5.1 Mission. State the PHA's Mission for serving the needs of low-income, very low-income, and extremely low income families in the PHA's jurisdiction for the next five years:

All Hoosiers should have the opportunity to live in safe, decent, affordable housing in economically stable communities. IHCD helps build strong communities by providing financial resources and assistance to qualified partners throughout the State of Indiana in their development efforts. A primary focus of IHCD is providing a continuum of housing from homelessness to homeownership, with a focus on low to moderate income Hoosiers.

5.2 Goals and Objectives. Identify the PHA's quantifiable goals and objectives that will enable the PHA to serve the needs of low-income and very low-income, and extremely low-income families for the next five years. Include a report on the progress the PHA has made in meeting the goals and objectives described in the previous 5-Year Plan

IHCD will make every effort to expand and improve housing opportunities by applying for additional rental vouchers and leveraging private and public funds to create additional housing opportunities. The concentration will be a gamut of family circumstances from homelessness to homeownership and from extremely low to moderate income families. IHCD will pursue opportunities for Family Unification Program (FUP) with an emphasis in children aging out of foster care, Mainstream focusing on persons with disabilities, Home ownership, financial literacy, Family Self Sufficiency, Project base with an emphasis on permanent supportive housing with an emphasis on permanent supportive housing and the families experiencing long-term homelessness, as well as other opportunities. All opportunities will be sought with affirmative measures to ensure fair housing for all and accessible housing for persons with disabilities. IHCD will further develop voucher management by sustaining the designation of high performer while determinedly improving the administration and compliance in admissions, occupancy, unit inspections, informal reviews/hearings, abatements and terminations.

9.0 Housing Needs. Based on information provided by the applicable Consolidated Plan, information provided by HUD, and other generally available data, make a reasonable effort to identify the housing needs of the low-income, very low-income, and extremely low-income families who reside in the jurisdiction served by the PHA, including elderly families, families with disabilities, and households of various races and ethnic groups, and other families who are on the public housing and Section 8 tenant-based assistance waiting lists. The identification of housing needs must address issues of affordability, supply, quality, accessibility, size of units, and location.

Of the State of Indiana's total population of persons living in poverty in 2007, 67 percent were White, 16 percent were Black/African American, 8 percent were Hispanic/Latino and 2 percent were Two or More Races. This compares to the general population distribution of 88 percent White, 9 percent Black/African American, 5 percent Hispanic/Latino and 1 percent Two or More Races. Therefore, the State's Black/African American and Hispanic/Latino populations are disproportionately more likely to be living in poverty. In addition, 19.9 percent of persons with disabilities, or 178,189 persons, lived below the poverty level in 2007.

The 2007 ACS estimates that almost 42 percent of Indiana renters – or 292,100 – paid more than 30 percent of household income for gross rent, with over half of these (21 percent of renters, or 147,700) renters paying more than 50 percent of their incomes. Rentals constituted

only 28 percent of the State's occupied housing units in 2007; however, a much higher percentage of the State's renters were cost burdened (42 percent) than the State's owners (22 percent). According to the National Low-Income Housing Coalition, extremely low-income households in Indiana (earning \$17,609, or 30% of Indiana's median income of \$58,695) can afford monthly rent of no more than \$440, while HUD Fair Market Rent for a two-bedroom unit in the state is \$674. For single-earner families at the minimum wage to be able to pay this amount per month, they would need to work 89 hours a week. Moreover, incomes in Indiana are not keeping pace with prevailing rents, particularly in rural areas; from 2000 to 2008, Indiana's non-metro areas' annual median income increased by 14.8 percent, while fair market rent increased 26 percent.

With regard to housing quality, Indiana's 2009 Consolidated Plan cites 2000 census data to demonstrate that lower-income households are more likely than higher income households to experience housing unit problems, including a lack of complete plumbing or kitchen facilities, overcrowding (more than 1.01 persons per room), or cost burden (paying more than 30% of their income for rent). These problems affect homeowners and tenants alike: homeowners earning less than 30% of state median income at the time were about 237% more likely to experience housing problems than homeowners earning 80% AMI, while very low-income renters were 295% more likely to experience housing problems than their moderate-income counterparts.

These problems are only more urgent for special-needs populations in Indiana, as follows (information from the 2009 Consolidated Plan amendment):

Youth aging out of foster care: Of 787 youth aging out of foster care in the most recent year surveyed, 315, or 40 percent, will end up homeless.

Elderly: About 19 percent of seniors in Indiana are cost-burdened, while 20 percent reside in dwellings that either are substandard or have condition problems.

Persons with developmental disabilities: Indiana is unable to meet the housing needs of 7,000 of the roughly 71,000 persons with developmental disabilities in the state.

Persons with HIV/AIDS: Of the 7,588 persons with HIV/AIDS, 30 to 50 percent are at-risk of homelessness at any given time.

9.1 Strategy for Addressing Housing Needs. Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list in the upcoming year. Note: Small, Section 8 only, and High Performing PHAs complete only for Annual Plan submission with the 5-Year Plan.

IHCDA will continue the highly successful portions of its efforts, including:

- Leveraging private and other public funds to create additional housing opportunities: For example, IHCDA has applied for funding through the Family Unification Program to allow us to better serve a population with particularly complex challenges. In addition, IHCDA, which also acts as the state housing finance authority for Indiana, prioritizes projects which create communities of opportunity; the HCVP is actively marketed to these projects.

- Improving the management of assisted housing: For example, IHCD is currently working with Roeing Consulting Group Inc., an IT consulting firm, to improve its internal management processes across all components of the organization. We are also working to implement software system to improve our tracking systems and client management. As a result, we anticipate improvements in customer satisfaction over the next year.
- Improve our efforts in Permanent Supportive Housing: In February of 2008, the Indiana Housing and Community Development Authority rolled out the Indiana Permanent Supportive Housing Institute ("IPSHI" or "the Institute"), shifting the emphasis of the state's system away from reactive policies designed to ameliorate the effects of homelessness and toward policies designed (and empirically demonstrated) to mitigate its causes. At the same time, IHCD sought to employ Continuum resources in manners supported both by empirical research and sound public policy. Strategically, IPSHI is designed to: (1) Extend the reach of supportive housing to new communities; (2) Increase the capacity and number of non profits providing supportive housing at the local level; (3) Improve the connection between behavioral health services and housing systems; (4) Reduce the number of individuals and families who are chronically homeless; and (5) Improve the quality and cost-effectiveness of the homelessness delivery system. In 2009, IHCD's efforts in this regard were recognized through NCSHA's Innovations Award for permanent supportive housing. HCVP forms a critical component of our efforts to meet the needs of households facing the greatest challenges to self-sufficiency.
- Coordinating with other PHAs and other partners to ensure coordination: Through our participation in the Consolidated Planning process, we ensure that our efforts are part of the state's broader community development strategies. Moreover, we have worked over the last three years to coordinate our efforts with other PHAs throughout the state.

In addition, IHCD will take the following new steps to complement our current efforts:

Re-launch the Family Self-Sufficiency Program and related efforts to improve resident self-sufficiency: IHCD will work with high-performing HCVP Administrators to re-establish our FSS efforts, allowing more HCVP participants to secure critical resources to improve their self-sufficiency. At the same time, we are working to adopt policies that support and encourage heads of households who decide to return to work.

Lastly, IHCD has missioned itself to also focus on "Aging in Place" promoting the freedom to live out one's life without the confines of facility restrictions through sustainable permanent, independent, and affordable living arrangement. To accomplish this mission IHCD will:

- pursue additional mainstream vouchers,
- leverage IHCD and external funding streams,
- identify community based and tax credit projects as housing options,
- identify wrap around services needed to sustain independent living, and
- engage existing and prospective partners with shared objectives and customers.

10.0 Additional Information. Describe the following, as well as any additional information HUD has requested.

(a) Progress in Meeting Mission and Goals. Provide a brief statement of the PHA's progress in meeting the mission and goals described in the 5-Year Plan.

- IHADA is in the project basing 110 vouchers with supportive housing developments aimed at reducing long-term homelessness.
- In 2010, IHADA is working with the Individual Development Account program to further develop the Family Self Sufficiency and Homeownership program,
- IHADA has applied for 100 Family Unification Program vouchers targeting youth leaving foster care
- Voucher mobility an choice is being promoted through web based housing locator programs
- Improved SEMAP and program management is being achieved through the implementation of the:
 - web-based Go 8 Rent Reasonableness program and
 - an enhanced quality control program.

(b) Significant Amendment and Substantial Deviation/Modification. Provide the PHA's definition of "significant amendment" and "substantial deviation/modification"

A. Significant Amendment or Substantial Deviation/Modification exists if one of the following conditions exists:

1. Contracts for items or services that were approved in the annual budget, as long as the annual amount is greater than \$100,000, the amount of the contract is within the amount budgeted, and the contractor is selected in accordance with the Authority's procurement policy;
2. Amendments to the amounts of existing contracts or grant agreements in amounts are greater than 10%;
3. Changes to program guides, administrative plans, or procedure manuals that are necessary to comply with State or Federal regulations, guidance, notices, information memoranda, or to clarify existing policies.
