HUD's Response to Request For 1999 Unit Count Correction

PHA proposed unit count matches the sum of the current number of standing units plus the number of units designated as non-dwelling plus the number of units designated as removed from inventory therefore it makes sense to accept revised unit count.

HUD's Response to Request For 1999 Unit Count Correction

PHA proposed unit count matches the sum of the current number of standing units plus the number of units designated as non-dwelling plus the number of units designated as removed from inventory therefore it makes sense to accept revised unit count.
