established in the previous 5-Year Plan for the period FY 2006 - 2010)

The Housing Authority has been successful in meeting many of its goals and objectives by taking a pro-active approach in enhancing the living environment for the residents of our various developments. There has been considerable modernization of our developments and a significant amount of improvements in the areas of fire safety and security. It is our intention to continue this approach to further enhance our developments with upgrades both to the physical aspects of our buildings as well as to our security systems.

We will continue to maximize our available Housing Choice Voucher funding in order to assist as many participants as possible, thereby, administering a very successful program.

We have and will continue to stress the importance of ongoing training for our staff in both programs. Most recently, staff has been instructed on the contents of the Violence Against Woman Act (VAWA) in an effort to address this very important topic that may affect participants of our programs.

In an effort to help facilitate municipalities with their efforts in providing affordable housing, we have assumed the role of Administrative Entity in a

number of cases. In this role we will be able to offer assistance and guidance in the areas of marketing and oversight for affordable housing programs offered by municipalities. It is our desire to expand the pool of municipalities that we assist.

Our general goals and objectives will continue to be related to the overall promotion of sound, decent and affordable housing opportunities for low and moderate income households throughout our jurisdiction.
