Project Description: Installation of Closed Circuit Television Systems in two (2) hi-rise facilities. The systems are being installed in the Metropolitan, a seven (7) story elderly hi-rise facility, and Grand a (9) story elderly hi-rise facility. Installation includes on and off site monitoring equipment. The contract is to install the circuitry, hardware, and devices to construct a complete Closed Circuit Television system that can be monitored both locally and remotely. Additionally, concrete work and miscellaneous asphalt repairs are being performed at eleven sites under this Asset Management Project. Those sites are as follows: Grand (95 units), Metropolitan (78 units), Hallmark/Meridien (75 units), Traingleview (50 units), Short Helena (14 units), Bruce (8 units), Hudson/Cherry (8 units), Redwood (8 units), Niagara (4 units), Theodore (4 units), and Norman (4 units).
