This form allows eligible PHAs to make a streamlined annual Plan submission to HUD consistent with HUD's efforts to provide regulatory relief to certain PHAs. Public reporting burden for this information collection is estimated to average 11.7 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. **Executive Summary (optional)**

[903.7(r)]. If desired, provide a brief overview of the contents of the streamlined 5-Year/Annual Plan.

The Authority is facing increasing difficulty in the next few years driven by decreased funding streams coupled with the HUD requirement for organizational restructuring and what appears to be the continuation of complex and time-consuming rental policies. Retaining quality staff with the necessary experience in a difficult and uncertain funding environment will be a challenge. The continued decline in Capital Funds will force a true prioritization of where resources are used and will eventually have an impact on the current level of quality. With funding constraints, resident programs will be limited unless provided by cooperative ventures with outside agencies. Fortunately, the Authority is as well positioned as it could be at this time with an experienced and knowledgeable staff and units that are exceptionally well maintained with excellent curb appeal. This will allow the Authority to deal with the issues of the future beginning from a position of strength and capability.

The Authority's focus over the next few years will be to increase the availability of affordable housing with non-HUD sources of revenue and to increase non-HUD sources of revenue to sustain these efforts while maintaining excellent quality in both the operations and physical structures of the current developments. The continued use of an in-house work force (force account) for renovations and major repairs will continue. An excellent level of quality has been achieved through this effort and it solves the problem of a lack of interested contractors to bid on Authority work.

The Authority will begin its efforts to fully switch to a project based financial system during 2007. Efforts will be initiated to begin the conversion to the asset management concept of operations. Staff training has already been initiated and will continue. The reorganization and reassignment of staff will begin in late 2006 or early 2007. As the Authority's fiscal year is already on a calendar year basis, the accounting time period is already based on the HUD mandated funding period.

Despite the challenges on the horizon, the Authority fully expects to continue to provide excellent affordable housing options for the Rock Hill community into the

future.

## B. Strategy for Addressing Needs

Provide a brief description of the PHA's strategy for addressing the housing needs of families on the PHA's public housing and Section 8 waiting lists **IN THE UPCOMING YEAR**, and the Agency's reasons for choosing this strategy.

### (1) Strategies

**Need: Shortage of affordable housing for all eligible populations**

**Strategy 1. Maximize the number of affordable units available to the PHA within its current resources by:**

Select all that apply

- Employ effective maintenance and management policies to minimize the number of public housing units off-line
- Reduce turnover time for vacated public housing units
- Reduce time to renovate public housing units
- Seek replacement of public housing units lost to the inventory through mixed finance development
- Seek replacement of public housing units lost to the inventory through section 8 replacement housing resources
- Maintain or increase section 8 lease-up rates by establishing payment standards that will enable families to rent throughout the jurisdiction
- Undertake measures to ensure access to affordable housing among families assisted by the PHA, regardless of unit size required
- Maintain or increase section 8 lease-up rates by marketing the program to owners, particularly those outside of areas of minority and poverty concentration
- Maintain or increase section 8 lease-up rates by effectively screening Section 8 applicants to increase owner acceptance of program
- Participate in the Consolidated Plan development process to ensure coordination with broader community strategies
- Other (list below)

**Strategy 2: Increase the number of affordable housing units by:**

Select all that apply

- Apply for additional section 8 units should they become available
- Leverage affordable housing resources in the community through the creation of mixed - finance housing
- Pursue housing resources other than public housing or Section 8 tenant-based assistance.
- Other: (list below)

**Need: Specific Family Types: Families at or below 30% of median**

**Strategy 1: Target available assistance to families at or below 30 % of AMI**

Select all that apply

- Exceed HUD federal targeting requirements for families at or below 30% of AMI in public housing
- Exceed HUD federal targeting requirements for families at or below 30% of AMI in tenant-based section 8 assistance
- Employ admissions preferences aimed at families with economic hardships
- Adopt rent policies to support and encourage work
- Other: (list below)

**Need: Specific Family Types: Families at or below 50% of median**

**Strategy 1: Target available assistance to families at or below 50% of AMI**

Select all that apply

- Employ admissions preferences aimed at families who are working
- Adopt rent policies to support and encourage work
- Other: (list below)

**Need: Specific Family Types: The Elderly**

**Strategy 1: Target available assistance to the elderly:**

Select all that apply

- Seek designation of public housing for the elderly
- Apply for special-purpose vouchers targeted to the elderly, should they become available
- Other: (list below)

**Need: Specific Family Types: Families with Disabilities**

**Strategy 1: Target available assistance to Families with Disabilities:**

Select all that apply

- Seek designation of public housing for families with disabilities
- Carry out the modifications needed in public housing based on the section 504 Needs Assessment for Public Housing
- Apply for special-purpose vouchers targeted to families with disabilities, should they become available
- Affirmatively market to local non-profit agencies that assist families with disabilities
- Other: (list below)

**Need: Specific Family Types: Races or ethnicities with disproportionate housing needs**

**Strategy 1: Increase awareness of PHA resources among families of races and ethnicities with disproportionate needs:**

Select if applicable

- Affirmatively market to races/ethnicities shown to have disproportionate housing needs
- Other: (list below)

**Strategy 2: Conduct activities to affirmatively further fair housing**

Select all that apply

- Counsel section 8 tenants as to location of units outside of areas of poverty or minority concentration and assist them to locate those units
- Market the section 8 program to owners outside of areas of poverty /minority concentrations
- Other: (list below)

**Other Housing Needs & Strategies: (list needs and strategies below)**

**(2) Reasons for Selecting Strategies**

Of the factors listed below, select all that influenced the PHA’s selection of the strategies it will pursue:

- Funding constraints
- Staffing constraints
- Limited availability of sites for assisted housing
- Extent to which particular housing needs are met by other organizations in the community
- Evidence of housing needs as demonstrated in the Consolidated Plan and other information available to the PHA
- Influence of the housing market on PHA programs
- Community priorities regarding housing assistance
- Results of consultation with local or state government
- Results of consultation with residents and the Resident Advisory Board
- Results of consultation with advocacy groups
- Other: (list below)

Significant funding constraints are anticipated which, if incurred, will severely limit the ability to maintain the current level of effort to provide affordable housing. Reduced operating and capital funds could limit the ability to maintain the current quality of the housing and could eliminate any chance to further improve the quality. The reorganization required to implement asset management will further drain resources over the next 12 to 18 months. Significant funding reductions will result in significant reductions of services.

[24 CFR Part 903.12 (b), 903.7 (r)]

### **A. PHA Progress in Meeting the Mission and Goals Described in the 5-Year Plan**

*(Provide a statement of the PHA's progress against the goals and objectives established in the previous 5-Year Plan for the period FY 2006 - 2010.)*

The Authority has achieved excellence in all of its housing programs over the past year. RHHA is a high performer in the Public Housing Assessment System and the Section 8 Management Assessment Program. The physical structure of the owned housing stock has been exceptionally well maintained and is continually upgraded to provide quality units. Vacancy days are down as occupancy levels are up due to shorter turn times and a solid waiting list. Section 8 lease rates are also up with the leasing of the project based Highland Mill. Despite tight funding from HUD in all programs, the Authority is operating within its program budgets at present. Program reserves are reasonable. Despite the major funding uncertainty in the coming years, the Authority is reasonably positioned to weather the funding shortfalls while undergoing the difficulty of converting to asset management.

- Other (describe below:)

- c. Indicate the number of units and general location of units (e.g. eligible census tracts or smaller areas within eligible census tracts):

PHA Plan Addendum for FYE 12-31-07  
Resident Assessment System Survey  
Follow-up Plan – FYE 2005 Survey  
Category – Communications

The Authority's rating of 72.7% was slightly below the threshold and therefore required a follow-up plan to address the issue. In the past, the Authority communicated with residents on an as needed basis through mailings and through the recertification and inspection process. Past surveys had rated the communications process as acceptable.

In order to improve this process, the Authority will undertake to increase the frequency of newsletters to the residents. The newsletters will provide information on policy issues and activities that should be of interest to most residents. Information on upcoming modernization activity will also be included along with any planned regular maintenance work in the development. As the Authority transitions to asset management, the newsletters will begin to be tailored to the individual projects. It must be noted that the ability to continue the newsletters will be contingent on at least minimally adequate funding in order to support the costs of either mailing or hand delivery. Assuming sufficient funding, this action should increase resident awareness of information of interest. Information from outside agencies with services available to residents can be included to further increase the flow of information.

Meetings have proven to be a less than effective method of communication due to extremely low attendance. Mailings put information into the hands of all residents and provides them with easy access to information applicable to the overall authority and to their specific development.
