

## Reporting Due Date Extended

Multifamily Housing's Office of Asset Management has extended the due date for both audited and owner certified electronic submissions for program participants with fiscal year ends of 12/31/2001. This one time extension of 30 days provides additional time to participants to adjust to changes contained in FASSUB 4.0 issued on 2/22/2002. The new due date for this group of participants is April 30, 2002. Further, the extension also applies to deposits to residual receipts for these participants.

For those nonprofit participants with fiscal year ends of 12/31/2001, this extension does not affect the nine-month requirement for the audited submission. Those participants with other fiscal year end dates are still required to complete audited or owner certified submissions within 90 days after the close of their respective fiscal year.
