Project Type: Non-dwelling site improvements

% of Project Complete: 98 **Expected Project End Date:** 2011-09-30 00:0

Project Description: Scope of work performed remove several of the the existing retainer walls and construct a 6" sewer trunk line. The current trunk lines have collapse in several areas due to constructed with soft plastic PVC. New trunk line will be Schedule 40 sewer pipe. Rebuild parking areas with slight slope - existing tenants unable to utilize as vehicles bottom out due to high degree of incline. Correct erosion issues. Majority of units have exposed areas below base of foundation. Remove and rebuild steps. Install required handrails according to code. Existing steps were tripping hazard which includes cracks and broken concrete. Install safety fence above retainer walls over 36" as a protective barrier. Construct 2 catch basins to divert overflow of drainage. Overlay existing street. All work will be performed at LA111-002 - AMP LA111071446
