9.0	<p>Housing Needs. Based on information provided by the applicable Consolidated Plan, information provided by HUD, and other generally available data, make a reasonable effort to identify the housing needs of the low-income, very low-income, and extremely low-income families who reside in the jurisdiction served by the PHA, including elderly families, families with disabilities, and households of various races and ethnic groups, and other families who are on the public housing and Section 8 tenant-based assistance waiting lists. The identification of housing needs must address issues of affordability, supply, quality, accessibility, size of units, and location.</p> <p>Rental Housing needs for extremely low income (0-30% MFI Medium Family Income) Renters: <i>Of the 57,176 occupied rental units in the jurisdiction, 28%, or 16,190 units, are occupied by extremely low income households. Due to the limited financial resources of these households, they are more likely than all other households to be experiencing housing problems. Elderly, one and two member households occupy 4,991 renter units in the jurisdiction; 8.7% of all renter units. Of the 4,991 elderly, one and two member households, 1,799 of them are in the extremely low income range. A large percentage of them have housing problems and cost burdens. This income range also includes 5,541 households of the total small (one and two member) renter households in the jurisdiction. There are 4,761 large related renter household; of the 1,376 are in this lowest income range. Previously the large related renter households in this lowest income range had the worst problem of all categories with overcrowding; 63.9% of the renters in this category live in overcrowded units. All households in the extremely low income range have a high percentage of housing problems. The percentages of housing problems of all minority renter households in this income range is 68.1%, noticeably less than the percentage for all extremely low income renter household which is 74.3%. In terms of racial and ethnic groups, 73.1% of the black non-Hispanic headed households have housing problems, and 77.6% of the Hispanic headed households have housing problems in the lowest income range of renters. Although the percentage of housing problems and cost burdens for minority renter households are nearly the same as for all households, a disproportionate percentage of black non Hispanic households are in the extremely low income range compared to the percentage of all households in this range. Low Income (31-50%) Renters: Low income renter households occupy 10,234 of the total occupied rental units in the jurisdiction. The statistics indicate critical needs in this category as 72.8% of those in the Low Income group are still having housing problems. Fewer of the elderly, one and two member renter households are in the low income range but many of the low income elderly one and two member renter households are still having housing problems with cost burden over 30% of MFI. The 3,946 small related households in the low income range are a lower percentage of the total small related renter household than those in the extremely low income range, but 68.7% still have housing problems but 464 households have a cost burden over 50% of MFI. There are only 975 large related renter households in the low income range but they have extensive housing needs. Cost burdens over 30% of MFI and locating 3, 4, and 5 bedrooms units for a large family is a problem causing overcrowding conditions. The percentage of minority housing problems in this category is high and the percentage of the non-Hispanic Black households in this category with housing problems is down, the percentage of Hispanic households in this category with housing problems is up. The minority households in this income range have a lower percentage of housing problems than the total households. Minority house holds in this income range have a lower percentage of housing problems than the total households. The percentage of black non-Hispanic households with housing problems is 67% and the percentage of Hispanic households with housing problems is 86%.</i></p> <p>Moderate Income (51-80% MFI) Renters: <i>There are 11,502 moderate income renter households in the jurisdiction or 18.4% of the total rental households. There are many housing needs in the moderate income households nearly 25% of households have a cost burden greater than 30% of MFI, and 2 % have a cost burden greater than 50% MFI. Fewer elderly, one and two member households of the total elderly one and two member households are in the moderate income range. The majority of the elderly one and two member households are in the income ranges below moderate, and 21% area in the middle income range. The 984 households in the moderate income range do have housing needs. The percentage of them with housing problems is 35% and the percentage with a cost burden grater than 30% of MFI is 34%. Their percentage of cost burden greater than 50% of MFI is 16%. The small related renter households is about ¼ of the total moderate income level. There are 4,437 moderate income small related households or 20% of the total small related renter households. The percentage with housing problems is 25% and the percentage with a cost burden greater than 30% of MFI is 16%. Only 1% have cost burdens greater than 50% of MFI. There are 987 large related renter households in the moderate income range 21% of all large related renter households. The majority of these households (57%) have housing problems, but only 8% have a cost burden of 30% of MFI and 0% have a cost burden greater than 50%. In the moderate income range, the minority renter households have a lower incidence of housing problem than the total renter households. Whereas the percentage of minority renter households experiencing housing problems is 28% the percentage of all renter households experiencing housing problems is 33%. Of the minority households 28% of the Black non-Hispanic moderate income renter households have housing problems, 44% of the Hispanic moderate income renter households have housing problems. The percentage of White households in the moderate range with housing problems is 38%. The percentage of Hispanic households with housing problems is high in this category, but the total percentage of Hispanic renter households in the jurisdiction is only 2%. The housing problems are directly related to income levels is evidenced by the fact that where the incidence of housing problems of total households to minority households is proportionate, the income distribution I proportionate. The percentage of total renter households in the moderate income range is 20%. The percentage of Black Non-Hispanic renter households in the moderate income range is 20%. The percentage of those with housing problems is 12% for Black non-Hispanic households while for all households the percentage with housing problems is 33% and among White Non-Hispanic households the percentage with housing problems is 38%.</i></p>

Acting on behalf of the Board of Commissioners of the Public Housing Agency (PHA) listed below, as its Chairman or other authorized PHA official if there is no Board of Commissioners, I approve the submission of the X 5-Year and/or X Annual PHA Plan for the PHA fiscal year beginning 2010, hereinafter referred to as "the Plan", of which this document is a part and make the following certifications and agreements with the Department of Housing and Urban Development (HUD) in connection with the submission of the Plan and implementation thereof:

1. The Plan is consistent with the applicable comprehensive housing affordability strategy (or any plan incorporating such strategy) for the jurisdiction in which the PHA is located.
2. The Plan contains a certification by the appropriate State or local officials that the Plan is consistent with the applicable Consolidated Plan, which includes a certification that requires the preparation of an Analysis of Impediments to Fair Housing Choice, for the PHA's jurisdiction and a description of the manner in which the PHA Plan is consistent with the applicable Consolidated Plan.
3. The PHA certifies that there has been no change, significant or otherwise, to the Capital Fund Program (and Capital Fund Program/Replacement Housing Factor) Annual Statement(s), since submission of its last approved Annual Plan. 8. For PHA Plan that includes a policy for site based waiting lists:
 - The PHA regularly submits required data to HUD's 50058 PIC/IMS Module in an accurate, complete and timely manner (as specified in PIH Notice 2006-24);
 - The system of site-based waiting lists provides for full disclosure to each applicant in the selection of the development in which to reside, including basic information about available sites; and an estimate of the period of time the applicant would likely have to wait to be admitted to units of different sizes and types at each site;
 - Adoption of site-based waiting list would not violate any court order or settlement agreement or be inconsistent with a pending complaint brought by HUD;
 - The PHA shall take reasonable measures to assure that such waiting list is consistent with affirmatively furthering fair housing;
 - The PHA provides for review of its site-based waiting list policy to determine if it is consistent with civil rights laws and certifications, as specified in 24 CFR part 903.7(c)(1).
