This information collection is authorized by Section 511 of the Quality Housing and Work Responsibility Act, which added a new section 5A to the U.S. Housing Act of 1937 that introduced 5-year and annual PHA Plans. The full PHA plan provides a ready source for interested parties to locate basic PHA policies, rules, and requirements concerning the PHA's operations, programs, and services, and informs HUD, families served by the PHA, and members of the public of the PHA's mission and strategies for serving the needs of low-income and very low-income families. This form allows eligible PHAs to make a streamlined annual Plan submission to HUD consistent with HUD's efforts to provide regulatory relief for certain types of PHAs. Public reporting burden for this information collection is estimated to average 11.7 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. HUD may not collect this information and respondents are not required to complete this form, unless it displays a currently valid OMB Control Number.

Georgia Summary

The housing dilemma for the State of Georgia has been assessed in the FFY 2005 Consolidated Plan for the State of Georgia. Regulatory barriers to affordable homes have also been identified. A comprehensive housing strategic plan is included in the Consolidated Plan.

Housing Needs Identified

The Housing and Homeless Needs Assessment identifies the cost burden of housing as the most common problem affecting all households regardless of tenure, income or household type. Almost one in four households pays at least 30% of their income for housing. At least 9% of all Georgia households are severely cost burdened and devote at least 50% of their income for housing.

Renter households are more severely cost burdened at the extremely low income levels than homeowners. In contrast, homeowners in the three higher income categories are more cost burdened than renters. Although Georgia has a very diverse ethnic and racial mixture, data shows evidence of disproportionate need for two groups. These groups are the Hispanic and elderly black households.

Georgia populations with supportive housing needs include the elderly and frail elderly; individuals with mental, physical and/or developmental disabilities; individuals with alcohol and/or drug addictions; individuals with HIV/AIDS; migrant farm workers and *public housing residents*.

Needs of Homeless

It is estimated that 30,000 individuals are homeless statewide each year. Important subsets to the homeless population with specific and differing needs include victims of domestic violence, children and youth (including those aging out of foster care), substance abusers, persons with AIDS-related diseases, and individuals with severe mental illness.

Lead Based Paint

Low-income households that earn between 0 and 50% of MFI are least able to afford well-maintained housing and therefore are often at greater risk of lead poisoning. Using 2000 Census data for the number of housing units by tenure and year built, along with 2000 CHAS data for the distribution of housing units by age, tenure and income group, it was found that more than 300,000 housing units occupied by low-income households are believed to have lead-based paint hazards. This problem almost equally impacts owners and renters with low and moderate incomes.

Housing Market Conditions

In 2000, Georgia's housing stock consisted of 67% single-family houses, 7% two to four unit houses, 14% multifamily units and 12% mobile homes.

From 200 to 2002, the housing unit inventory increased by an estimated 6.3%, or 205,335 units, to 3,487,088. During this same time period, Georgia ranked fourth in the nation as having the greatest percentage of housing unit change. Much of this development activity was concentrated in or near Atlanta. In fact, in 2002 and 2003, Atlanta had the highest number of building permits issued out of all MSAs in the United States. Statewide in 2002, building permits were issued for 97,385 units. However, building permits in 2003 declined to 93,773. The majority of these permits were issued for single-family units.

Housing Structural Conditions

The 2000 U. S. Census contains five factors that describe the condition of the housing stock including presence of kitchen and plumbing facilities, heating source, overcrowding and age of the housing unit. These factors have obvious limitations: no information provided on the actual structural conditions of the housing units. Fortunately, these statistics do provide some measure of housing conditions. The following summarizes the findings for housing conditions in each of the four categories reported in the 2000 Census.

Kitchen Facilities – More than 99% of Georgia's housing units had kitchen facilities. Only 0.5% lacked complete kitchen facilities.

Plumbing Facilities – Almost all housing units had plumbing fixtures. Only 0.5% lacked complete plumbing facilities.

Heating Source – The majority of the houses (49%) heated by utility gas. Thirty-eight percent utilized electricity as the source of heating. Eleven percent used bottled, tank or LP gas and the remaining used another fuel or no fuel at all.

Overcrowding – Conditions of overcrowding, defined as more than 1% per room, affected 4.8% of all occupied housing units in Georgia. Renters were more likely to live in overcrowded units than owners. Hispanics were more likely to live in overcrowded housing than all other racial/ethnic groups.

Age of Housing Stock – Twenty-eight percent of Georgia’s housing units were 10 years of or less in 2000, 22% were between 11 and 20 years old, 31% were between 21 and 40 years old, and 19% were at least 40 years old.

The Most Important Need – Access to Affordable Housing

The inherent nature of homelessness dictates that the solution is to increase access to affordable housing. Based on the current federal minimum wage of \$5.15 per hour, a household earning a single minimum wage can pay not more than \$247 per month for rent, before the household becomes cost burdened. At \$412 per month for rent, the household becomes extremely cost burdened. Within the Atlanta MSA, the 2005 fair market rent for a two-bedroom unit is \$928.

In Georgia, 32.5% of households rent whereas 67% own homes. According to the National Low Income Housing Coalition, [68.5%](#) of extremely low-income renter households in Georgia are cost burdened, and 53.4% of Georgia’s extremely low income renter households are severely cost burdened.

Safety must also be considered in order to eliminate homelessness. Most housing available at a cost low enough to be affordable is found in neighborhoods distressed by violence and crime. Homeless clients have been reported to prefer staying in shelters rather than living in areas where they or their children may be in danger.

Additional programs and incentives are needed in order to disperse affordable housing opportunities to Georgia’s low-income families and individuals. More efforts are also needed to prevent new households from becoming homeless and to assist the existing homeless population in securing permanent housing.

Summary

The goals of this Housing Authority address the housing problems identified in the State of Georgia Comprehensive Consolidated Five Year Plan. The Housing Authority will continue to provide housing to low, very low and moderately income families who qualify for the housing programs to the fullest extent possible within the budget restraints imposed on the Housing Authority.

Violence Against Women Act

On January 5, 2006, President Bush signed the Violence Against Women Act into law as Public Law 109-162. Section 603 of the law amends Section 5 A of the U. S. Housing Act ((42 U.S.C. 1437c-1) to require five year and annual Agency Plans contain information regarding any goals, activities, objectives, policies or programs intended to support or assist victims of domestic violence, dating violence, sexual assault or stalking.

Sections 606 and 607 amend the Section 8 and public housing sections of the U. S. Housing Act (42 U.S.C. 1437f and 1437d) to protect certain victim of criminal domestic violence, dating violence, sexual assault or stalking – as well as members of the victims’ immediate families – from losing HUD-assisted housing as a consequence of the abuse of which they were the victim.

Based on the statutory requirements, the PHA provides each public housing participant with a brochure advising what to do should they become victims of the Violence Against Women Act. This brochure is also provided to new admissions to the public housing program. The PHA will comply with the requirements of the Violence Against Women Act by assisting such applicants and/or participants who also meet the definition of a “family,” are income eligible, have at least one family member who is a U. S. citizen or has eligible immigration status, pass criminal background screening, have no outstanding debt to the PHA and meet all other local PHA screening criteria.

In addition, the West Georgia Consortium staff, as managing agents, will respond immediately to any reports of domestic violence from their tenants. The local law enforcement will be called, as well as our own Security Officer. On staff is a licensed social worker whose main duty is Tenant Services Coordinator, they will work closely with the tenant and their family to find suitable alternative shelter or other safe house and provide follow-up counseling as needed. Our main objective is to prevent the family from experiencing any further harm. We also work closely with the Program Coordinator of the Victim Witness Assistance Program as part of the District Attorney’s office, one of their goals is to aid families who suffer from domestic violence.
