PROGRESS REPORT

The Pike Metropolitan Housing Authority has met or exceeded many of its goals established in its first five-year plan.

One of the goals was to manage PMHA’s existing public housing program in an efficient and effective manner thereby qualifying as at least a standard performer. PMHA has been rated as a High Performer the last six (6) consecutive years. PMHA scored 95 on the 2006 PHAS that was released on September 28, 2007.

PMHA sought to reduce crime in its developments to a level not to exceed surrounding communities. PMHA has been very aggressive in screening applicants, and is dealing with on-going criminal activity. Despite the intervention of the Piketon Police Department, PMHA’s public housing developments continue to have significant crime and drug problems. PMHA has contracted for additional police patrols to combat these problems.

PMHA sought to extend the range of housing choices available to participants. PMHA has increased the number of vouchers available in our jurisdiction from 423 to 525, a 24% increase. PMHA has consistently expended in excess of 98% of available HAP funding, and has maintained High Performer status despite the many challenges and changes in the Housing Choice Voucher Program. PMHA scored 140 points for the SEMAP assessment for the fiscal year ending December 31, 2008.

Other housing choices made possible by PMHA include:

- PMHA partnered with Buckeye Community Hope Foundation to construct a thirty-two (32) unit senior housing project in Waverly, Ohio known as Beverly Senior Housing. The State of Ohio awarded tax credits for this project as of July 1, 2004. Lease-up began December 1, 2006, and all 32 units are currently under lease.
- PMHA partnered with the Paint Valley Alcohol, Drug Addiction, & Mental Health Services Board (ADAMH) to construct four (4) housing units for individuals suffering from chronic mental health problems. These houses have been occupied since November 1, 2004.
- PMHA is partnering with the Pike County Board of MR/DD, and now maintains ten (10) houses occupied by MR/DD residents. PMHA currently constructed a new handicapped accessible unit that was occupied as of January 1, 2005.

PMHA feels these activities have greatly increased the housing choices available to low-income residents of Pike County.

PMHA has consistently operated in a fiscally responsible manner, and PMHA’s most recent audit for the year ending December 31, 2008, indicates that there are no findings or management concerns.

2. Rights and Responsibilities of PHAs, Owners and Managers. The VAWA 2005 amendments, as recently amended by the technical corrections statute, and as applicable to public housing leases, provide that:
 - a. Notwithstanding the restrictions that VAWA 2005 places on admission, occupancy, and termination of occupancy or assistance, as discussed in paragraph 1, or any federal, state, or local law to the contrary, a PHA, owner or manager may “bifurcate” a lease under this section, or remove a household member from a lease under this section, without regard to whether a household member is a signatory to the lease, in order to evict, remove, terminate occupancy rights, or terminate assistance to any individual who is a tenant or lawful occupant and who engages in criminal acts of physical violence against family members or others, without evicting, removing, terminating assistance to, or otherwise penalizing the victim of such violence who is also a tenant or lawful occupant, and such eviction, removal, termination of occupancy rights, or termination of assistance shall be effected in accordance with the procedures prescribed by federal, state, and local law for the termination of leases or assistance under the relevant program of HUD-assisted housing. VAWA 2005 also provides that the restrictions the law places on admission, occupancy, and termination of occupancy or assistance:

- i. May not be construed to limit a PHA, owner or manager from honoring various court orders issued to either protect the victim or address the distribution of property in case a family breaks up;
 - ii. Does not limit any otherwise available authority of a PHA, owner, or manager to terminate assistance or evict due to any lease violation not premised on the act of violence in question against the tenant or member of the tenant’s household, provided that the owner or manager does not subject an individual who is or has been a victim of domestic violence, dating violence, or stalking to a more demanding standard than other tenants in determining whether to evict or terminate assistance;
 - iii. May not be construed to limit the authority of a PHA, owner or manager to terminate the assistance of, or evict, any occupant who can be demonstrated to pose an actual or imminent threat to other tenants or the property’s employees; and
 - iv. Shall not be construed to supersede any provisions of federal, state, or local laws that provide greater protection for victims of abuse.
3. Certification of Abuse and Confidentiality. Sections 606 and 607 of VAWA 2005, and as recently amended by the technical corrections statute, add certifications and confidentiality provisions that allow for a PHA, owner, or manager to request an individual to certify that the individual is a victim of abuse and that the incidences of abuse are bona fide. The certification must include the name of the perpetrator, and any other statutorily required information, and the victim must provide the certification within 14 business days after the individual receives a request for such certification from the PHA, owner or manager. Without the certification, a PHA, owner or manager may terminate assistance. All information provided to a PHA, owner or manager is confidential. Notice of these rights must be given to tenants. The statute allows for the victim to self-certify and also allows for the certification requirements to be satisfied with documentation signed by an employee, agent or volunteer of a victim service provider, an attorney, or a medical professional from whom the victim has sought assistance in addressing domestic violence, dating violence, or stalking or the effects of abuse in which the professional attests under penalty of perjury (28 U.S.C. 1746) to the professional’s belief that the incident or incidents in question are bona fide incidents of abuse, and the victim of domestic violence, dating violence, or stalking has signed or attested to the documentation. The statute also allows for the certification requirement to be satisfied by producing a federal, state, tribal, territorial, or local police or court record.
4. Definitions Added to U.S. Housing Act of 1937. Section 606(3) and section 607(5) of VAWA 2005, and as recently amended by the technical corrections statute, also amend section 8(f) and section 6(d) of the U.S. Housing Act of 1937 to provide important definitions of terms, most notably:
 - a. A definition of “domestic violence” (42 U.S.C. 1437f(f)(8) and 42 U.S.C. 436d(u)(3)(A)), which is given the same meaning as this term is defined in section 40002of the Violence Against Women Act of 1994 (VAWA 1994) as added by VAWA 2005. VAWA 2005 defines “domestic violence” to include “felony or misdemeanor crimes of violence committed by a current or former spouse of the victim, by a person with whom the victim

shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving grant monies, or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction”;

- b. A definition of “dating violence” (42 U.S.C. 1473f(f)(9) and 42 U.S.C. 1436d(u)(3)(B)), which is given the same meaning as this term as defined in section 40002 of VAWA 1994, as added by VAWA 2005. VAWA 2005 defines “dating violence” to mean “violence committed by a person (A) who is or has been in a social relationship of a romantic or intimate nature with the victim; and (B) where the existence of such a relationship shall be determined based on a consideration of the following factors: (i) The length of the relationship; (ii) the type of relationship; and (iii) the frequency of interaction between the persons involved in the relationship.”
- c. A definition of “stalking” (42 U.S.C. 1437f(f)(10) and 42 U.S.C. 14736d(u)(3)(C)), that differs from the meaning of this term as defined in section 40002 of VAWA 1994, as added by VAWA 2005. The definition that is applicable to HUD’s public housing and section 8 assisted programs is a more detailed definition than that provided in section 40002 of VAWA 1994, as amended by VAWA 2005. For HUD covered programs, the definition of “stalking” is defined as follows. “Stalking” means (A)(i) to follow, pursue, or repeatedly commit acts with the intent to kill, injure, harass, or intimidate another person; or (ii) to place under surveillance with the intent to kill, injure, harass, or intimidate another person; and (B) in the course of, or as a result of, such following, pursuit, surveillance, or repeatedly committed acts, to place a person in reasonable fear of the death of, or serious bodily injury to, or to cause substantial emotional harm to (i) that person; (ii) a member of the immediate family of that person; (iii) the spouse or intimate partner of that person.” And
- d. A definition of “immediate family member” (42 U.S.C. 1437f(f)(11) and 1437d(u)(3)(D)). “Immediate family member” is defined to mean, “with respect to a person (A) a spouse, parent, brother or sister, or child of that person, or an individual to whom that person stands in loco parentis; or (B) any other person living in the household of that person and related to that person by blood or marriage.”

RESIDENT COMMENTS

A total number of 92 residents were to be surveyed during the survey process, of the 92 resident's, only 80 were available to complete a survey resulting in 88% of the residents being surveyed. The Annual Plan Survey consisted of 17 questions. Residents were asked to complete the survey by answering, and commenting where it was appropriate on each survey.
