The HACG has an updated Admissions and Continued Occupancy Policy, Dwelling Lease, and Grievance procedures to comply with all QHWRA requirements. The HACG has established a minimum rent of \$25.00 and elected to recognize its flat and ceiling rents as synonymous and chosen to select the local Fair Market Rents (FMR) to determine the dollar value of same.

The HACG has conducted a physical needs assessment to determine its modernization requirements and has developed an Annual and 5-year Action Plan to address its Capital Improvements.

PHA Policy 3.A.(6)

Section from A&O Policy - C6.0 Deconcentration and Income Mixing:

1. Objective

The Housing Authority of the County of Greene (HACG) shall make every effort possible to provide for deconcentration of poverty and income mixing in its communities by bringing higher income residents into lower income developments and lower income residents into higher income developments.

To this extent the HACG shall insure that not less than forty percent (40%) of all new admissions shall be families whose income at the time of their admission does not exceed thirty percent (30%) of the area's median income.

The HACG does not intend to utilize and/or impose any specific income or racial quotas nor will the HACG offer incentives for eligible families to occupy units in developments predominately occupied by families having either lower or higher incomes.

2. HACG Deconcentration Policy

It is the policy of the Housing Authority of the County of Greene (HACG) to house families in a manner that will prevent a concentration of poverty families and/or concentration of higher income families in any one development. The specific objective of the HACG is to house no less than 40% of its inventory with families that have income at or below 30% of the area median income by public housing development. Also the HACG will take actions to insure that no individual development has a concentration of higher income families in one or more of the developments. To insure that the HACG does not concentrate families with higher income levels, it is the goal of the HACG not to house more than 60% of its units in any one development with families whose income exceeds 30% of the area median income. The HACG will track the status of family income, by development, on a regular basis by utilizing income reports generated by the HACG.

To accomplish the deconcentration goals the HACG will take the following actions:

A. At the beginning of each fiscal year, the HACG will establish a goal for housing 40% of its new admissions with families whose incomes are at or below the area median income. The annual goal will be calculated by taking 40% of the total number of move-ins from the previous fiscal year.

B. To accomplish the goals of:

1. Housing not less than 40% of its inventory on an annual basis with families that have incomes at or below 30% of area median income, and,

2. Not housing families with incomes that exceed 30% of the area median income in developments that have 60% or more of the total household living in the development with incomes that exceed 30% of the area median income, the HACG's Tenant Selection and Assignment Plan, which is a part of this policy, provides for the utilization of local preferences with regards to applicant selection from its waiting list.

ANNUAL PLAN, JANUARY 1, 2008 DECEMBER 31, 2008

PHA PLANS COMPONENT 10(B), VOLUNTARY CONVERSION
REQUIRED INITIAL ASSESSMENT. – OCTOBER 1, 2001

The Housing Authority of the County of Greene has reviewed each covered development contained in its inventory in accordance with 972.200(b) and has concluded the following:

PA-045-001-Scattered Sites; PA-045-002-Wayne Village; PA-045-004-Grandview Drive

The conversion of these developments would be inappropriate because removal of the developments would not meet the necessary conditions for voluntary conversion described at 972.200(c).

- a. Three (3) of the developments in Authority inventory are subject to the Required Initial Assessments
- b. Two (2) of the developments in Authority inventory are exempt from the Required Initial Assessments
- c. The Housing Authority of the County of Greene certifies that it has reviewed each development's operations as public housing and considered the implications of converting the public housing to tenant-based assistance. The PHA has considered factors such as overall cost (PILOT, Maintenance costs, remodeling, accrual, insurance, relocation, demolition), vacancy rate, location of units, PFS, etc. in making this determination. Also, local factors such as rural population scattered in large areas, a large percentage of population relying on public assistance, SSI, and SS as sole income, poor availability of decent, safe, and sanitary housing through private landlords, etc., were all determining elements in the PHA final analysis. The Housing Authority also operates a total of 290 public housing units that include both covered and exempt developments.
- d. No PHA developments have been determined to be appropriate for conversion based on the Required Initial Assessments.
- e. Required Initial Assessments have been completed.

**STATEMENT OF PROGRESS
MEETING THE FIVE-YEAR POLICY
MISSION AND GOALS**

The goal of the Housing Authority of the County of Greene (PHA) through this next five year period is to work to continue to improve the quality of life for its housing residents through our PHA and in working closely with local organizations.

The PHA had been involved in a research program supporting a grant through a local college seeking data pertaining to the existing problems surrounding housing issues in our area. Review of relevant government documents and analysis of housing affordability assist in obtaining a positive policy direction for opportunities for the State to further it's working partnership with PHAs to maximize federal resources.

Our housing communities continue to be enhanced with each capital improvement. This is our continued goal to meet the needs and requests of residents and to raise our resident survey scores.

We have instituted more frequent site inspections. Through this action, among others, we strive to offer developments that are decent, safe and sanitary.

We have been supportive in developing policies that offer housing participants a chance to improve their quality of life, to gain economic stability, to move into productive community activities and obtain homeownership.

To further improve our customer service operation-from administration to maintenance-we have established a comprehensive plan which is committed to resident satisfaction. It focuses on enhancing communication between residents and the PHA while meeting HUD requirements and local community needs.
