Introduction

The Real Estate Assessment Center (REAC) is a U.S. Department of Housing and Urban Development (HUD) national management center created to centralize and standardize the way HUD monitors and evaluates the physical condition, as well as the financial condition of HUD properties. This includes over 3,000 Public Housing Agencies (PHA) and over 30,000 Federal Housing Administration (FHA) multifamily insured, direct loan, HUD-held, and Section 8 project-based subsidized properties.

The Physical Assessment Subsystem (PASS) is a Web-based subsystem developed by REAC to monitor the physical condition of HUD properties based on on-site physical inspections. One component of PASS is Scheduling, where inspection schedules are managed.

Objectives

The purpose of PASS Servicing Mortgagee Scheduling is to provide Servicing Mortgagees with a tool to effectively manage physical inspection scheduling details.

Servicing Mortgagees have access to property and scheduling information within their own organization. Servicing Mortgagees can search for inspection schedules, based on specified criteria (e.g., city, dates, etc.), and can modify basic property information. As a Servicing Mortgagee, they will select HUD REAC certified inspectors to work for their organization. From those inspectors they can select one or more to be Master Schedulers for their organization. The Master Scheduler is responsible for scheduling the organization's inspections to Independent Inspectors. Not all of the properties have to be scheduled by the Master Scheduler. The Servicing Mortgagee can schedule inspections as well.

The Servicing Mortgagee and Master Scheduler can download information (inspection schedules) edit that information, and send the updated information directly to REAC's database using the Bulk Upload Process.

Accessing Servicing Mortgagee Scheduling

Security

PASS Servicing Mortgagee Scheduling is a secure, Web-based system containing sensitive public housing information. A HUD-issued user ID is required to access PASS Servicing Mortgagee Scheduling. Authorized Master Scheduler only have access to inspection scheduling information for properties associated with their FHA number.

Authorized users for PASS Servicing Mortgagee Scheduling includes:

- Servicing Mortgagees
- HUD REAC certified inspectors responsible for scheduling inspections (Master Schedulers), and conducting on-site physical inspections (Independent Inspectors) at HUD properties
- HUD REAC personnel responsible for monitoring HUD properties

Authorized User Login

To access PASS Servicing Mortgagee Scheduling, a user must log in using their HUD-issued user ID (e.g., M11111).

To log in to PASS Servicing Mortgagee Scheduling:

1. Open the Internet browser (e.g., Netscape). The example shown is the **Yahoo** main screen.

2. Enter the following URL address in the *Location* field:
www.hud.gov/offices/reac/index.cfm

The Real Estate Assessment Center (REAC) home page displays (next page).

8. Click on the  button. The **Secure Systems** screen displays.

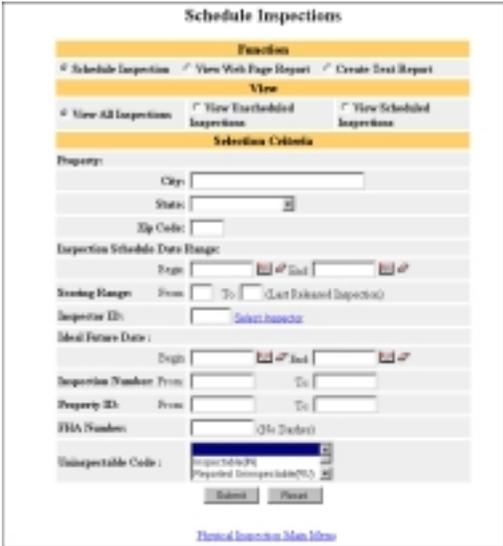

9. Click on the Physical Assessment Subsystem (PASS) link. The **Physical Inspection Main Menu** screen displays.

10. Click on the Schedule/View Inspections link. One of three screens displays if the Master Scheduler works for more than one Servicing Mortgagee and/or contractor organization as shown on pages 7-8.

NOTE: Master Schedulers can only access those properties that are assigned to the Master Scheduler.

<h2>Master Scheduler</h2>	
If you are the....	Schedule Inspections Query Screen Displays
<p>Master Scheduler for only one Servicing Mortgage organization, then the Schedule Inspections query screen displays.</p>	
If you are the....	Servicing Mortgage Inspection Scheduling Screen Displays
<p>Master Scheduler for more than one Servicing Mortgage, then the Servicing Mortgage Inspection Scheduling screen displays.</p> <p>Select the appropriate Servicing Mortgage from the <i>Servicing Mortgage</i> drop-down list.</p> <p>Click on the Inspection Scheduling button, and the Schedule Inspections query screen displays.</p>	

<h2 style="text-align: center;">Master Scheduler</h2>	
If you are the....	Contractor/Servicing Mortgagee Inspection Scheduling Screen Displays
<p>Master Scheduler for a Servicing Mortgagee(s) and Contractor(s), then the Contractor/Servicing Mortgagee Inspection Scheduling screen displays.</p> <p>Select either the Contractor or Servicing Mortgagee organization from the corresponding drop-down list.</p> <p>Click on the Inspection Scheduling button, and the Schedule Inspections query screen displays.</p>	 <p>The screenshot shows a web interface for scheduling inspections. At the top left is a logo with the word 'create' and a computer monitor icon. To its right is the word 'scheduling' in a large, bold, red font. Below this is the title 'Inspection Scheduling' in a smaller black font. There are two dropdown menus: the first is labeled 'Contractor' and the second is labeled 'Servicing Mortgagee'. Below these menus is a grey button labeled 'Inspection Scheduling'.</p>

Schedule/View Inspections

Schedule Inspections Query Screen

The **Schedule Inspections** query screen allows the Master Scheduler to search for specific inspection assignments. Master Schedulers can request to update inspection schedules, view inspection reports or create text reports using this screen. Searches can be narrowed in scope by entering specified criteria such as: *City, State, Zip Code, Inspection Schedule Date Range, Scoring Range, Master Scheduler ID, Inspector ID, Ideal Future Inspection Date, Inspection Number(s), Property ID(s), FHA Number and Uninspectable Code.*

Physical Inspection Main Menu	

Schedule Inspections Query Screen	
Feature	Description
	This function allows the Master Scheduler to schedule or reschedule inspections.
	This function allows the Master Scheduler to view Inspection Schedule Reports for scheduled inspections, unscheduled inspections, or both scheduled and unscheduled inspections.
	This function allows the Master Scheduler to download and update large volumes of data (inspection schedule information) using Microsoft Word. After the data is revised, the data is sent to REAC via the Bulk Upload Process.
	This view option allows the Master Scheduler to view both scheduled and unscheduled inspections.
	This view option allows the Master Scheduler to view unscheduled inspections.
	This view option allows the Master Scheduler to view scheduled inspections.
Select Master Scheduler	The <u>Select Master Scheduler</u> link prompts a pop-up window. The pop-up window displays all HUD REAC certified inspectors selected by the Servicing Mortgagee. Selecting a specific <u>Inspector ID</u> link on the pop-up window closes the window and places the inspector ID of the Master Scheduler in the <i>Master Scheduler ID</i> field.
Select Inspector	The <u>Select Inspector</u> link prompts a pop-up window. The pop-up window displays all HUD REAC certified inspectors selected by the Servicing Mortgagee. Selecting a specific <u>Inspector ID</u> link on the pop-up window, closes the window and places the inspector ID in the <i>Inspector ID</i> field.
	This button initiates the action to locate schedule information based on information entered for the query.

Schedule Inspections Query Screen	
Feature	Description
	This button returns all fields to the original information.
Physical Inspection Main Menu	The Physical Inspection Main Menu link returns the Master Scheduler to the Physical Inspection Main Menu screen where other PASS components can be accessed.

To access the Schedule Inspections query screen:

Click the [Schedule/View Inspections](#) link on the **Physical Inspection Main Menu** screen.

The **Schedule Inspections** query screen displays.

Physical Inspection Main Menu	

Query Fields

The query fields in the Function and View sections of the **Schedule Inspections** query screen are required fields. Master Schedulers must select one option in each section. The system automatically displays as the default, *Schedule Inspection* in the Function section and *View All Inspections* in the View section of the screen.

All the query fields in the Selection Criteria section are optional. To execute a search, Master Schedulers can enter data in all, some, or leave the fields blank. The more information provided in the query search reduces the number of unnecessary results. For example, if you have 100 inspections that need to be scheduled, and if you do not specify specific information about your inspections, the **Inspections Schedule Report** displays all 100 inspections once submitted. However, if you only want to see your inspections in the state of Virginia, then select Virginia in the *State* field, and the **Inspections Schedule Report** displays only those inspections in Virginia.

- The **Function** section determines what Master Schedulers can do with the inspection information by clicking on the appropriate radio button. Master Schedulers have three options:
 - *Schedule Inspection* allows the Master Scheduler to enter or modify schedule information on the **Inspections Schedule Report**.
 - *View Web Screen Report* allows the Master Scheduler to view or print the **Inspections Schedule Report** screen.
 - *Create Text Report* allows the Master Scheduler to download inspection schedule, inspection property, inspection participant and participant role reference information.
- The **View** section allows the Master Scheduler to search for scheduled, unscheduled, or all inspections (scheduled and unscheduled) by clicking on the appropriate radio button.
- The **City** field allows the Master Scheduler to search for inspections by a particular city.
- The **State** field allows the Master Scheduler to search for inspections by states and territories using the drop-down list.
- The **Zip Code** field allows the Master Scheduler to search for inspections by postal zip code.

- The **Inspection Schedule Date Range** allows the Master Scheduler to search for inspection schedules within a range of dates, selecting the *Begin* and *End* dates of the time frame, and by clicking on the calendar  icon.

To use the calendar box:

1. Click on the calendar  icon to view the current month in the calendar box. The current date is highlighted.
2. Select a date by:
 - Click on a date (e.g., 20) to select a date in the current month.
 - To move backward or forward by year, click on the symbols (**l<** or **>l**) once per year.
 - To move backward or forward by month, click on the symbols (**<** or **>**) once per month.
 - Master Schedulers can also use the drop-down arrows to select the month and year from the Month and Year menus. The calendar changes when the month and year are selected and then the Master Scheduler clicks on a specific date within the month.

The calendar box closes once a date is selected, or click on the Close control **X** icon to close the window.

NOTE: If a date is only entered in the Begin field, the query results will list all inspection schedule date ranges equal to or greater than the inspection schedule date entered.

If a date is only entered in the End field, the query results will list all inspection schedule date ranges equal to or less than the inspection schedule date entered.

To generate a search for one inspection schedule date, enter the same date in the Begin and End fields.

- The **Scoring Range** field allows the Master Scheduler to search for inspections by score(s) of the last released inspection.

NOTE: If a score is only entered in the From field, the query results will list all scores equal to or greater than the score entered.

If a score is only entered in the To field, the query results will list all scores equal to or less than the score entered.

To generate a search for one score, enter the same score in the From and To fields.

- The **Master Scheduler ID** field allows the Master Scheduler to search for inspections by using the Master Scheduler's ID number. Enter the Master Scheduler ID number in the field. The Master Scheduler can also click on the [Select Master Scheduler](#) link to view a list of all Inspector ID numbers on the **Inspector List** that have been selected to work for the Servicing Mortgagee. Click on the [Inspector ID](#) link to select a Master Scheduler Inspector. The **Schedule Inspections** screen redispays once an *Inspector ID* is selected from the **Inspector List** screen.

Inspector Id	Inspector Name	Home State	Home City
M00519	Ling Charles	VA	McLean
M00884	Robert Red	VA	Falls Church

NOTE: The **Inspector List** screen contains the Inspector ID numbers of both, Master Schedulers and Independent Inspectors selected by the Servicing Mortgagee. There is no special listing that displays *only* Master Scheduler ID or Independent Inspector ID numbers.

- The **Inspector ID** field allows the Master Scheduler to search for inspections by the Inspector's ID number. Enter the Inspector ID number in the field. Master Schedulers can also click on the [Select Inspector](#) link to view a list of all Inspector ID numbers that have been selected by the Servicing Mortgagee. The **Schedule Inspections** screen displays once an *Inspector ID* is selected from the **Inspector List** screen.

Inspector Id	Inspector Name	Home State	Home City
M00519	Ling Charles	VA	McLean
M00884	Robert Red	VA	Falls Church

NOTE: The **Inspector List** screen contains the Inspector ID numbers of both, Master Schedulers and Independent Inspectors selected by the Servicing Mortgagee. There is no special listing that displays *only* Master Scheduler ID or Independent Inspector ID numbers.

- The **Ideal Future Inspection Date** allows the Master Scheduler to search for inspection schedules with the ideal future inspection date, selecting the *Begin* and *End* dates of the time frame by clicking on the calendar  icon.

To use the calendar box:

1. Click on the calendar  icon to view the current month in the calendar box. The current date is highlighted.

2. Select a date by:

- Click on a date (e.g., 20) to select a date in the current month.
- To move backward or forward by year, click on the symbols (**l<** or **>l**) once per year.
- To move backward or forward by month, click on the symbols (**<** or **>**) once per month.

- Master Scheduler can also use the drop-down arrows to select the month and year from the Month and Year menus. The calendar changes when the month and year are selected and then the Master Scheduler clicks on a specific date within the month.

The calendar box closes once a date is selected, or click on the Close control **X** icon to close the window.

NOTE: If a date is only entered in the Begin field, the query results will list all ideal future inspection dates equal to or greater than the ideal future inspection date entered.

If a date is only entered in the End field, the query results will list all ideal future inspection dates equal to or less than the ideal future inspection date entered

To generate a search for one ideal future inspection date, enter the same date in the Begin and End fields.

- The **Inspection Number** field allows the Master Scheduler to search for inspections by a specific inspection or for a range of inspections.

NOTE: If the inspection number is only entered in the From field, the query results will list all inspection numbers equal to or greater than the inspection number entered.

If the inspection number is only entered in the To field, the query results will list all inspection numbers equal to or less than the inspection number entered.

To generate a search for one inspection number, enter the inspection number in the To and From fields.

- The **Property ID** field allows the Master Scheduler to search for inspections by a specific property ID or for a range of property IDs.

NOTE: If the Property ID number is only entered in the From field, the query results will list all property ID numbers equal to or greater than the property ID number entered.

If the Property ID number is only entered in the To field, the query results will list all property ID numbers equal to or less than the property ID number entered.

To generate a search for one property ID number, enter the property ID number in the To and From fields.

- The **FHA Number** field allows the Master Scheduler to search for inspections by a specific FHA number.
- The **Uninspectable Code** field allows the Master Scheduler to search for inspections by an uninspectable code selected from the drop-down menu.

IN Property is inspectable (default)

RU Property is being reported as uninspectable (inspection can still be scheduled)

The following codes are only assigned by HUD:

VI Property has been verified by HUD as inspectable and is being referred back for inspection (inspection can still be scheduled)

VU Property has been verified as uninspectable (inspection cannot be scheduled). Inspections with the VU code cannot be downloaded to a Data Collection Device (DCD).

Once criteria from the Function, View, and Selection Criteria sections are selected, click on the

Submit

button, and one of the following screens or options displays:

- **Inspections Schedule Report** (to schedule/reschedule inspections) via the *Schedule Inspection* function
- **Inspections Schedule Report** (to view scheduled/unscheduled inspections) via the *View Web Screen Report* function
- **Text Report** via the *Create Text Report* function

Inspections Schedule Report

Once the **Schedule Inspections** query screen is updated and submitted, the **Inspections Schedule Report** displays. The **Inspections Schedule Report** contains basic information on scheduled, unscheduled, or both scheduled and unscheduled inspections based on specified criteria. The Master Scheduler assigns or reassigns inspections to any inspector working for the Servicing Mortgagee.

Those inspectors working for the Servicing Mortgagee can view properties to which they have been assigned and modify their inspection schedules.

To ensure the integrity of the data, any modifications to the inspection schedule or property information should be made prior to the download of the inspection.

Inspections Schedule Report

5 Record(s) Found
All Inspections

To schedule an inspection, enter the Inspector's ID, Inspection Date and the Local Time.

You can either enter the Inspector ID into each entry field in the grid, in the following entry box and check all records on the grid that you want to put this ID in, or you can simply enter the Inspector ID in the following entry box and check and click "Apply All" to apply to all the records on this page only. You must click "Update" in order to send your changes to the database.

[Physical Inspection Main Menu](#)

NOTE: Use the scroll bar to view all the columns, if necessary.

Inspections Schedule Report	
Feature	Description
	<p>Enter the Inspector's ID number in the blank field if known. If not, click on the <u>Select Inspector</u> link. The <u>Select Inspector</u> link prompts a pop-up window. The pop-up window displays all HUD REAC certified inspectors selected by the Servicing Mortgagee.</p> <p>Selecting a specific <u>Inspector ID</u> link on the pop-up window, closes the pop-up window and places the inspector ID in the <i>Select Inspector</i> field.</p>
	<p>These buttons allow Master Schedulers to view information on the previous screen or next screen. In this example, there are 25 records on the current screen. To display the remaining 5 records click on the Next button. Once records 26-30 are displayed, click on the Prev button to return to records 1-25.</p>
	<p>Sets the number of records displayed at one time. The system automatically displays 25 records at a time. Records display in increments of 25, 50, 75, 100, 200 or 250 records on a screen.</p>
	<p>The list of scheduled or unscheduled inspections can contain more than one page. To view another page, select a different page number from the drop-down list.</p> <p>For example, if viewing page 5 of 10 pages, and the Master Scheduler selects page 8 from the drop-down list, page 8 displays.</p>
	<p>Once an Inspector ID number appears in the <i>Select Inspector</i> field, click  and all the properties will have the <i>Insp. ID</i> field updated with that inspector's ID number.</p>
	<p>Returns the Master Scheduler to the Schedule Inspections query screen.</p>
	<p>When a checkbox is selected, the Inspector Number ID located in the <i>Select Inspector</i> field automatically updates the <i>Insp. ID</i> field for the row selected.</p>

Inspections Schedule Report	
Feature	Description
FHA No and Property ID links	<p>Both links allow the Master Scheduler to view or update the Property Information screen for a particular property.</p> <p>From the Property Information screen, you can access prior Inspection Summary Reports or Investor Reports. To access, click on the <u>Prior Inspection Data</u> link on the Property Information screen.</p> <p>Click on the appropriate <u>View Report</u> link to access either the Inspection Summary Report or Investor Report.</p>
Insp. Date	<p>Enter the date of the inspection using this format: MM/DD/YYYY (e.g., 02/14/2001).</p>
Local Time	<p>Select the time of the inspection (7 AM to 3 PM in half hour increments)</p>
Inspector ID	<p>Enter the ID number of the inspector scheduled to conduct the inspection in this field.</p> <p>The field can be updated by the system using the checkbox, <input type="checkbox"/> Apply All button, or by manually entering the inspector ID number.</p>

Inspections Schedule Report	
Feature	Description
	<p>Identifies the inspectable status of a property. The code can only be changed from IN to RU. Clicking on an uninspectable code link prompts a pop-up window where the Master Scheduler updates the fields with the information that was provided rendering the property uninspectable.</p> <p>Note: If the Uninspectable Code is changed in error, contact the Technical Service Support Center.</p> <p>The codes are: IN – Property is inspectable (default) RU – Property is being reported as uninspectable (inspection can still be scheduled)</p> <p>The following codes are only assigned by HUD: VI – Property has been verified by HUD as inspectable and is being referred back for inspection (inspection can be scheduled) VU – Property has been verified as uninspectable (inspection cannot be scheduled)</p> <p>Note: Inspections with an Uninspectable code of VU cannot be downloaded to a Data Collection Device (DCD).</p>
	<p>Button schedules or reschedules the inspection based on the information entered.</p>
	<p>Button returns all fields to the original information.</p>
Physical Inspection Main Menu	<p>The Physical Inspection Main Menu link returns Master Scheduler to the Physical Inspection Main Menu screen where other PASS components can be accessed.</p>

To schedule or reschedule an inspection schedule:

1. Click on the **Schedule Inspection** radio button in the *Function* section on the **Schedule Inspections** query screen.
2. Click on a view option in the *View* section of the screen. In this example, *View All Inspections* is selected.

NOTE: If all fields are left blank, then the search will be larger in scope.

4. Click on the  button. The **Inspections Schedule Report** displays.

Inspections Schedule Report

5 Record(s) Found
All Inspections

To schedule an inspection, enter the Inspector's ID, Inspection Date and the Local Time.

You can either enter the Inspector ID into each entry field in the grid, in the following entry box and check all records on the grid that you want to put this ID in, or you can simply enter the Inspector ID in the following entry box and check and click "Apply All" to apply to all the records on this page only. You must click "Update" in order to send your changes to the database.

FHA No	Property ID	Property Name	City	State	Insp. No.	Insp. Date	Local Time	Inspector ID	Last Released Insp. Date	Prior Score	Meal Future Date	Uninsp. Code
<input type="checkbox"/>	08936745	53668	Lake View	Virginia	22003	<input type="text"/>	<input type="text"/>	<input type="text"/>	03/29/2000	67e*	03/28/2003	IH

[Back to Search Page](#)
[Physical Inspection Main Menu](#)

NOTE: The complete table may not display on the screen. Use the scroll bars in the table to view all columns and rows.

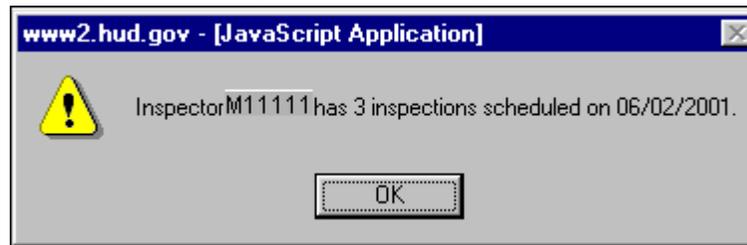

The **Inspections Schedule Report** shows basic information for all inspections that match the specified search criteria.

- When the Master Scheduler schedules an inspection the following **three fields must be updated**:
 - *Insp. Date* (Inspection Date) - The correct format for the *Insp. Date* field is MM/DD/YYYY
 - *Local Time* - The time of the inspection from 7 AM – 3 PM in half-hour increments.
 - *Inspector ID* - Inspector ID number

5. Click on the  button. The **Inspection Scheduling Results** screen displays confirming the schedule changes.

Note: If an inspector is scheduled for more than two inspections on the same date, a warning message is displayed to inform the Master Scheduler of the scheduling conflict. However the database is still updated with the scheduled inspection. The following is an example of this message:

A Master Scheduler must update the **Uninspectable Property Details** screen if a property is determined to be uninspectable.

To update the Uninspectable Code:

1. Click on an IN code link in the Uninspectable Code column to update.

Inspections Schedule Report

8 Record(s) Found
All Inspections

To schedule an inspection, enter the Inspector's ID, Inspection Date and the Local Time.

You can either enter the Inspector ID into each entry field in the grid, in the following entry box and check all records on the grid that you want to put this ID in, or you can singly enter the Inspector ID in the following entry box and check and click "Apply All" to apply to all the records on this page only. You must click "Update" in order to send your changes to the database.

[Physical Inspection Main Menu](#)

The **Uninspectable Property Details** screen displays.

The screenshot shows a web form titled "Uninspectable Property Details". At the top, it displays "Inspection No: 2000" and "Property Id: 800066666". Below this is "Property Name: Skyline". A highlighted field "Uninspectable Code:" contains a dropdown menu with "IN" selected. The "Reporter Information" section includes text boxes for "First Name:", "Last Name:", "Telephone Number:" (with a format of []-[]-[] and an example "703-555-1212"), and "Telephone Extension:". The "Uninspectable Reason Information" section has a large empty text area. At the bottom are three buttons: "Update", "Reset", and "Close".

2. Update all the fields (telephone extension is optional).
3. Click on the  button. The following message appears.

4. Click on the  button. The **Inspections Schedule Report** redispays with the *Uninsp Code* updated to RU.

To View Property Information, Inspection Summary Reports or Investor Reports from the Inspections Schedule Report:

Click on the *FHA No* or *Property ID* link on the **Inspections Schedule Report** to review and update the **Property Information** screen or to view prior **Inspection Summary Reports** or **Investor Reports**. The SKYLINE (800066666) property is shown below.

Master Scheduler can edit all fields on this screen to update the property information.

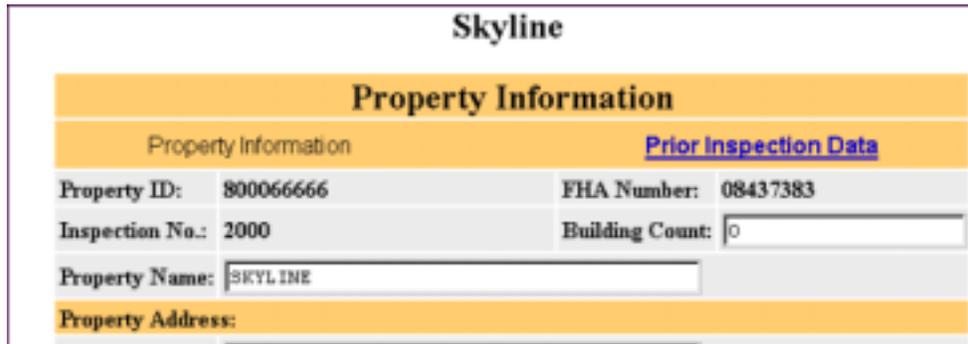

- a. Click in the appropriate field and enter new or revised data.
- b. Click on the  button to save the property information in the database. A message displays confirming the update.

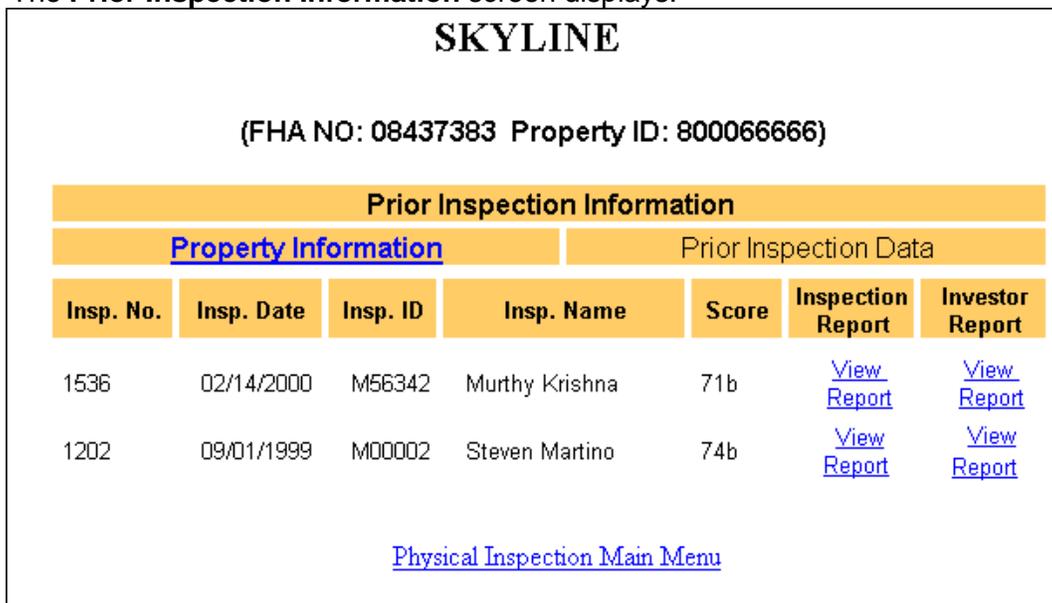

- c. Click on the [Back to Search Page](#) link to return to the **Schedule Inspections** screen or click on the [Physical Inspection Main Menu](#) link to return to the **Physical Inspection Main Menu** screen.

Master Scheduler can access prior Inspection Summary Reports or Investor Reports from the Property Information screen.

- a. Click on the [Prior Inspection Data](#) link located at the top of the **Property Information** screen.

The **Prior Inspection Information** screen displays.

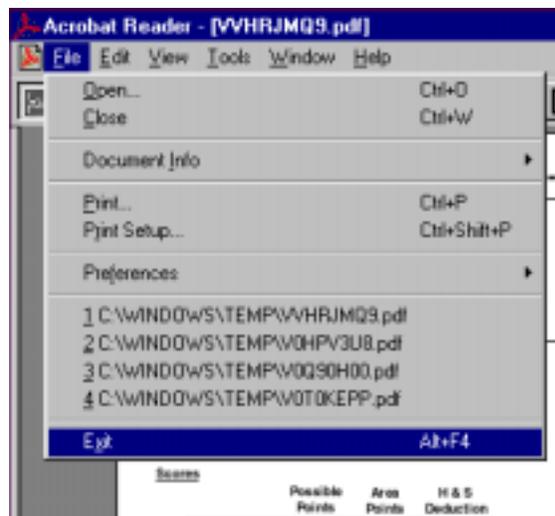

- b. Click on the View Report link of the property to be reviewed, and the Inspection Summary Report displays in a PDF format. (See Appendix A for an example of an Inspection Summary Report)

OR

- c. Click on the View Report link of the property to be reviewed, and the Investors Report in a PDF format. (See Appendix B for an example of the Investor Report)

To close the PDF:

On the Menu bar, click on File and select Exit to close the PDF and return to the **Prior Inspection Information** screen.

- d. Click on the Property Information link to return to the **Property Information** screen, or click on the Physical Inspection Main Menu link return to **Physical Inspection Main Menu** screen and continue working.

View Web Page Report Option

The **View Web Page Report** option allows the Master Scheduler to view or print the **Inspections Schedule Report**. This is a view only screen and no inspections can be scheduled or rescheduled. Use the scroll bar to view all the columns, if necessary.

Create Text Report Option

The Create Text Report option allows the Master Scheduler to download inspection schedule, inspection property and inspection participant information for editing on their own computers using Microsoft Word. Once the information is modified, it is sent back to REAC using the Bulk Upload Process.

This function should only be used if large volumes of records need to be updated.

To create a text report:

1. Click on the **Create Text Report** radio button in the *Function* section of the **Scheduled Inspections** screen.

```

[Physical Inspection Main Menu](#)

6. Highlight the text.

The screenshot shows a Netscape browser window with the title 'Inspections Schedule Report - Netscape'. The address bar shows the file path: file:///H:/D&T/PASS/SCHED/Rel2.6/TMP984753423.htm. The page content is identical to the previous image, but the text between the two horizontal lines is highlighted in blue. The highlighted text is:

```
FHA Number;Property Id;Prop. Name;City;State;Inspection Id.;Insp. Date;Local Time;Inspector ID;Last  
08976745;53668;Lake View;Vienna,VA;22103;;;03/29/2000;67a*;03/28/2003;IN; ^  
35567221;800045632;Fair Homes;Washington,DC;2009;;;04/17/2000;91c*;04/17/2003;IN; ^  
08437383;800066666;Skyline;McLean,NY;2000;Dec 17 2000;2:00PM;M00884;10/21/1999;79c*;10/21/2000;IN; ^  
08437444;800076767;Charles Smith;Falls Church,NY;2002;Dec 18 2000;11:00AM;M00884;09/21/1999;67a*; 10/14/2000; IN; ^  
08375383;8000806081;Hilltop Apartments;Louisville,KY;2010; Dec 15 2000; 3:00PM; M00884; 10/21/1999; 79c*;10/21/2000; IN; ^
```

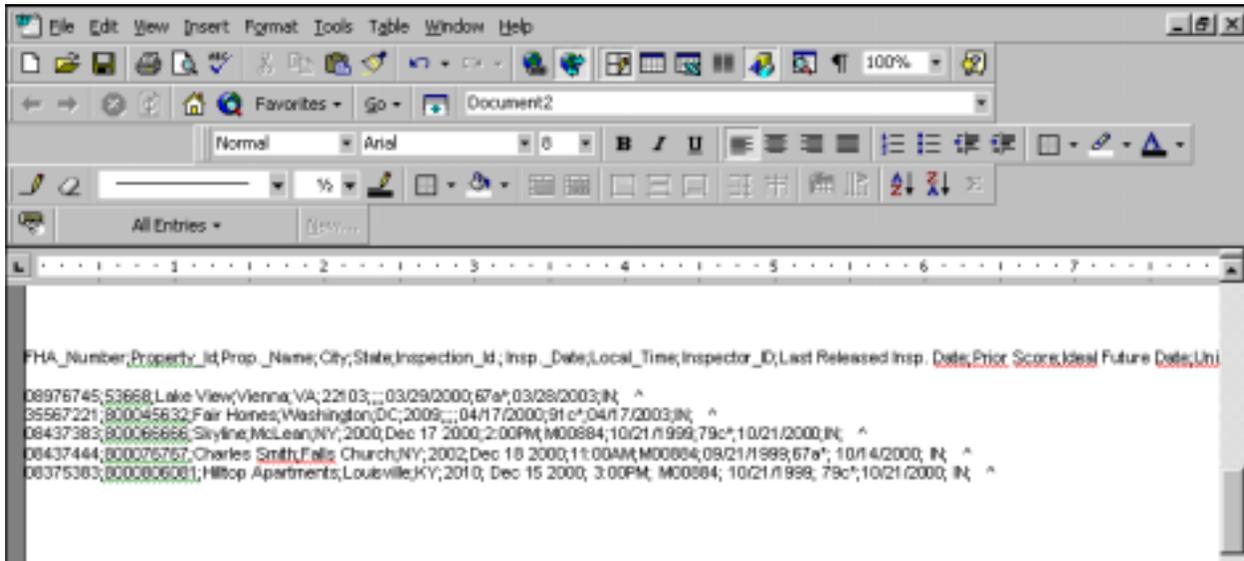

7. Copy the text by depressing the CTRL and C keys, or selecting the copy command in the Edit menu.
8. Open the Microsoft Word application. A blank Microsoft Word screen displays.

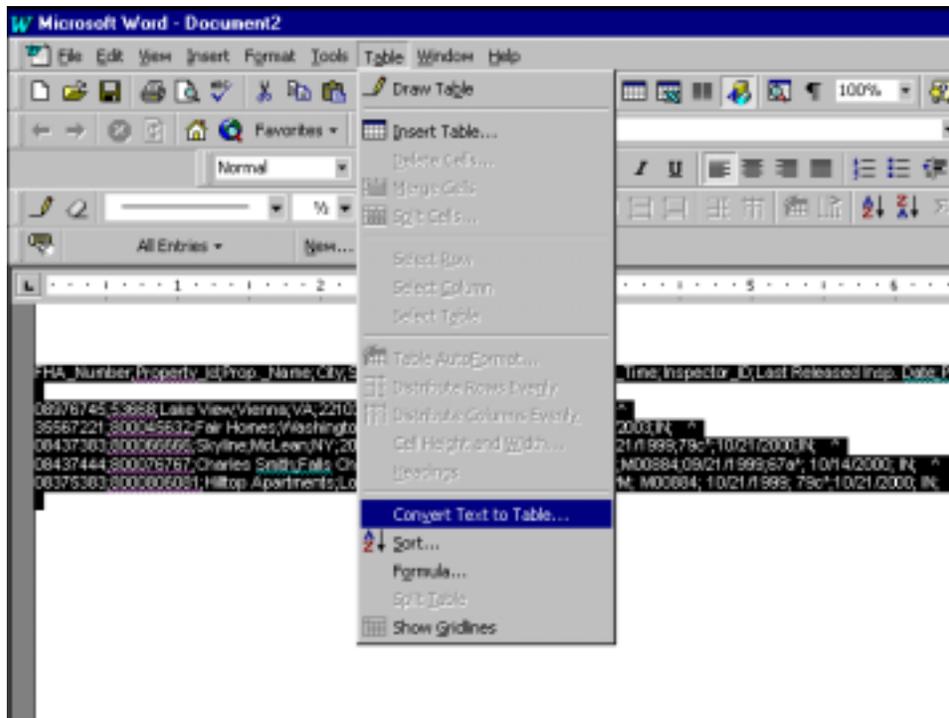

Note: To ensure that the information is placed in the Word document properly, take the following steps:

- Click on File, then Page Setup
- Click on the Margin tab, change the Top, Bottom, Left, and Right margins to 0
- Click on the Paper Size tab and change the Orientation to Landscape
- Click on the button
- Change the font style to Arial, the font size to 8

- Paste the highlighted text into the screen by depressing the CTRL and V keys or select the Paste command in the Edit menu.

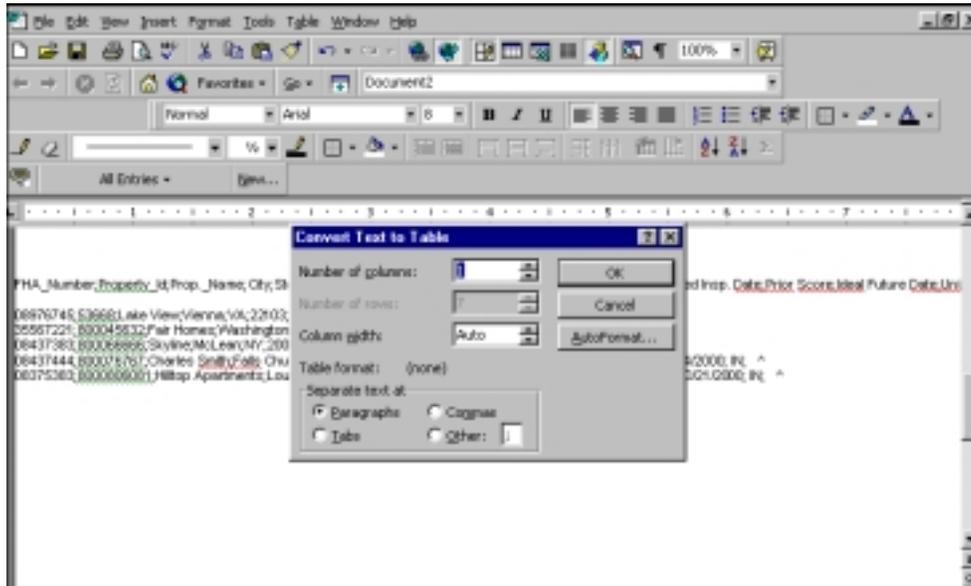

- Highlight all of your text using your mouse, then click on Table in the Menu Bar and select Convert Text to Table.

The Convert Text to Table window displays.

- Enter 14 in the Number of Columns field, click on the Other (semicolon ;) radio button to separate text, then click on the button.

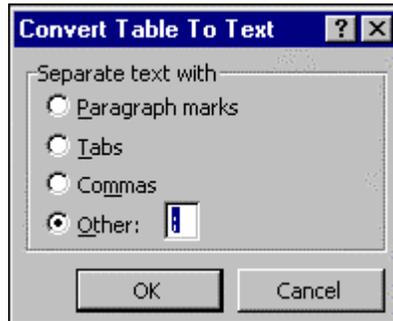

The data is formatted into a table. Update the inspection schedule information as needed.

FHA Number	Property ID	Prop. Name	City	State	Inspection ID	Insp. Date	Local Time	Inspector ID	Last Released Insp. Date
08976745	53668	Lake View	Vienna	VA	22103				03/28/2000
35567221	800045632	Fair Homes	Washington	DC	2009				04/17/2000
08437383	800066666	Skyline	McLean	VA	2000	Dec 17 2000	2:00PM	M00884	10/21/1999
08437444	800076767	Charles Falls Church	VA		2002	Dec 18 2000	11:00AM	M00884	08/21/1999
08375383	800066666	Smith Hilltop Apartments	Louisville	KY	2010	Dec 15 2000	3:00PM	M00884	10/21/1999

After the data has been updated, convert the table back to text.

- Click on a column within the table.
- Click on Table in the Menu Bar and click Select Table.
- Click on the Table in the Menu Bar and select Convert Table to Text.

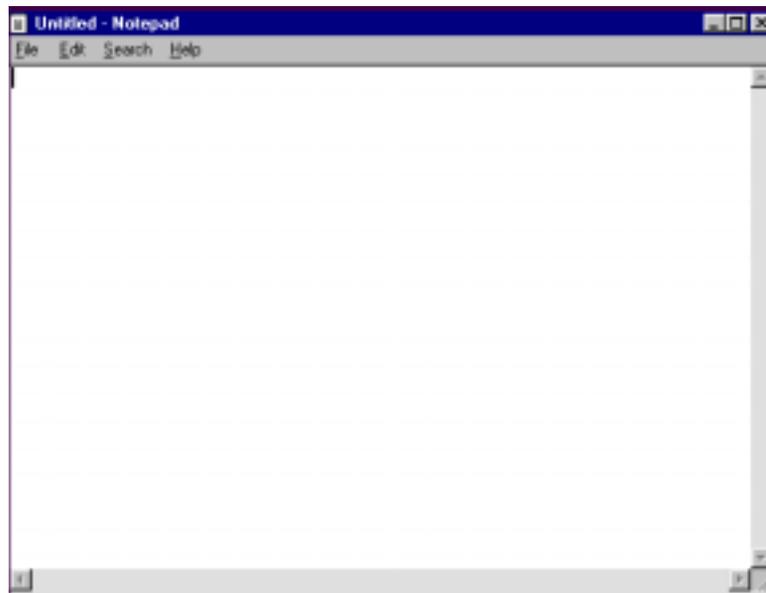

15. Click on the Other radio button (semicolon) and click on the  button.

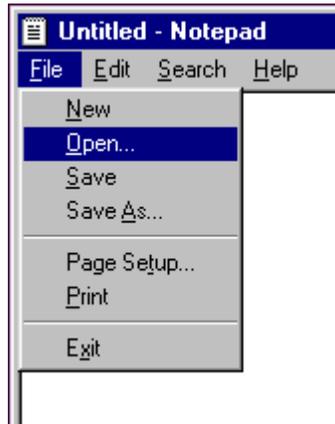

16. Save the file as a text file to later use for the bulk upload process. The file must have a .txt extension.

NOTE: Whenever a Word document is saved as a .txt file, a blank row is placed after the last row of data. This blank row must be removed from the txt file before it is used in the Bulk Upload process. Complete steps 17 – 23 to remove the blank row.

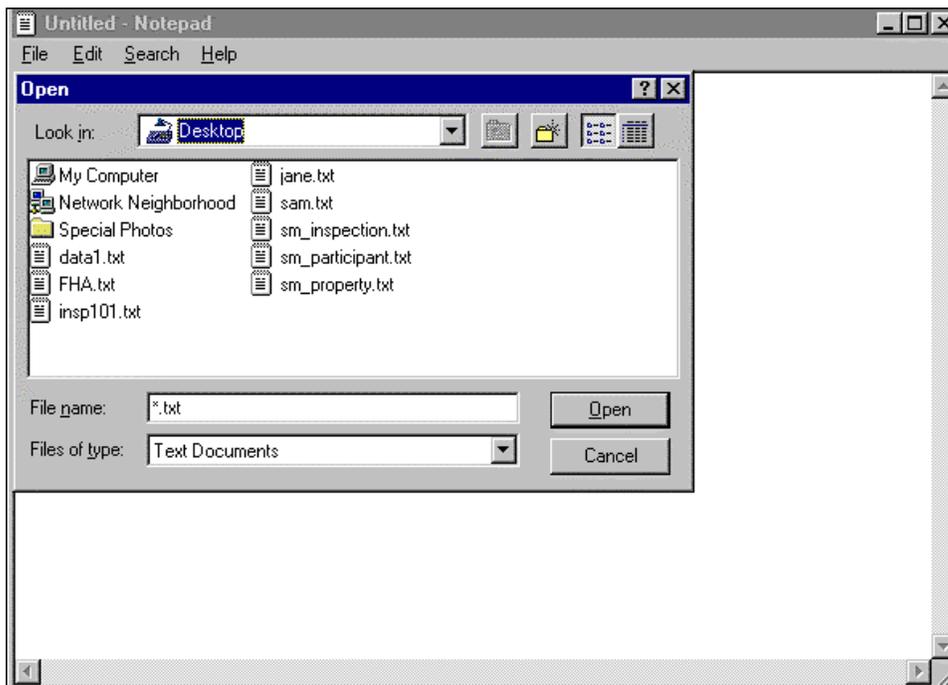

17. Click on the Start button on your desktop. Select Programs, then Accessories and finally Notepad. The **Untitled – Notepad** screen displays.

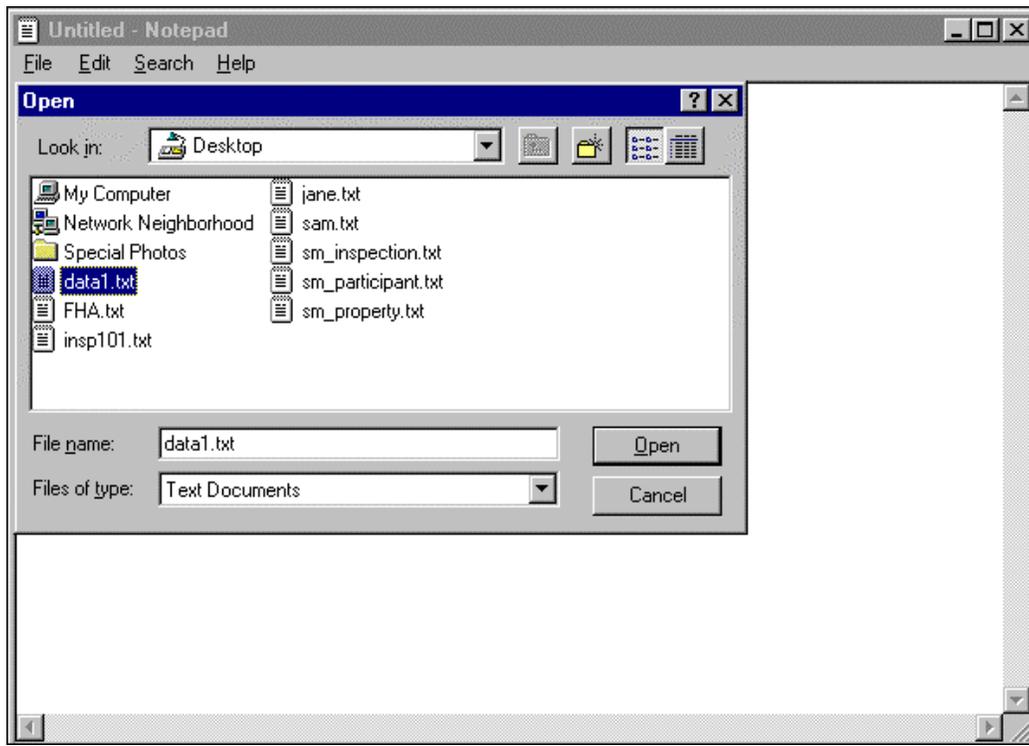

18. Click on File in the toolbar menu and select Open.

The **Open** window displays.

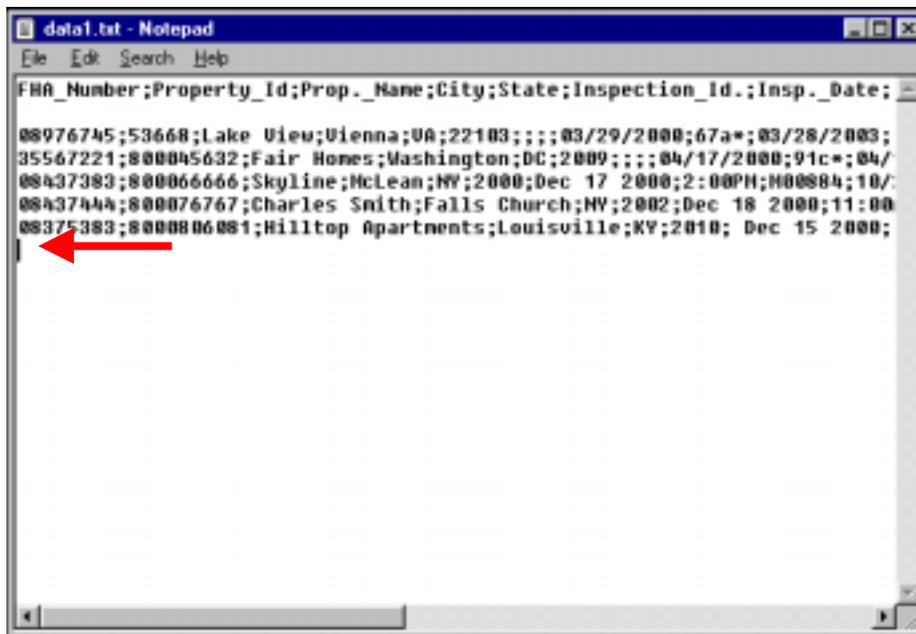

- Click on the *Look in:* drop-down arrow and select the location where the txt file is stored. Once located, click twice on the file and the File Name field is updated with the name of the .txt file. Click on the Open button.

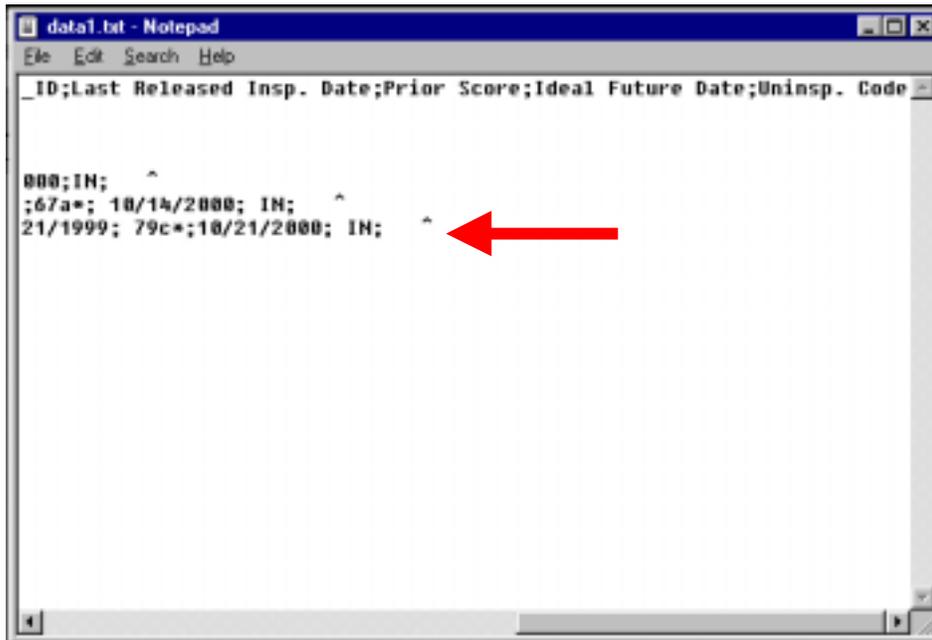

The txt file displays in Notepad.

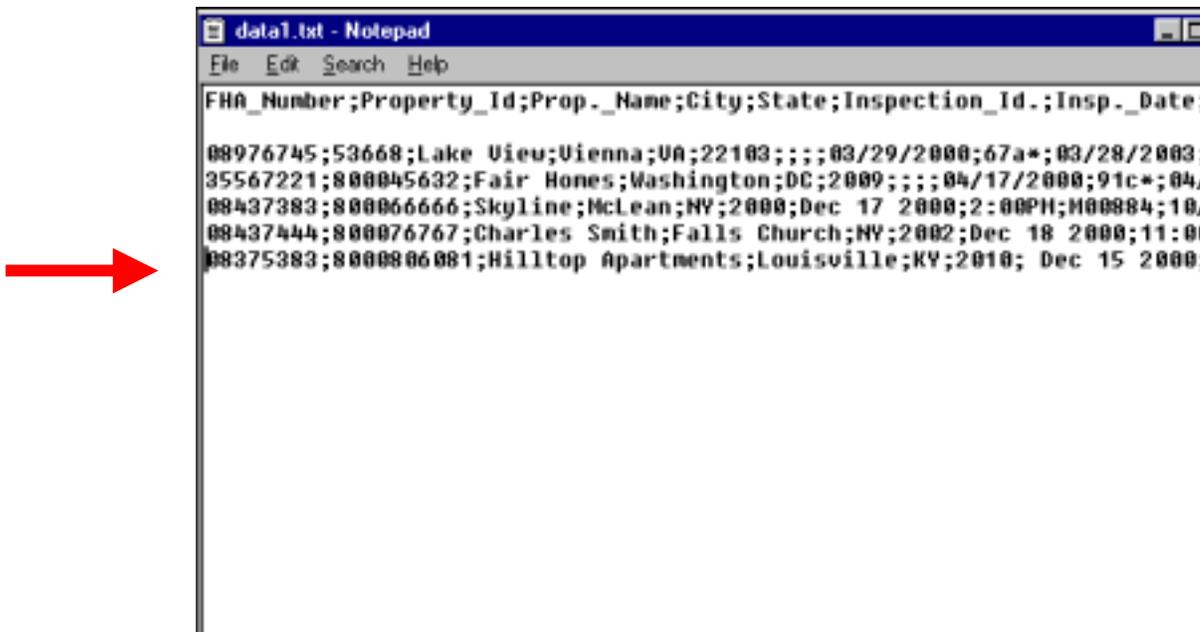

NOTE: Notice the blank row after the last row of data.

20. Move your cursor to the end of the last row and click on the Delete button.

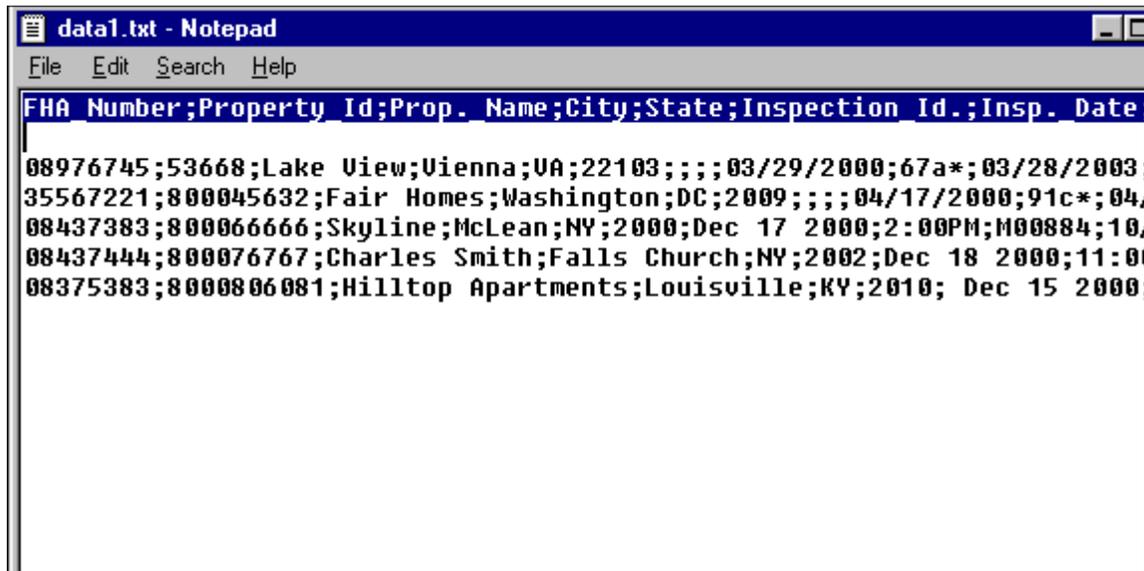

21. Move your cursor (using the scroll bar) back to left. The cursor cannot move below the last row of data because the blank row has been deleted.

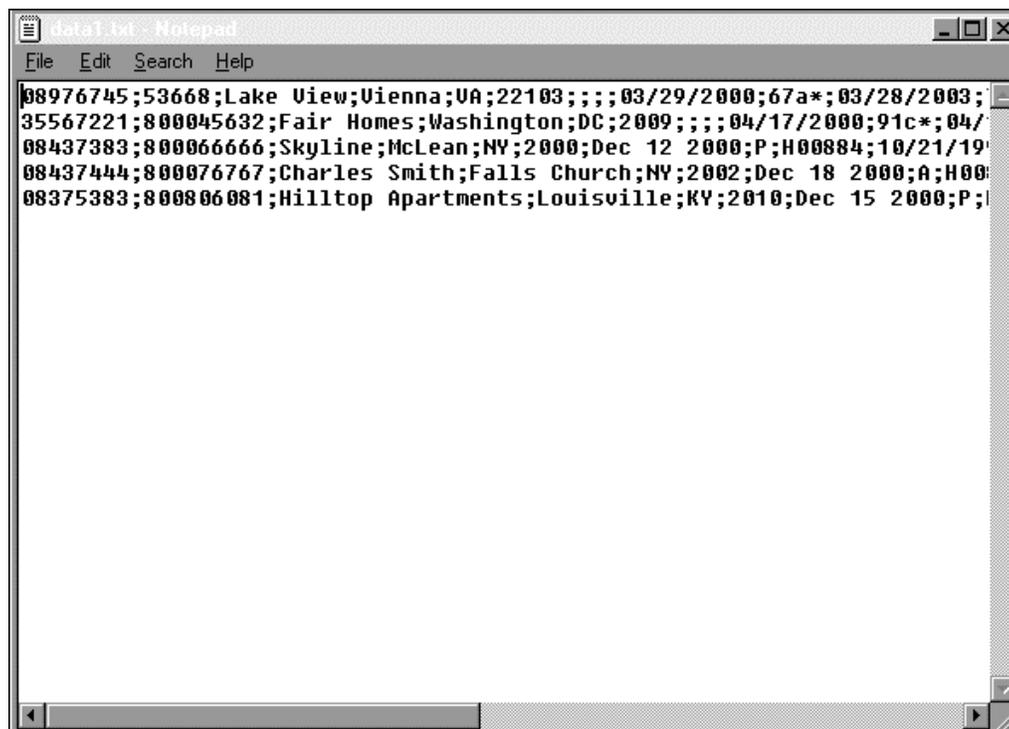

NOTE: Before this text file can be used in the Bulk Upload Process the row with column titles (FHA Number, Property ID, etc.) and the blank row must be deleted.

22. Highlight and delete the first two rows of the Notepad.

The screen re-displays and the two rows are deleted.

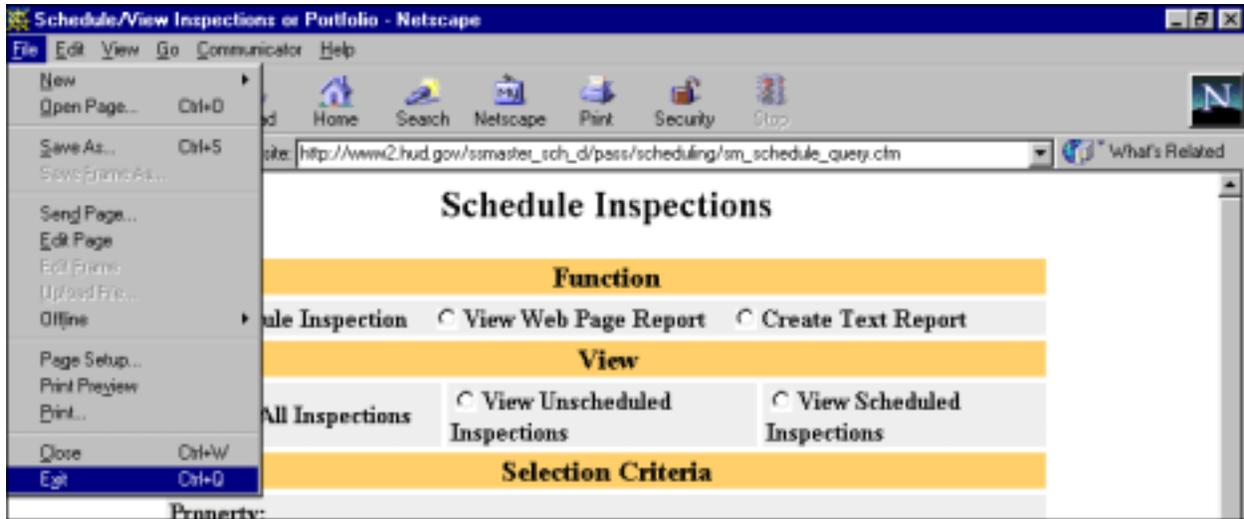

23. Save the file as a txt file.

NOTE: The file is now ready for the Bulk Upload Process.

Exiting Scheduling

Master Schedulers can exit Servicing Mortgagee Scheduling at any time. To exit the system, click on the Menu bar of the browser and select *File* and then *Close* or *Exit*, or click on the Close  control icon in the right corner of the screen.

Bulk Upload Option

The Bulk File Upload option allows the Master Scheduler to upload inspection schedule data to the Scheduling database. The data must be saved as a text file, with a “.txt” extension.

In addition, the data must be in the correct order with each entry separated by semicolons.

The correct order for inspection schedule information is:

- FHA Number - FHA identification number
- Property Id - Property identification number
- Property Name - Property name to be inspected
- City - City where the property of the inspection is located
- State - State where the property of the inspection is located
- Inspection ID - Inspection number
- Inspection Date - Inspection date (mm/dd/yyyy)
- Local Time - Time of the inspection in half hour increments from 7 AM to 3 PM
- Inspector ID - Inspector identification number
- Last Released Insp. Date - Date of the last released inspection
- Prior Score - Score of the last inspection of that property
- Ideal Future Date - Theoretical future date based on the score
- Uninspectable Code - Code that identifies uninspectable and inspectable inspections

The following is an example of a bulk upload data file for inspection schedule information:

```
643OH001;800001017;The Torains;Karry;OH:51001;May 5 1999; 7:30AM;M29999;04/05/1999;82;04/05/2001;IN; ^

```

Helpful Hints:

- There must be a caret (^) at the end of each row to ensure the Schedule Inspection data is properly updated.
- If a field contains a semicolon, example (Woodside Villa; Inc), the semicolon must be deleted from the field.
- When a Word document is saved as a .txt file, a blank row is inserted at the end of the .txt file. The blank row must be deleted before the data is loaded to the Database to prevent an error.

To access the Bulk Upload function:

1. Click on the [Bulk Upload](#) link from the **Physical Inspection Main Menu** screen.

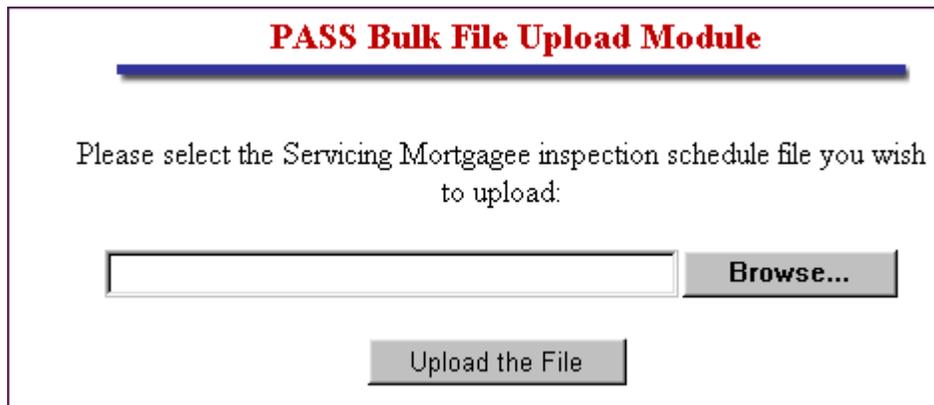

The **PASS Bulk File Upload Module** screen displays:

Master Scheduler	
If you are the....	PASS Bulk File Upload Module Screen Displays
Master Scheduler for only Servicing Mortgagee organization(s), the Pass Bulk File Upload Module screen displays after the Bulk Upload link is selected on the Physical Inspection Main Menu screen.	
If you are the....	PASS Bulk File Upload Module Screen Displays
Master Scheduler for a Servicing Mortgagee(s) and Contractor(s), then the screen PASS Bulk File Upload Module screen displays.	

2. Select the appropriate link to upload. (e.g., [Upload Inspection Schedule for Servicing Mortgagees](#))

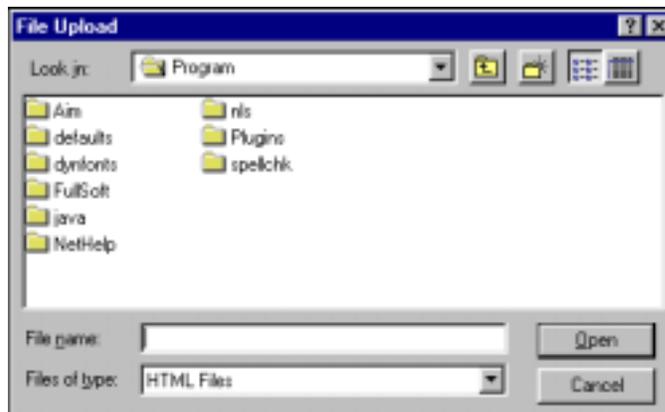

The **PASS Bulk File Upload Module** screen displays.

3. Click on the **Browse...** button to locate the file to upload. The **File Upload** dialogue box opens.

NOTE: If the pathname is known, enter the pathname in the *File name* field.

4. Locate and select the file.

NOTE: The file must have a .txt extension.

5. Click on the Open button to close the dialogue box. The **PASS Bulk File Upload Module** screen displays.

PASS Bulk File Upload Module

Please select the Servicing Mortgagee inspection schedule file you wish to upload:

NOTE: The name of the file appears in the field next to the button.

6. Click on the button.

If the data uploads successfully, a message window displays indicating the number of data rows successfully loaded into the database.

PASS Bulk File Upload Module

7 of 7 rows have been successfully uploaded.

[Physical Inspection Main Menu](#)

If the data does not upload successfully, a message window displays indicating the row(s) of data with errors and the type of errors. The errors must be corrected before the file can be re-uploaded. After the errors on the text file are corrected, repeat steps 1 – 6 of the bulk upload process.

7. Click on the [Physical Inspection Main Menu](#) link to return to the **Physical Inspection Main Menu** screen.

Browser Basics

Software and Hardware Requirements

The electronic scheduling of physical inspections using PASS Servicing Mortgagee Scheduling software requires computer resources and an Internet browser. The optimum software and hardware resources are recommended for efficiency, although users can operate with the minimum required resources.

Optimum Hardware Resources

Processor: Pentium I00
RAM: 16 MB
Modem: 28.8
Video card: 256k
Download file size: 5.8MB
Installed file size: 10MB

Optimum Software Resources

Windows 95
Netscape* 4.5 or HTML-compliant browser application
Adobe# Acrobat Reader 4.05

NOTE: Users can download Netscape* 3.5 or higher (32-bit) from the Internet. The procedures to download Netscape* can be found at <http://home.netscape.com/download>.

Minimum Hardware Resources

Processor: 486
RAM: 8 MB
Modem: 14.4 kb
Video card: 256k
Download file size: 5.5MB
Installed file size: 10MB

Minimum Software Resources

Windows 3.1
Netscape* 3.5 or HTML-compliant browser application
Adobe# Acrobat Reader 3.0

*Copyright© Netscape Communications Corporation.

#Copyright© Adobe Systems Incorporated.

All rights reserved. Protected by the copyright laws of the United States and international treaties.

Internet Basics

The Internet is a worldwide system of computer networks facilitating access to information and people. Using the Internet to access and use HUD secure systems requires an Internet connection and a computer with a modem and Netscape 4.7 or an HTML-compliant browser application. A browser allows access to web pages on the World Wide Web (WWW or the Web). The Web is a universally accepted standard for sharing information on the Internet. The Web consists of information organized into pages stored in computers physically located throughout the world.

Web Page

A web page is a document or application with a unique address on the Web, possibly including links to other pages. The **Yahoo!*** main page is shown below as an example.

*Copyright© Yahoo! Inc. All rights reserved. Protected by the copyright laws of the United States and international treaties.

Title Bar

The title bar at the top of the page displays the title of the document or application of the Web page that is active or currently displayed. When more than one window is open, the title bar of the active window is bold; the other open title bars appear faded.

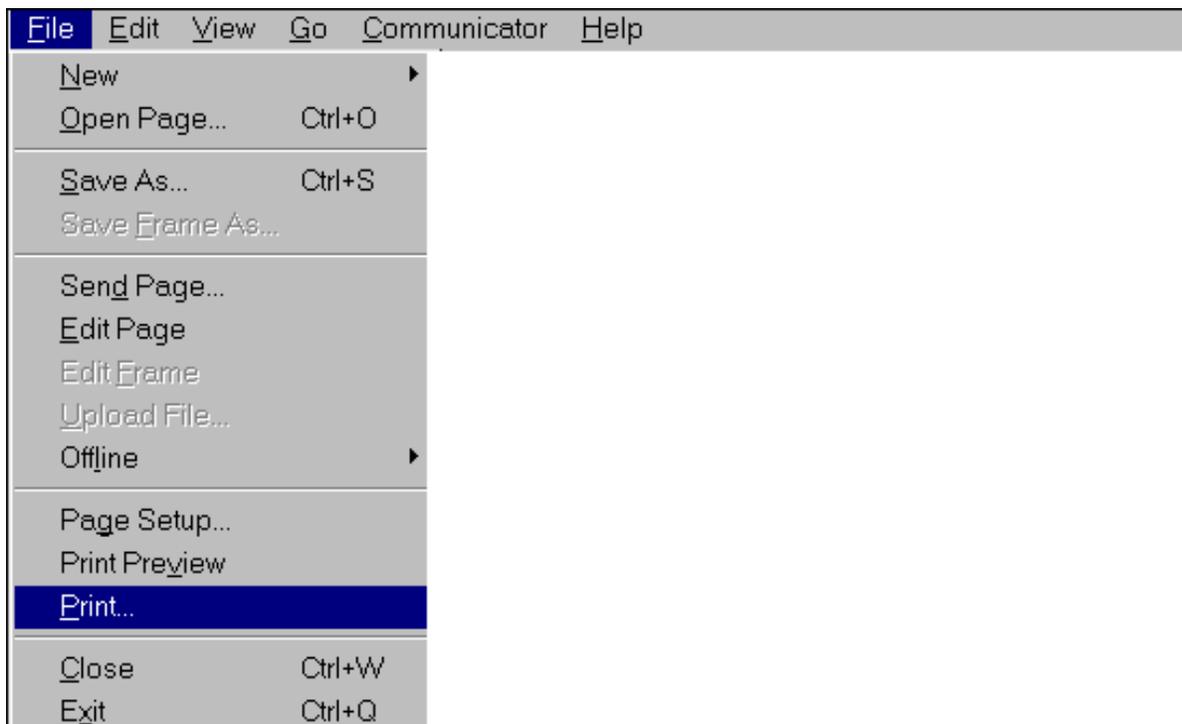

Control Icons

In the right corner of the title bar, there are three control icons. With a mouse click, the Minimize  icon reduces or minimizes the window to the bottom of the page. To enlarge the window back to full size, click on the appropriately titled box at the bottom of the page. The Minimize/Maximize  icon reduces the window to a smaller size, allowing the user to view other open windows or the desktop. To enlarge the window back to full size, click on  again.

The last control icon is the Close  icon. Clicking on this control icon closes the browser application (and the document or application open within the browser) and returns the user to the desktop.

Menu Bar

The menu bar provides drop-down menus for browser functions. By placing the cursor over a menu item and clicking on it with a left mouse button, the drop-down menu appears. Highlight the appropriate menu function with the cursor to make a selection.

Available menu functions are text items in bold. Menu functions that are not available appear faded and cannot be activated.

Tool Bar

The tool bar consists of buttons representing browser functions.

Available functions are buttons with bold text and graphics. A tool bar button appears faded if the function is not available.

Location Identifier

The unique location of the Web document or application is called the Uniform Resource Locator (URL). The URL is used to find a particular Web page among all the computers on the Internet. Enter the desired URL in the *Location* field and press the Enter key.

NOTE: The field is labeled “Location” for an Internet site. It is labeled “Netsite” for an intranet (internal/within the organization) site.

Status

The Netscape browser indicates the status of the action being performed. If the browser is performing an action (for example, searching a database for information): the Netscape logo to the right of the URL address appears to have comets flying across it, the Stop sign on the tool bar is bold and red, and the status indicator line at the bottom of the page (next to the lock icon) describes the status (for example, “Connect . . . Waiting for reply”). Upon completion of the action, the logo returns to its static state, the Stop tool appears faded, and the status indicator line reads “Document: Done.”

NOTE: The lock indicates whether the Web page is secure or not. Some Web pages can be secured or blocked from other Internet users if the page contains sensitive information, such as financial or housing information. If the lock is closed, the page is secure. If the lock is open, it is not a secure Web page.

Links

A link provides a method to move quickly from the current page to another Web page. Links are typically underlined, although they do not have to be. Click on a particular link, and it moves the user to that particular page. Once the link is accessed, it typically changes color to indicate the user has already accessed it once before.

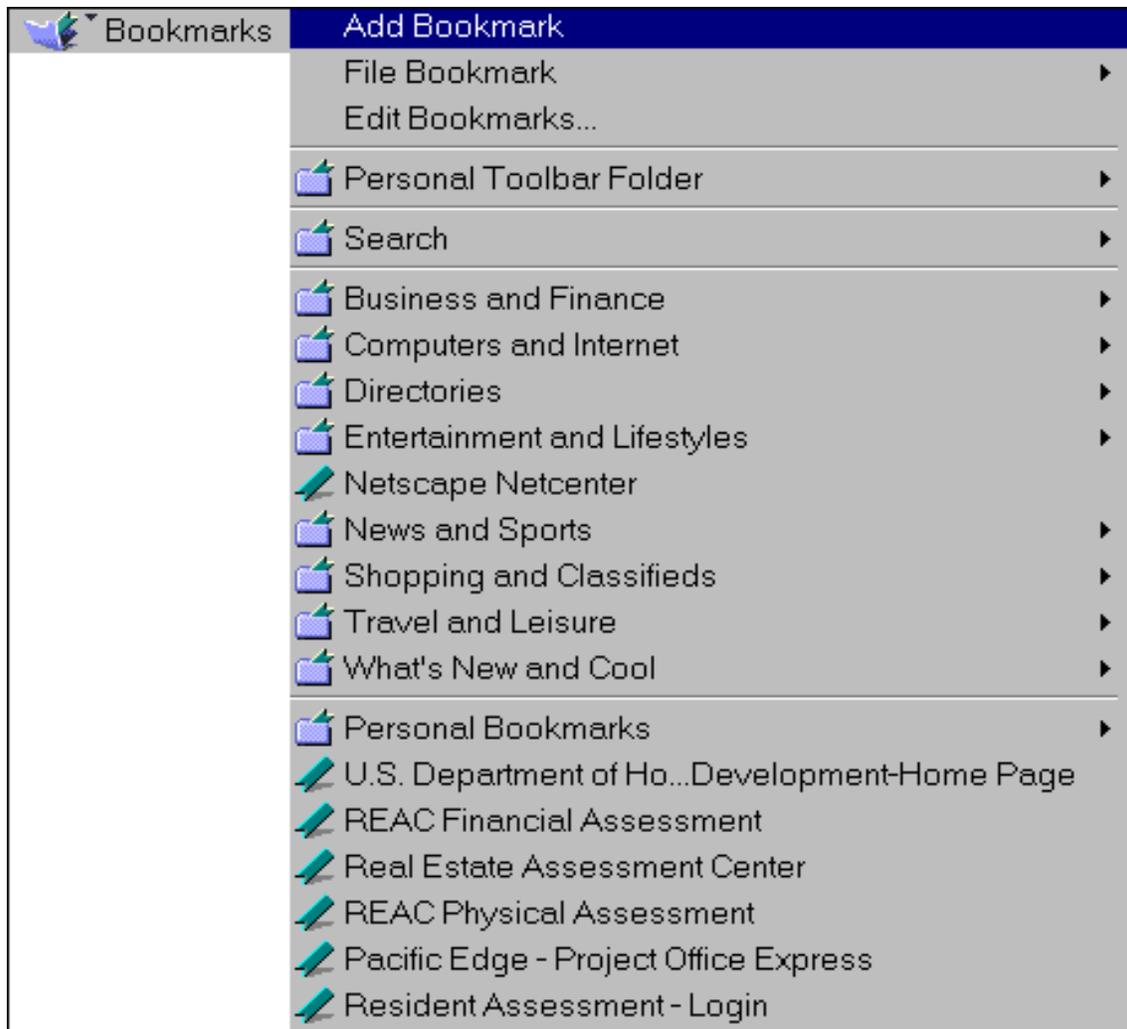

Bookmarks

The Bookmarks function is a browser tool that provides the user with quick access to a Web page. Once a Web page's title and location is marked as a bookmark in the browser, the user does not have to remember and type in the URL or go through a series of links to access that page.

To bookmark the currently displayed Web page, click on Bookmarks to the left of the *Location* field for the drop-down options. Click on the Add Bookmark option to mark the page. The Web page location is added.

NOTE: The browser in this example is Netscape. Display may vary according to the browser.

All bookmark(s) appear in list form under the Bookmarks option. Clicking on a bookmark in that list takes the user directly to that page.

REAC Technical Service Support

Staff in the Physical Inspection Operations area within REAC is available for assistance Monday through Friday from 8:00 A.M. to 5:30 P.M.

REAC Technical Service Phone Number

1-877-406-9220

Technical Assistance Center

Users can contact the REAC Technical Assistance Center with any questions or problems Monday through Friday 7 a.m. to 8:30 p.m., Eastern Standard Time. The REAC Technical Assistance Center can be contacted by telephone or email.

REAC Technical Assistance Center Phone Number

1-888-245-4860
